PHENOMENAL PHENOLOGY

“Citizen scientists” from the general public help professional scientists by observing and reporting information to websites. **Phenology** (“fee-nol-o-gee”) is a huge part of citizen science. Phenology is the study of life cycle (biological) events connected to seasonal changes. A **phenophase** is a specific event in a plant or animal’s life cycle, such as flowering, fruiting, **hibernation**, and **migration**. As desert dwellers, we’re familiar with indications that winter is ending and summer is coming. Some may be welcome – new **leaves** on the cottonwoods, the bright pink bloom on a hedgehog, turkey vultures soaring again in the sky. Some maybe not so welcome – the full-blown dust devil or rattlesnake that crosses your path. Not all seasonal changes are biological. For example, a dust devil is not alive. In the coloring page below, which one of these seasonal events is NOT* a phenophase?

The USA National Phenology Network (NPN) is a nationwide organization dedicated to providing citizen scientists (including kids) training and opportunities to contribute to phenological monitoring. Nature’s Notebook is one project of the NPN and a current effort that we in southern Arizona can help with is called Flowers for Bats. You observe and report the flowering of agave and saguaros, which will be useful for the study of lesser long-nosed bats who use these flowers. Check this out, sign up and find other ways to participate by going to usanpn.org/natures_notebook

PHENOLOGY SCRAMBLE

Unscramble the bold words from the first paragraph

1. EPYHOGLNO _____
2. AELSVE _____
3. MRTIGAION _____
4. SAEPOPEHHN _____
5. ENNOIRHBAIT _____

*RIGHT! – the rain is not alive (but it is an important event you could observe and report as a citizen scientist, just not on a **Phenology** site.)

LETTER TO THE EDITOR

The Value of Family

These past few weeks we have seen the world we live in go through some major changes. We have seen lives and jobs lost. One thing for certain we are all affected one way or another. Staying at home, working at home, why is this so hard?

I remember a time growing up when my youngest sister came down with a form of Scarlet Fever. It was a highly contagious and deadly disease bringing an immediate change to our family. Our family doctor came to our home, so you know it was a long time ago! We all lined up for our shots and were informed we would be quarantine for the next 3 weeks! Imagine, if you will, 3 weeks no smart phones, no cable or satellite TV. No DVDs, streaming of movies or video games. Just 3 weeks trapped with my 7 brothers and sisters! Imagine my mother having to try to keep us all busy! Did all of us survive? Yes!

What did we all learn through it? First, we learned the value of prayer, specifically

the value of my mother's prayers! My mother kept a normal routine for us all, getting up at regular times, eating our meals as usual, and our usual chores! We learned the value of family, the value of helping and encouraging one another! You know I think the snow falling outside our windows seemed magical that winter, along with the birds who looked for food out in the cold. Lessons learned!

The bigger the crisis, the greater the need, the tougher the solution there, the answer is smaller! As we fast forward to today and our crisis. We have smart phones and TVs, unlimited access to movies and video games, social media that keeps us connected with instant messaging.

What have we learned? With social distancing we learn the further the distance the closer we become, the more we help others, we help ourselves. Family is more important than ever and now we know how valuable toilet paper really is!

COVID-19 positive test data now available via zip code

Mayors from across Pinal County presented a letter to Governor Doug Ducey and the Pinal County Board of Supervisors requesting that COVID-19 positive cases by zip code be released. Mayor Debra Sommers (Kearny), Mayor Joe Dietz (Mammoth) and Mayor Mila Besich (Superior) signed onto the letter asking for the data to be released.

On Sunday, April 12, 2020 the Arizona Department of Health Services released the data by zip code. For the Copper Corridor, the areas showing cases are the Mammoth, San Manuel, Superior and Kearny zip codes showing 1-5 cases as positive in each zip code. You can track the data online: <https://bit.ly/3eiXZub>

The data is critical to allow first responders to know how many positive cases could be in their service community. Last week there was concern that an employee at Family Dollar in Kearny contracted COVID-19, after a brief stay in the hospital the patient was released and it was confirmed via a Facebook post that he did not have COVID-19.

While the data may show that there are not any positive cases in communities, the virus is still listed as widespread across the state and everyone is reminded to continue to practicing physical distancing, wearing masks, limiting activities outside of the home, washing hands and staying home if you do not feel well. There are still not enough testing kits to test everyone and many may be carrying the virus but be asymptomatic.

This data should be a reminder that the precautions everyone is taking, is working to help flatten the curve and stopping the spread of COVID-19.

COVID-19 positive cases are now listed by zip code thanks to a new banner on the Arizona Department of Health Services website. Several cases have been confirmed in the Copper Corridor.

