## OBITUARY

# Ramon J. 'Mundo' Garcia

Ramon J. "Mundo" Garcia, 87, passed away on June 12, 2016 at the Veterans Hospital in Tucson, Arizona.

Mundo was born in Winkelman, Arizona on Jan. 27, 1929 to Rafael and Dolores Garcia.

He is survived by Ysabel his wife of 66 years; daughters, Sylvia, Dorothy and Carol (Steve); two sons, Ramon Jr. (Eva) and Eloy (Leticia); grandchildren, Gabriel, Rosalia, Alejandro, Patrick, Shadow, Steven, Stephanie, Melanie and Elianna; great-grandchildren, Aliyah, Analyse, Esteban and Cassie; and his brother, Richard "Peewee" Garcia (Cecelia). He is preceded in death by his grandson Ramon III, parents Rafael and Dolores, 4 brothers and 4 sisters.

Mundo joined the Navy in 1946, where he spent 2 years serving his country. He returned to Winkelman and married his high school sweetheart Ysabel Don Lucas in 1949. They made their home in Winkelman.

Mundo worked as a Maintenance Mechanic for Kennecott Copper Corporation retiring in 1982. After retiring from Kennecott he worked for Edison Electric Power Plant in Laughlin, Nevada.

This was just the beginning of the many ventures he explored. He served as a Councilman and Mayor of Winkelman, owned and operated several businesses, operated his ranch and was a noted "Horse Whisperer" horse trainer. Mundo also enjoyed roping, hunting, fishing and anything that had to do with the outdoors.

After permanently retiring, Mundo enjoyed spending time with his grandchildren. Mundo was known for always willing to lend a helping hand in the community and took many kids under his guidance.

He will be missed by all.

Services will be held Friday, June 24, 2016 at St. Joseph Catholic Church in Hayden, Arizona. Visitation is at 8:30 a.m., Rosary is at 9:30 a.m., Mass is at 10 a.m., with interment to follow at Mountain View Cemetery in Hayden.

# Mammoth Police Report

**According to state law, police may arrest suspected offenders by two methods. The suspect may be physically taken into the department and booked into jail, or the arresting officer may write a citation and release the suspect to appear in court later. All suspects are presumed innocent until proven guilty in a court of law. Only criminal citations are listed. All damage amounts are estimates.**

**Items are given to the San Manuel Miner by the Mammoth Police Department and reflect information available at the time the report is compiled.**

## June 6

A break in was reported on Tiger Dr. An officer responded. Two men fled the scene.

Circle K on Hwy. 77 reported that a man was asking customers to buy him stuff. An officer responded. The man was told to leave.

## June 8

A reckless driver was reported in the area of Hwy. 77 and

the Circle K. An officer responded and cited the driver for driving on a suspended license.

A person was reported missing in the area of Rolfs. The person showed up later that night.

## June 9

An ice chest was reported lying in the middle of Hwy. 77 near milepost 116 with all its contents spilled out. An officer responded and picked up the debris.

## June 11

A couple acting suspiciously in a vehicle was reported on Hwy. 77. An officer responded but was unable to locate

them.

## June 12

A man on Main St. reported that he was physically assaulted by his uncle.

An officer was requested to check on a refrigerator at the softball field. The refrigerator had been locked but was now open. Nothing was damaged or stolen.

Calls not listed include: medical assist (10), animal complaint (2), fingerprints (3), vacation house watch/welfare check (1), fire (7), agency assist (1), warrants served/cleared (2), civil standby (1) and traffic stop (7).

**O**n behalf of the San Manuel Fire District, we would like to thank Mammoth, Oracle and Golder Ranch Fire Departments for their tremendous help in suppressing the fire at the Avenue B Elementary School, the Pinal County Sheriff's Deputies, Tri-City Meds, SW Ambulance, David Hogan, Golder Ranch's Fire Marshal, SW Gas, APS and the Oracle CERT Team for their support. Thanks to the San Pedro Pizza Co., Darlene Allen, Della Parker and Margaret Salaiz for their donations. It was great to see the Tri-Community come together.

Obituaries are published free of charge in the San Manuel Miner. If you have an obituary you would like us to print, please email it to: editor@minersunbasin.com or submit it online at copperarea.com. You can also request our newspaper through the mortuary or funeral home.

