Proposed ADEQ rules for limiting smelter lead dust, sulfur dioxide emissions open to public comment

By James J. Hodl
Copper Area News

Citizens and businesses have the opportunity to comment on proposed rules drafted by the Arizona Department of Environmental Quality (ADEQ) for significantly decreasing the release two types of pollutants from copper smelters in Hayden and Miami to within federal regulations adopted since 2008.

The rules are aimed at reducing the release of airborne

lead dust from the Hayden smelter (owned by ASARCO) and the release of sulfur dioxide from the smelters in Hayden and Miami (the latter owned by Freeport-McMoRan) in order to protect the public health and environment. They cover the use of specific control technologies and include recordkeeping and reporting requirements.

ADEQ opened the comment period on December 5. Interested parties will have until January 9, 2017 to file comments on the proposed rules, after which ADEQ will hold a public hearing to address any concerns and draft the final rules. Once finalized, the rules will be submitted to the U.S. Environmental Protection Agency (EPA) for incorporation in Arizona's State Implementation Plan as required under Section 110 of the Clean Air Act.

Should ADEQ not produce these rules, EPA has the right under the Clean Air Act to draft and impose their own.

The need for the new ADEQ rulemaking began in 2008 when EPA revised its air quality standards for lead (last updated in 1979), strengthening them by nearly 90%. The new maximum allowable level of lead in ambient air is a rolling three-month average of 0.15 micrograms per cubic meter evaluated over a three-year period. In implementing the new National Ambient Air Quality Standards (NAAQS), EPA conducted a technical analysis in 2010 in the Gila and Pinal County townships around the Hayden smelter and decreed it in 2014 a nonattainment area in need of improvement.

EPA in 2010 likewise revised the allowable level of sulfur dioxide emissions to 75 parts per billion per hour. Subsequent testing found both the Hayden and Miami

areas to be not in compliance and were thus declared nonattainment areas around them.

Panthers win three straight games

By **Andrew Luberd**
Superior Sun

The No. 4-ranked Superior boys' basketball team followed a disappointing home loss to Ft. Thomas on Dec. 2 with three-straight lopsided wins last week. The Panthers defeated Phoenix Day School for the Deaf (62 – 41), Bowie/San Simon (63 – 38) and North Phoenix Prep Academy (66 – 34) during a three-games-in-four-nights stretch from Dec. 6 – 9.

In last Tuesday's win against the Roadrunners, senior Jalon

Murray and Marcos Bueno each recorded double-doubles, which included Murray's game-high 26 points and 16 rebounds. Bueno, a junior, finished with 16 points and 12 rebounds in the win. Senior forward Austin Navarrette was nearly a third Panthers' player to record a double-double after he totaled 8 points and 10 rebounds.

Murray (24 – 11) and Bueno (15 – 10) posted their second double-doubles in three games during the Panthers win last Friday against North Phoenix Prep. On the season, the duo is

combining to average almost 35 points per game and more than 20 rebounds. Individually, Murray and Bueno average a double-double every time they hit the floor so far this season.

Not to be overlooked is the Panthers' defense, which was stingy during the winning streak, where they allowed less than 38 points per game. During its five wins so far this season, Superior opponents are averaging a paltry 41 points per game.

Upcoming schedule: Dec. 13 at NFL Yet Academy, Dec. 15 vs. Globe and Dec. 16 at Ray. All games are scheduled for 7 p.m.

Recreational Users Group debate plan for Apache Leap

By **Cat Brown**
Superior Sun

The Recreational Users Group meeting this month included a presentation by the United States Forest Service about the Apache Leap Special Management Area. This meeting became occasionally heated as representatives of the Town and the many recreation groups expressed their concerns that the tribal considerations will outweigh the voices of those who want to see continued recreation use of the area.

The Land Swap legislation passed two years ago includes provision for some land to be

transferred from Resolution Copper Company to the Forest Service. This transfer protects the iconic mountain, and allows for consideration of managed recreational use of the area. The law calls for the forestry to produce a plan within three years, in consultation with effected tribes, the Town of Superior, and Resolution Copper Company.

In order to complete this plan, the Forest Service is making visits to the stakeholders and soliciting comment. Anyone wishing to comment has until the end of January to submit them in writing to Mary Rasmussen, Project Manager, Tonto National Forest, Supervisor's Office, 2324 E. McDowell Rd., Phoenix, AZ 85006.

Mary Rasmussen from Tonto National Forest addresses the group.

SMELTER

Continued from page 4

In adopting the more stringent rules, EPA cited the negative health effects of those two pollutants. Breathing airborne lead dust can impair the sensory, motor and cognitive skills of developing children; and can impair the memory and visual skills of adults, as well as increase the likelihood of heart attacks. Breathing high levels of sulfur dioxide can damage the lungs, and cause asthma and other respiratory problems.

A substantial portion of ADEQ's proposed rules cover the control of "fugitive lead dust." Lead is found in the same ore holding copper and can be released during the smelting process as dust that can settle atop the areas around a smelter. For this reason, the rules would require ASARCO to daily sweep vacuum or use a wet broom on paved areas around the smelter compound to remove lead dust, and to spread dust suppressant on unpaved roads at least once a week. Vehicles traveling over these roads cannot exceed 15 m.p.h. and must be frequently cleaned. Wind fences are mandated.

