## LETTERS TO THE EDITOR

# Special Gifts

May is the time of year, when we honor all our mothers and thank them for all that they do. One of the things I remember of my mother was her cooking. To a young boy growing up, nothing says love like a warm chocolate chip cookie! From the cookies and treats to all the special recipes, the time it took to prepare, all made my life something! There were seven of us kids in our family, so mom was spread pretty thin; cooking, doing laundry, cleaning, along with all that she would work a couple of evenings at my father's grocery store to make ends meet! How did she do that, why did she do that?

What was more amazing was, she always found a way to make all of us kids our "special dinner". My favorite was spaghetti, I could have it every night! What was not my favorite was vegetables, I did not like any of them. My mother would try to come up with creative ways for me to eat my vegetables! She would do the unthinkable; she took carrots, cut them in tiny little chunks and put them in my spaghetti! Why would she do that? Take a perfectly wonderful dinner and ruin it by putting in vegetables, yuck! I would get so mad at my mother and ask her: why are you putting vegetables in my spaghetti? She would always answer, they are good for you, eat them!

Looking back now I know it was because of her love for me and for all of us kids. That's just what moms do! At Family First we are here every day to honor the moms, to encourage them in the great work that they do! From a diaper rash on a young baby to suggestions for the child who won't eat his vegetables, we support our

## Possible repeat of history?

I am sure that it is because of my worries of what is happening now and may happen in the future during the "regime" of Donald Trump that I am again starting to read the author Elie Wiesel's book "NIGHT". That book was translated from the French by his wife Marion Wiesel, and it concerns the terrible things that had happened to his family and other Jews during Hitler's regime.

Although there are numerous protests going on about Trump's actions and the actions of his followers, I am wondering if it is possible that our U.S. Government and its citizens will be dumb enough to be led down very destructive paths as those had been during Hitler's regime.

moms. Sometimes a mother will just need a listening ear, someone they can talk to, and we are here for them. How do we do that, why do we do that? We have the most qualified staff, all with a lifetime of training and experience in their unique fields; they are all mothers, some grandmothers, all with a mother's heart to care and to love!

I am convinced God Himself has given special gifts to every woman; a unique love, wisdom and strength to be

a mother to their children! It's a gift to us all, our mothers!

Take time this Mother's Day to honor the women who give so much to their families, remembering the mothers and grandmothers here with us and those who have passed. That old song is true; where would any of us be without our mother?

God bless,

# 'Cowboy Yoga' and You

I have the pleasure of working with numerous "cowboy" (and cowgirl) clients as a chiropractic physician, and have found them to be some of the healthiest and fittest folks I see. Their lifestyle includes movement throughout the day, very little sitting and fresh air and sunshine, which are all critical for health.

Recently, I asked a rancher how the yoga classes he was taking were going, and he said his work stopped him from making the class, but he was getting a great stretch and strengthen session on the miles of old barbed wire fence he was repairing. He was bending from the hips, squatting, or holding the lunge positions we had talked about (these protect and strengthen the back) as he reached to tie wire to post in the desert scrub. Plus, the cactus, catclaw and the possibility of snakes all worked to keep him "mindful" and in the present moment!

Another rancher spoke about the

satisfaction his work gives him. "It's hard to get bored when you are jack-of-all-trades, and you get to see the results of your work." You know how good it feels to mow the yard when the grass is high, or when you repaint a dull, flaking wall – these changes you notice and it feels

good, and feeling good is good for you! So imagine the reward these guys can get as well-diggers and welders, road engineers and self-made veterinarians, hydraulic experts and horse (and helicopter) pros.

Still another cowboy shared that many times when alone in nature, he's experienced a deep sense of wonder and connection to the world. One day he spoke poetically about the gift of having seen rare wildlife over the years including mountain lions, coati-mundi, Gila monsters, and one of his favorites, "a huge desert tortoise chomping on a ripe prickly-pear tuna, the red juice dripping from his jaws."

## SELF-HEALING

By John Huntington  
Special to the Miner

We are all "cowboys" of sort, and a self-sufficient lifestyle is our history, and not that many decades back. So now we're wrangling groceries from car to kitchen, dragging hose from trees to roses, and bending, reaching and lifting for the socks we pickup or the seeds we plant, and all the other chores and maintenance tasks our lives demand. We are engineering solutions to household problems and having times of peace and ease in the garden.

In this column I will share simple, logical, fun and free steps to take greater control of your health and happiness. High tech medical science continues to prove a low tech lifestyle is the healthiest. Saddle Up!

# Rattlesnake Bites

**S**outhern Arizona hosts only two snakes that are venomous. One is the coral snake which has red and black bands. The other is the rattlesnake. Each carries venom with hundreds of different proteins that have two

basic effects.

