## OBITUARIES

### Dora Ann Chavez

Dora Ann Chavez, 57, passed away in Mammoth on March 2, 2019, having fought her battle to the end.

She is survived by her husband, Manuel M. Chavez; her son, Manuel A. Chavez; mother-in-law, Enedina Chavez; sisters-in-law, many nieces and nephews, and many wonderful and amazing friends including her beautiful, loving dog Doty that remained close to her throughout her journey.

Dora graduated from San Manuel High School in 1979, before going on to earn an AA from Central Arizona College, and a Bachelor's Degree in Business Administration from Troy University. She worked at Magma Copper Company/BHP for 22 years and 10 years at Pinal County as an HR Analyst.

Dora loved cooking and baking, watching the cooking channels sharing the recipes with her family and friends and loved the art of making crafts. She loved her family immensely and was the family member that entertained at family gatherings with her games and laughter. She loved making holiday crafts for her husband Manny's students.

Dora loved the Lord and was very active in her Church. She was also an active member of the Tri-Community as a loving, giving, graceful and courageous person. Others came first before herself. We will miss her tremendously.

# San Manuel couple sentenced in death of Craig Williams

A San Manuel couple has been sentenced for felonies committed in the death of former Mammoth Mayor James "Craig" Williams.

Yvonne Buelna and Caleb Elkins pleaded guilty to charges and were sentenced on Friday, March 1, 2019 in Pinal County Superior Court.

Judge Jason Holmberg sentenced Yvonne Buelna to 60 days in jail followed by three years probation for Hindering

Prosecution a Class 5 felony.

Caleb Elkins received a sentence of three years in prison for Negligent Homicide a Class 4 felony and Hindering Prosecution. Elkins will also be placed on probation following his release from prison.

The incident on June 6, 2017 involved Elkins driving a vehicle at night in San Manuel that collided with Craig Williams who was riding a motorcycle. When

police arrived, Yvonne Buelna lied to police and said she had been driving the vehicle. The Pinal County Sheriff's Office received an anonymous tip that Buelna was not in the vehicle at the time of the collision and had arrived later. Court records show that witnesses shortly after the accident saw Elkins call someone on his phone. Buelna, Elkin's wife, showed up a few moments later and jumped in the vehicle and adjusted the seat to her

height. She claimed she had been driving and did not see Williams before hitting him. Elkins claimed he had been in the passenger seat of the vehicle. Elkins later admitted he had lied and had been the driver of the vehicle.

Deputy Pinal County Attorney Adam Garvin criticized Buelna and Elkins for lying, saying it may have prevented authorities from possibly filing more serious charges.

Frank and Clare Grochocki are the husband and wife who are head of the Family First Pregnancy Care Center and are doing amazing work for the community. They do this all with the donations from churches and companies with no government funding.

If you have a chance I would go in and check it out. They have classes and a store for mothers to buy things for their babies with bucks they get for attending classes there.

Just a great place with great people helping our community!

Dr. Coralee Thompson wears a chef's hat (or toque blanche in French) and cooks at the Oracle Community Center for an OWN Oracle event.

## Dr. Thompson serves the community

By John Hernandez  
San Manuel Miner

Family Physician, Dr. Coralee Thompson recently joined the team at the Oracle Sun Life Family Health Center. Although new to the clinic, she is not new to the Oracle community. She moved to Oracle 10 years ago and has been active in the community ever since.

"I love the Oracle community," she said while dressed in a chef outfit serving her version of red lentil dal, green salad, and coconut chia pudding for OWN Oracle's community dinner.

In addition to a toque blanche, she has worn many other hats throughout the years. Her first significant hat was her nurse's cap donned in 1982 and then on to medical school in 1985 at the University of Washington in Seattle. In 1988, she put on a mother's hat when her first son was born. She graduated with her medical degree in 1989 and completed a family medicine residency from Fairfax Family Practice, Medical College of Virginia in 1992. After two years in Cairo, Egypt, she became the medical director at the Institutes for the Achievement of Human Potential where she worked with families of special needs children with neurological disorders, focusing on nutritional medicine. Since 2008, she has continued this kind of work with the Family Hope Center, traveling twice yearly to

Denmark.

Co-author of Healthy Brains, Healthy Children, released in 2009, Dr. Thompson enjoys sharing her love for cooking, gardening, and healthful lifestyles with all of her patients of any age. In Oracle, she is known to cook up and serve tasty, colorful, and fresh salads, soups, desserts, and appetizers.