During high wind events, rules note when smelter operations must stop to avoid widespread lead dust dispersal. Equipping the facility with an Acid Plant Scrubber Blowdown Dryer System is to be required.

The smelter compound must be equipped with ambient lead monitors, and samples collected must be retained a minimum six days.

For sulfur dioxide containment, ADEQ proposes regulations governing furnace ventilators, filtering systems, and the installation of monitors to record sulfur dioxide concentrations with the compound. Contingency measures are to be implemented if an area fails to attain EPA standards.

ADEQ further proposes stringent measurement and recordkeeping requirements for both pollutants.

For their part, both ASARCO and Freeport-McMoRan proposed expensive upgrades to their copper smelters in early 2014 to reduce sulfur dioxide emissions as ADEQ was working on these proposed rules.

To meet the new EPA sulfur dioxide standards, ASARCO launched a converter retrofit program to replace the smelter's five 13-ft. diameter converters with three 15-

ft. diameter converters, install improved primary and secondary hoods, and an electrostatic precipitator for solids removal prior to recapturing sulfur dioxide in acid baths. Larger ladles (300 cu. Ft. instead of 200 cu. Ft.) will be installed to reduce the number of hot metal transfers. As a result, ASARCO said, about 99.7% of all sulfur dioxide produced during the copper smelting process would be removed.

Freeport-McMoRan also is upgrading the Miami smelter with new converter mouth covers, converter aisle canopy hoods and aisle scrubbers; an anode bag house, and an upgrade smelter furnace.

A complete copy of the proposed rules can be viewed online at www.azdeq.gov. They also can be viewed at the ADEQ Records Center, 1110 W. Washington St., Phoenix, AZ 85007 by appointment by phoning (602) 771-4380 or (800) 234-5677 ext. 6027714380. Locally the proposed rules can be viewed at the Hayden Senior Center, 520 Velasco Ave., Hayden, AZ 85135, phone: (520) 356-7036; and at the Miami Memorial Library, 282 S. Adonis Ave., Miami, AZ 85539, phone: (928) 473-2567.

Comments on the Hayden Lead rules should be mailed, faxed or emailed to Natalie Muilenberg, fax: (602) 771-2299, email: nm3@azdeq.gov. Comments on the Hayden and Miami Sulfur Dioxide rules should be mailed, faxed or emailed to Lisa Tomczak, fax: (602) 771-2299, email: lt5@azdeq.gov. Both have the mailing address of Air Quality Division, Air Quality Improvement Planning Section.

AZEQ, 1110 W. Washington St., Phoenix, AZ 85007. All comments must be postmarked by January 9, 2017.

Public hearings for the Hayden and Miami Sulfur Dioxide rules will be held on January 9 at 2 p.m. in Room 3175 at ADEQ, 1110 W. Washington St., Phoenix.

Public hearings on the Hayden Lead rules will be held January 10 at 2 p.m. in Room 3175 at ADEQ, 1110 W. Washington St., Phoenix.

Holiday spirit abounds at Second Friday event

By **Cat Brown**
Superior Sun

December's 2nd Friday was full of the holiday spirit.

From Saint Francis of Assisi church the religious education classes kids ages kindergarten through 8th grade went out

caroling on Main Street. The children stopped in front of each store and sang Christmas Carols.

The Second Annual Ugly Sweater Contest sponsored by Random Boutique had twice as many contestants than last year. Six brave souls paraded in their ugly sweaters before the judges. Third

place went to Deb Sears. In second place Sabrina Castillo. And the winner wearing the truly Ugliest Sweater – Paul Sears.

The Sunflour Market was full of people singing their hearts out in rounds of Karaoke. Vendors sold fish tacos, jewelry, crystal windchimes, magical wands similar to those in the Harry Potter books

on the streets. And Superior Sweets table was surrounded by people eager to stock up on cookies and fudge for the holidays.

Schoolchildren wow their parents, others with annual holiday concert

By Cat Brown
Superior Sun

There were reindeer, angels, wisemen and chimney sweeps. Even Santa made an appearance at the John F. Kennedy Elementary School Musical held on Dec. 7. The auditorium was crammed full of proud parents, aunts, uncles and grandparents.

The Pre K and Kindergarten children preformed the songs: 5 Candy Canes, Up On The Housetop, Rudolph the Red Nose Reindeer and Feliz Navidad.

The 1st through 6th grade put on a bit of a play to go along with their music. The chimney sweeps entertained before everyone burst into song. The songs they sung were varied from Big Red Fella in the Chimney to Kwanzaa Child and Lots of Latkes.

There was a break dance solo to the rap song Ashes To Ashes and more traditional Folklorico Dancers who twirled their colorful skirts to the song Break the Piñata.

To see video of the children singing and dancing head to Copperarea Facebook page ([facebook.com/copperarea](https://www.facebook.com/copperarea)).
