LETTER TO THE EDITOR

Sheriff discusses RICO fund use

To the residents and business community of Pinal County: Over the past few months, you may have seen news reports that the American Civil Liberties Union is suing the State of Arizona, including the Pinal County Sheriff's Office, regarding the use of criminal monies that have been legally seized under the "Racketeering Influenced and Corrupt Organizations" act of 1970. (RICO funds).

Now this week, the Goldwater Institute submitted a public records request to our office and sent out their written opinion to local news organizations asking for information explaining how the seized funds are used, the groups these funds are given to, and what the County receives in return for the funds.

Much of the criticism over our use of the RICO funds have been leveled at our donations to Pinal County youth programs, organizations that help disabled veterans, shelters that assist domestic violence victims and organizations that help prevent teen suicides. The Goldwater people said in their "news release",

they want to know what we get back from these non-profit organizations.

To the people of Pinal County, the return is very clear. These programs make for healthier communities, yes, and safer communities for our residents to live and raise their families. Pinal County is rural and we don't have the same funding sources as many urban population centers in our state. These programs would not thrive and grow in our communities if they didn't receive financial assistance like that given by our office.

The Goldwater attorneys say they want to ensure "taxpayer money isn't being misused for personal gain or in violation of the Arizona constitution." The RICO funding is not taxpayer money, but it is public money that we have legally seized from organized crime syndicates like the Mexican Drug Cartels. Our choice to spend this public money to support our communities' youth, is well within the rules of the Department of Justice and the state laws governing the use of RICO funds. Our use of RICO funds is not in any way supplanting funds for normal government expenses, as has been alleged by the Goldwater attorneys. It is a legal and recognized proper use of these funds.

The Department of Justice has stated that up to \$25,000 of Federal RICO funds can be used to "support of community based programs". The State RICO statutes say that "at least ten percent of the monies in the fund shall be provided to private, non-profit community based organizations and gang prevention and intervention programs." We are clearly following the directives of these regulatory agencies.

Over the past seven years, the Pinal County Sheriff's Office has donated approximately \$1.5 million of seized criminal money to support youth programs like the Boys & Girls Club, YMCA, High School Graduation Night Lock-in events, youth sports programs, victim assistance programs and drug rehabilitation programs such as the "Home of Hope."

The primary job of law enforcement is to protect our citizens. We are doing just that by using money we have seized from drug dealers and other criminals and reinvesting the money into programs to improve the quality of life in Pinal County. As long as the bad guys keep trying to make a living through committing crimes, we will continue to fight them by seizing their illegal gains and use the money to support organizations that help victims and help keep our youth free from drugs, criminal activity and gangs.

Respectfully,
/s/ Paul Babeu, Sheriff

Public comment open on ASARCO tailing expansion

By Mila Besich-Lira
Copper Area News

The Army Corps of Engineers has announced that it is soliciting comments on the draft Environmental Impact Statement (EIS) for the Ray Mine Proposed Tailings Storage Facility. The storage facility is near Ripsey Wash, the Gila River and other unnamed washes in the area. The comment period is open from Jan. 29, 2016 - March 14, 2016.

The Corps' regulatory division is soliciting comments from the public, federal, state and local agencies, Native American tribes and local agencies. The draft EIS has been prepared to evaluate the effects of the proposed project not the natural and human environment. This comment period is the appropriate time for the public to express their concerns or support for the new tailings facility. To view the draft EIS you can read it online:
<http://bit.ly/ASARCODraftEIS>

The new ASARCO tailings facility is needed to continue mining into the future as current permitted tailings sites are close to maximum capacity. The federal permitting process along with proper construction are time consuming so the company must plan for the future for tailing locations.

For more information on the proposed tailing sites or to submit your public comments you may contact Michael Langley, project manager at 602-230-6953 or via email at michael.w.langley@usace.army.mil.

Annual Resource Roundup scheduled

The 12th Annual Resource Roundup has been scheduled. The event will take place on Friday, June 10, 2016 at Casa Grande Holiday Inn located at 777 N. Pinal. The Resource Roundup is an "agency to agency" educational forum, intended to update attendees about the variety of resources available to help individuals and families in Pinal County. The Roundup features workshops of

interest to staff of social service agencies that could benefit the individuals and families they work with. Typical workshops include information on children's, veterans and senior services as well as basic assistance, behavioral health and housing assistance. Forty plus vendors showcase their services and offer valuable promotional and informational items.

