February is Heart Month

It's here! February, the most romantic month of the year. The month where we celebrate love on Valentine's Day. We buy or loved one chocolates, flowers and other trinkets to show them how much we love them. So how did February get its name? February is derived from the Latin word "februs" meaning "to cleanse." The month was named after the Roman Festival, Februalia, a month-long festival of purification and atonement. Now that you know how February got its name and what holiday we all think of when we hear "February" what do we do you know about our heart?

Here are some facts on the organ we call our "heart".

The average human heart is constantly working 24 / 7 to pump blood throughout your body and it pumps approximately 2,000 gallons of blood each day. A healthy adult heart should beat anywhere from 60 to 100 times a minute while at rest. Do the math, and it adds up to around 100,000 beats a day and 2.5 billion beats in the average lifetime. A woman's heart beats at a rate of six (6) beats per minute faster than men. But because a male heart is bigger (by about 25 percent), so it can pump more blood in a single beat.

Newborns have the fastest heartbeats, at 70 to 190 beats per minute, and the hearts of well-trained athletes tend to beat slower, at a rate of 40 to 60 beats per minute.

Most people believe our heart is located on the left side of our chest but that's not true. Our heart is located in the center of the chest. That's why when you perform CPR you place your hands in the center of the chest directly over the heart.

Another thing, while it may be a compliment to be told you have a "big heart" actually having a big heart isn't

LETTER TO THE EDITOR

Family First celebrates 15 years of service in Pinal County

Family First Pregnancy Care Center and Family Diaper Bank has provided 15 years of service to mothers, youth and families of Oracle, San Manuel, and Mammoth at its Oracle Center at 575 American Ave. It is also celebrating 8 years of service to people living in Winkelman, Hayden, and Kearny at its center at 508 N. Thorne Avenue in Winkelman. Although we have been operating many years in both areas, we still have people who will stop in and wonder what Family First does.

The answer is hard to explain because we are a unique nonprofit organization that provides an incentive program to people of all ages. We offer free educational classes for a wide range of different parenting and life skills. We have practical lessons on infant and child development from conception through adolescence. These interesting and informative classes are tailored to meet each client's individual needs.

Although we are not professional counselors, we have many years of experience and training in our educational resources that will help parents raise their children to grow to be happy, healthy, confident young adults. We also provide a caring, confidential listening ear for all caregivers, mothers, and fathers who feel insecure about how to best raise children in all family settings. The lessons are easy to understand and are done as individual or small group classes. Appointments can be made by calling the Oracle center at 520-896-9545 or the Winkelman center at 520-664-5795. The Oracle center is open Monday, Tuesday, and Wednesday for appointments from 9:30 a.m. to 4:30 p.m. The Winkelman center is

open Wednesday and Thursday from 9 a.m. to 2 p.m.

The benefit of taking classes here is our "Earn While Learn" program which lets you earn "Mommy or Daddy Dollars" for each class taken that can be used to purchase things needed by most parents and caregivers at our center stores, including: diapers, wipes, clothes, formula, and many other items. We also have beautiful handmade quilts and crocheted blankets made and donated by groups of talented and generous people who create these unique gifts of love. Our stores are stocked by donations from churches and individuals who donate items needed by our families.

Wednesday mornings feature Story Time for all one to four year old children from 10 to 11 a.m. Besides hearing a story, they enjoy doing crafts, sharing snacks, and playing with other children. It is a fun time for the children and for the parents to observe and talk with other mothers.

Our services are free to all people, regardless of age, ethnicity, income level, or religious beliefs, are invited to come here for information, classes, or confidential help. Family First is always looking for volunteers to become involved with the Family First team of women who are dedicated to our mothers, youth and families. If you have any questions about different Family and life issues, we probably have classes to help you as you navigate through the changing developmental stages and much more.

Come help us celebrate and meet us in person. Our

friendly volunteers are waiting to meet and greet you soon.

Volunteer to be a voice for young children in your Arizona community

If you are passionate about children's issues and want to impact the early childhood programs available to young kids in our community, First Things First (FTF) needs you. FTF is Arizona's early childhood health and development agency and seeks about 150 volunteers for the opportunity to collaborate with other dedicated community members in local communities across Arizona.

