OBITUARIES

Cruz 'Pee-Wee' L. Aguirre

Cruz L. Aguirre (Pee-Wee) was born on Aug. 17, 1948. He passed away peacefully, surrounded by family on Feb. 9, 2022, at the age of 73. Pee-Wee was the oldest son of Cruz and Amelia Aguirre, born as a preemie weighing 2 pounds, and his Tata Hilario Lopez gave him his nickname Pee-Wee.

Pee-Wee was a lifelong resident of Hayden, AZ. Pee-Wee attended Hayden High School where he graduated in 1968. He was drafted into the United States Army and honorably discharged. While working at ASARCO, he completed a Brick Mason Apprenticeship and retired in 2002 after 34 years of service.

Pee-Wee was a dedicated servant for the St. Joseph's Catholic Church and the church keeper for many years. Pee-Wee enjoyed fishing, hunting, ASU and Green Bay Packers football. He was often called upon to be a Nino or a Compa by his friends and family. He was

a man of few words but had the most generous heart. He will be greatly missed by his family and all who knew him.

Pee-Wee is survived by his mother, Amelia L. Aguirre; sister, Lupe Guzman (Abe); brothers, Gabriel (Odilia), David (Rubina), Daniel (Malena) and Edward (Rosa); niece, Veronica Fuentes, and many more nieces and nephews. Pee-Wee was preceded in death by his father, Cruz B. Aguirre.

Services for Pee-Wee will be held Thursday, Feb. 17, 2022, at St. Joseph's Catholic Church in Hayden. Visitation will begin at 9 a.m. followed by Rosary at 9:30 a.m. and Mass at 10 a.m. He will be laid to rest at Mt. View Cemetery.

Rafael 'Ralph' R. Sandoval

Rafael "Ralph" R. Sandoval, 83, of San Pedro passed away on Thursday, Feb. 3, 2022, at Foothills Rehabilitation Center in Tucson, AZ. Family and loved ones surrounded him at the end of his life. Ralph was born in San Pedro to Felix and Jesus R. Sandoval on March 13, 1938.

Ralph was a lifelong resident of San Pedro. He was married to Maria R. Cruz of Safford, AZ on July 8, 1967. Ralph and Mary Rose loved and raised their four children together. He loved spending time with all his grandchildren. His hobby was playing golf. Ralph was a devout Catholic. Ralph worked at ASARCO for 41 and a

half years and retired Jan. 29, 1999.

Ralph is preceded in death by his parents, sisters, Carmen, Enedina, and Oralia; brother, Frank; and his beautiful granddaughter, Marissa. He is survived by his wife and children, Rafael Jr. (Bryce), Gabriel (Veronica), David (Christine) and Jessica (Freddie). He leaves behind 9 grandchildren and 7 great-grandchildren.

Services for Ralph will be held Saturday, Feb. 19, 2022, at St Joseph's Parish in Hayden. Visitation will begin at 8 a.m. followed by Rosary at 9 a.m., Eulogy reading at 9:30 a.m. and Mass at 10 a.m. Ralph will be laid to rest at Mt. View Cemetery in Hayden, AZ.

Proposed Pinal County redistricting will break up Copper Corridor

Every 10 years, Pinal County is required to conduct a redistricting process that ensures each County Supervisor district has an equal number of residents per district. In the process, they must also consider the connectivity and congruent connection of the district. The process must also avoid separating municipal communities and should try to avoid having incumbent candidates running against each other.

For many years, District One included eastern Pinal County, Eloy, Florence and Coolidge. During the 2010 redistricting process

two additional Supervisor districts were added to balance the number of residents per district. Declining population in the Copper Corridor is affecting the ability to keep the mining communities of Superior, Kearny, Mammoth, San Manuel and Oracle together. Collectively, this part of the Pinal County is known as the Copper Corridor.

Pinal County staff has presented two options for the Board of Supervisors to vote on. Prior to the Board of Supervisors voting on final maps, there are a series of community input listening sessions. Both proposals will

chop up the eastern portion of the County.

