Oracle TRIAD Coalition

NEEDED: Volunteer Director of the Oracle TRIAD

A TRIAD is an organization of volunteers serving the needs of seniors in the community who are 50+. This position is also a volunteer who will be responsible for coordinating and creating committees to better serve the needs of the community. This position will be expected to participate in community events, coordinate and recruit interested volunteers, interface with community resources, and the Pinal County Attorney and Sheriff's Office. Must have good communication skills, and be computer literate. Looking for someone who is compassionate, patient, and a self starter.

If interested in serving your community in a priceless capacity, please send your resume or letter of interest to marguerite.johnson@orovalleyhospital.com. If you have questions, please call Joanie at 520-901-3631.

TRIAD is a cooperative project composed of seniors, Pinal County Attorney's Office, Pinal County Sheriff's Department, Pinal-Gila Council for Senior Citizens, and other community partners who are dedicated to preventing the victimization of seniors, improving their quality of life and reducing consequences associated with abuse and misuse of prescription medications and alcohol. Community members are welcome. Call to sign up for volunteer opportunities.

Letters to the Editor

Military and teachers: thanks for your service

As a retired military service member, people often thank me for my service. I really appreciate the sentiment but don't feel any more deserving of this honor than those in many other professions, such as educators.

Yes, I served for 22 years and I gave up plenty during that time but, I was never actually shot at or taken hostage as many of my military peers and quite frankly, as teachers sometime are.

Yes, I had significant responsibility for people's lives, but teachers do as well and their charges are much more vulnerable.

Yes, we never had enough resources to accomplish the mission, (shortfalls we called LIMFACS as in "limiting factors".) Teachers also have their share of LIMFACS: too much to do, not enough time to do it,

too many unfunded mandates, always under the microscope and lack of respect and appreciation just to name a few.

Finally, those airmen under my command had been vetted before acceptance into the service. Teachers in public schools don't get the option of cherry picking their students; they must teach all those whom they are given.

Frankly, it is hard to see why anyone would choose to be a teacher these days. It certainly isn't for the money, or the respect, or the environments in which they work. I can only imagine it is because they truly believe in making a difference in the lives of children. A calling to serve, a dedication to the mission, and a willingness to sacrifice to ensure a better future for us all seem like things worthy of

my thanks and my respect.

I encourage you thank the next teacher you meet and while you are at it, vote yes for the Oracle School District Budget Continuation Override on Nov. 5. This

is not a new tax, but a continuation of what you are already paying. The funding it provides goes directly to the classrooms in the form of purchasing vital student learning materials,

maintaining reasonable class sizes, promoting physical education, and providing professional development for the teachers.

Teachers may be at the forefront of educating our children,

but they can't do the job without support from their communities. I hope our teachers can count on yours.

/s/ Linda Thomas
(Writing as an individual)

Vote 'yes' on Oracle override

What is an override and why is it so important to keep the Oracle School District's budget override in place? Overrides are a way for school district residents to provide much needed financial assistance to schools. In fact, over eighty percent of the schools in Pinal County currently have an override in place.

Due to Federal and State cuts the district this year alone has lost over \$160,000 from its budget. The override monies that the district residents have so graciously approved for the past nine years have allowed the district to provide physical education and music and hire classroom teachers that not only keep class sizes low but help us implement new and challenging academic standards.

It is really important that voters understand that the override is not a new tax but an extension of the support that is already in place. The override currently costs tax payers about \$30 per year or \$2.50 per month for every \$100,000 full cash value of a residence. A yes vote ensures that the district keeps vital programs and is able to keep moving forward.

Unfortunately, if the override is not approved physical education will almost certainly be cut from the district, music will not be re-instated and other vital positions will be lost. Overrides have to be renewed every five years or they begin to phase down in years six and seven and then the funding is gone.

Next year Oracle School District stands to lose between \$240,000 and \$270,000 if the override is not approved. We, the Oracle School District Parent Teacher Organization, respectfully ask that the voters of Oracle, SaddleBrooke and Eagle Crest communities to continue to support our school district and we also thank you for the support you have given us in past override elections.

