Worst Financial Decision in Pinal County History

In 2004, the Pinal County Jail held an average of 600 to 700 inmates in a facility which was originally built to only hold 472. Then, Sheriff Roger Vanderpool worked with the Pinal County Board of Supervisors to expand the jail. County Supervisors at the time agreed with Sheriff Vanderpool's plan to offset construction costs by housing ICE detainees. The jail expansion project

expanded the jail to hold 1,499 inmates/detainees.

In 2006, a contract was signed by the Pinal County Board of Supervisors and U.S. Immigration Customs Enforcement Detention Removal Operations (ICE DRO) to hold an average of 625 detainees per day. ICE DRO agreed to pay \$59.64 per day for each detainee who was placed in the jail.

In January of 2013, Pinal County Internal Audit completed an analysis of the contract and determined the County was losing \$2 million dollars each year. At that time, Sheriff Babeu pointed out that the auditors were using old ICE population numbers which skewed the audit and the revenue was much higher using the current population averages.

The Board of Supervisors at the advice of then County Manager Fritz Behring attempted to negotiate a new contract rate of \$87 per day. Due to the Federal Government Sequestration the negotiations took longer than they wanted.

Sheriff Babeu asked the Board of Supervisors to do a staffing study of the jail before any attempt to cancel the ICE contract as our staffing levels could not return to pre ICE standards. The Board of Supervisors refused and County Manager Fritz Behring at the direction of the Board of Supervisors sent ICE a "100 day contract cancellation notice."

Per U.S. Senator Jeff Flake's Office, when ICE received the 100 day notice they ended the negotiations process.

After the ICE Contract was cancelled, the BoS had a staffing study completed by an independent company they hired. The staffing study and County Manager Stanley confirmed the jail could not return to pre ICE Contract staffing numbers and in the end 113 jail employees were laid off. The plan also only cut \$7.2 million from the jails

budget.

Since 2009 the County received an average of \$10,975,441 per year from ICE. During 2013 which was the last full year of the ICE contract they received \$11,669,758 and in 2012 they received \$11,744,308.

The 100 day cancellation notice was the worst financial decision in Pinal County history. The County now has over \$4 million dollars of lost revenue they would still be receiving had they not sent the 100 day notice to cancel the ICE Contract. The cancellation also resulted in 113 positions largely worked by residents residing in Pinal, that will no longer be filled.

Special evening classes will be held Thursday evenings on Feb. 12, 19, and 26 from 6 to 7 p.m. at the Family First Pregnancy Care Center office at 1575 W. American Avenue, Oracle, Ariz. The classes

are open to all people who are interested in learning practical and easy techniques to better manage their money and make wiser financial decisions. Earning money is the first step toward financial success, but understanding how to manage money and making wiser choices is just as important.

Some of the topics being covered will be basics of budgeting and saving for the future. These free, practical, and informative classes are helpful for all people. Please call Family First at 520-896-9545 for more information and to reserve a place at these special evening classes. Space is limited, so call and sign up today.

Pinal County Contract With ICE

Once again, the Pinal County Sheriff is attempting to place fault for the termination of the Immigration and customs enforcement contract at the doorstep of the board of supervisors.

The sheriff is also blaming Pinal County's former county manager for raising the ICE contract issue. County Manager Fritz Behring brought to the board's attention that county taxpayers were losing between \$3 to \$4 million dollars annually on this contract. Behring would have been totally negligent in his duties had he not raised this issue.

The sheriff knew for a long time that the

ICE contract needed to be renegotiated to stop the bleeding of taxpayer dollars. This didn't pop up overnight, everyone from the supervisors to the sheriff were on the same page following several meetings about the details of the contract.

Yet, Sheriff Babeu continued to grandstand and "bad mouth" the federal government and homeland security in the press, for a variety of reasons. He would intentionally go out of his way to "slam" Homeland Security Director Janet Napolitano and ICE on immigration topics.