# Tips to protect health in extreme heat

Following the heat advisory for southwest Arizona issued by the National Weather Service, the U.S. Department of Health and Human Services (HHS) reminds local residents about steps they should take to protect their health from the extreme heat.

“People may not often think about it but extreme heat can have devastating effects on health,” said Dr. Nicole Lurie, HHS assistant secretary for preparedness and response (ASPR). “Young children, older adults, and people on certain medications can be particularly vulnerable to heat. Recognizing the signs of heat stress and knowing what to do can save a life.”

People suffering from heat stress may experience heavy sweating; weakness; cold, pale, and clammy skin; fast, weak

pulse; and nausea or vomiting. Early signs include muscle cramps, heat rash, fainting or near-fainting spells, and a pulse or heart rate greater than 100.

People suffering from heat stress should be moved to a cooler location to lie down. Apply cool, wet cloths to the body especially to head, neck, arm pits and upper legs near the groin area where combined 70 percent of body heat can be lost; and have the person sip water. They should remain in the cool location until recovered with a pulse heart rate is well under 100 beats per minute.

Signs of the most severe heat-related illness, heat stroke, include a body temperature above 103 degrees Fahrenheit; hot, red, dry or moist skin; rapid and strong pulse; and altered mental

status which can range from confusion and agitation to unconsciousness. Call 911 immediately and take steps to cool the person.

While children are especially vulnerable to heat illnesses, they may be unable to explain what is wrong but may act differently than usual. In extreme heat, consider changes in a child’s behavior to be heat stress.

Similarly, people with communication-related disabilities may have difficulty expressing a heat-related problem. In extreme heat, look for a change in behavior as a sign of heat stress.

Older adults face additional risk of heat stress and heat stroke, for a variety of reasons. The National Institute on Aging’s fact sheet explains more about how extreme heat can affect seniors.

To help prevent heat-related illness:

- Spend time in locations with air-

conditioning when possible.

- Drink plenty of fluids. Good choices are water and diluted sport electrolyte drinks (1 part sport drink to 2 parts water) unless told otherwise by a doctor.
- Choose lightweight, light-colored, loose-fitting clothing
- Limit outdoor activity to morning and evening hours

As air conditioning use increases, electrical grids can become overwhelmed causing power outages. In power outages, people who rely on electricity-dependent medical devices, like oxygen concentrators, may need assistance so check on family members, friends and neighbors who use this type of equipment.

Community organizations and businesses can help local emergency managers and health departments plan for the community’s health needs amid

## Pinal County mobile home notices are arriving

FLORENCE -- Pinal County Assessor Douglas Wolf announced today that his office has mailed the 2016 valuation notices for Mobile Homes.

“Mobile Home owners should check the notice they receive for the valuation or any data errors,” said Wolf. “As an owner you have 30 days to contest a valuation, which means the deadline is 7/8/2016,” he added.

Owners have several ways to contest a valuation.

The appeal form can be downloaded

and printed from the Assessor’s website [www.pinalcountyaz.gov/assessor](http://www.pinalcountyaz.gov/assessor) and dropped in the mail by the deadline date. Or, you can come to the county offices in Florence, the Assessor is located in Building E. Or, visit the Casa Grande office on 820 Cottonwood Lane on Tuesdays or Thursdays or the Apache Junction county government complex on 575 N. Idaho Road, Mondays or Wednesdays and fill out the form. Both offices are staffed from 9 a.m. to 4 p.m.

# Sea Lions win swim meet against Coolidge

The Coolidge Dolphins came to the Mammoth Pool on Saturday in hopes of ending the Sea Lions' winning streak in the Central Arizona Swimming League. The Sea Lions won the meet by a final score of 1031 to 570. From the 6 and under little swimmers to the 15-18 teenagers, the Sea Lions Team is strong in nearly every age group. Coolidge has some great swimmers and won several races, but the combination of the great Sea Lions front line along with the team depth made it evident early in the meet that the Sea Lions would extend their 9-year-old winning streak another week.

Two swimmers swam the maximum number of events and achieved person best times in every event. Jocelyn Hudson (6)

not only achieved best times in all four of the events held for 6 and under girls, she won all four races. Kayla Lambiotte is a seven year old girl competing in the 7-8 girls age group. She achieved personal best times in all six of her events. Kayla is showing that she will be a force to be reckoned with in the future, as she may be one of the fastest 7 year old girls in the league.