One group of venom is hemo-toxic, effecting blood clotting. The other is neuro-toxic, effecting the nerves.

Symptoms that accompany neurotoxins

include tingling of the lips, dizziness, vomiting and shock. If the venom is neurotoxic enough, these symptoms can progress into paralysis and difficulty in breathing which can cause death.

Though there have been no reported deaths from coral snakes in Arizona recently, their venom is weighted more towards the neurotoxins. The rattler, on the other hand, is weighted more towards the hemotoxins.

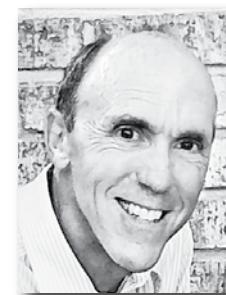

This means that rattlesnake bites are more likely to cause bruising and inflammation that facilitates the distribution of the venom. This also means that their venom carries the potential to eat away at the tissue near the bite, leaving large ulcerations that may progress to the point where amputation is necessary.

Of the 8,000 snake bites reported throughout the U. S. each year, only between eight and 15 result in death. More deaths are reported due to bee stings and wasp stings. Part of the reason for fewer deaths is the fact that snakes can regulate the amount of venom they inject.

It is believed that 25 percent of bites are venom free. Even these bites will hurt and cause bruising. However, it is less likely that they will get progressively more painful and more inflamed as time passes. If venom is present, the symptoms of bruising can get more

pronounced with time, as will the pain.

Poison Control of Arizona now recommends allowing the venom to dissipate into the body by not applying a tourniquet, not applying cold and not sucking on the bite.

What they have found is that, by keeping the venom concentrated, there is more potential for severe tissue damage than there is for potential nerve damage if the venom is allowed

# Lady Miners reach semifinals, defeated by eventual champs

By **Andrew Luberda**  
San Manuel Miner

The No. 6-seed San Manuel softball team reached the 2A State Semifinals after an 11-inning, 2 – 1 victory against No. 3 Morenci in the quarterfinals last Friday at

the Rose Mofford Softball Complex.

Unfortunately, the Lady Miners season ended with a 2 – 0 loss to No. 2-seed and eventual 2A State Champion Benson last Saturday night.

In the win against Morenci, sophomore Andrea Guererro and senior Dionne Ruiz, who had two hits in

the game, including a triple, each had RBI-hits to give the Lady Miners all the runs they would need for the win.

Junior Nikki Baldenegro did her part on the mound, pitching all 11 innings and giving up only a run on six hits while fanning a whopping 19 Wildcats' hitters.

## Cinco de Mayo – Oracle (Piano Soc.) Style!

On Cinco de Mayo weekend, the Oracle Piano Society presented a “Mexican Fiesta” at their Oracle Center for the Arts building. The show was sponsored by Kaz and Frank Pierson.

Mammoth’s own Genaro Moreno performed with Mariachi Caporal. Miguel Macias gave a demonstration of his Charro roping skills. The Ballet Folklorico group performed some traditional Mexican dances. Food was provided by Carniceria Rancheros. The program was educational as well as very entertaining.

The Oracle Piano Society is providing some excellent musical programs for our area. If you have not had a chance to see one, make sure you make it to one of their programs. Their next show will be “Classic Broadway - Voices in the Oaks Chorale” on Sunday May 21, 2017 from 3 to 4:30 p.m. It is a musical tour of Broadway hits from the 1920s through the 1980s. Tickets are \$!2. Students are admitted free with ID. Visit [oraclepianosociety.org](http://oraclepianosociety.org) for more information.

# Cowboy Poetry at Acadia Ranch Museum

Royal John Medley reads some of his 'Cowboy Poetry' at the Oracle Historical Society's Acadia Ranch Museum. The photo of the child in the cowboy outfit is 'Kid' Medley.

John Hernandez | Miner

By John Hernandez  
San Manuel Miner

Royal John Medley recited some of his "Cowboy Poetry" at the Acadia Ranch Museum on May 5.

John doesn't consider it cowboy poetry because he doesn't ride a horse and never roped a cow. He says it's more like campfire stories or "Western Stories That Rhyme."

John is a published author, having written books on the art and history of produce crate labels. He is also an historian and recently gave a presentation on "Art, Adoption and Appropriation: Hopi Imagery and the Arizona Citrus Industry 1920 - 1950" at the Arizona and New Mexico History Convention in Flagstaff.

The event was well attended. John's stories were entertaining and humorous and enjoyed by all. Following the poetry, refreshments were served including Margaritas as a salute to Cinco de Mayo.

## COMMUNITY CALENDAR

### Famous Elks Lodge Tacos

Everyone is welcome to come to the San Manuel Elks every Wednesday, for tacos served from 5-7 p.m. The price is always right!

