The Town of Superior Planning and Zoning Commission will be holding a public hearing to discuss updating the Town's Building Code. This is necessary for several reasons:

1. The town last updated its code over a decade ago, and it is badly out of date.
2. The State has adopted the 2012 Fire Code, and state law preempts the town's 2006 codes.
3. The County has indicated that they will not renew the IGA to handle our building permits. This will require hiring a third-party firm to handle permits, and these firms will require us to have a more industry-standard code set.
4. It is no longer possible to certify inspectors to the 2006 code set.

If you would like to participate, please come out to discuss this issue at a Planning and Zoning work session on March 5th @ 6 pm and with the Council on March 12th @ 7 pm. Codes requiring residential sprinklers one- or two-family houses are not allowed under state law so this will not be included in the proposed code adoption.

Superior powers past Hayden in opener

By Andrew Luberda
Superior Sun

The 2019 State Runner-Up Superior softball team slugged seven extra-base hits in its 19 – 5 victory against visiting Hayden in last Friday's season opener for both teams.

Superior junior Mckenna Duarte put on show, accounting for four of the Panthers' 12 hits in the game, including a double and two home runs, one of them a grand slam. She drove in nine of her team's 19 runs.

Three other Panthers had multi-hit games. Sophomore Myika Cruz doubled and homered in the win and had two RBI. Sophomore Danika Bryant went 2-for-4

with a pair of RBI. Juliana Navarro, another sophomore, finished 2-for-3.

Bryant was in the circle for the opener, throwing four scoreless innings while allowing only two hits with 11 K's and a walk. Duarte pitched an inning in relief.

Superior up next: Mar. 5 vs. Mayer (4 p.m.), Mar. 6 vs. Globe (3:45 p.m.).

Hayden defeats Superior in season opener

By Andrew Luberda
Superior Sun

The Hayden baseball team defeated Superior last Friday in the season opener for both teams, 7 – 3.

"We didn't play like we should have," Panthers' seventh-year head coach Manuel Ortega said afterwards. "We came out flat with no energy. Everything you could do in a game to lose we did.

That included the Panthers having the same number of hits as errors – six. Neither is good enough against a quality team like the Lobos.

"We didn't hit nor field that well," Ortega said. "You can't win a game when you commit six errors. Against a tough team like that, you can't afford to have six errors and expect to win a game. I can't take (anything) away from

Hayden, they came out ready to play and whipped our butt pretty good."

Senior Gabe Otero led the Panthers, going 3-for-4 with a couple of stolen bases. Junior Nathan Duarte, sophomore Matthew Cruz and senior Gabe Castillo had the Panther's other three hits in the loss.

"Otero is a three-year starter and we are expecting a lot out of him this year," Ortega said. "He (played) really well."

Castillo was on the bump for the opener, throwing 94 pitches in five innings. He allowed seven runs, only two earned, on five hits with four strikeouts and four walks. Cruz tossed two scoreless innings in relief.

Overall, it was a quality effort by a talented pitching staff, but the Panthers' need a better performance from their defense.

"We actually have a pretty good rotation we just need to throw more strikes and keep our walks down," Ortega said. "Our defense has to play better to help our pitcher out. It doesn't matter who we pitch if our defense doesn't play well."

A team always wants to win the opener and get off too a good start. It didn't happen on Friday for Superior, but there are better results coming for this team, for sure.

"We usually have one of these wake-up calls in the middle of the season, but (maybe it's better) that it happened in the very first game."

Superior up next: Mar. 4 vs. San Manuel (3:15 p.m.), Mar. 5. vs Show Low (11:45 am), Mar. 6 vs. Morenci (1:45 p.m.). All games are at Florence High School as part of the Joe Padilla Tournament.

Hyperbaric Oxygen Therapy Now Available at the CV Wound Center!

What is Hyperbaric Wound Therapy?

Hyperbaric oxygen therapy involves breathing pure oxygen in a pressurized room or tube. Hyperbaric oxygen therapy is a well-established treatment for decompression sickness, a hazard of scuba diving. Other conditions treated with hyperbaric oxygen therapy include serious infections, bubbles of air in your blood vessels, and wounds that won't heal.

In a hyperbaric oxygen therapy chamber, the air pressure is increased to three times higher than normal air pressure. Under these conditions, your lungs can gather more oxygen than would be possible breathing pure oxygen at normal air pressure.

Your blood carries this oxygen throughout your body. This helps fight bacteria and stimulate the

release of substances called growth factors and stem cells, which promote healing.

Conditions for Treatment

Hyperbaric oxygen therapy is used to treat several medical conditions. And medical institutions use it in different ways. Your doctor may suggest hyperbaric oxygen therapy if you have one of the following conditions:

- Anemia, severe
- Brain abscess
- Bubbles of air in your blood vessels (arterial gas embolism)
- Burn
- Decompression sickness
- Carbon monoxide poisoning
- Crushing injury
- Deafness, sudden
- Gangrene
- Infection of skin or bone that causes tissue death
- Non-healing wounds, such as a diabetic foot ulcer
- Radiation injury
- Vascular wounds
- Skin graft or skin flap at risk of tissue death
- Wounds that won't heal

During Hyperbaric Therapy

Hyperbaric oxygen therapy typically is performed as an outpatient procedure and doesn't require hospitalization. If you're already hospitalized and require hyperbaric oxygen therapy, you'll remain in the hospital for therapy. During hyperbaric oxygen therapy, the air pressure in the room is about two to three times normal air pressure. The increased air pressure will create a temporary feeling of fullness in your ears — similar to what you might feel in an airplane or at a high elevation. You can relieve

that feeling by yawning or swallowing. For most conditions, therapy lasts approximately two hours. Members of our health care team will monitor you and the therapy unit throughout your treatment.

After Hyperbaric Therapy

You may feel somewhat tired or hungry following your treatment. This doesn't limit normal activities.

Call the Cobre Valley Regional Medical Center Wound Center for more information regarding Hyperbaric Wound therapy.
