A Note from the Publisher

Many of our readers may have noticed some of the changes at *Copper Basin News*. We wanted to let you know what is going on so we can allay some rumors and fears.

The *Copper Basin News* is not closing. We will continue publishing weekly as we have done for the past 60+ years.

With changes in technology, we are no longer confined to the office. The phone line, 520-363-5554, is forwarded to a cell phone. Our fax line, 520-363-9663, sends documents to our email. Reporters work from their home offices or wherever internet access is available. We no longer need to use a dark room to process photos, as now all our cameras (and phone cameras) are digital.

The economy over the past several years has also changed. We've made the business decision to consolidate our offices into one location. The San Manuel office is the smallest of our three locations. It is also our oldest location.

Please bear with us as we make these changes. Thank you for supporting the *Copper Basin News*. We appreciate all our readers and advertisers.

Ray baseball off to fast start

By Andrew Luberd
Copper Basin News

Following a season-opening loss to Gilbert Christian as part of the Patriot Baseball Kick-off Classic, hosted by

American Leadership Academy-Queen Creek, the Ray baseball won three straight games in the tournament.

The Bearcats defeated Chandler Prep, El Paso (TX), and the host team ALA-Queen Creek.

Last Friday's 8 - 3 win against the Patriots may have the biggest victory in recent seasons for the Cats considering ALA-QC won the 3A Central Region a year ago, going undefeated in the region and reaching the semifinals of the 3A State Championship in 2019.

Ray junior Derek Figueroa led the Bearcats, going 2-for-3 at the plate with a double, a homerun and three RBI. He also tossed a 92-pitch complete game on the mound, allowing three runs on three hits with 12 K's and three walks.

Three sophomores provided more offense behind Figueroa, including Johnavon Pace who had two hits and drove in a run. Tracon Naranjo finished with a hit and an

RBI. Jack Warren drove in a pair of runs.

Up next: Mar. 11 at Ft. Thomas. First pitch is scheduled for 3:30 p.m.

Hayden baseball, softball split games with Superior

The Hayden baseball team defeated Superior last Friday in the season opener for both teams, 7 - 3.

The 2019 State Runner-Up Superior softball team slugged seven extra-base hits in its 19 - 5 victory against visiting Hayden in last Friday's season opener for both teams.

Hayden Baseball up next: Mar. 9 vs. Baboquivari at 3:45 p.m.

Hayden Softball up next: Mar. 6 vs. Safford in the Safford Bulldog Invitational (5 p.m.), Mar. 9 vs. Baboquivari (3:45 p.m.)

Hyperbaric Oxygen Therapy Now Available at the CV Wound Center!

What is Hyperbaric Wound Therapy?

Hyperbaric oxygen therapy involves breathing pure oxygen in a pressurized room or tube. Hyperbaric oxygen therapy is a well-established treatment for decompression sickness, a hazard of scuba diving. Other conditions treated with hyperbaric oxygen therapy include serious infections, bubbles of air in your blood vessels, and wounds that won't heal.

In a hyperbaric oxygen therapy chamber, the air pressure is increased to three times higher than normal air pressure. Under these conditions, your lungs can gather more oxygen than would be possible breathing pure oxygen at normal air pressure.

Your blood carries this oxygen throughout your body. This helps fight bacteria and stimulate the

release of substances called growth factors and stem cells, which promote healing.

Conditions for Treatment

Hyperbaric oxygen therapy is used to treat several medical conditions. And medical institutions use it in different ways. Your doctor may suggest hyperbaric oxygen therapy if you have one of the following conditions:

- Anemia, severe
- Brain abscess
- Bubbles of air in your blood vessels (arterial gas embolism)
- Burn
- Decompression sickness
- Carbon monoxide poisoning
- Crushing injury
- Deafness, sudden
- Gangrene
- Infection of skin or bone that causes tissue death
- Non-healing wounds, such as a diabetic foot ulcer
- Radiation injury
- Vascular wounds
- Skin graft or skin flap at risk of tissue death
- Wounds that won't heal

During Hyperbaric Therapy

Hyperbaric oxygen therapy typically is performed as an outpatient procedure and doesn't require hospitalization. If you're already hospitalized and require hyperbaric oxygen therapy, you'll remain in the hospital for therapy. During hyperbaric oxygen therapy, the air pressure in the room is about two to three times normal air pressure. The increased air pressure will create a temporary feeling of fullness in your ears — similar to what you might feel in an airplane or at a high elevation. You can relieve

that feeling by yawning or swallowing. For most conditions, therapy lasts approximately two hours. Members of our health care team will monitor you and the therapy unit throughout your treatment.

After Hyperbaric Therapy

You may feel somewhat tired or hungry following your treatment. This doesn't limit normal activities.

Call the Cobre Valley Regional Medical Center Wound Center for more information regarding Hyperbaric Wound therapy.
