"There are numerous countries in the world where the politicians have seized absolute power and muzzled the press. There is no country in the world where the press has seized absolute power and muzzled the politicians"

—David Brinkley

OBITUARY

Frances Aranda

"And now abide faith, hope, love, these three; but the greatest of these is love." - 1 Corinthians 13:13

Frances Aranda, 92, of Hayden, Arizona, hugged JESUS early in the morning Tuesday June 7, 2022.

Frances came into the world, the youngest of 12 brothers and sisters in Hayden, Jan. 21, 1930, blessing her parents Fidel and Concepcion Padilla; siblings Consuelo, Carmen, Angelina, Taurina [sp.], Felicitas, Robert, Fidel, Miguel, and three others who died in Mexico: Fidel, Francisco, Aurelio.

At the age of 16, she eloped with Salvador Aranda of Hayden, right after he was discharged from the Navy in 1945. They began their wonderful life together in Tiger, Arizona. They moved a few years later to Hayden with their young sons, Salvador, Richard, and Alex to follow. Together they built the home Frances would live all the days of her life: in just 30 days. Salvador and Frances loved their boys and each other passionately.

Frances loved and served everyone around her. She spent years caring for her mother in her mother's final years. She cared and ministered to her loving husband, Salvador during his life on earth and especially in his struggle with cancer. Her husband went to Heaven in 1994. And in 2003, she was with her daughter-in-law Patsy helping her as her son, Richard, enter Heaven.

Frances' faith, hope, and love in JESUS CHRIST is what made her the wonderful lady everyone wanted to be around. She leaves a legacy of joy for her family and friends to carry on.

The immediate family she leaves to carry this legacy on are Salvador, Carol, Alicia, Herbie, Isaac, Rachel, Michael, Jill, Amber, Michael, Tyler, Brooklyn, Patsy,

Rick, Kathy, Sam, Felicia, Donald, Ezekiel, Elijah, Stephen, Michaela, Charlie, Jacqueline, Melody, Eric, Seth, Emrys, Daniel, Heidi, and Alex.

We would like to thank all of Frances' family and friends for all the love and beautiful memories you provided her. GOD bless you all. You filled her with joy and happiness during her journey on earth.

Finally, to all the doctors, nurses, and medical personnel that provided care and comfort during her most physically challenging times, thank you and GOD bless you all.

Frances' final desire to everyone reading this at this moment: repent, love JESUS, pray. Read The Word. Get into a Bible/JESUS-believing church and be born again. John, 3:16.

Celebration of Life will be at Lighthouse Assembly of GOD, Winkelman, AZ, Saturday, June 18, 2022. Visitation will begin at 8:30 a.m. followed by services 9 a.m. She will be laid to rest at Mountain View Cemetery in Hayden, Arizona. Luncheon at Lighthouse Assembly of GOD, Winkelman, will follow interment.

Kearny Police Report

Items are given to the Copper Basin News by the Kearny Police Department and reflect information available at the time the report is compiled.

Activity listed May 22- June 4.

May 22

Ralph A. Lopez, 34, was arrested for DUI (driving while under the influence of alcohol) in the area of Hwy. 177 and Old Hartford Rd. He was cited and released.

May 23

Armando R. Sandoval, 41, was arrested for driving on a revoked license in the 300 block of Alden Rd. He was cited and released.

May 27

Accident without injury was reported in the area of Hwy. 177 at milepost 146.

May 29

Private property accident without injury was reported in the 300 block of Alden Rd.

June 3

Criminal damage was reported in the 300 block of Hartford Rd.

Calls not listed include: alarm (1), ambulance (12), traffic (23), town code violation (1), security check (1), suspicious persons (3), agency assist (5), found property (1), unwanted subject (1), 911 open line (2), illegal dumping (4), threatening (1), citizen assist (8), motorist assist (1), extra patrol (1), suspicious activity (1), welfare check(1), disturbance (1), open container (1) and suspicious vehicle (1).

Copper Basin Chamber of Commerce seats new board

A plea for new members and a new board of directors for the Copper Basin Chamber of Commerce was well answered.

More than 55 people attended the reorganizational meeting June 6 at the General Kearny Inn. The meeting was an attempt to encourage an increase in membership and elect additional board members.