Looking for the Ghosts of the Copper Corridor

By John Hernandez

Copper Area News

A ghost town is defined as a town or city that has been abandoned due to a natural or human made disaster or economic viability. In the western United States there are many mining boom towns that were abandoned after the mines or smelters closed down. There are a number of ghost towns along the Copper Corridor area. Many of them were once promising mining camps whose population left when the ore bodies played out. Some of these ghost towns were American Flag, Tiger, Copper Creek, Alma, Troy, Cochran, Ray-Sonora, Barcelona, Queen, Silver King, Pinal, Reymert and Denoon.

Some of the boom towns in Arizona that became ghost towns such as Jerome, Bisbee and Tombstone have made a come back and are now viable communities once again, thanks to the tourism industry. Part of their tourism success has been due to alleged sightings of ghosts or buildings which claim to be haunted. There are actual "ghost tours" promoted for all three of these tourist towns. Along the Copper Corridor there are a few tales of ghosts and hauntings that have appeared in books and on the internet. A few of these stories follow:

RATTLESNAKE CANYON – DUDLEYVILLE

There is a story on the internet that talks about this canyon near Dudleyville where it is alleged that a man named "Lepsy" would hire immigrant Chinese workers to work on his ranch. Instead of paying them, he murdered them and

burnt their bodies. He would then hire new workers and do the same to them. It was also said that lawmen that went in the canyon looking for Lepsy also met the same fate as the Chinese. Hikers in the area today are reported to have smelled charred flesh, become ill and heard the sounds of screaming.

Another version of the story says the area was near the reservation by Dudleyville and Lepsy hired Chinese and other minority workers. When you hike through the canyon, you will see charred rock walls, smell a sickening aroma, feel horrible frightening energies and hear screaming. The murders took place in the 1800s.

HAYDEN-WINKELMAN

From the Hayden-Winkelman School District comes two stories involving students. There are claims of a ghost that can be seen on the Hayden High School football field. It seems that a football player was running with the football when he was tackled viciously. He ended up breaking his neck and later died. On some nights the football player has been seen running down the field. He falls and then disappears.

The other story involves a high school cheerleader who after graduating had a promising future. The incident took place in 1988 or 1989. One version says she was offered a job as cheerleader for the Arizona Cardinals. Another version has her being offered a college scholarship for cheerleading. One night she was arrested for possession of marijuana. During the arrest she was allowed to go back to her car

where she retrieved a gun from the glove compartment and being despondent over being arrested which she felt ended her cheerleading dreams, shot herself.

Stories say that late at night, someone can be heard on the gym floor doing cheerleading routines. One story about a sighting in 1998 says that Hayden High School hosted

Pinal Rural Fire Rescue holds CPR classes

By **Nina Crowder**

San Manuel Miner

The free CPR class held by Pinal Rural Fire Rescue was a little disappointing with a lack of attendees. This wonderful

free service is worth attending people never know when learning CPR could save a life or the life of a loved one.

After someone stops breathing, or the heart stops beating, he or

she can survive for only four to six minutes before a lack of oxygen results in brain damage or death. CPR can buy extra time for your loved ones, until professional help can arrive, by artificially circulating oxygen to the brain. Approximately 70 percent of all cardiac and breathing emergencies occur in the home when a family member is present and available to help a victim. Statistics show that the earlier CPR is initiated the greater the chance of survival. The American Heart Association estimates that 100,000 to 200,000 lives of adults and children could be saved each year if CPR was performed early enough.

Bud Paine said, "We no longer teach the respiration except with babies, you don't have to remember 30 compressions two breaths, you just get in there and start doing compressions 100 times a minute, hard and fast, this is the new regulations per the Heart Association guidelines for adults." Of course this is after 911 is called, so that professional help is on the way. Bud said, "There is already oxygenated blood in the body,

circulating the compressions also cause air exchange in the body." For children the compression and breaths are part of the CPR process.

The Pinal Rural Fire Rescue covers to the south edge of Mammoth, they don't cover the city of Mammoth. The coverage area picks up at the north edge of Mammoth and goes to Highway 77 mile marker 121, the also cover Aravaipa Canyon. They will go anywhere they are needed and want the public know that they are here to help, the people come first. They do have a subscription fee of \$100 a month. When people pay that, there are no charges for fire. The emergency medical services are provided at no charge, whether you are a subscriber or not.

