# Give the Gift of time to a child placed in foster care

For the more than 11,500 children and youth in Arizona's foster care system, this holiday season, like many others is a reminder of what is missing.

This holiday season consider giving the gift of your time to a child from Gila County who has been placed in foster care.

The Court Appointed Special Advocates (CASA) Program is an opportunity where you can make a difference by volunteering for 10-15 hours a month. Studies show that a child with a CASA volunteer is more

likely to find a safe, permanent home, more likely to succeed in school, and half as likely to re-enter the foster care system.

If you find it in your heart this holiday season, this is an invitation to join CASA of Gila County, in whatever capacity you can. Not a single one of us has the power to change these children's past— what they have seen, what they have done, what they have suffered.

Every one of us has the power to change their future. All it takes is the heart to do

so.

Court Appointed Special Advocate (CASA) volunteers are everyday community members who donate their time to be the voice for a child. CASA volunteers are the eyes and ears of the judge in the community. No specific experience is needed to become a CASA

volunteer. Anyone 21 years of age or older, who can pass a thorough background check and complete 30 hours of free training, is encouraged to apply.

For more information, visit [www.CASAofGilaCounty.org](http://www.CASAofGilaCounty.org) or call 928-402-4427. Follow us on Facebook <https://www.facebook.com/gilacountycasa>

Superior, AZ - The Arizona Mining Association (AMA) awarded Resolution Copper the 2022 Sustainability, Preservation, and Diversity in the Environment Award (SPADE) for Public Education. "Over the past several years, AMA members have increased their efforts

in safety practices and environmental protection, thereby raising the standard for SPADE excellence," stated Steve Trussell, Arizona Mining Association Executive Director. "AMA is honored to present the SPADE award to Resolution Copper for their partnership with the US Forest Service, NAU and Western Apache Tribes in restoring the Emory Oak that will nourish Native American Communities for future generations."

# Winter Wonderland, Desert Sun and Fun style

Kearny, AZ - Three wheelers vroom: are you listening? In the sky, sun is glistening. A beautiful sight in the dark desert night! Electric lit Winter Wonderland. Gone away is the blue bird. Here to stay is the snowbird. To sing a love song, while we stroll along, taking in the Winter Wonderland!

Probably, there will be no snowman built and there are no promises of new romance being made, but the Copper Basin Chamber of Commerce is, once again, presenting the pretty, sparkling spectacle of the annual Electric Lights Parade. Bonus! You won't have to walk along to see it, as it will roll along

past you, instead.

Be sure to have your phones charged, check all your lights and batteries, and don't forget to set a reminder on your calendar that in three days, on Saturday, Dec. 17, it will be time for Kearny to celebrate and be celebrated. This event is free for all and families are encouraged to attend together!

The line up for the parade will start at 5 p.m., at the Teen Center for smaller floats and Jamestown for the larger floats. For those who are in the parade, don't forget to get your notes in order and handed in so the MC will know best how to describe what you've worked so hard on!

Uptown on Alden there will be vendors with their homemade items which make great gifts. There is no charge for the parade entries nor for the vendors. Expect Elf's Hot Cocoa, Cookie Decorating, Letters for Santa, Reindeer Games,

as well as popcorn, cotton candy, Santa's Smores, face painting, a Christmas

Photo booth, stocking decorating and more!

partnership with the Tonto and Coconino National Forests (TNF and CNF), Northern Arizona University (NAU), and Apache Tribes in Arizona to create the Emory Oak Collaborative Tribal Restoration Initiative in response to concerns voiced by Western Apache Tribal elders that the health of Emory Oak groves

is declining, with fewer and fewer acorns produced each year across Arizona. The Emory Oak is a culturally significant tree to the Western Apache people. The acorns provide a traditional food source and in addition to other cultural and ceremonial uses. In recent years, drought, fire suppression, livestock over-grazing,

species competition, and climate change have circumvented the growth of new Emory Oak seedlings and the production of acorns. The Emory Oak project partners with the Yavapai-Apache Nation, Tonto Apache Tribe, and White Mountain Apache Tribe (WMAT), with assistance from San Carlos Apache tribal elders, to research the protection and restoration of Emory Oak groves across Arizona.

A fundamental component of the program involves transferring traditional ecological knowledge from elders to youth through education and collaboration. The Emory Oak project has sponsored multiple public education efforts, from planting Emory Oak saplings to

training, outreach, and developing research papers and presentations. The program also aims to create a record of the traditional ecological knowledge used to manage the Emory Oak ecosystems so younger generations can access it in the years ahead.

“We are grateful for the collaborative partnership between the US Forest Service, NAU and Western Apache Tribal elders. Indigenous Traditional Ecological Knowledge has guided every aspect of this work from identifying priority Emory Oak Groves to implementing best practices on the ground to

preserve a critical aspect of Western Apache culture. By acknowledging, respecting and listening to the voice of Western Apache Tribal elders, mining companies can play a role in preserving this important species.” – Victoria Peacey, Acting Project Director, Resolution Copper.

Resolution Copper recognizes the importance of this legacy project and what it means to the Western Apache people. The company is grateful to deepen our consultation and partnership with Native American tribes to continue shaping the project, the benefits

it can provide and the co-management and preservation of cultural heritage.

Resolution Copper is developing one of the largest copper deposits in the world in Superior, Arizona. The company plans to operate a 21st-century mine while protecting and preserving the area’s unique natural surroundings and cultural heritage.

was on the USS West Virginia on Oct. 18, 2022. He is still out to sea. An article by a CNN reporter, Barbara Starr, on Friday, Dec. 2, 2022, stated that, “The US military wants it’s adversaries, as well as allies, to know that for the first time, a US Navy nuclear-powered ballistic missile submarine docked at the remote island of Diego Garcia in the Indian Ocean as part of an extended months-long deployment.” Romeo was one of the 150 sailors, waiting

at Diego Garcia, to replace the crew aboard the USS West Virginia. By the Navy doing this, their submarine could stay out to sea for a longer period of time.

When his family saw Romeo in September, he was just excited to have his first opportunity to be deployed. Before this opportunity, he spent a little over a year assigned to the USS Texas, in dry dock, at the Portsmouth Naval Shipyard, in Kittery, Maine, away from his bride.