Original board members are Jean Slater, Angela Wernett, Marge Jones, Vicki Palmer and Becky Dunn.

After Bill Dunn (who was serving as advisor for the reorganization) explained the By-Laws, he asked if anyone attending would be interested in joining the board. Five people put themselves forward for election and were unanimously added. They are: Emelia Rutledge, Gary "Bud" Stepke, Jeff Gregorich, Shane Olsen and Denise Robenalt.

But there couldn't be a meeting without door prizes and a raffle. Winner of the membership raffle was G&J Restaurant, and the door prize winner was Annette Berumen.

The Copper Basin Chamber of Commerce Board of Directors are, from left: back, Emilia Rutledge, Jean Slater, Gary "Bud" Stepke, Shane Olsen, Jeff Gregorich and Denise Robenalt; front, Angela Wernett, Marge Jones, Vicki Palmer and Becky Dunn.

Photo above shows the Big Box Lake in 2019. The dam can be seen at the extreme bottom edge of the photo. Below is the Big Box Lake following the Telegraph Fire.

Pinal County seeks help for Telegraph Fire repairs

In June 2021, Arizona's sixth largest wildfire started just south of Superior. The fire burned east, south and west, consuming 180,000 acres of Sonoran desert terrain and obliterating some of Arizona's most unique ecosystems. Once the fires were extinguished in July of 2021, the region was pummeled with record breaking monsoon storms during August and September, which created a new set of ecological and infrastructure problems for the Copper Corridor region.

During their May 12, 2022, Board of Supervisors meeting, the Pinal County Board of Supervisors voted to submit a letter to the Natural Resources Conservation Service, requesting help to repair damages to the Big Box Lake and Big Box Dam.

The Big Box Lake and Dam is important environmental infrastructure that helps to control stormwater run off from Devil's Canyon and Mineral Creek, which eventually deposits into the the Gila River. The dam is a 150-foot concrete arch dam constructed in the 1970s. The Big Box Lake is part of a 2002 Clean Water Act Section 404 mitigation commitment by ASARCO; the lake provides 35 acres of open water and riparian habitat. Mineral extraction companies are often required to fund a variety of environmental mitigations to ensure there is a balance of preservation to the extraction uses.

According to the information provided by ASARCO to

Pinal County, the lake is generally an open-water lake. Post-Telegraph Fire, the runoff from Devil's Canyon and Mineral Creek deposited a tremendous amount of ash, sediment and woody debris that has damaged the lake and is posing risk to downstream infrastructure and Gila River habitat. With the debris and sediment in the lake, the lake has more of a pudding like consistency. The debris in the lake is also putting stress on the dam itself.

ASARCO reached out to Pinal County to assist with the request to NCRS, as ASARCO's insurance does not cover the needed repairs and to qualify for assistance from the federal government the local political subdivision must request funding and support. The funding from the State of Arizona's Telegraph Fire appropriations funding was not able to be utilized for this project.

Pinal County requested funding through NCRS to complete a three-phase project to restore the Big Box lake and dam. The first phase of the project will clear access to the Big Box Dam Control and removal of surface debris by dredging 100,000 cubic yards and removal of sediment and debris from three areas along with cleanup of 50,000 cubic yards from the area of Devil's Canyon. Phase two objective will be to continue cleaning of the Big Box Lake and remove debris along with an assessment of the dam's construction. Phase three will clean the sediment deposited in natural channels by post-fire flood runoff.

Ray High School releases honor rolls

Ray High School has released the Honor Rolls for the second semester of the 2021-22 academic year.

Second Semester 3.5-4.0 honor students include:

- Seniors – Isaiah Azevedo, Jacob Barajas*, Mia Barragan, Brina Morales*, Ariana Munoz, Tracon Naranjo*, Kimberly Newman, Kaylin Pacheco, Jack Warren* and Kaia Warren*.
- Juniors – Arizona Bui*, Brooke Kelley*, Richard Rabb and Marcos Torres.
- Sophomores – Faith Bracamonte, Nicolas Curiel, Cambria Garcia, Kassidy Naggge, Joseph Morales and Yasmin Rivera.
- Freshmen – Monica Arredondo, Jonathan Beede*, Vanessa Bui*, Mark Chester, Christian Curiel* Jordan Garcia, Sanaa McGee*, Analina Montijo, Isabella Montijo, Graciela Rivera* and James Ruiz*, Raymond Sanchez and Landree Scaggs.