Plan A proposes that Superior join a district with Apache Junction, Gold Canyon, Queen Valley, Top of the World and a small portion of unincorporated population north of the San

Public comments sought on changes to Air Force training areas

The Copper Corridor region is used to playing a large role in the practice and training of both US and Arizona air troops. It is not uncommon to see several Air Force jets flying in formation or hearing the jets whiz by over your head on a walk or even an occasional and accidental sonic boom will rock your house. Authorities believe that the Telegraph and Mescal forest fires this summer may have been started by flares that did not extinguish before hitting the ground.

Leaders and land managers that are in the Outlaw, Jackal, Morenci and Reserve Military Operations Areas (MOAs) were notified that the Air Force had filed an Environmental Impact Statement that was subsequently published in the Federal Register. An Environmental Impact Statement is a series of studies and public comment period which helps to evaluate if the requested actions by a company or government entity would affect public lands, animals, or humans.

On Tuesday, Feb. 8, the Air Force hosted a public meeting at the Superior Town Hall, one of seven public hearings that is designed to help the public better understand the process, learn about what

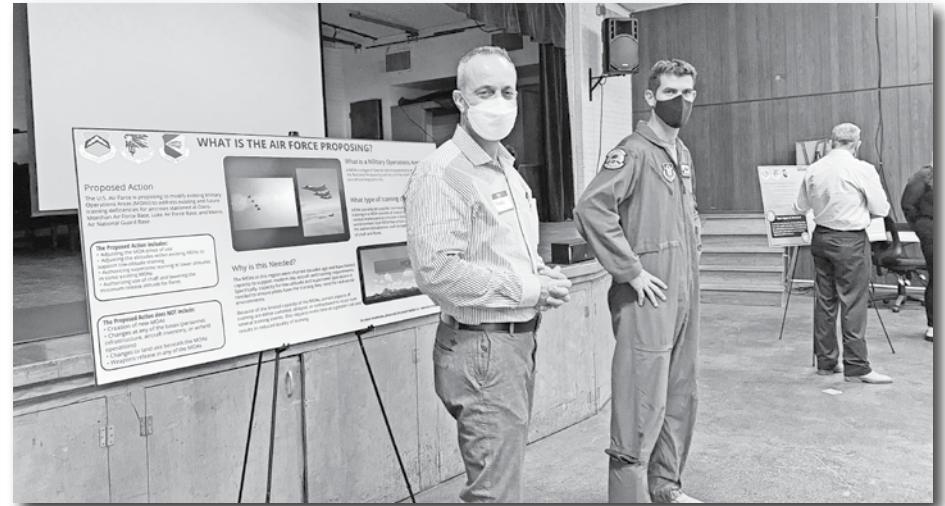

the Air Force is requesting and also allow the public to comment on the proposed plans. Comments must be received by March 4.

The majority of the Copper Corridor is affected by these plans as the communities of Superior, Miami, Globe, Kearny and Mammoth are located within the Outlaw MOA, with San Manuel and Oracle just outside of the Outlaw district. The Jackal MOA also covers the mountains and canyons such as the Aravaipa Canyon all the way to Safford.

In the scoping document for the EIS, the Air Force explains that in order to continue to train properly they need to utilize existing military air space more aggressively, as other air spaces are more congested. This will also allow airmen to train and practice closer to their home bases. The air spaces are used primarily by Davis Monthan Air Force Base, Luke Air Force Base and Morris ANGB.

According to their website, the MOAs that are currently used for Air Force training in Arizona, specifically low altitude airspace and airspace that supports supersonic operations at low altitude, have become saturated with aircraft. While the Air

WHAT ARE THE PRELIMINARY ALTERNATIVES?

Alternative Selection Process

The Proposed Action and any alternatives must meet the following objectives:

- Only optimize airspace managed by the Air Force. The Air Force cannot modify another service's airspace or rely on its availability to accomplish daily requirements.
- Optimize airspace within a reasonable distance from the bases.
- Improve the existing MOAs to support low-altitude training and supersonic operations at lower altitudes.
- Increase variety of terrain in existing MOAs overflown during low-altitude training to improve training realism.
- Adjust the published times of use of existing MOAs to better align with how they are used.
- Reduce use of restricted areas for non-hazardous training to improve availability of the high-demand airspace and live-fire ranges at Barry M. Goldwater Range for hazardous training.