Deanna Paine also provides the emergency pendants, home alone, and safe alone. Jerry Ham of San Manuel has trained Deanna. Deanna said she feels this is a wonderful tool especially for the elderly who live alone and it is free provided by Pinal County. "Recently they had a lady that had fallen and didn't have a home alone emergency pendant. The woman

actually spent the night outside with her dog to keep her warm. She was able to crawl to her phone the next day to call for help," said Deanna. "This could have easily been prevented if she had a home alone emergency pendant."

Some of the calls the Pinal Rural Fire Rescue attend are traffic accidents. Some involved several vehicles, some involve alcohol and there are major and minor injuries. Other calls have involved people who have had strokes, falls and there have even been calls where the people could not be revived upon arrival. Deanna Paine was a practicing registered nurse for around seven years and really enjoys the Pinal Rural Fire Rescue because of the urgency of the people. She truly enjoys helping people.

Pinal Rural Fire and Rescue is a non-profit all hazard fire, rescue, EMS department that is 100 percent volunteer. They are located on Highway 77 in south-eastern Pinal County. Chief Bud Paine is a nationally registered paramedic, toxicology medic, and fire and arson investigator. Bud is actively seeking grants

to help implement and educate the community as he continues to safeguard lives and properties in the area.

If interested in obtaining information about Pinal Rural Fire Rescue please feel free to email them at pinal.rural@gmail.com or call 520-465-3393. The next FREE CPR class will be held at the Mammoth Elementary Library on Nov. 30, 2013 from 10 a.m. to 2 p.m. Anyone and everyone can learn CPR. Bud would like to thank Larry Ramirez and MSM Community Schools for the donation of the building to hold the free CPR classes.

Ready to teach, members of the Rural Pinal Fire Rescue offer a free CPR class on the last Saturday of the month at Mammoth Elementary School's library. From left are Dave Plummer, Deanna Paine and Bud Paine. (Nina Crowder photo)

It's time for Trunk or Treat again in San Manuel!

The parade line up will be at 4:00 – 4:30 pm, at the upper arcade area. Please look for the signs in front of the merchants in the uptown center. The San Manuel Fire Department will lead the parade uptown and to the high school parking lot. The Halloween judging will be performed by the San Manuel High School Student Council and each division will receive a best costume prize.

After the announcement of best costume we encourage everyone to join in for Trunk or Treat in the San Manuel High School Parking lot. Trunk or Treat is when people gather and park their cars in parking lot, open their trunks or the back of

their vehicles and decorate them. Then they pass out candy from their trunks. This event provides a safe family environment for trick or treaters. The best decorated vehicle will receive a trophy. Food vendors please contact Larry Ramirez at ramirel@msmusd.org or msmcommunityschools@facebook.com or Lois Abbott at abbotl@msmusd.org or via telephone at (520) 385-2337 ext 113. Vendor spaces and people handing out candy are free. The participation of everyone is needed to help make this a successful event for our children.

When it comes to decorating your vehicle there are obvious choices, like

decorating for Halloween using pumpkins, spider webbing, spiders, brooms, bats, cauldrons and other scary stuff! Think of it like dressing yourself in a costume. A few ideas might be to dress like a clown and fill your trunk with balloons; a zookeeper with lots of stuffed animals in the trunk; a beach theme with hanging towels, a boogie board with

beach chairs and an umbrella; a NASCAR theme, you could display all your souvenirs; a sports theme displaying your favorite sports; western theme; camping theme; pirate theme; favorite movie theme are just a few ideas to get you thinking.

Our thanks to Tom Miller for volunteering to be our DJ, Janice Rapp from San Manuel Historical Society,

San Manuel Rotary and San Manuel Lions Club for donations. Various clubs and organizations from the Junior High and High School will participate but the people that volunteer from our community will help make this an eventful time.

Dripping Springs bridge replacement on SR 77 starts early November

The Arizona Department of Transportation begins a project on Thursday, Nov. 7, to reconstruct the Dripping Springs Wash Bridge, which is located 13 miles north of Winkelman.

Work will be conducted on half of the bridge at a time and then shift to the other lane for completion. In order to safely conduct the work, a traffic signal will be used to regulate traffic across the bridge in alternating directions. Work hours will be 7 a.m. to 5 p.m.

Monday through Thursday.

Motorists will experience short delays as the signal transitions through its cycle. There will be narrowed traffic lanes, a reduced speed limit and wide load restrictions through

the work zone. ADOT advises drivers to proceed through the work zone with caution, slow down, and be alert for construction equipment and personnel.