Pinal County says review COVID-19 data with caution

On April 12, the Arizona Department of Health Services (ADHS) updated its COVID-19 dashboard to provide additional information, which includes the case counts broken down by zip code. Pinal County is providing the link on its pinalcountyaz.gov/coronavirus website. As people view and interpret the data, the Pinal County Public Health Services District (PCPHSD) would like to

highlight the following important points:

- The data provided only reflects individuals who have tested positive for COVID-19. Actual numbers of COVID-19 cases are likely much larger than the positive cases reflected by current testing.
- For every confirmed case on the map, there are likely dozens of people who have not been tested but have the virus across Pinal County.
- The map reflects the home address of COVID-19 cases, and does not indicate where individual contracted COVID-19 or where they have travelled to once infectious. Therefore, the map does not necessarily indicate where the risk of coming in contact with the virus is highest.
- Zip code counts include anyone in that zip code who has

tested positive, whether the infection has resolved or is currently active. Therefore, new data may not represent the current risk in a community.

- Although physical distancing guidelines are in place, people do not always remain within their own zip code

Wildfire Safety

Much of the southwest is considered a high-hazard fire environment. Within this hazardous environment are individual homes, and entire communities ill-prepared to survive an intense wildfire. It is not a question of "if" a wildfire will occur, but when. The odds of losing human life and property are growing. The Town of Kearny would like to protect you and the community from the dangers of wildfires. The Fire Chief is very concerned about this upcoming fire season. Even though we have received more rain than usual, it has caused more weeds. Once the rain stops, the weeds will dry out and this will make for a dangerous fire season. Please clear weeds, dry grass, dry shrubs or dead trees surrounding your property. Thank you for your support.

Supervisor's Shred-A-Thon Event Postponed

during this public health situation, all current AZ Travel ID appointments have been canceled. Customers are urged to delay getting an AZ Travel ID until the coronavirus situation has passed to reduce customer traffic at MVD offices.

COVID-19

Continued from page 5

when conducting essential business.

Testing has shown that COVID-19 is widespread throughout all of Pinal County. Recent evidence shows that people can transmit COVID-19 even when they do not have symptoms and that the testing only shows a fraction of active COVID-19 cases in Pinal County.

Any Pinal County resident who is not practicing preventative measures increases their chance of getting and spreading COVID-19. Continuing these measures and our commitment, is essential to keeping ourselves and each other safe. These preventative measures include washing hands for at least 20 seconds, not touching one's face, practicing physical distancing, and wearing a face covering when in public settings.

In conclusion, PCPHSD agrees with Dr. Cara

Christ, Director of ADHS, stating zip code data is informative, but it should not be used to determine whether or not residents of particular zip codes are or are not at risk of COVID-19.

The first produce distribution in the Tri-Community causes a rare traffic jam in Oracle. The next distribution will be handled differently.

John Hernandez | Miner

An oasis in our food desert: Produce on Wheels Without Waste visits Tri-Community

By John Hernandez
San Manuel Miner

The first fresh produce distribution for the Produce on Wheels Without Waste (POWWOW) program was held on April 11, 2020 at the Oracle Community Center. The response to the program showed an overwhelming need for the community as traffic on American Ave. was backed up from the Oracle Community Center to the Catholic Church. The traffic jam forced the program to start earlier than scheduled. Volunteers served 118 vehicles before running out of produce. Many vehicles had to be turned away.

Early in the morning, volunteers drove nine trucks to Marana and picked up 7,000 pounds of produce from warehouses in Nogales. This good produce would have ended up in a landfill if not for this produce rescue program. The produce was brought to the Oracle Community Center where it was sorted and boxed to distribute. The produce included tomatoes, zucchini, cucumbers, green bell peppers, red bell peppers, eggplant, sweet peppers and carrots.

The POWWOW program was hosted by members of the Oracle Community Learning Garden. Originally the plan was to offer 70 pounds of produce for \$12 but thanks to SaddleBrooke Rotary Club, the

produce was free. Liese Razzeto, from the SaddleBrooke Rotary, said that they became involved as part of the Rotary International's response to the pandemic asking local clubs to check on the needs of the communities they serve. They reached out to different organizations and saw that Linda Leigh had many volunteers and had set up the food distribution and all they needed was funding. They had money from a fundraiser last fall so the club chose this program.

Linda Leigh says that she would like to see the program offered twice a month until June and then picked up again in the fall. It looks like there is a bigger need than anticipated and more produce will be

ordered next time. Linda says eventually they would like to have the produce offered in Mammoth and San Manuel. They are also looking for someone with a large moving truck or rig that can carry a large load of produce to the Tri-Community. They are also looking for ideas to improve the distribution system and avoid some of the problems they encountered during the first distribution.

"Oracle is the most amazing volunteer community in the world," said Linda Leigh. She would like to thank SaddleBrooke Rotary, Oracle Community Center, Borderlands Produce Rescue and everyone involved in bringing this program to Oracle.