Alternative 1: No Action

Under the No Action Alternative, none of the existing MOAs would be modified and training requirements would remain unmet.

Alternative 2

Alternative 2 would fully optimize the existing MOAs. Proposed changes include:

- Expanding published time of use to how they are currently used.
- Expanding size of Tombstone MOA.
- Lowering the floor of Tombstone, Outlaw, Jackal, Bagdad, and Gladstone MOAs.
- Authorizing the use of shaft in the Tombstone MOA.
- Lowering the altitude for releasing flares in Tombstone, Outlaw, Jackal, Bagdad, and Gladstone MOAs.
- Authorizing supersonic operations down to 5,000 feet AGL in Tombstone, Outlaw, Jackal, Morenci, and Reserve MOAs.

Alternative 3

Under Alternative 3, the horizontal expansion of Tombstone MOA would not occur, but the floor of Tombstone MOA would still be lowered. The floor of Jackal MOA would also be lowered. The other proposed changes would be the same as Alternative 2.

Alternative 4

Under Alternative 4, supersonic operations would be authorized down to 10,000 feet AGL in Tombstone, Outlaw, Jackal, Morenci, and Reserve MOAs instead of 20,000 feet AGL. While this option would not fully optimize the airspace for supersonic operations, lowering the authorized altitude would improve the current capabilities. The other proposed changes would be the same as Alternative 2.

Your Input is Needed!

Scoping is the process of requesting input from the public and other stakeholders on the alternatives to include in the Draft EIS. Reasonable alternatives must meet the objectives defined above.

For more information, please visit the project website at: www.ArizonaRegionalAirspaceEIS.com

The Preliminary Alternatives were presented in the Air Force's EIS.

Nail-biting game brings Lobos' post-season to a close

By Nathaniel A. Lopez
Copper Basin News

On Feb. 8, the Hayden boys basketball team traveled to Tucson to compete against Desert Christian in the first round of the 1A State Play-Ins. Desert Christian's small gym was completely filled. Half were Desert Christian fans, and the other half were dedicated Lobo supporters, proudly wearing their blue and white.

The game started off with the Lobos scoring first, while playing a strong defense and quick offense. Both teams went back and forth for control of the scoreboard, but the Lobos ended the first quarter ahead by one, with a 15-14 score. The second quarter once again saw the Lobos score first. The game continued to be neck and neck. The boys played with intensity, and worked their rebound game. The second quarter closed out with a score of 31-32.

During the third quarter, the Lobos began falling victim to Desert Christian's passing game. The point difference began to grow, but the Lobos were able to close it by the end of the quarter. The third quarter ended with a 43-44 score. The boys again had a tough time keeping

that close score during the beginning of the fourth quarter. Down by 43-49, the Lobos turned up the heat and were able to close the 6-point difference. With only 50 seconds remaining the score was 53-55, during the last 20 seconds of the fourth quarter, the Lobos tied it up 55-55, sending the game into overtime.

The entire crowd was on the edge of their seats as the overtime quarter began. The Lobos put points on the board first, but Desert Christian quickly tied it back up. The boys brought it to 61-60, then Desert Christian tied it back to 61-61. For a second it seemed like the game was about to go into double-overtime, but a call from the referee saw Desert Christian get two penalty shots for a foul with only 1.9 seconds left on the clock. Desert Christian scored one of the shots, bringing them one point above the Lobos. The 1.9 seconds ran out quickly, as an indifferent crowd made rowdy noise.

The final score of the game was 61-62, bringing a close to the boys 2021-2022 basketball season. The boys closed out the season ranked #8, with an overall season record of 13 wins and 8 losses.

Congratulations on a great season, Lobos!

WNRCD and Oracle Community Learning Garden replant banks of the Gila River

About 30 people were busy early Thursday morning last week planting native trees along the Gila River in Kearny.