Well guess who ICE reported to? Yes,

Janet Napolitano and homeland security!!

And the sheriff can't figure out why the ICE contract with Pinal County Sheriff's Office was not renegotiated by the feds? The sheriff may have had a good working relationship with middle management workers in ICE. But when it came to negotiating with decision-makers in Washington DC, even our Congressional delegation that was attempting to help Pinal County, asked the sheriff to stay away.

The failure to renegotiate the ICE contract and the scores of detention officers and families that lost their jobs lies squarely at the foot of the sheriff's office. And all because Sheriff Babeu couldn't resist grandstanding and mugging for the TV cameras.

LETTER TO THE EDITOR

What is Mammoth to me?

We moved here by choice and found a home and family. Why? Hopefully I can answer that.

To understand a people, or place you need to understand its history. The history of Mammoth speaks of its character. Tiger mine and Mammoth founded when Arizona was still a territory. Founded by some independent, self sufficient folks for sure. While all surrounding mines and towns were "company" towns with rules and regulations or lose your home and possibly your job.

Mammoth was the only place to go to "let off steam" so to speak, wild and ornery. The town was more than a days ride from civilization, folks depended on each other. Had to. The culture of Fiestas, wedding parades (I miss.), and other cultural customs, I appreciate.

I think most of all the history of "north island" the triangle park at the corner of Owens and 77 tells the story best. The property itself, a gift to the town, the townsfolk got together to make it a park. Someone made a wooden sign that declared "Mammoth Wildflower capital of Arizona" (that bother me from the day I moved here. What flowers?

Where?) The children sold seeds or at least played a major role in planting wildflowers there.

I see what's left of a picnic table, I understand there is a watering system built in too. As a side note : Does anyone have photos of this park when it was pretty? From a community project to what it is today foretells what has happened to our town. From something that unified folks (it must have been beautiful), to what is there now. I would love to see our Mammoth "family" come together again to rejuvenate, and name Wildflower Park. To use it once again, possibilities: art fairs, coffee stops, or just plain families enjoying it again, for birthdays , etc.

Call me crazy, I know, Mammoth has a strong future by being itself once again. People don't move here to be told how to live. There are plenty of towns and cities that make folks conform or else. We moved here because of the feeling of freedom and family. Mammoth's history and culture are its assets!

Valley View Cemetery is listed as a must see for visitors. The library was founded by towns folk. Where is that spirit?

Sincerely yours,
/s/ Diane Theobald

DPS releases names of victims in Jan. 30 fatal crash

On Friday, January 30, 2015, DPS officers investigated a two vehicle collision involving three fatalities and multiple injuries. The collision occurred on State Route 77 near Aravaipa.

The collision occurred at about 7:48 a.m. when a white pickup was northbound on State Route 77 in the area of milepost 123.

For an unknown reason, the driver of the pickup switched lanes, going northbound in the southbound lane of traffic. A white van, which was traveling southbound, saw the oncoming pickup and attempted to avoid a collision with it by changing lanes into the northbound lane of travel.

At that point, the pickup changed lanes back into the

northbound lane and the two vehicles collided head-on. Three people in the van received fatal injuries. The driver of the pickup and four other people from the van were transported to a hospital in Tucson for treatment. One of the injured sustained life-threatening injuries.

The driver of the van, Rodger D. Fugett, 53, of Mammoth died at the scene from injuries sustained in the collision. Passengers Francisco R. Calzadillas, 49, of Winkelman and Troy A. Brownrigg II, 34, of Oracle also died at the scene from their injuries. The driver of the pickup, Mark J. Reynoso, 32, of Mammoth was transported from the scene to a hospital in

Tucson for treatment of injuries sustained in the collision. Passengers in the van, William L. Reidhead, 53, of Mammoth, Jeffrey R. Herelko, 61, of Oracle, Freda F. Davis, 62, of Kearny, and Francis L. Hawkins, 34, of San Manuel were also transported to Tucson for treatment of their injuries.