Passionate about music, both as a performer and consumer of live music, she is the current Chair for the Oracle Piano Society and enthusiastically promotes classical and community concerts at the Oracle Center for the Arts. She sings in several choral groups, Voices in the Oaks Chorale, Oracle Union Church choir, and Tucson Masterworks Chorus. She also has her own solo album called Coralee, all songs written and produced by her former partner, Dr. Phil Maffetone. In addition to the Oracle Piano Society, Dr. Thompson contributes to and volunteers for the Oracle Community Center, OWN Oracle, Oracle Visitor Center, and Oracle Community Learning Garden.

Coralee started working at Oracle Sun Life Health Center on March 1 and is available on Fridays from 8 am to 5 pm. She says, "If you end up in my office, you can count on hearing about eating healthful food and exercise" as she believes that nutrition plays a powerful role in one's health.

# Central Arizona College Aravaipa Campus College for Kids featured at National Camp Conference

The Central Arizona College Aravaipa Campus College for Kids program was featured during the recent American Camp Association's (ACA) National Conference held in Nashville, TN.

The abstract, 'College for Kids' 2018 Summer Camp: Improving Perceptions of Science & Shaping Lifestyle Choices by Sam Rauhalammi, Jamie Wolgast, Elissa Craig and Theresa Radke was one of two small day camps selected to present a talk and poster during the conference.

Sam Rauhalammi, Professor of Biological Sciences at CAC, and Jamie Wolgast, College for Kids Program Director, represented CAC at the 2019 American Camp Association (ACA) Research Forum. During their presentation they explained how 'A two-week day camp can have a large impact,' discussing their experiences of using anatomy laboratory sessions to improve students' perception of science, and shaping families' lifestyle choices through educating the children. They shared their tips and tricks on how Central Arizona College's 'College for Kids' summer camp inspires K12 students to pursue College level studies, and

provides a fun summer break for children from diverse backgrounds.

College for Kids is a day camp, organized annually, at the Central Arizona College's Aravaipa campus. Over two weeks of the summer, it provides children an educational full-day program from Monday to Thursday. The camp serves youth from local communities surrounding the Campus. Many students attend on a full or partial scholarship. During the camp, transportation, all supplies, daily snacks and warm lunches are provided for participants. College for Kids' theme for the summer 2018 was human anatomy. This topic was chosen to support biological science classes at students' own schools, introduce locals to the college's campus and promote healthy lifestyle choices through education.

In 2018, fifty students (grades 2-6) and 12 group leaders (grade ≥ 7) participated in seven anatomy laboratory sessions. Each session lasted 40 minutes, had 16-18 students and four group leaders per class. Sessions were delivered in a science laboratory by a college biology professor and three volunteer helpers. Major body

systems were discussed using a mixture of activities. Each student received a 19-inch tall plastic model of a human skeleton, to which structures were added using modeling clay. Supplementary hands-on experiments included handling living animals, performing chemical reactions, testing samples, studying real animal/human organs, investigating anatomical models and completing student workbook activities.

Based on the research conducted during the 2018 College for Kids, evidence shows how this summer camp improved student's attitudes towards science and how students perceived their favorite laboratory activities as being most transferrable to their families' daily life. An increased interest in science can be attributed to positive learning

experiences, better understanding of the subject matter and development of the participants' practical skillset. Students learned about positive lifestyle choices and were provided opportunities to overcome their fears and grow self-confidence in a safe classroom environment. The summer camp improved students' abilities to interact and communicate with others, and improved their ability to demonstrate teamwork skills while working in a group setting.

Rauhalammi explained, "It has been previously shown (American Camp Association, 2018) that attending camps provides transferrable skills, increases college readiness and develops interpersonal abilities. We wanted to quantify the

# San Manuel's Rodriguez motivated after runner-up finish at State Wrestling Tournament

By Andrew Lubberda  
San Manuel Miner

After winning the Division IV 106-LB State Championship as a freshman, San Manuel sophomore wrestler Gilbert Rodriguez wasted no time setting his goals for the 2018-19 season.

"I want to wrestle in the 120's," he told the *San Manuel Miner* only days after becoming a state champion. "My

training never stops, and I started working as soon as I returned home."

All the work paid off as Rodriguez entered last month's State Wrestling Championships as the No. 2 seed with a 53 - 3 record in the 120-lb weight class. Following three-straight WBF's, Rodriguez grappled against top-seed and undefeated Emilio Ysaguirre of Santa Cruz in the finals. Ysaguirre, who defeated Rodriguez at the Coolidge tournament earlier this season, narrowly escaped with a 6 - 5 decision in the rematch to claim the state title. Despite missing consecutive state championships by the slimmest of margins, Rodriguez finds motivation in defeat.

"We had a great game plan," Rodriguez said. "Maybe if a few calls would've gone our way it could've changed the whole match.

