OBITUARY

Peggy Clement

Peggy Clement, 80, went to be with the Lord on April 6, 2020. She was the widow of Edward Clement Sr. They shared 45 years together. He was the love of her life and she his.

Born in Spur, Texas on Sept. 18, 1939, Peggy was the daughter of Pat and Orien Patterson. She graduated from San Manuel High School in 1958 and was employed at Magma Copper Company, working as a Senior Buyer until 1999 when she retired.

Peggy was a faithful Christian. She enjoyed spending time with her children, grandchildren, great-grandchildren and all extended family who were truly

loved like immediate family members. Every single day she spent time with at least one of her "precious angels" (being her grandchildren and great-grandchildren). She loved to laugh, play cards and spend time telling stories. She was a mom to many and a granny to everyone. She will be remembered for her unconditional love; she always saw the good in everyone and everything. If you ever needed anything, you could always count on her to be there!

She was also proud to call herself a "Miner". She loved to attend every San Manuel High School class reunion. She always looked forward to spending time with her friends from high school.

She was preceded in death by her husband, Edward Clement Sr.

Peggy is survived by her children, Eddie Clement Jr., Tommy Clement, Teresa (Danny) First, and Debbie (Rick) Cunningham; and grandchildren, Kedi Clement, Bubba Clement, Kelin Clement, TJ Buzan, Brandon Buzan, Chaz Buzan, Dusty First, Tad First, Laci Clement. She had 21 great-grandchildren with number 22, Scotty Clement (who she named), on his way.

Due to the COVID-19 pandemic, the funeral service will be on Sept. 5, 2020 at 10 a.m. It will be held at the Funeraria Del Angel South Lawn, 5401 S. Park Ave., Tucson, AZ 85706.

CLOUDS

Want to go on an ed-venture? No need for a fancy GPS for this one; you just need to go outside and look at the sky: day or night; morning, noon or evening. We can look at the sky to view the stars or the moon but our imagination gets the chance to really let go when we look at clouds.

A few basic vocabulary words can help you talk about the clouds.

Cumulus means heap. Those are the type of clouds that look like a bunch of cotton balls piled on top of each other. **Stratus** means layer.

This type of cloud is stacked flat with lots of layers. Sometimes it is just one big flat cloud that stays a long time and rains soft and slow. It is pretty rare to get that around here but other places get them for weeks and it really bums you out. **Cirrus** means curl of hair, and it looks like a horse's tail as it runs. You see these clouds first when the weather is about to change. **Nimbus** means rain. If a cloud is a rain cloud it will have the word nimbus in it.

When the monsoons start, we get

to see lots of cumulo-nimbus clouds. These are the puffy white clouds that build higher and higher until the bottoms turn dark gray and the rain finally falls out. When they start to form you can see the flat bottom. If you pay attention to the flat parts of the clouds you can see the different layers of air. Have you ever seen puffy white clouds racing along below layers of gray clouds? This shows you the different air layers. They have different densities because of temperatures. Things with different

densities settle in layers, just like the oil and vinegar in Italian salad dressing. Thunderclouds are sandwiched between two layers of air. You can see their flat bottoms and their flat tops stretching out like anvils.

Clouds form when warm, moist air meets a layer of cool dry air. Sometimes parts of the air with high pressure meet low pressure areas. This makes the warm moist air rise up into the colder parts of the atmosphere. If you have trouble remembering how that works, just think about when you make your own clouds from your breath on a cold winter day. Your warm, moist breath comes out and the water condenses into a cloud when it hits the cold air outside your body.

The lowest clouds are called fog, which forms on or near the earth, and the highest clouds, cirro-stratus float at higher than 20,000 feet. There is a lot to learn about the atmosphere and the water cycle.

NAME THOSE CLOUDS

CLOUD-RELATED ACTIVITIES

1. Make up a story: If you lay on your back and look at the sky, you can find out a great deal about each other by "seeing" things in the clouds. You can make up stories about the things you see.
2. Write a poem.
3. Paint a picture: There is nothing more challenging and at the same time nothing easier than drawing a cloud. You can use blue construction paper and white chalk for the novice in the family. Tear or cut a piece of paper into a lumpy-bumpy shape. Rub white chalk onto the edges. Use a piece of tissue (Kleenex) to wipe the chalk onto the blue construction paper. Move it to another spot and repeat. Use other colors for sunset, sunrise, or storm.
4. Create a model: Cotton balls glued on clear plastic can make good models of clouds. Go online and find examples of the different kinds of clouds and try to make all of them. Hang them together as a mobile and challenge yourself to place the different types of clouds at the correct layer of the atmosphere.

OBITUARY

Rex Gennicks

Heaven gained an amazing angel on Monday, May 4, 2020 in Scottsdale, AZ. Rex Gennicks was born April 26, 1950 in Linton, Indiana to Ruby Marie (Lynch) and Elza Eugene Gennicks, the youngest of four. In 1968, upon graduation from high school, Rex received an appointment for academics and football to West Point Military Academy and an offer to play football on a full ride scholarship to Kansas State University, but turned both down due to previous responsibilities.

