Three adults charged in attempted child abduction in Winkelman

Three adults were arrested and charged in connection with an attempted kidnapping in the area of Fourth and Thorne in Winkelman.

On Tuesday, Jan. 15, at approximately 6:35 p.m. a 13-year-old boy reported to Hayden Police that he had been approached by an unknown male in a newer model dark blue or black truck. Hayden Police said the male summoned the boy and when the boy turned to run the male exited the truck and chased him toward the school. The boy was able to locate his coach and they called the police department.

The suspect was described as a "light skinned man, about 6' tall, wearing a dark colored bandana over his face."

At 9 a.m. on Wednesday, Jan. 16, Hayden Police conducted a more thorough interview of the victim at the police department. The boy was able to provide police a more detailed description of the incident, vehicle and suspect.

Following the interview, an officer went to the school to conduct a security check and follow-up. The officer identified a vehicle in the parking lot matching the description of the suspect vehicle in this case. The officer quickly identified the vehicle as being driven by a 19-year-old student at the school.

The officer interviewed the 19-year-old male who admitted involvement, reporting that it was just a prank to try and scare the 13-year-old child victim. He implicated two other accomplices, who also admitted to their involvement. Kenneth Hines, 19, and Mary Cantrell, 19, both of Dudleyville, and Katrina Trevizo, 19, of Hayden were arrested and booked into Gila County Jail in Globe.

"As your Chief of Police, I want each of you to know how important the safety of this community and our children are to me and my officers at the Hayden Police Department," said Chief Tami Villar.

"I want to thank my staff for their quick action, hard work, professionalism and dedication. I also want to thank the Pinal County Sheriff's Office for sending four of their patrol deputies to assist us in ensuring a strong law enforcement presence for the safety of our community. Finally, we thank the school administration for their

cooperation and understanding the extreme seriousness and sensitivity of this investigation.

"We do not take incidents of this nature lightly and behavior like this will not be tolerated," said Villar.

She urged parents and children to continue vigilance when walking to and from school or friends' houses.

Accident claims life of Chandler man

A one-vehicle accident on Saturday, Jan. 19, claimed the life of a Chandler man.

According to the Arizona Department of Public Safety, a motorcycle driven by Hien Minh Nguyen, 35 of Chandler was northbound on SR 177 at milepost 162.1 when the driver lost control. He laid the motorcycle down on the left side and was thrown into the northbound lanes. The driver suffered numerous injuries and was pronounced deceased on arrival at a nearby hospital.

Superior Fire Department and Ambulance were on scene at the accident as was the Arizona Department of Transportation Emergency Response Unit. Traffic was stopped for about 90 minutes while the accident was investigated.

How dangerous can drones be? Town of Kearny wants to remind residents of town ordinance

By Arletta Sloan
Copper Basin News

Technology can be time-saving or time-wasting, just as it can be a life saver or a danger to life. In most cases, it is not what the technological advancement is meant to achieve, but, in how it is thoughtfully or thoughtlessly utilized by its owner, which makes that difference.

Drones have become a big problem in many parts of the world. According to an article from The Guardian (Dec 20, 2018 'How dangerous are drone to aircraft?') "Any midair collision with an object is dangerous to aircraft, as exemplified by

the crash of US Airways Flight 1549 in January 2009." In that case, it was a flock of Canada geese which was hit. The article goes on to say, "The weight of a Canada goose - between 2kg and 6.5kg - is exceeded by some professional-quality camera drones."

There are federal laws concerning drones which apply to every state in the United States of America. In addition, there are laws for the State of Arizona which apply to the entire State of Arizona. These laws can be read about further by visiting online at : <https://uavcoach.com/drone-laws-arizona/>
The Town of Kearny also has its own

ordinances, which cover what is and is not allowed concerning the use of drones by its citizens, for their protection.

Anna Flores, Kearny Town Manager, stated, "The Town of Kearny is approximately 2.75 square miles and with the Medi-vac, along with the airplanes flying in and out, almost daily, flying a drone in the flight path, can be dangerous. The Town wants the residents to know the dangers of flying a drone within town limits. There are many open spaces outside of town limits that are perfect for flying drones."

Ordinance No. 18-208, Section 10-1-25, passed and adopted on Aug. 20,

2018, which is related to imposing community based safety requirements on the operation of all model aircraft including drones, no person shall operate any model aircraft within the Town of Kearny or within 5 miles of an airport or helicopter pad, without prior authorization of the FAA. It goes on to say that "Any person violating the provisions of this section shall be guilty of a class 2 misdemeanor." The full ordinance can be read at Kearny Town Hall.

Use your drones wisely, whether for fun or work. Just keep it safe, for the benefit of all, including yourself.

Hikers agree that Kearny is friendliest AZ Trail town

Earlier this month, Natalie Moller, Bruce Ledbetter and a cool dog named Shadow got a dose of friendliness after visiting Kearny.

Natalie and Bruce and first-time hiker Shadow walked from the Freeman Trailhead to the Florence-Kelvin Trailhead, from which they caught a ride into Kearny. Carol Hosler, who is an Arizona Trail Angel, offered them a ride back to their starting point and their vehicle.

Natalie most recently came from California, where she hiked the Pacific Coast Trail. She is doing short hikes along the Arizona Trail over the next month to prepare for a longer trek this year. Bruce is a Tucson native and does volunteer work for the Arizona Trail Association, helping with maintenance.

Sam Hosler, who took the photo of the three hikers, said the back of his truck wasn't ideal for taking the photo, "but Bruce and Natalie were enamored of my license plate, and repeatedly told us that Kearny is, indeed, the friendliest town on the Arizona Trail."