DPS was assisted at the scene by personnel from Pinal Rural Fire Rescue, Mammoth Fire Department, Dudleyville Fire Department, San Manuel Fire Department, Golder Ranch Fire District, Southwest Ambulance and Rural/Metro Ambulance.

The investigation of this collision is in its early stages and impairment has not been ruled out.

Measles, the Border and Disneyland

Cases of measles including four in Pinal County have been traced to the Disneyland theme park in Anaheim, Calif. Republicans like Rush Limbaugh and Congressman Mo Brooks of Alabama have suggested that “illegal aliens” are the cause. Possible presidential candidate Dr. Ben Carson has also blamed undocumented immigrants for the outbreak. In Arizona, Pinal County Attorney Lando Voyles told a State Senate panel on Wednesday that he knows how the measles outbreak got into Arizona and his county; it’s from having an open border with Mexico.

A report on KFYI radio quoted Voyles as saying, “No one has even brought up the point that we’ve opened the border.” “For years we had measles completely contained here in the US.” Now Voyles is not just an attorney, he is an epidemiologist, either that or he stayed at a Holiday Inn Express, probably at tax payer’s expense.

It is no surprise that Voyles is speaking out against the

“porous border” after all that is what his mentor and running partner does on a regular basis. Yes, lets face it people, Voyles wouldn’t have been elected without Sheriff Babeu and his political base. Now he is following Babeu’s lead. We all know how the sheriff feels about the border and undocumented immigrants. We saw his true colors last year when he helped organize a protest of unaccompanied Central American immigrant minors along with his Tea Party, nativist and border militia followers. They were crying out that these kids were dangerous gang members and bringing in infectious diseases. None of which turned out to be true.

Apparently it was easier to demonize immigrants rather than sort out the facts which included that the vast majority of the people who contracted and spread the measles were not vaccinated. Another fact Voyles should have considered is that Mexico and Central America have a higher success rate of immunization than the United States. Considering over 50 million foreign tourists from all over the world visit the United States each year and it appears one of them may have been infected with measles and visited Disneyland, there is no need to point your finger at the border for blame.

Then of course we know what the first thing undocumented Mexicans do after crossing the border. The inquiring reporter says, “Hey Jesús, you just entered the US illegally, walked a hundred miles through the desert in 100 degree heat, avoided the border patrol, armed border militia groups, and Joe Arpaio what are you going to do next?”

Jesús answers, “Hey, I’m going to Disneyland!”

One of the most popular rides at Disneyland and all of the Disney parks is the boat ride “It’s a Small World”. The ride celebrates the cultures and languages of the world as seen through the eyes of a child. It seems that Walt Disney’s dream that inspired the theme of unity and peace for the happiest boat ride won’t be realized in Arizona anytime soon, unless you are Snow White.

Seriously, measles is a highly contagious disease and can be deadly for those kids that cannot be vaccinated because they have compromised immune systems and very serious for unvaccinated pregnant women. Please vaccinate your children if not for them for others.

*It’s a world of laughter, a world of tears.

It’s a world of hopes, a world of fears.

There’s so much that we share,

That it’s time we’re aware,

It’s a small world after all.”

*Lyrics of “It’s a Small World” by Robert Sherman and Richard Sherman.

Evening program explores the moon at Oracle St. Park

An interactive program with hands-on activities, lunar maps and displays, and a short “walk” to the moon, is set for Saturday, March 7, 2015, at Oracle State Park Center for Environmental Education starting at 7:30 p.m. and continuing with night sky viewing of the waning moon through telescopes.

The family-friendly presentation by Richard Boyer, formerly a ranger at Rocky Mountain Nat'l Park in Colorado, highlights the mystery

and intrigue of Earth's only natural satellite.

Free with park admission at the gate on Mt. Lemmon Rd., in Oracle. Reservations are recommended by calling the park office at 1-520-896-2425.