Ray High School students earning 3.0-3.499 honors for the second semester were:

- Seniors – Stephaun Bell, Johnavon Pace, Felicity Ramirez, Jocelyn Ruiz and Zander Winsor.
 - Juniors – Isaac Dowler-Robles, McKinzee James, Joshua Lorona and Wiliam Witt.
 - Sophomores – Carpenter Bryce, Timothy Cantrell, Alexis Gallegos, Malene Goad, Serenity Goad, Madison Kenney and Trysten Ortiz.
 - Freshmen – Neveah Curiel, Jonathan Molina, Analysis Nunrez, Faith Rabb and Mary Salazar.
- *Signifies straight A's.

Public Notice

Public Notice

The Town of Kearny hereby provides the following Consumer Confidence Report (CCR) on Kearny Public Water System ID Nr: 11-031. The Town of Kearny will not be providing copies of the CCR by mail or other direct delivery methods. Copies will be made available to the public upon request: in-person at Kearny Town Hall, 912-C Tilbury Drive, Kearny, AZ 85137 or via USPS: POB 639, Kearny, AZ 85137.

Consumer Confidence Report for Calendar Year 2021

Este informe contiene información muy importante sobre el agua usada bebe. Traducción o table con algún que lo entienda bien.

Public Water System ID Number	Public Water System Name	
AZ04-11-031	Town of Kearny	
Contact Name and Title	Phone Number	E-mail Address
David J. Garcia	520-483-9462	Davegarcia236@yahoo.com

We want our valued customers to be informed about their water quality. If you would like to learn more about public participation or to attend any of our regularly scheduled meetings, please contact Town Hall at 520-983-5547 for additional opportunity and meeting dates and times.

Drinking Water Sources

The sources of drinking water (both tap and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals, and in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

Our water source(s):	3 Ground Water Wells, Basin: Lower San Pedro, Sub Basin: Mammoth, Watershed: Upper Gila River
----------------------	---

Drinking Water Contaminants

Microbial Contaminants: Such as viruses and bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.

Inorganic Contaminants: Such as salts and metals that can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.

Pesticides and Herbicides: Such as agriculture, urban storm water runoff, and residential uses that may come from a variety of sources.

Organic Chemical Contaminants: Such as synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and also may come from gas stations, urban storm water runoff, and septic systems.

Radioactive Contaminants: That can be naturally occurring or be the result of oil and gas production and mining activities.

Vulnerable Population

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. Some people may be more vulnerable to contaminants in drinking water than the general population.

Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers.

For more information about contaminants and potential health effects, or to receive a copy of the U.S. Environmental Protection Agency (EPA) and the U.S. Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and microbological contaminants call the EPA Safe Drinking Water Hotline at 1-800-426-4791.

Contaminant	Unit	Concentration	Health Advisory	Maximum Contaminant Level	Maximum Residual Disinfectant Level	Maximum Residual Disinfectant Level Goal	Other	Notes
Total Trihalomethanes (TTHM) (ppb)	N	80.7 UG/L	85.0 – 91.4	80	N/A	08/11/2021	Byproduct of drinking water disinfection	
Bromate (ppb)	N			10	0		Byproduct of drinking water disinfection	
Chlorite (ppm)	N			1	0.8		Byproduct of drinking water disinfection	
Lead & Copper	MCL Violation Y or N	90 th Percentile	Number of Samples Exceeds AL	AL	ALG	Sample Month & Year	Likely Source of Contamination

