# U.S. Mines produced an estimated \$90.4 Billion in nonfuel mineral commodities during 2021; Arizona ranks No. 1 in production

U.S. mines produced approximately \$90.4 billion in mineral commodities in 2021—a \$9.7 billion increase over the 2020 revised total of \$80.7 billion—the U.S. Geological Survey announced recently.

This information

comes from the 27th annual Mineral Commodity Summaries report from the USGS National Minerals Information Center, which was published Jan. 31. The report is a comprehensive source of 2021 mineral data for the world and includes information on

the domestic industry structure, government programs, tariffs, world production and five-year salient statistics for nonfuel

mineral commodities that are important to the U.S. economy and national security. It also identifies events,

trends and issues in the domestic and international minerals industries that impact production and consumption. This

report covers more than 90 nonfuel mineral commodities monitored by the USGS.

“Decision-makers and leaders in both the private and public sectors rely on the crucial, unbiased statistics and data provided in the Mineral Commodity Summaries to make business decisions and determine national policy,” said Steven M. Fortier, USGS National Minerals Information Center director. “Industries that use nonfuel mineral materials—such as steel, aerospace and electronics—created an estimated \$3.32 trillion in value-added products in 2021, which represents an 8% increase from that in 2020.”

Increases in consumption of nonfuel mineral commodities were attributed to the restarting of markets in 2021 following closures due to the global COVID 19 pandemic in the prior year.

The \$90.4 billion worth of nonfuel mineral commodities produced by U.S. mines in 2021 included other industrial minerals and natural aggregates, as well as ferrous and nonferrous metals. The estimated value of U.S. production of all industrial minerals in 2021 was \$56.6 billion, which is 63% of the total value of U.S. mine production value. Crushed stone was the leading nonfuel mineral commodity domestically produced in 2021, accounting for 21% of the

# Jr. Miners do well at state for young team; DJ Small earns the silver

By Nathaniel A. Lopez  
San Manuel Miner

Over the weekend the San Manuel Jr. High Wrestling Team brought its season to a conclusion at the JH State Championship Meet. With a team of only nine wrestlers, seven of them being first-year wrestlers, the Miners were able to place 25 out of the 41 teams competing.

Of the nine wrestlers, one Miner wrestler was able to make his way to the podium. DJ Small's 104-lb. championship match started off with intensity, going back and forth with his opponent for the first takedown; the wrestlers rushed out of bounds. Returning to the center of the circle, Small and his opponent continued to battle to see who would get the first takedown, Small would end up giving away the takedown moments before the end of the first period.

Small started off the second period in the top-position. He worked his opponent flat, then attempted to bring his back to the mat. The opponent eventually reversed out of Small's control, but then brought it back to the neutral position. With both of them back on their feet, they once again fought for the takedown. Small found the opportunity with a headlock, but his opponent rolled through it, and slowly took control of Small.

At the start of the third period the score was 3-5, with Small behind by 2 points. The decision being Small's, the period started off in neutral. The fight for the takedown once again ensued. Both wrestlers struggled to gain control of each other, and the period was spent in a battle for control. No points were given to either wrestlers during the third period, resulting in Small's loss by 2 points. DJ Small took the podium and received the silver medal and title of Arizona's 104-lb. Junior High Wrestling State Runner Up.

"They are model student athletes who came to practice everyday with a great attitude. They took care of business in the classroom, and improved greatly this season," commented coach Julian Rodriguez, "Thank you, Miners, for making this a season to remember. We're proud to be your coaches. Parents, thank you for your gracious donations throughout the season, and volunteering when needed. It was truly a team effort."

The San Manuel Junior High wrestling team will return eight wrestlers next season.

DJ Small pins his opponent during the December San Manuel Jr. High School Wrestling Invitational.

## San Manuel NHS, NJHS welcomes new members

Let's face it. In junior high and high schools across the country, athletes receive the majority of the recognition. Except for honor rolls and end of the year scholarship announcements, the honor students rarely receive accolades.

But last week, honors students at San Manuel Jr./Sr. High School were recognized and honored for their achievements.

On Jan. 24, the San Manuel chapter of the National Honor Society inducted new members into its ranks. The ceremony was held at the Mammoth-San Manuel School District Auditorium. This ceremony is a rite of passage for academics and it was a

beautiful event.

New members this year are: Jonah Altamirano, Jazlynn Clark, Larissa Corona, Aubrey Encinas, Kayla Ortega Cesario, Natalye Pinedo Tellez, Alejandra Rodriguez Moreno, Jasmine Sanchez and Emerik Zovko.

Two days later, in a ceremony of their own, 10 students were inducted into the National Junior Honor Society. New members are Aaliyah Smith, Makayla Chavez, Jesus Guerrero, Nicholas Aronson, Derek Anaya, Noelle Ramirez, Madelyn Richardson, Julie Guerrero, Kenyah Moreno and Athan Riekofski.

Congratulations to all of these students!

## US MINING

Continued from page 2

total value of U.S. mine production.