The \$2 million project is

scheduled for completion in July 2014.

For more information about this project, please call the ADOT Project Hotline at 1.855.712.8530 or email Projects@azdot.gov.

Ghosts

Continued from Page 4

a softball tournament. One of the teams spent the night in the gym. Around midnight they saw a young lady in a cheerleading outfit at the other end of the gym doing a cheerleading routine. As soon as the routine was finished, she disappeared into thin air.

SAN MANUEL

There are two ghost stories involving the town of San Manuel circulating on the internet. One is the story of a young boy that has been reportedly seen at First Avenue Elementary School. The boy is seen holding his head and says "Teacher! Teacher! I fell off the merry-go-round." He then disappears. The story alleges that in 1989 a young kid got stuck between the ground and the bottom of the merry-go-round crushing him. Supposedly as he was being carried away by ambulance, he whispered "Teacher! Teacher! I fell off the merry-go-round," before dying.

The second story involves the spirit of a young girl seen wandering the halls by the lockers of San Manuel High School. She was a student at San Manuel and had been shot and killed at the school. I had heard this story back in the late 1960s from students at San Manuel. There is some basis

to this story as in 1956, a female student was sitting on the steps of the school with other students and some teachers in the area near the present day cafeteria, when she was shot and killed. Apparently some boys were playing with a .22 rifle in the parking lot when the gun went off and the bullet struck the girl.

THE ACADIA RANCH MUSEUM

The Acadia Ranch building was built in 1882 and now houses a museum operated by the Oracle Historical Society. It was once a working sheep ranch and then became a sanatorium for patients suffering from tuberculosis (TB) as well as a health resort. The fresh air and climate of Oracle was considered to be healthy. It is believed that a number of TB patients may have died in the building. There is a story of a nurse that is said to have contracted TB while working at the Acadia. She died there and her spirit supposedly walks the building tending to patients.

A website story reports that a ghost does not like anything hanging on the north wall of the main room. There were

paintings hanging on the north wall. In the morning they would be found on the floor. The caretaker would put them back on the wall but again in the morning they would be found on the floor. (The museum has items hanging on their north wall and have not had any problems with anyone taking them down.)

It is also known that a young boy accidentally killed himself with his father's hand gun in the building.

Unexplained sounds, ghostly footsteps and other unexplained phenomenon have been reported. Two paranormal research teams have visited the Acadia. One reported that they believe that there are at least two spirits in the building and possibly three. Another group, Beyond-Paranormal Research Collective visited in late September. They have not sent the museum Governing Board a report as they are still reviewing their data.

Other places in Oracle that have reported paranormal phenomenon are the Mountain View Hotel (now the Oracle Baptist Church) and Don Juan's Tavern.

Miners ground Warriors 40 – 12; San Tan next for finale

By Frank Smith

San Manuel Miner

The San Manuel varsity football team grounded the visiting Warriors from Baboquivari on Friday night 40 – 12. The Miners got the scoring going early and often. In the first quarter San Manuel did not take long to get on the scoreboard as return man Armando Sierra took the opening kick off back 80 yards for the touchdown, the extra point kick by Anthony Garcia was good for a Miners lead of 7 – 0 with 11:47 showing on the clock.

The Miners defense forced a three and out on the Warriors first possession having to punt the ball away from deep in their territory. San Manuel set up at the Warriors 25 yard line, quarterback Bryan Valdez dropped back and fired a pass to tight end Jonathon Croci for the 25 yard touchdown pass, the extra point kick was no good for a 13 – 0 with 9:36 on the clock in the first quarter.

Baboquivari took the ball at their 35 yard line after the kick off, on the second play of the drive, after a penalty, the Warriors fumbled the ball with defensive end Anthony Garcia picking up the ball and returning it 22 yards down to the Warriors one yard line.

This would set up another Miners touchdown, this time running back Nathan Odom got the call – punching it in from one yard out for the touchdown, the two point conversion was good by Valdez for a 21 – 0 score with 9:30 left on the clock in the first quarter.

San Manuel stout defense forced another punt on a three and out, the Miners lined up at their own 45 yard line, running back Shane Kelly took the first hand off down to the Warriors 45 yard line, wide receiver Alvaro Alvarez caught a pass down to the 17 yard line, this would set up running back Anthony Garcia for a 17 yard scamper into the end zone for the touchdown, the extra point kick was no good, adding to the lead at 27 0 with 6:02 on the clock in the first quarter.