Radionuclides	MCL Violation Y or N	Running Annual Average (RAA) OR Highest Level Detected	Range of All Samples (Low-High)	MCL	MCLG	Sample Month & Year	Likely Source of Contamination	
Beta/Photon Emitters (mrem/yr.)	N			4	0		Decay of natural and man-made deposits	
Alpha Emitters (pCi/L)	N	6.6 pCi/L	6.6 pCi/L	15	0	05/2002	Erosion of natural deposits	
Combined Radium-226 & 228 (pCi/L)	N	< 1 pCi/L	< 1 pCi/L	5	0	04/2020	Erosion of natural deposits	
Uranium (ug/L)	N			30	0		Erosion of natural deposits	
Inorganic Chemicals (IOC)	MCL Violation Y or N	Running Annual Average (RAA) OR Highest Level Detected	Range of All Samples (Low-High)	MCL	MCLG	Sample Month & Year	Likely Source of Contamination	
Antimony (ppb)	N	< 1 UG/L	< 1 UG/L	6	6	04/2020	Discharge from petroleum refineries, fire retardants, ceramics, electronics and solder	
Arsenic ¹ (ppb)	N	6 UG/L	6 UG/L	10	0	04/2020	Erosion of natural deposits; runoff from orchards, runoff from gas and electronics	
Asbestos (MFL)	N	< 0.2 MFL	< 0.2 MFL	7	7	04/2020	Decay of asbestos cement water mains; Erosion of natural deposits	
Barium (ppm)	N	0.066 MG/L	0.066 MG/L	2	2	04/2020	Discharge of mining wastes; discharge from metal refineries; Erosion of natural deposits	
Beryllium (ppb)	N	< 1 UG/L	< 1 UG/L	4	4	04/2020	Discharge from metal refineries and coal-burning factories; discharge from electrical, aerospace, and defense industries	
Cadmium (ppb)	N	< 0.5 UG/L	< 0.5 UG/L	5	5	04/2020	Corrosion of galvanized pipes; natural deposits; metal refineries; runoff from waste batteries and paints	
Chromium (ppb)	N	< 1 UG/L	< 1 UG/L	100	100	04/2020	Discharge from steel/metal factories; Discharge from plastic and fertilizer factories	
Cyanide (ppb)	N	< 25 UG/L	< 25 UG/L	200	200	04/2020	Erosion of natural deposits; water additive which promotes strong teeth; discharge from fertilizer and aluminum factories	
Fluoride (ppm)	N	1.4 MG/L	1.4 MG/L	4	4	04/2020	Erosion of natural deposits; Discharge from refineries and factories; Runoff from landfills and cropland	
Mercury (ppb)	N	< 0.2 UG/L	< 0.2 UG/L	2	2	04/2020	Runoff from fertilizer use; leaching from septic tanks; sewage; erosion of natural deposits	
Nitrate ² (ppm)	N	0.54 MG/L	0.44 - 0.54	10	10	2021	Runoff from fertilizer use; leaching from septic tanks; sewage; erosion of natural deposits	
Nitrite (ppm)	N	< 0.0125 MG/L		1	1	04/2020	Runoff from fertilizer use; leaching from septic tanks; sewage; erosion of natural deposits	
Selenium (ppb)	N	< 5 UG/L	< 5 UG/L	50	50	04/2020	Discharge from petroleum and metal refineries; erosion of natural deposits; discharge from mines	

Source Water Assessment

Based on the information currently available on the hydrogeologic settings of and the adjacent land uses that are in the specified proximity of the drinking water source(s) of this public water system, the department has given a low risk designation for the degree to which this public water system drinking water source(s) are protected. A low risk designation indicates that most source water protection measures are either already implemented, or the hydrogeology is such that the source water protection measures will have little impact on protection.

Definitions

Treatment Technique (TT): A required process intended to reduce the level of a contaminant in drinking water.

Level 1 Assessment: A study of the water system to identify potential problems and determine (if possible) why total coliform bacteria was present.

Level 2 Assessment: A very detailed study of the water system to identify potential problems and determine (if possible) why an E. coli MCL violation has occurred and/or why total coliform bacteria was present.

Action Level (AL): The concentration of a contaminant which, if exceeded, triggers treatment, or other requirements.

Maximum Contaminant Level (MCL): The highest level of a contaminant that is allowed in drinking water.

Maximum Contaminant Level Goal (MCLG): The level of a contaminant in drinking water below which there is no known or expected risk to health.

Maximum Residual Disinfectant Level (MRDL): The level of disinfectant added for water treatment that may not be exceeded at the consumer's tap.

Maximum Residual Disinfectant Level Goal (MRDLG): The level of disinfectant added for treatment that would not be anticipated to have an adverse effect on health of persons who consume it.