This year, FTF has made the application process simple with an easy online application (<https://www.firstthingsfirst.org/serve-az-community/>)

Volunteering on a regional council is a unique, high-level leadership opportunity to make a positive impact on children and families in our community. Regional council members help define priorities

for the local services and supports for young children and their families. By collaborating with other dedicated community members, they provide opportunities for young children to get a strong start in life.

Research has shown a child's early experiences lay the foundation for a lifetime of success in school and beyond. FTF partners with parents and communities to give children birth to age 5 the tools they need to arrive at kindergarten prepared to succeed. Regional councils made up of community volunteers inform decisions about how First Things First can help strengthen families, expand early learning opportunities and increase access to preventive health services in their area.

FTF is accepting applications in the Pinal Region from various backgrounds for the following seats that are open either due to vacancy or terms about to expire: individuals from the business, education, health, faith and childcare communities – who want to be a voice for children in our community. Regional council members must live or work in this region. The six

regional council seats open in this region are:

- Child Care or Preschool Provider: Individuals applying for this seat must be licensed by the Arizona Department of Health Services, certified by the Arizona Department of Economic Security, authorized by tribal government or the

Miners defeat Vandals on Benny's buzzer beater

By Andrew Luberda
San Manuel Miner

San Manuel senior guard Benny Laguna drained a 14-foot floater at the buzzer last Friday night at Miami to give the 16th-ranked Miners a 43 – 41 victory against the No. 12 Vandals.

"It actually wasn't," the 5-foot-8 Laguna answered

afterwards when asked if the final play was designed for him to take the final shot. "It was a play that we ran, and it didn't go as planned. I was the last resort. I went up for a three, but I knew I wasn't going to make it. So, I drove and put up a little easy floater and it ended up going in."

Miners' head coach Damon Lovato acknowledged that Laguna wasn't the first option on the play – Caleb Quintero then Javy Tamayo were. The Vandals defense on those two left Laguna with the chance to be the hero and he didn't miss – his chance or the shot.

The Miners were mad following a lopsided 64 – 35 loss at home to Miami on Jan. 7 and on Friday they got even.

"We've been playing better on the road all year long," Lovato told the *Miner*. "We thrive on going into those hostile environments, where there is the student section, the band is there, and we're on our own. I think the boys feed off that. We really wanted to play the game we know we should've played at home."

Laguna fished with nine points, three assists, a rebound, and a steal. Senior Jose Moreno filled the stat sheet with

10 points, nine rebounds, five assists, three steals. Senior Gilbert Pinedo added eight rebounds. Tamayo scored a game-high 16 points in the win.

After avenging the ugly loss to the Vandals earlier this season and the region tournament starting in about a week, the Miners are feeling good as February Frenzy approaches.

"It was a really good win and we needed that game to reset our confidence a little," Laguna said. "We just have to keep pushing and hopefully we can get ourselves a championship.

"We've been putting in work all season and doing great, but we still need to come together as a team to do what we have to do."

According to their head coach, the Miners are doing just that in timely fashion.

"We're playing good ball right now," Lovato said. "We're getting hot at the right time."

Up next: 2A South Region Tournament at San Carlos. Date, time and opponent to be determined.

Siberian pianist to visit OrCA

Mark Fouxman is a man of many talents — concert pianist, charismatic and inspiring piano teacher, inventor, audio and electronics engineer, microphone designer, and owner/chief designer of a successful microphone production company. He has performed as a soloist, with orchestra, and in chamber music recitals in some of the greatest halls in Russia, Israel, and Holland, including the Grand Hall of the Moscow Conservatory, Tel Aviv Museum of Arts, Jerusalem Music Center, and the Concertgebouw in Amsterdam.

He started piano lessons with his father, Vladimir Fouxman (distinguished teacher at the Kemerovo Music College). Among the biggest influences on his musical education were Lev Naumov in Moscow, and Michael Boguslavsky, Victor Derevianko, and Pnina Saltzman in Tel Aviv.

Fouxman moved to the US in 1998 to complete his DMA at Arizona State University. Concert engagements in the United States have included recitals at Scottsdale Steinway Hall, Chicago Steinway Hall, Arizona State University, University of Utah, Indiana University South Bend; a live broadcast on WFMT radio station in Chicago;

and performances at the New York International Piano Festivals, as well as concert tours in Russia and Costa Rica.