On Nov. 29, 1969, Rex married Donna Jean Mowery. They began their life together in Linton, both working at the General Electric plant until 1974 when they relocated to Arizona. He had various jobs throughout the years in this area and had too many friends to count, many that began as coworkers. Rex worked as a Deputy for Pinal County in the Oracle/San Manuel area and also as a Gila County Deputy in the Dripping Springs/Winkelman area. He also spent many years as an EMT on the Kearny Ambulance. Even though these were his second jobs and part time, he loved them and counted them as hobbies. He worked as a Boilermaker and then as a Safety Engineer for ASARCO. He retired after 35 years and went to work as a State Mine Inspector for the State of Arizona. Upon his retirement from the state he found his dream job working for Rural Electric in Mesa. He made the comment many times that he wished he'd found them years ago. He loved working there right up until the end.

Rex was a very active member of The Church of Jesus Christ of Latter-day Saints. He held various callings throughout the years, but always said his two favorite by far were teaching Primary with the little kids and working many years with the youth. He was very involved with Boy Scouts and over the years took the young men on numerous trips hiking, water skiing, camping and snow tubing to name a few. He loved teaching them new things. Rex also greatly enjoyed the few years he spent sharing his love for football and basketball as Assistant Coach for Ray High School.

Rex had many hobbies. He loved playing on The Bulldogs slow pitch softball team through the late 70's and 80's, swimming, being outdoors, reading Zane Grey and Louis L'Amour, hunting anything, and of course watching his kids and grandkids participate in any sport or activity. Above all these, his most loved time was spent with his family around him, laughing, joking, grilling, and playing a good old fashioned game of dominos.

Rex was preceded in death by his father, Gene; mother, Marie; two older brothers, Frank Gennicks and Larry "Turk" Gennicks; and his in-laws Everett and Icy Mowery, whom he loved like his own parents. He is survived by his older sister, Roma Lee Baker; his wife of 50 years, Donna Jean; children, Nichole Lyn (Rick) Sosa, Jeremiah Lee (Felicia), Sara Marie (Ken) Acevedo and Elza Winton (Beth); a daughter, Michelle Dawn; and we can't forget his faithful 4-legged sidekick his beloved Lab "Jet", as well as 18 grandchildren, three great-grandchildren, and numerous nieces and nephews. He will always be remembered as a hard-working, loyal, teasing, honest, outspoken, stubborn, ornery, loving man.

There will be no viewing/visitation but a small private family service has been planned for Saturday, May 16, 2020 at 10 a.m. Immediately following, there will be graveside services at the Kearny Cemetery, where family and friends are welcome to attend. Afterwards, a small get together will be held at a later to be announce location, where anyone is welcome to stop by and see the family, listen to his favorite music, and share a favorite story about him. In lieu of flowers the family has requested that donations be made to the National Kidney Foundation of Arizona or Autism Speaks.

Copper Corridor: preparing to reopen safely

COVID-19 has changed how everyone operates their businesses, how we gather our household supplies and groceries, how

we socialize and how our local non-profits and faith-based organizations serve the community.

The Copper Corridor has not been immune to the impacts of COVID-19, and thankfully our early, proactive actions to cancel large public events and physical distancing, increased hygiene and sanitation measures provided an important layer of protection over our community. While we have had a few positive cases, we have not encountered the devastation that other communities across the state, nation and world have experienced.

On Friday, beauty salons, barbershops and retail merchants were all allowed to open with new physical distancing protocols and increased sanitation measures. On Monday, May 11, restaurants began opening their dining rooms with a limited capacity, increased sanitation and of course, physical distancing.

While many residents are eager to have the Stay at Home order lifted, if we adhere to State of Arizona and CDC guidelines, we not only protect ourselves but those around us. When we maintain our physical distancing, practice good hygiene, wear a face covering and limit our attendance in large groups, we can keep

our local businesses open and community running safely.

During the past seven weeks, we all have adopted new habits by shopping more frequently at our local stores rather than traveling out of town for supplies. We also have ordered more goods online. By shopping locally first and buying what we need here in the Copper Corridor and supplementing with online shopping, these two behaviors contribute significantly to a strong economic recovery. This also limits exposure to COVID-19.

Navigating our lives through this pandemic is not easy. Understandably, anxieties are high. For many, financial security and health conditions have been challenged. Let us have patience with our family, friends and neighbors as we all determine what our new normal will be. For some, limiting their exposure by staying home will continue. For others, relief will be found by being able to travel freely and conduct errands and business as before. Let us all be respectful of each other's wishes. Whichever may be your personal preference, please move forward responsibly and safely.

Wildfire Safety

Much of the southwest is considered a high-hazard fire environment. Within this hazardous environment are individual homes, and entire communities ill-prepared to survive an intense wildfire. It is not a question of "if" a wildfire will occur, but when. The odds of losing human life and property are growing. The Town of Kearny would like to protect you and the community from the dangers of wildfires. The Fire Chief is very concerned about this upcoming fire season. Even though we have received more rain than usual, it has caused more weeds. Once the rain stops, the weeds will dry out and this will make for a dangerous fire season. Please clear weeds, dry grass, dry shrubs or dead trees surrounding your property. Thank you for your support.