### Sea Lions Swim Team Practice

The Sea Lions Swim Team practice is held at the Mammoth Pool, starting Monday, April 3 from 4 p.m. – 5:30 p.m., Monday – Friday. Registration forms are available at the Mammoth Pool during practice or online at [sealionsswimteam.com](http://sealionsswimteam.com). Registration is \$45. Kids of all ages and abilities are welcome to join the team to have lots of fun learning how to swim and compete. For more information, please call Alex or Wendy Gort at 896-2190.

### Reminder for Home Owners

We would like to remind Tri-Community residents that fire season is here. If you have any weeds, shrubs, dry grass, or shrubs surrounding your yard, please remove the debris. Please create a three-foot, fire free area on all sides of your home. Clear gutters of leaves and debris. Trim any limbs on trees hanging over the house. Letters will be sent out to residents to remind them to regularly care for their property and keep it free from debris. Thank you for your support.

# RATTLESNAKE BITES

Continued from page 5

to circulate.

The suggestion is that first-aid measures are less important than keeping calm and getting access to Antivenin.

The poison control community has developed an anti-venom vaccine (Antivenin) that effectively counters rattlesnake venom. Antivenin is effective at neutralizing snake venom at any time. However, it is best administered within four hours of a bite in order to protect against potential loss of flesh and the more serious neurotoxic effects (e.g. loss of breathing).

Antivenin is relatively expensive. One vial may cost more than a thousand dollars. A typical dose of Antivenin is between ten and twenty vials totaling as much as \$50,000.

I have recently heard from reputable sources of an herbal remedy using Echinacea. It is applied liberally at the site of the bite and taken internally. It works on many levels to stop the venom from being dispersed and enhances the body's normal immune response. There is also a homeopathic remedy, Lachesis, that is reportedly effective.

In addition to this, protein enzymes, notably

bromelain, can be applied to help break down the toxins in the venom. I have not talked to anyone who has used this method. However, it may be worth considering. If it were tried, I would suggest that the person or animal being treated still have access to the Antivenin. By this I mean they should sit outside an ER with Antivenin and be monitored for the first few hours to determine if the situation is getting better or worse. In any event, treat a rattlesnake bite with the utmost caution.

In closing, I encourage you to be aware of your surroundings and the creatures that share this beautiful land. Respect them and be aware of their behavior and their potential for harmful consequences. Snakes will usually scurry away from humans, often first noticing them through the vibrations made in the ground from walking.

## Learn Your Lizards at the Arboretum Saturday, May 13

Summer nature walks at Boyce Thompson Arboretum bring a weekly opportunity to learn about plants, birds and critters from a variety of guides - each with a unique perspective and wealth of knowledge.

Saturday May 13 is the season debut of BTA's popular once-a-month 'Lizard Walk' series, guided by Steven Prager and Cathy Wise. Summer hours are daily from 6 a.m. to 3 p.m. (no entry after 2:00); and weekend nature walks are included with \$12.50 daily admission, \$5 for ages 5-12.

Field biologists, teachers and naturalists with Audubon Arizona, Cathy and Steven have a Spring schedule jam-packed with surveys for Yellow-billed Cuckoos and other avian field work, but we caught up with Steven this

**Steven Prager at the Arboretum.**

week for a sneak preview:

**Q:** What's your background with 'herps' - and do you get to work with herps for AZ Audubon?

**A:** Although not professionally trained, I've been flipping rocks in search of herps since I was a young kid. Since then, I've gained experience with herps through my colleagues at AZ Game & Fish (where I worked with native fish) and have had the chance to share my knowledge with future naturalists of all ages through Audubon programs, projects, and field research.

**Q:** What herps do you expect to find June 13 here at BTA?

**A:** Lizards I expect are Side blotched lizards, Clark's and desert spiny lizards, greater-earless lizards, and tiger whiptails. Others like Gila monsters, eastern collared lizards, and great-plains skinks are possibilities, but not likely. On the snake side, I'd love to find a black-tailed rattlesnake, a diamondback rattlesnake, a California kingsnake, or a Sonoran coachwhip.... Read the full interview at <http://bit.ly/2qOsFxt>

## Natural Gas Safety

We're working to keep you safe.

**THIS INCLUDES:**

- Routinely patrolling, testing, repairing, and replacing our pipelines.
- Continually meeting or exceeding all federal and state requirements and standards for safe pipeline operation and maintenance.
- Regularly communicating and training with emergency responders.

Natural gas lines can be buried anywhere. Leaks can occur due to natural disasters, corrosion, and careless or unsafe excavation. Natural gas leaks may lead to evacuations, service outages, fire, property damage, injury, or loss of life.

**IF YOU EVER SUSPECT A NATURAL GAS LEAK, WHETHER YOU'RE OUR CUSTOMER OR NOT...**