Having a deep belief in the purity of music, Dr. Fouxman gives preference to a constant search for new ways of self-expression and perfecting the musical craft rather than to a busy performing schedule. In his playing critics emphasize his piano mastery, along with a deep and highly personal approach to music making. They also note that his attention to shaping the melodic line, voicing the music texture, and beauty of sound, link his work to the performing values of the past.

An integral part of Dr. Fouxman's musical activity is his highly respected pedagogical work. At the core of his approach to teaching piano is the music itself, where a clear picture of the composer's intentions and thorough analysis of musical content dictate the means of technical execution, and inspire personal emotional connection with music and performance.

Siberian concert pianist, Mark Fouxman will bring his mastery of music to Oracle Center for the Arts on Feb. 9 at 3 p.m. Oracle Center for the Arts is located at 700 E. Kingston St., Oracle, AZ 85623.

SAFETY

Continued from page 2

necessarily a good thing. An enlarged heart is a symptom of heart disease. The average adult heart is about the size of your fist.

Here's a question for you ... What do you think is the most common day of the week when people experience a heart attack? The most common day of the week for heart attacks is Monday. The European Journal of Epidemiology found that the incidence of heart attack was 20 percent higher in men and 15 percent higher in women on Mondays. Other popular heart attack days are Christmas, the day after Christmas and New Year's. There are many factors that contribute to this phenomenon.

Our bodies contain three different kinds of blood vessels: Arteries carry blood from the heart to our other organs, veins carry blood from organs and limbs back to the heart, and capillaries connect the two. Together, all of the arteries, veins, and capillaries in the body are long enough to go around the world more than twice. Our height plays a role in exactly how many "miles" of vessels are in our body. How tall are you? Think about it.

Many people have heard of a thing called hardening of the arteries. The medical term, atherosclerosis, is the result of cholesterol and fat buildup in the vessels, which causes plaque. It can lead to coronary artery disease, heart attack, and stroke. When it comes to sneezing, many people think your heart stops for a minute or so. During a sneeze, a momentary change in the pressure in your chest may affect blood flow but your heart doesn't stop when you sneeze. That doesn't mean you should stop saying "bless you" or "gesundheit" after a sneeze, though. It's only polite! And lastly, despite the name,

your heart doesn't stop during heart failure either. It just can't pump blood as effectively as it should. The only time the heart stops is during cardiac arrest.

Speaking of cardiac arrest ... do you know how to perform CPR on a loved one, or anyone, who has experienced a cardiac arrest? You don't have to be an EMT or Paramedic or Doctor or Nurse to perform this life-saving technique. You don't even have to do rescue breathing, also called mouth-to-mouth breathing any more. Calling 9-1-1 and pushing hard and fast on the person's chest while waiting for first responders to arrive can mean the difference between life and death for the victim of a cardiac arrest.

Want to give your Valentine a unique and potentially lifesaving gift this Valentine's Day? Why not sign them and yourself up for a CPR class? A hands-Only CPR class takes about 1 hour or so to complete and the best part is that ANYONE can take a CPR class! So, you might have physical limitations and not be able to perform compressions yourself but, you CAN tell someone else who may not know CPR how to do it when it is needed.

Want to know more about taking a CPR class or having a CPR class brought to you and your group? Contact us here at AZ Safety Solutions and we can schedule training for you.

AZ Safety Solutions is a firefighter/EMT owned safety education company dedicated to providing the community we serve the very best in safety education. Mountain Vista School hosts fine arts night

By **John Hernandez**
San Manuel Miner

It was music and art on Wednesday, Jan. 29, 2020 at Mountain Vista School as the kindergarten and first

graders put together a show and art display for Mt. Vista Fine Arts Night.

The students led by Music Director, Phil Coleman, performed BUGS to a full house at the cafeteria.

The students of Jose Cardona's art classes had their

creative work on display in the library.

There were also art activities for the younger kids who came with their parents to view an incredible art show!

It is good to see the music and art programs are alive and well at Mt. Vista School.

First graders performing BUGS. They are definitely as cute as.

John Hernandez | Miner

Oracle School District Board member, Jeff McClure, left, and art teacher, Mr. Cardona.