Boyer will also talk about the moon's physical geography and the Apollo moon exploration space flights. A teacher and school administrator, he has also developed nature programs

at John Muir National Historic Site, Point Reyes National Seashore, and Redwood national and state parks. His well-known “Bighorn Basics” program will be presented on March 8 at Oracle State Park, beginning at 12:30 p.m.

Oracle State Park is open 8 a.m. to 5 p.m. Saturdays and Sundays. Free guided tours of the historic Kannally Ranch House are scheduled at 10 a.m. and 2 p.m. both days. For a full listing of upcoming events and activities,

go to www.azStateParks.org/Parks/ORAC.

Acorns, sumac berries featured in Apache foods program at Oracle State Park

In celebration of Cultural Awareness Month, a presentation on gathering and preparation of traditional Apache foods will be held Saturday, March 14, 2015 at Oracle State Park Center for Environmental Education.

Knights set date for annual golf tourney

Local Knights of Columbus urge golfers to save Saturday, April 11, for the KofC annual charity golf tournament.

“Many golfers expect this tournament in early April, but we always like to see new faces too,” said tournament organizer John Wahlmeier.

The tournament, to benefit KofC scholarships and charities, will be held at the Saddlebrooke Ranch golf course near milepost 93 on Hwy. 77, using a four person scramble format.

“We are really excited to have the backing of Apache Gold Casino and Golf Course for one of our hole in one contests. They have been very generous,” Wahlmeier said.

Golfers can get an early sign up discount by contacting Wahlmeier at 385-4590 or 610-1151 or jmfaalias@gmail.com.

The event begins at noon with Herb Stevens, San Carlos Apache and Cultural Center Director.

It's free with park admission at the gate on Mt. Lemmon Rd., in Oracle. Reservations are recommended by calling the park office at 1-520-896-2425.

The family-friendly

program will highlight the use of acorn powder and acorn soup, along with using sumac berries to make “Apache kool-aid”.

The park, which is located in the high-desert oak-grasslands foothills at 4,500 ft elevation, has a variety of plant resources that continue to be collected and used in

traditional ways by native peoples of the region for medicine and food. Notable examples are Mesquite pods, lemonade-berry sumac bush, and edible acorns from Emory Oak and Arizona White Oak trees.

These plants are easily viewed along the 15 miles of multi-use hiking trails

at the park, including four miles of the National Scenic Arizona Trail.

Oracle State Park is open 8 a.m. to 5 p.m. Saturdays and Sundays. Free guided tours of the historic

Kannally Ranch House are scheduled at 10 a.m. and 2 p.m. both days. For a full listing of upcoming events and activities, go to www.azStateParks.org/Parks/ORAC.

Exploring the archaeology of Redington

By **Nina Crowder**
San Manuel Miner

With our beautiful Arizona weather there is much to be explored in our area including many archaeology sites. Between 1275 and 1400 prehistoric people occupied the San Pedro Valley. Just around the corner from San Manuel in the Redington area there are many archaeology wonders to investigate for the outdoor enthusiasts. Many volunteers monitor the archaeological sites on state and federal land. The links between the past and the present help people see why cultural sites should be protected and preserved.

Archaeology is the study of past human life and culture by the recovery and examination of remaining material evidence such as buildings, tools, pottery, fossil relics and graves. Prehistoric archaeology studies the cultures that didn't have a written language. The remains of past cultures help us to understand the history. Some of the historical records may include diaries, census and tax records, deeds, maps and photographs. Through the combination of documents and archaeology evidence, a better understanding of past human behavior can be acquired.

Archaeology Southwest indicates there are approximately 500 sites between Winkelman and just beyond Benson. There are some large architectural features such as ballcourts, walled villages and architectural field systems. The preservation of these sites has

been successful because there is little development in the region and the local landowners are stewards of the land, protecting these sites.