Fire restrictions being implemented in more areas across Arizona

Continued dry conditions and an increase in wildfire activity throughout Arizona have led to Stage 2 fire restrictions being put in place on May 12 by the Arizona Department of Forestry and Fire Management, the Bureau of Land Management (BLM) and the Bureau of Reclamation (BOR).

Fire restrictions vary by agency and jurisdiction. Those that currently affect all areas under the management of these three agencies are: building, maintaining or using a fire, including a campfire or a stove that burns charcoal, coal or wood; smoking, except within an enclosed vehicle or building; using fireworks; discharging a firearm except while engaged in a lawful hunt pursuant to state,

federal or tribal laws and regulations; welding; and the operating of any internal combustion engine. A violation of posted restrictions could result in citations, fines, jail time or reimbursement of the cost to put out the fire and rehabilitate the fire area.

For up-to-date information, contact your local land or fire management agency or fire department before you travel to your chosen destination. You may also learn about current fire restrictions and current fire situations online at: wildlandfire.az.gov.

The importance of worrying about a wildfire starting is more than just worrying about your own legal liability or immediate safety. Human-caused wildfires have

made up over half of all the wildfires in Arizona, almost every year with many wildfires starting from vehicles or camping equipment, campfires and burning debris on private property. Taking the additional steps of using spark arresters on small equipment, securing tow chains, checking the condition of tires and brakes, and never pulling a vehicle off the road into dry vegetation will go a long way into making this a happy and safe summer for all.

Prepare, as well, by evaluating your own home. Reduce flammable materials around homes and communities before a fire occurs, by clearing up plant debris through raking, mowing, trimming and weeding, to create a buffer between your home and trees, shrubs and undeveloped spaces. Not only can this space help slow or stop the spread of wildfire, it also provides a safe place for firefighters to defend your home if conditions allow.

When conditions improve, fire restrictions will be reduced until all of the usual allowable activities can be continued.

Arizona Youth Partnership invites the Copper Corridor to celebrate National Prevention Week with three virtual events

The current COVID-19 pandemic is changing how folks celebrate events, many moving into "virtual reality."

National Prevention Week is no different. Arizona Youth Partnership and the Copper Corridor Coalition are joining forces with the Substance Abuse and Mental Health Services Administration to celebrate National Prevention Week, May 10-16.

The local coalition is inviting young people to participate in three virtual events: video challenge; art of prevention; and a virtual walk.

AZYP and the Copper Corridor Coalition is hosting a video challenge. This is your chance to spread a positive, 15-60 second media message. What can you do to prevent underage drinking or marijuana and other substance abuse issues? Selected videos will be showcased on the Copper Corridor Coalition Facebook page. Remember to use #preventionhappenshere. Upload your video at www.azyp.org/preventionweek and submit it by Saturday, May 16.

AZYP and the Copper Corridor Coalition want to see your Art of Prevention. The art contest is open to youth between the ages of 5 and 18. The winners will be placed on the 2021 Copper Corridor Coalition Calendar and will be showcased on the coalition's Facebook page. Remember to use #preventionhappenshere. Submit your art at www.azyp.org/preventionweek and submit it by Saturday, May 16.

Let's all take a walk – a walk of hope and prevention. Mark your calendars, get out your walking shoes and dust off those walking sticks. AZYP will be hosting a virtual walk during the week of May 10-16. Always practicing social distancing, get your family out and take a walk. Take some photos of your walk and share them at www.azyp.org/preventionweek and submit it by Saturday, May 16. Remember to use #preventionhappenshere.

COVID-19

Continued from page 5

People are asking, “When will our lives get back to normal?” Normal is a setting on our washing machines; COVID-19 will be a part of our lives until there is a vaccine.

Most assuredly, COVID-19 has changed our lives and we must all work together to reopen the Copper Corridor and the State of Arizona safely. Please continue your new healthy habits, physical distancing, washing your hands frequently, wearing a face covering when in public spaces and staying home if you are not feeling well.

We will continue to get through this together, and we will be stronger than before.

Oracle State Park says, 'Come hike with us'

Arizona Governor Doug Ducey has started lifting the restrictions on the state. But restrictions are still in place.

Arizona State Parks and Trails have remained open through the pandemic, but in a significantly altered form. The trails are open but all events and group gatherings have been cancelled. Park officials are taking the necessary precautions for our visitors and staff as recommended by the CDC and Arizona Department of Health Services.

You can read more about that here: [AZStateParks.com/coronavirus](https://www.AZStateParks.com/coronavirus).

Oracle State Park remains committed to providing open spaces, hiking trails, and outdoor destinations for people to safely enjoy in small groups.

Hiking's not closed. Get out of the house. It's beautiful.

One of the last programs held at the Kannally Ranch House at Oracle State Park was a wildlife presentation with live birds. This event was held in early March before COVID-19 forced these events to be cancelled. The park remains open for hikers.