Lead Informational Statement:

Lead, in drinking water, is primarily from materials and components associated with service lines and home plumbing. If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Town of Kearny is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

Contaminant	TT Violation Y or N	Number of Positive Samples	Positive Sample(s) Month & Year	MCL	MCLG	Likely Source of Contamination	
E. Coli	N	0	0	0	0	Human and animal fecal waste	
Fecal Indicator (From GWR source) (coliphage, enterococci and/or E. coli)	N	0	0	0	0	Human and animal fecal waste	
Disinfectants	MCL Violation Y or N	Running Annual Average (RAA)	Range of All Samples (Low-High)	MRDL	MRDLG	Sample Month & Year	Likely Source of Contamination
Chlorine/Chloramine (ppm)	N	0.59	0.57 - 0.62	4	4	12/2021	Water additive used to control microbes
Chlorine dioxide (ppb)	N			800	0		Water additive used to control microbes
Disinfection By-Products	MCL Violation Y or N	Running Annual Average (RAA) OR Highest Level Detected	Range of All Samples (Low-High)	MCL	MCLG	Sample Month & Year	Likely Source of Contamination
Haloacetic Acids (HAA5) (ppb)	N	8.47 UG/L	7.5 - 11	60	N/A	08/11/2021	Byproduct of drinking water disinfection

Contaminant	Unit	Concentration	Health Advisory	Maximum Contaminant Level	Maximum Residual Disinfectant Level	Maximum Residual Disinfectant Level Goal	Other	Notes
Sodium (ppm)	N	250 MG/L	250 MG/L	N/A	N/A	04/2020	Erosion of natural deposits	
Thallium (ppb)	N	< 1 UG/L	< 1 UG/L	2	0.5	04/2020	Leaching from on-processing sites; discharge from electronics, glass, and drug factories	
Arsenic ¹ (ppb)	N						Arsenic is a mineral known to cause cancer in humans at high concentration and is linked to other health effects, such as skin damage and circulatory problems. If arsenic is less than or equal to the MCL, your drinking water meets EPA's standards. EPA's standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water, and continues to research the health effects of low levels of arsenic.	
Nitrate ² (ppm)	N						Nitrate in drinking water at levels above 10 ppm is a health risk for infants of less than six months of age. High nitrate levels in drinking water can cause "blue baby syndrome." Nitrate levels may rise quickly for short periods of time because of rainfall or agricultural activity. If you are caring for an infant, and detected nitrate levels are above 5 ppm, you should seek advice from your health care provider.	
Synthetic Organic Chemicals (SOC)	MCL Violation Y or N	Running Annual Average (RAA) OR Highest Level Detected	Range of All Samples (Low-High)	MCL	MCLG	Sample Month & Year	Likely Source of Contamination	
2,4-D (ppb)	N	< 0.1 UG/L	< 0.1 UG/L	70	70	03/2019	Runoff from herbicide used on row crops

COPPER CORRIDOR COMMUNITY CALENDAR

Election Workers Needed in Hayden, Winkelman

Gila County Elections Department needs poll workers (clerks, ballot judges, marshals) to staff the August primary election in Hayden-Winkelman precincts and may need staff for additional vote centers in Southern Gila County. There's still time to sign up for paid training that will be offered for ballot inspectors and other positions. Requirements? To work the polls you must be registered as a voter in Gila County, have good communication and teamwork skills - and attend paid training. Local, qualified residents who are enthused to earn up to \$105 working the primary are asked to sign-up with a call to Erin at Gila County Elections Department at (928) 402-8709 or email eemiller@gilacountyaz.gov.

Hayden Public Library Summer Activities

Hayden Public Library will be having a variety of activities this summer, beginning June 7 through Aug. 2. All ages are invited to attend and participate in our reading program. The scheduled activities for each day are: Tuesday: storytime 11 a.m.- noon; Wednesday, exercise 4 p.m.- 5 p.m.; Thursday, board games / puzzle play; Friday, family movie; Saturday, art/coloring. For more information contact the Hayden Library at: 928-200-2997.

JUNE

15 Kearny Library's Summer Reading Program

Summer Reading Program 2022 at the Kearny Public Library will start Wednesday, June 8, and continue through June 15 and 22. This year's theme is "Under the Sea." Each class will include a book, craft, activity and book contest with first, second and third place prizes. Our final meet up will be a celebration for those who attended. We will be ordering OTP as well as booking Dirty Sno for 3 hours so the kids can feast on snow cones.