One of the Site Stewards in the area is Diane Tuck. Diane has a love and passion for the history of the area. On our outing she enjoyed describing and showing us a few of the sites here in Redington. Some of the goals of a Site Steward is to preserve prehistoric, historic and paleontological resources for the purposes of conservation, scientific study and interpretation; to increase public awareness of the significance and value of cultural resources and the damage done by artifact hunters; to discourage site vandalism and the sale and trade of antiquities; to support and encourage high standards of cultural resource investigation throughout the state; to promote a better understanding and cooperation among agencies, organizations and individuals concerned about the preservation of cultural resources.

Archaeological sites and artifacts on private land are the property of the landowner. Many of the sites in Redington are on private land. When the sites are on public land or in the path of proposed project like highways or developments, many state and federal laws are provided for the study and protection of the land.

The excavation or removal of antiquities on public land is a criminal offense forbidden by law. The archaeological sites are non-renewable resources once they are destroyed or excavated they are gone

forever and can't be replaced. Archaeology isn't about artifacts or excavations or exhibits, it's about people! Our decisions about the future are based on the lessons we learn from the people who came before us.

If out and enjoying the Redington area or other area's between Winkelman and Benson and come across something that looks like people might of inhabited the

area, please do not remove any items, take some memorable photos and enjoy a piece of the past.

If you have an interest in becoming a Site Steward the Arizona contact information is: http://azstateparks.com/volunteer/v_sitestewards.html. For addition information please visit: www.archaeologysouthwest.org or feel free to contact Archaeology Southwest via telephone at 520-882-6946.

Five Miner wrestlers advance to state championships

By **Andrew Luberda**
San Manuel Miner

Five San Manuel wrestlers placed in the top four at last weekend's Sectional Wrestling Tournament and advanced to the State Tournament in Prescott Valley, which will take place Feb. 12-13.

Marco Salas (2nd – 106), Francisco Medina (2nd – 132), Franky Renteria (3rd – 145), Ezra Miller (4th – 120), and Max Fisher (4th – 170) will compete for a State Championship at Tim's Toyota Center this weekend.

The Miners placed fifth as a team at the sectional tournament and were only a couple of different results away from a higher finish.

"It's a tough section," Miners' head coach Daniel Najera said. "But at the end of the day, we let three matches go that we

should've won."

Competing in a section with as many as four teams considered state title contenders raises the bar for the wrestlers

across the section, including the young Miners.

"I can't feel about losing to quality wrestlers who may have been better than

us, (this year)," Najera admitted.

Session I at the State Tournament is scheduled to being on Feb. 12 at 10:30 a.m.

Mammoth Little League registration begins next week

By **Andrew Luberda**
San Manuel Miner

The first registrations for the Mammoth Little League will take place next week at the Mammoth Lions Club, which is located at 115 North Main Street in Mammoth.

Little League players who are the ages 4 – 12, as of May 1, 2015, are eligible to register and play in their respective division – Tee Ball, Coach Pitch, Minor, or Majors.

Additionally, players ages 13 – 15 can sign up to play for a Junior division team, according to Mammoth Little League Vice President Pablo Rodriguez. A Junior team will only be formed if enough players sign-up to field a team.

Next week's registration dates and times are as follows:

Tuesday, Feb. 17, 7:00 – 8:00 p.m.

Thursday, Feb. 19, 6:00 – 8:00 p.m.

There will also be a coaches meeting held before the Tuesday registration from 6:00 – 7:00 p.m.

Rodriguez also announced the sign-up

fees for the 2015 season:

First player - \$50.00

Second player - \$40.00

Each additional player - \$35.00

Rodriguez said additional registration dates and times will be announced at a later date. He also said the league is looking for volunteers in all areas. Anyone interested in helping this season should contact Pablo Rodriguez at 520-487-2734 or League President Ralph Valencia at 520-414-9936.