On the ensuing kick off, the Warriors fumbled the ball with the Miners recovering the ball at the Baboquivari 20 yard line.

San Manuel was set and poised at the Warriors 20 yard line where Kelly got the first call and sprinted down field to the one yard line. On the second play of the drive, Valdez dropped back and hit Alvarez with a pass in the end zone for the one yard touchdown reception, the extra point kick was no good for a Miners lead of 33 – 0 with 5:12 on the clock in the first quarter.

The Miners defense held the Warriors to force another punt but the Miners fumbled the ball on their next possession giving up the ball to the Warriors at their own 25 yard line. Baboquivari gave the ball right back on the second play of their drive with defensive end Jonathon Croci recovering the loose ball at the Warriors 24 yard line.

With the Miners set up at the Baboquivari 24, Kelly would score on the fourth play of the drive on a five yard run into the end zone for the touchdown, the extra point kick was no good for the Miners score of 40 – 0 with :11 left in the first quarter.

The game was shortened by the running of the clock and the quarter were now six minutes due to the integrity of the game. The Miners inserted the JV squad to take over the rest of the game.

The Warriors went on to score two touchdowns late in the fourth quarter to bring the final San Manuel 40 – Baboquivari 12.

Offensively, Rushing: Shane Kelly rushed four times for 51 yards with one touchdown; Anthony Garcia rushed three times for 38 yards with one touchdown; Armando Sierra rushed one time for 29 yards; and Nathan Odom rushed one time for one yard with one touchdown. Passing: Bryan Valdez completed 2 of 2 passing for 28 yards with two touchdowns. Receiving: Jonathan Croci caught one pass for 25 yards with one touchdown ; Alvaro Alvarez caught one pass for 3 yards with one touchdown. Special Teams: Armando Sierra had an 80 yard kick return for a touchdown.

Defensively, Jordan Peasley had nine tackles; Shane Kelly had four tackles; Anthony Garcia had four tackles with one Fumble

Recovery for 14 yards; and Jonathan Croci had four tackles with one Fumble Recovery.

Head Coach Steve Elmore said, “It was a good win for the guys in an unusual game. I wish the seniors were able to play more for their final home game as a Miner, but it was good for the younger guys to get some playing time. We look forward to playing a tough San Tan Foothills team this week and look forward to our fans support on the road to end the regular season.”

The Miners will end their regular season on the road to San Tan Foothills on Friday night with a 7 p.m. kick-off.

Miner Swimmers win in Scottsdale

Miner Swimmers traveled to Coronado High School in Scottsdale to complete in a dual meet on Thursday, Oct. 24. The Miners won the meet. The Girls won by a score of San Manuel, 96, Coronado, 37, and the boys won by a score of San Manuel, 89, Coronado, 74.

The Miner Girls dominated the meet. In fact, they won nine out of the 11 events, including a top three sweep in both of the sprint events. The medley relay team of Nicole Primero, Sierra Austin, Jazelle Sanchez, and Amara Apuron started the meet off with a win. Primero won the 200 free followed by an Apuron win in the 200 individual medley. In the 50 freestyle, Austin, Sanchez and Angela Navarro finished 1-2-3 to sweep the event. Moments later, Sanchez went on to win the grueling 100 butterfly. In the 100 free, it was the Miner Girls that swept the event. This time it was Apuron, Primero, and Fernanda Vasquez finishing first, second and third. In a close 500 freestyle, after going stroke for stroke for 20 lengths of the pool, it was a Coronado swimmer that out touched Megan Garcia at the finish. Judging by the smile on Garcia's face when hearing she had achieved her best time by several seconds, the order of finish really wasn't as important as the time.

The team of Navarro, Sanchez, Vasquez and Mariela Canisales won the 200 free relay in a close race sealed by a great turn and swim by Canisales. Austin won the 100 breaststroke. The team of Apuron, Austin, Primero and Garcia went on to win the 400 freestyle to end the meet.

For the Boys, the medley relay would set the tone for the whole meet. The Coronado Swim-

mers jumped to an early lead in the backstroke portion of the relay, but Armando Noriega closed the gap enough on the breaststroke leg that Colten Smith could even it up on the butterfly leg to give John Bribiescas the opportunity to win it, which he did. Meanwhile the B team was able to eke out third place with a great swim by Carlos Ortega on the final leg.

