Environmental clean up

The Superior Town Council officially purchased the original Superior High School to be renovated into a multi-gen center and municipal campus. The purchase was completed in January 2022. During a recent Town Council meeting, Town Manager Todd Pryor provided a budget and construction update to the Town Council.

Originally the project was budgeted at \$4 million, but the Town Staff has applied for grants that have helped to increase the project budget. To date, more than \$5.5 million have been raised to assist with the cost of purchase and renovations of the building.

Town Public Works crews have been assisting with the demolition and clean out of the buildings. During the demolition phases, they have uncovered some unique architecture, like lounge and groove ceilings in what will be the home of the library.

"This design feature would have cost us well over \$200,000 if we constructed from scratch," said Pryor.

The first phase of the project has included funding from the Copper Corridor Blight Busters to assist with environmental assessments and remediation from ADEQ. The next phase that will be completed will be the installation of the heating and air conditioning for the gymnasium and workout rooms along with the electrical panel upgrades. This project was funded through a grant from State Parks Historic Preservation grant in the amount of \$191,000. The locker rooms are currently being renovated to make space for both cardio and strength training rooms. The Town used American Rescue Plan funds to purchase the work out equipment for both rooms. Once the electrical work is completed and locker rooms completed, the gym will be open for public use.

The Town of Superior was awarded a federal congressionally directed appropriation in the amount of \$2 million that will fund the construction of an elevator

of Multi-Gen Center nears completion

and assist with other accessibility needs. Pryor reported that this funding is awaiting a final engineering plan to begin spending on.

“We can’t fully move into the building until the elevator is constructed and we have full accessibility,” he explained.

Once the engineering is completed and approved, construction can begin. With this time frame in mind, it is expected the facility will be fully operational by early 2025.

The Superior Enterprise Center, which will be housed in the original vocational technical buildings, will likely be the first program to fully move in and they are on track to offer welding classes starting with the fall semester of 2023. The Town used American Rescue Plan funding to purchase the welding units and, through the collaborations by Superior Enterprise Center Director Arlynn Godinez, the curriculum and instructors are being arranged through Central Arizona College and Cobre Valley Institute of Technology. The Enterprise Center will

also feature co-working spaces, a conference and training rooms.

The Library and Senior Center will also be moved into the complex. The Town received a grant for \$105,000 to install new kitchen equipment. The kitchen will also double as a community kitchen that will provide space for food-based entrepreneurs to grow their businesses.

Resolution Copper has funded \$2.25 million to the project, which assisted with the planning, purchase and development.

Maintaining a 30 foot defensible space around structures means flammable fuels like weeds, brush and flammable items are removed or stored in more appropriate places. This defensible space provides a fuel buffer for the structure and a place for firefighters to do structure protection in the event of a fire. Please do your part prevent a recurrence of the Margo and Roach Fires.