“Under the weatherization program, improvements are made by CAHRA to help reduce energy consumption and energy costs,” Rosales said. A thorough assessment of the eligible home is performed including diagnostic and blower door testing to determine where the house is losing energy and what can be done to stop the loss. The auditor will also assess health and safety issues that might exist in the home. A test to determine carbon monoxide leakage is also done.

Minor repairs are made to make the home safer, more sound and secure. “Families are counseled as to changes in their energy use habits, which will complement the work done on the homes, and help promote the conservation of energy,” she explained. After making the efficiency upgrades, the home could save from 5 to 30

percent on the family’s energy bill.

Based on the home assessment, weatherization repairs may include repair or replacement of old cooling and heating systems, repair or replacement of leaky ductwork, replacement of old or inefficient refrigerators and the addition of sunscreens to sun struck windows. Staff may also be able to assist homeowners with the repair or replacement of inefficient or non operable appliances and water heaters.

Homes needing larger repairs such as roofing, ceilings, floors, window or door replacement, plumbing, electrical or major rehabilitation may not be eligible for the program.

Funding is provided by the Department of Energy and Low-Income Home Energy Assistance Program through the Arizona Governor’s Office of Energy Policy. Utility companies, Arizona Public Service, Salt River Project and Southwest Gas Corporation also provide funding for the program. Funding for minor home repairs and appliances is provided by Utility, Repair, Replacement and Deposit funds through Arizona Community Action Agency. CAHRA does not have funding for emergency home repairs or rehabilitation.

Eligibility includes: 1) household must be low income, 2) the home must be owned by the applicant or be in process of purchasing, 3) applicant must have lived in the home for least 12 months. An application must be completed and verification of income, home ownership and other documents must be provided.

“It’s important to stress that the weatherization program is not an emergency home repair program and applicants may be placed on a waiting list,” Rosales stated.

For an application or for information call the CAHRA office at 520-466-1112 or toll free 1-877-472-2472 (from long distance areas only) or write to 109 N Sunshine Blvd., Eloy AZ, 85131 ATTN: Weatherization Program.

Public Notice

The Gila/Pinal Local Workforce Area comprised of both Gila and Pinal Counties plans and coordinates workforce services for both counties. To better align both counties with local workforce areas to address economic and workforce planning and services, both counties have agreed in principle to dissolve the current relationship. Gila County is considering joining the Navajo & Apache Counties Workforce Investment Area and Pinal County is considering the establishment of a Workforce Investment Area. The dissolution and realignment is scheduled to be effective on July 1, 2015.

Pinal County is considering any and all input from the public at a public hearing scheduled for:

Date: March 4, 2015
Time: 9:30 a.m.
Location: Pinal County Board of Supervisors Hearing Room
135 N. Pinal St., Building A

Community Schools Basketball heads to Kearny

As this new year has begun, we look forward to Community Schools Athletic League which is a range of school districts including the Oracle School District, Mammoth-San Manuel (MSM) Unified School District, Hayden-Winkelman Unified School District and the Ray Unified School District. These programs include soccer, flag football, basketball, wrestling, Aikido karate, kids cooking, swimming and cheerleading/

spirit squad through multiple events.

Basketball season is in full swing and Saturday games were held in Kearny at the Ray High School gym.

Lisa Armenta, community schools director at Mammoth-San Manuel, is excited about the new year and the activities for the youth. For those of you not familiar with community schools basketball program it has four age appropriate divisions:

kindergarten/down, first/second grade, third/fourth grade and fifth/sixth grade. The junior high division that community schools has tried to put in place simply doesn't work due to incredible success of the four Copper Corridor school district programs.

The reason the MSM Community Schools Athletics Program is blooming is through the volunteers that give selflessly their time

and dedication to help the youth of our communities. Let's make this year another great year!

If you have the opportunity to watch any of the upcoming games, please do so. If you have questions or need additional information, please refer to MSM Community Schools Facebook page at: Msm CommunitySchools or contact Lisa Armenta at 520-385-2337 ext. 1110.