"I learn from my mistakes," he continued. "It's motivating because I lost. I know there's always going to be a person out there that can beat me, but I want to be the one that's on top."

Just as he did a year ago, Rodriguez is already back to work, preparing for next season.

His plans include competing at the U.S. Marine Corps/ USAW Junior National Championships in Fargo, North Dakota, this summer.

The goal next season remains the same: Win a state championship.

One thing that won't change is his weight class.

"Just because of how easy I made it," he said. "I'm going to stay at 120 for another year."

Rodriguez has made it look easy the past two seasons even though it's not.

Gilbert Rodriguez

The Trail Riders of Southern Arizona (TRS) hosted the San Manuel Copper Classic off-road motorcycle race on Saturday, March 9, 2019. This year's Copper Classic marked the 13th time this race was held in San Manuel since 2006. The San Manuel Copper Classic was round eight for the Big Bikes and round seven for the Mini Bike of the 2019 AMA Arizona Off-Road State Championship Series. TRS has been working hard the past few months preparing the course and rerouting some sections to maintain the Copper Classic as the premier Southern Arizona off-road motorcycle race. Due to popular demand, the grass track section introduced last year was once again part of the racecourse. Two local riders participated in the event, Johnny Smallhouse (pictured above right) and Dominick Craighill (pictured above left).

effectiveness of a two-week summer camp in shaping participants' attitudes towards science subjects and assess students' self-reported transferability of study material into the daily lives of their families." He added, "As a scientist myself, I think that it has been fantastic to see how we are incorporating more robust methods to assess College for Kids' success, and doing this in a more systematic manner. - This [how to assess success of a summer camp / camp experience] was one of the central themes of the conference, and I believe that our work [on this] will help us to further develop our already outstanding camp - as well as, validate our successes to the donors and partners."

Wolgast has been the College for Kids Program Director for 11 years. She stated, "The kids are always priority number one. It has always been my goal to provide the best possible program for them and our community. I had never done anything like this before. I am grateful to SaddleBrooke Community Outreach for providing the funds that made it possible

to attend this conference. It feels so great to now be connected to a larger group of other camp directors and educators who offer us encouragement, support, and a wealth of resources. We look forward to using the tools we learned at ACA to take College for Kids to the next level."

Both Rauhalammi

and Wolgast expressed their appreciation to SaddleBrooke Community Outreach, Salt River Project, Arizona Public Service, Winkelman Natural Resource Conservation District and other donors for the many years that have supported this program. They are also grateful for the volunteers, families and

campus staff for making the camp a success year after year.

# Alec Newman received Scout Award

William Alec Newman of San Manuel has received another honor from the Boy Scouts of America (BSA).

On Sept. 18, 2018, Alec was awarded the BSA Sea Scout

Quartermaster Award. This is the Sea Scouts highest award. Alec is a member of BSA Sea Scout Ship 822 of the Catalina Council. This makes Alec the first scout in the Catalina Council to have earned his Eagle, Summit and Quartermaster Award. This is an outstanding accomplishment and a milestone in Alec's life.

The Sea Scouts program was started in 1912 by the Boy Scouts of America. It teaches leadership, teamwork, selfless service and nautical skills. Boys and girls ages 14 – 20 are

eligible to join.

Alec did his training at a number of lakes up north including Roosevelt, Willow Springs, and Patagonia. He learned boating skills, operating motorboats and paddle craft such as kayaks and canoes. Alec said that the program was pretty good and provided him with a lot of knowledge.

He is 21 years old and is attending Pima Community College where he is studying mechanical engineering. Congratulations, Alec!

## Natural Gas Safety

Wherever you live, work, or play.

### NATURAL GAS LINES

can be buried anywhere, even in areas where homes don't use natural gas. So it's important that EVERYONE knows how to recognize and respond to a natural gas leak, wherever they are.

### A LEAK MAY BE PRESENT IF YOU:

#### SMELL:

a distinct sulfur-like odor, similar to rotten eggs, even if it's faint or momentary.

#### HEAR:

a hissing or roaring coming from the ground, above-ground pipeline, or natural gas appliance.

#### SEE:

dirt or water blowing into the air, unexplained dead or dying grass or plants, or standing water continuously bubbling.

### IF YOU SUSPECT A LEAK

- Exit the area or building immediately. Tell others to evacuate and leave doors open.
- From a safe place, call 911 and Southwest Gas at **877-860-6020**, day or night, whether you're a customer or not. A Southwest Gas representative will be there as soon as possible.
- Don't smoke or use matches or lighters.
- Don't turn on or off electrical switches, thermostats, or appliance controls; or do anything that could cause a spark.
- Don't start or stop an engine, or use automated (garage) doors.

For more information about natural gas safety visit