The Winkelman Natural Resource Conservation District sponsored the planting under the direction of Bill Dunn and Kyle Thompson with the Winkelman NRCD. The trees were grown and provided by the Oracle

Community Learning Garden which also helped in the planting along with the Town of Kearny and the Winkelman NRCD.

The trees are willow and cottonwood which are native to Arizona. The group set out about 450 trees and plan to do more soon. They wanted to do their part in providing native trees along the river.

AIR FORCE

Continued from page 4

Force manages an extensive network of valuable SUA in the region, including the restricted areas associated with the Barry M. Goldwater Range, the volume and attributes associated with the individual MOA are insufficient to meet the current training requirements. The Air Force is proposing a regional approach that aims at optimizing the existing training airspace to meet current and future mission requirements of multiple users. The airspace proposed for optimization includes the following MOAs: Tombstone, Outlaw, Jackal, Reserve, Morenci, Bagdad, Gladden, Sells, Ruby, and Fuzzy. These MOAs overlie land located throughout southern Arizona and a small portion of western New Mexico.

Specifically for the Outlaw and Jackal MOAs, their requested changes would include: flights being operated from 6 a.m. to 10 p.m. Monday through Friday. Currently they are allowed to fly until 6 p.m. and from 6 to 10 p.m. but only with certain permissions via NOTEM. They are also requesting to drop flares at 500 feet in elevation. They are also requesting permission to lower the elevation where flares can be released and also lower the elevation of supersonic flying.

You can learn more about the specific elevation changes and see maps of the air spaces online at: www.ArizonaRegionalAirspaceEIS.com

Comments can be made online: <https://bit.ly/AirForceEISComments> and must be made by March 4, 2022. You can mail comments directly to: Arizona Airspace, c/o Cardno 501 Butler Farm Rd. Suite H Hampton, Virginia 23666. There are also three additional public hearings: Feb. 22 in Reserve, New Mexico, at Village Hall; Feb. 23 in Morenci at the Clifton Community Center; and on Feb. 24 in Animas, New Mexico at the Animas High School. All of these hearings are scheduled from 5 to 7 p.m.

Once the public scoping period is over, comments will be categorized and the concerns will be studied and evaluated by a private organization that specializes in these type of studies. Once the study is complete, a Draft Environmental Impact Statement will be released and there will be an additional review and comment period. Once those comments are reviewed a Final EIS will be released and a Record of Decision will be signed. It is not expected that this process will be complete until 2024.

RESOLUTION
COPPER

Proposal A, above, and B, below, will have the Copper Corridor split into two different districts.

REDISTRICTING

Continued from page 3

Tan Valley Area. This district would be known as District 5. Kearny, Mammoth, Aravaipa, San Manuel, Mammoth and Oracle would remain in District 1 with this district also including Florence and Coolidge, along with all the unincorporated areas in between. The communities south of Oracle including SaddleBrooke, Marana and Red Rock will remain in District 4.

Plan B proposes that Superior and Kearny join District 5, which would also include a small portion of prison population in Florence, Apache Junction, Queen Valley, Gold Canyon, Top of the World and a small area north of San Tan Valley.

The Copper Corridor communities historically have been in one Supervisor District which helps to maintain interest among like communities. Both plans will place communities of the Copper Corridor into districts where they will be combined with much larger and more urban districts.

Residents of Pinal County are urged to participate in the public comments. There will be a public hearing in San Manuel on Thursday, Feb. 17, at the San Manuel Community Center from 6 to 7 p.m. The community center is located at 111 W. 5th Avenue. Following the community outreach events, the Pinal County Board of Supervisors will vote on a final redistricting map. The Board of Supervisors are expected to vote on the final maps in early March. The redistricting will not take effect until the next election in 2024. This will allow for voters to either vote for incumbent or another candidate.

If you are unable to attend the public meeting in San Manuel or one of the other meetings held throughout the County, you can also go online to make your own comment or make your own map preference: <https://bit.ly/3sD6Mzb>.