U.S. metal mine production in 2021 was estimated to be valued at \$33.8 billion, or 23% higher than that in 2020. The principal contributors to the total value of metal mine production in 2021 were copper (35%), gold (31%), iron ore (13%), and zinc (7%).

There were 14 mineral commodities produced in the U.S. valued at more than \$1 billion each. These commodities were, in order of value, crushed stone, copper, cement, gold, construction sand and gravel, iron ore, salt, lime, industrial sand and gravel, zinc, soda ash, phosphate rock, palladium and molybdenum.

In 2021, the top 10 producing states were, in descending order of rank, Arizona, Nevada, Texas, California, Minnesota, Alaska, Utah, Florida, Missouri and Michigan.

Other key findings in the report include:

- In 2021, the USGS published a draft proposed revision of the critical minerals list (86 FR 62199) as an update to the original list published in 2018 (83 FR 23295). Critical minerals are discussed in a new critical minerals update added to the front section of the Mineral Commodity Summaries 2022. The minerals in this new section are those from the original list published in 2018. USGS anticipates the publication of the finalized revision of the critical minerals list by the end of February 2022, following the close of a 60-day public comment period on Jan. 10, 2022.

- Due to supply constraints and increasing consumption, prices increased for many commodities, particularly for metals, and contributed significantly to the increase in the value of nonfuel mineral production in the U.S. For example, copper was projected to average about \$4.20 per pound in 2021, which was an all-time high.
- Domestically, \$43 billion of metals and mineral products were recycled including metals such as copper, gold, iron and steel scrap, and platinum-group elements to supply domestic consumption. This was an increase in value of over 50% from that in 2020.

The USGS delivers unbiased science and information to improve understanding of mineral resource potential, production, consumption and how minerals interact with the environment. The USGS National Minerals Information Center collects, analyzes and disseminates current information on the supply of and the demand for minerals and materials in the U.S. and about 180 other countries. This information is essential in planning for and mitigating impacts of potential disruptions to mineral commodity supply due to both natural hazards and man-made events.

## Copper Corridor Communities Seeing Increase of COVID-19 Cases

	Jan. 24, 2022	Feb. 1, 2022	Total Increase

Recently, State and National media have reported an increase in positive COVID-19 Cases and the new Omicron variant is spreading across the globe and has been reported in Arizona. The CDC has now reported that quarantine period for those infected can be reduced to five days, versus the 10-day period. Copper Area News collects this data from the Arizona Department of Health website, these case numbers do not necessarily reflect tests that are taken with at home tests.

The communities of the Copper Corridor continue to see an elevated increase in new cases. The CDC and other health officials warn that those who are not vaccinated should continue to practice physical distancing, wear masks in public and avoid crowded places and is also strongly recommending everyone wear a mask indoors and in group settings. There are also incidences of break through cases where people who have been vaccinated do become ill, however those breakthrough cases generally have been mild cases and the chance of death is not as high as those for unvaccinated. The Omicron variant is showing additional symptoms such as sore throat and runny nose, which is similar to the common cold. It is recommended if you are showing any symptoms of COVID-19 or cold/flu symptoms to get tested.

COVID Vaccines are readily available at local clinics in the region including Cobre Valley Clinics in Superior and Kearny, Pinal County Public Health and Sun Life Clinics. Other chain pharmacies such as Walgreens, grocery store pharmacies and CVS also have vaccines available.

Above is a chart showing the number of total cases for each of the Copper Corridor communities Jan. 24 and Feb. 2. Keep in mind that zip code data also includes unincorporated areas around a community. For instance, Riverside/Kelvin area is included in the Kearny zip code. Aravaipa and Dudleyville are included in the Winkelman zip codes, etc.

Those experiencing COVID-19 symptoms should seek testing and quarantine until they can confirm a negative test.

# Lady Miners post win over Tempe Prep

By Nathaniel A. Lopez  
San Manuel Miner

The San Manuel basketball team saw a short amount of competition last week.

On Jan. 28, both the boys and girls teams traveled to Tempe Prep. This would be the first time that both teams faced off against each other this season. The Miners

suffered a big loss of 28-88, while the Lady Miners were able to come home with a win. The final score of the girls game was 34-23.

The following day, the boys team traveled to Hayden to face off with the Lobos for the second time of the season. The Miners were able to post 36 points, but were unable to hold down the Lobos' offense. The final score of the game was 36-61.

# San Manuel's Interact Club aids in Rotary golf tourney

On Nov. 22, 2021, San Manuel's Interact Club volunteered at the Rotary Club of SaddleBrooke's Fore for Kids Charity Golf Tournament held at Oro Valley Country Club. Kids and their sponsors helped with moving golf bags, carrying equipment, setting up equipment, hanging up signs, taking signs down, and orientating golfers.

Students who attended were Noah Huerta, Aiden Lozoya, Taylor Bowser, Brian Mullens, Marialena Molina, Jazlynn Clark, Alejandra Rodriguez-Moreno, Aime Diaz, Cheeto Castro, and Interact Club Student President Haylei Lozoya.

"We truly have the best students in the world, and it makes me so happy that they want to make a positive difference in the world," said Interact Advisor Richard Stocking.