Bribiescas won the 200 individual medley, and Colbey Stratton won the 50 free to give the Miners a 31-30 lead at the diving break. Smith and Noriega finished first and second in the 100 butterfly to get the second part of the meet going. Stratton won the 100 freestyle for the Miners. It was the 200 free relay that opened the meet up for the Miners. The relay team of Stratton, Jared Gonzales, Noriega, and Smith won while the team of Alec Newman, Michael Garcia, Carlos Ortega, and James Duarte finished third.

Backstrokers Taylor Woods and Michael Garcia finished first and second in the 100 backstroke. The Miners sealed the win by winning the 400 freestyle relay with the team of Woods, Stratton, Bribiescas, and Smith.

The Miners have completed their dual meet portion of the schedule. The girls finished with a 5-6 record and the boys finished with a record of 11-2. Miner Swimmers will be competing in the Southern Arizona Regional Qualifier Meet on Nov. 1 (2 p.m.) and Nov. 2 (9 a.m.) at Canyon Del Oro High School. Miner Swimmers will compete against approximately 20 teams from Southern Arizona in hopes of achieving state championship meet qualifying times.

Volunteer Connection

Volunteers provide all types of community services and assistance. There are volunteer health care professionals, firemen, coaches for youth sports, tutors, teachers, food bank workers, grant writers and more. Just about every job skill available out in the community can be used by volunteer groups and organizations in our communities.

The San Manuel Miner is sponsoring this regular feature that hopes to connect non-profit organizations, churches, schools and events with volunteers. To have your volunteer opportunity posted here, please submit:

- Name of organization
- Contact information
- Type of volunteer(s) you are seeking
- A brief description of the volunteer's job
- The number of hours expected from your volunteer
- Any other relevant information

Send your information to editor@minersunbasin.com.

Family First Pregnancy Care Center & Family Diaper Bank

Email pregnancycarecenter1@yahoo.com; phone 520-896-9545 or go online to www.familyfirstpcc.org. Type of volunteers: receptionist, store manager, grant writer, social media person/marketing person, mentor (training for all volunteers throughout the year) Volunteers will be in the office 3 hours a week or any time they can be available to work in the office on a task or project, volunteers give the client their lesson from the model they are assigned to do and work with them. Store managers keep the shelves sorted, stacked, and supplied with items as they are donated to us. They would only have to schedule their time once or twice a month. A tour of the office will give you an opportunity to see what we have and what transpires when a client comes in for a class.

Tri-Community Food Bank

Phone 520-487-2010 or stop by 108 Redwood Dr., Mammoth. We are looking for volunteers that can lift about 20 pounds. A volunteer is needed to work 2-4 times a month. The volunteer will fill food boxes, move stock from storage to the pantry and sort donations for the thrift shop. The food bank is open Monday through Thursday and Saturday from 9 AM to noon. Call the food bank and leave your name and contact number if you can help. The food bank provides food boxes to residents who are income eligible living in or near Mammoth, San Manuel and Oracle.

Oracle Historical Society

Email Charla Wright at wrightcharla@yahoo.com or call 520-896-9609 (leave a message) If you're fascinated by regional history, the Oracle Historical Society invites you to join us for a few hours on Saturdays when the Acadia Ranch Museum is open to the public. We need more volunteers to greet visitors who drop by (11 a.m. to 4 p.m.) to see the museum and its displays of historic photos, authentic exhibits, and restored rooms. We also need volunteer tour guides to take visitors "back in time" with the help of our 45-minute room-to-room script.

"Volunteering is an act of heroism on a grand scale. And it matters profoundly. It does more than help people beat the odds; it changes the odds." – President Bill Clinton

Three classes earn Pride of Our Pride title at Mtn. Vista School

The first quarter of the 2013-2014 school year has passed and it is time to announce the Pride of Our Pride winners. For the first time, there is a three-way tie. With a possible 39 paws, Mrs. Sanchez's 2nd grade (top photo), Mrs. Dedrick's 4th grade (middle photo) and Mrs. S. Soule's 4th grade (bottom photo) kept all 39. Congratulations to the students and their teachers. Keep up the fantastic work and keep minding those Ps and Qs. (Submitted photos)