15 Learn About Water at Kearny Senior Center Talk

Kearny Senior Center invites all who are interested to come to Rose Bradford Constitution Hall at 10 a.m. on June 15 to hear David Herrera speak on "Where Kearny water comes from".

Summer softball officially open

By Nathaniel A. Lopez
Copper Area News

The Summer Softball League kicked off their opening ceremonies this past weekend on June 11, at the San Manuel Little League softball field. Teams came from San Manuel, Mammoth, Oracle, and Hayden. The stands of the softball field were packed with supportive parents, spectators, and

young athletes ready to start their summer-ball season.

The ceremonies started with the introduction to this season's teams. Starting with T-ball there was The Little Devils from San Manuel, The Mammoth Unicorns, Bat Attitudes from San Manuel, The Wildbats from Oracle, and The Hayden Redsocks. Next was the 11-U teams, which included; The Peaches from Oracle, The Firecrackers from San Manuel, Win or Lose from San Manuel, The

Public Notice

The voters of the Town of Kearny in 2018 adopted an alternative expenditure limitation - home rule option. The purpose of this election is for the continued use of the alternative expenditure limitation. At the general election to be held on 8 November 2022 the voters of the Town of Kearny will vote on the question of an alternative expenditure limitation - home rule option. With voter approval, the town shall be limited to the expenditure of estimated available revenues whether such expenditures are less than or exceed the State imposed limit. As an example, in 2022-2023, the state-imposed limitation plus applicable constitutional exclusions will allow expenditures of \$8,304,346. Under the proposed alternative expenditure limitation, we estimate expenditures of \$9,066,631. If the voters approve, the additional expenditure authority will be used for all local budgetary purposes including general government, public safety, public works, utilities, cultural and recreation, and capital improvements. Revenues received from federal, state and local sources will be used to fund such expenditures. (The city/town property tax shall be limited to the amount prescribed in the Arizona State Constitution.) The Kearny Town Council will hold two public hearings on the proposed alternative expenditure limitation - home rule option as follows:
22 June - Town Hall 6PM
29 June - Town Hall 6PM With Possible Vote to Place Home Rule Option on the ballot on the November 8, 2022 General Election
CBN Legal 6/8/22, 6/15/22

The Garden is planted!

The Kearny Public Garden personal and public area is planted! Produce will be shared, given away or sold throughout the season. Right now, summer squash is ready to eat! Next cucumbers, beans, peas – come on over to the garden and see for yourself.

The garden is thanks to a dozen or so gardeners, including Becky and Bill, Jennifer, Melinda, Stacy, Tom, Sharon, Deb, Susan, Ann, Jeff, Terri, Jackie, and Kay so far. A few new members, Janna who works at Ace and Terri from Boot Camp, have joined too.

The plants are up and love the sun. Gophers like the

space too but Bill is on top of it. There are experimental plantings of corn in bales of hay. Melinda's attempt at growing "Three Sisters" corn, beans and squash and Tom's luffa sponges are up and growing! Sunflowers touched by Ellie and castor beans are already showing many sets of gorgeous leaves!

You can find the garden space on Emory over by the Little League fields across from Getsome Motorsports and the Firehouse Saloon soon to open. Please keep gate closed.

What is better to eat than fresh?

Organizers and volunteers at the Kearny Public Garden.

SOFTBALL

Continued from page 6

Rebels from Hayden, and The Brats from San Manuel. Last, the crowd was introduced to the 16-U teams; The Heart Breakers from San Manuel, CheetoVibe Cheetahs from Oracle, The Devils from San Manuel, and The Hell's Angels from Hayden.

Sponsors of this season's Summer Softball League include 7 Sky Motel, Silver Mountain Mining, Oracle Ford, CheetoVibe Smoke Shop, Salt N Pepper, Downtown Hardware, SaddleBrooke Community Outreach and San Pedro Valley Pizza Co.

The Summer Softball League hosted opening ceremonies on Saturday in San Manuel. The League encompasses girls from Hayden, Mammoth, San Manuel and Oracle.