Staff of Community Action Human Resources Agency (CAHRA) in partnership with Cenpatico, Pinal County Division of Housing, Pinal County Public Health Services District, Sun Life Family Health Center, University of Arizona Cooperative Extension Agency, Pinal Gila Council for Senior Citizens and Pinal County Attorney's Office makes up the planning

committee for the event. The generous sponsors of the event help keep the registration fee minimal.

To request information, send an email to lrushing@cahrapinal.org. Information on registration will be publicized in the county newspapers. Previous Roundup participants will receive an email when registration is open.

Panthers' magical run ends in state semis

By **Andrew Luberda**
Superior Sun

All good things must come to end. And that was the case for the Superior boys' basketball team last weekend after a 56 – 42 to eventual State

Registration still open for HLI-Copper Corridor

Are you looking to develop new leadership skills? Do you want to meet other leaders or emerging leaders in the Copper Corridor region?

Consider signing up for the Hispanic Leadership Institute-Copper Corridor 2016 class.

The 10-week class will be held on Tuesdays from 6 p.m. to 9 p.m. starting Tuesday, March 29, 2016. Classes will be held at CAC Aravaipa Campus and in other locations throughout the region. Registration for the class has been extended. For more information and to register for the 2016 class, please visit <http://bit.ly/HLICopperCorridor>.

Champion San Carlos in the semifinals of the 2016 Division V State Championship last Friday in Prescott Valley.

But the Panthers magical run through the state tournament did not end before a third-straight buzzer-beating win in the quarterfinals last Thursday.

Sophomore Marcos Bueno took his turn at being the hero against No. 7-seed Red Mesa, first hitting two free-throws to send the game into overtime and eventually drilling the game-winning shot with less than a second left in the extra period.

Bueno's late game heroics in the 46 – 44 victory proved once again that the Panthers truly were the cardiac kids this postseason. The super sophomore scored a game-high 23 points, accounting for more than 50 percent of the Panthers' scoring output. He also finished with seven rebounds, two steals, and an assist. Jalon Murray

grabbed a game-high 14 rebounds in the quarterfinal win.

Despite the premature ending – at least to Panthers' players, coaches, and fans – to the season, it was the Panthers' best in recent seasons.

They won 20 games, their most in at least 12 seasons. They completed their first winning season in 10 years, the last coming in the 2005-06 season, when they won 19 games. Their 10 section wins were tied for the second-most in Section IV, which had four teams reach the state tournament.

And, of course, they had three-straight state tournament games that included buzzer-beating shots, two of them to win games and the other to send the game to overtime. It's hard to imagine that happening previously in a postseason environment.

Congratulations and thanks for the great run, Panthers!

Celebrations kick off Panther

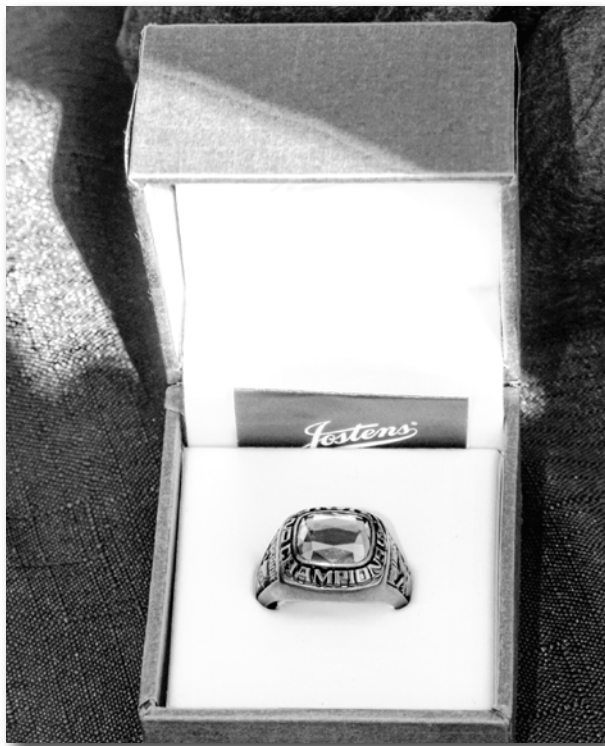

Friday afternoon kicked off the 2016 Softball and Baseball season for the Panthers. Just before the first pitch of the season, Chella Preciado gave a brief speech to dedicate the new scoreboards that were installed at both fields in honor of her husband, Billy Preciado. The #BeLikeBilly fund was coordinated by the Superior Optimist Club and this was the first project for the fund. Following the dedication of the scoreboards, Jostens presented the championship rings to the 2015 Panther Softball team who won the state softball championship. The #BeLikeBilly fund sponsored light refreshments for the festivities and Steve Lopez donated his DJ services.

Head Start Happenings: Field Trips and Community Helpers

The Superior Head Start children and staff have had lots of exciting events this year.

January was filled with making fun art projects and playing with “new” things! The children completed their “Community Helpers” unit. The children had “hands on” experience meeting community members in Superior and learning about their “jobs.” One child mentioned, “girls can do a boy’s job too!”

The children participate in walking field trips for exercise and health, however, it enhances their knowledge about the importance of connecting with the business community. In February the children’s focus was on sharing, giving and caring. They created a greeting card and mailed it at the local post office.

The children have become very good at recognizing their and their friends’ names in print. Throughout the 2015 year, the Head Start classroom walls have served as a place for families to revisit their children’s work.

This week, the children are celebrating Dr. Seuss’s birthday. On Thursday, March 3, they will celebrate “Family Day.” The children and family member(s) will create a “make it, take it,” arts and crafts project. All materials used have been donated by parents and community members. It’s a creative idea to teach the children about giving, and recycling.

The children will be touring the Resolution Copper Company Office on March 24 when they return from their two week spring break.

The Head Start teaching staff invites community members and local organizations to visit and to volunteer in the classroom.

DeMarco's Italian Restaurant

What do Philadelphia, Pennsylvania, Oracle, Globe and Superior, Arizona have in common? Is it the beautiful winter weather? Are each the birth place of freedom and have historic bells? Not quite, but each community is home to De Marcos Italian Restaurant.

The quality, authentic Italian food we enjoy here in Superior, Globe and Oracle was originally served in Philadelphia, Pennsylvania.

How did you find Superior/Copper Corridor: in an interview with Eric Barrientos, he explained that his Aunt and her husband had moved to Arizona and decided to open an Italian restaurant in Oracle, Arizona. After a few years Eric's dad Evodio saw potential and he

invested in the business and they opened a restaurant in Globe and just about eighteen months ago they opened the restaurant in Superior. Eric explained that his dad is always scoping out areas and looking for new opportunities. When they saw that the old Dairy Queen building on US 60 had been empty for a while they decided to expand their operations.

One might think that the family is using old family recipes. The family actually celebrates the Hispanic culture with their roots coming from Mexico and El Salvador. Eric's uncle was originally a trained Italian chef and Evodio was a trained Greek chef. Their culinary expertise helped them grow the family of chain Italian restaurants. Eric and his dad moved to Arizona from Illinois and they have been operating the Globe store for fifteen years. Eric has been assisting him for the past six years.

Multiple Locations: Eric stressed the importance of maintaining quality

products and services at all their locations. The locals want a variety of food, he explained and they also want personal and friendly service. The menus each offer some local variety: for example Superior has hamburgers and fries on the menu, Globe has soup but each restaurant offers the same delicious homemade bread for their entrees and sandwiches.

Advice for fellow entrepreneur and budding business owners: Eric explained that it takes time to grow a brand. "It is important to let the public get to know you, customers want a personal experience and want to be served by a staff

that cares." He stressed the need to be committed to your business, "no one will care for your business more than you do," he said.

The "In Your Biz" column is sponsored weekly by the Superior Chamber of Commerce in an effort to further promote their business members. To learn more about the Superior Chamber of Commerce you can visit their website www.superiorarizonachamber.org or call them at 520-689-0200. The Chamber meets the third Wednesday of every month at their building 165 Main St. in Superior, Arizona.