Four swimmers entered the maximum number of events and won them all. Mason Stewart (10), Evan Apuron (12), Darien Apuron (15), and Colbey Stratton (17).

The following swimmers had first place finishes on Saturday:

Jocelyn Hudson, 6, (Fly, Back, Breast, Free);  
Kayla Lambiotte, 7, (Medley Relay, Free

Relay);  
Jessica Rouse, 8, (Medley Relay, Free Relay);  
Anya Zovko, 8, (Fly, Back, 50 Free, Breast, Free, Medley Relay, Free Relay);  
Juliana Ramirez, 9, (Medley Relay);  
Johnny Smallhouse, 9, (Medley Relay);  
Nevaeh Derrick, 10, (IM, Back, 100 Free, Breast, Free, Medley Relay);  
Ethan Kellam, 10, (Medley Relay);  
Joey Castellanos, 10, (Free Relay);  
Mason Stewart, 10, (IM, Fly, Back, 100 Free, Breast, Free, Medley Relay, Free Relay);  
Vicente Curry, 10, (Free Relay);  
Rocky Andrade, 10, (Free Relay);  
Emerik Zovko, 11, (Medley Relay);  
Ashlee Parker, 11, (Free Relay);

Briana Castellanos, 11, (Free Relay);  
Riley Stewart, 11, (Medley Relay, Free Relay);  
Tabitha Kellam, 12, (IM, Fly, Back, 100 Free, Breast, Free, Medley Relay);  
Rianna Estrada, 12, (Medley Relay, Free Relay);  
Hannah Smallhouse, 12, (Free Relay);  
Evan Apuron, 12, (IM, Fly, Back, 100 Free, Breast, Free, Medley Relay, Free Relay);  
Hunter Hill, 12, (Medley Relay, Free Relay);  
Star Chavez, 13, (Medley Relay, Free Relay);  
Ann Marie Campbell, 13, (Free Relay);  
Nate Fister, 13, (IM, Fly, Back, 100 Free, Free, Medley Relay, Free Relay);  
Darien Apuron, 14, (IM, Fly, Back, 100 Free,

# Summer School at First Avenue Elementary offers enrichment, extra learning

By **John Hernandez**  
San Manuel Miner

Kids attending the First Avenue Elementary School Summer School Program are enjoying themselves while learning. After working on improving their reading and math skills, the kids get to enjoy arts and crafts, play games and create science projects. The summer program is sponsored by Title I funding, Community Schools and

their friends at SaddleBrooke. Science, math, reading and fun games and activities make for an enjoyable summer.

Over 70 kids have been participating in the program which has included physical education games like tag, baseball and basketball. The pre-K kids have been doing a summer camp and making solar ovens. The Kindergarten through third grade students started preparing a sustainable vegetable garden that will

be taken care of throughout the coming school year. Community Schools is offering special classes such as cooking.

The summer program runs through June 30. During the final two weeks the students will be using the swimming pool for free swim lessons and recreational swimming.

There are still a few openings available. Contact First Avenue Elementary at 520-385-4341 for more information.

Kids at the First Avenue Elementary Summer School show that they can have fun while learning.

## COMMUNITY CALENDAR

### Swim Team Practice

Sea Lions Swim Team is holding practice at the Mammoth Pool Monday - Friday from 4-6 p.m. All ages and abilities of swimmers are welcome. The registration fee is \$40. Registration can be completed at any practice. Swim Meets will be held on Saturday mornings beginning June 4. For more information visit [www.sealionsswimteam.com](http://www.sealionsswimteam.com) or call Alex or Wendy Gort at 520-896-2190.

## JUNE

### 23 Outdoor Movie at San Manuel Airport

The San Manuel Airport will host a free movie night outdoors on the tarmac on Thursday, June 23, starting at 7:45 p.m. On the big screen will be the movie Top Gun. The popcorn is free. Sodas on sale for 50¢. Bring a lawn chair or blanket and enjoy a movie under the stars.

### 25 Mud Volleyball/ Horseshoe Tourney

On Saturday, June 25, the San Manuel Softball League will be having a mud volleyball/horseshoe tournament at the San Manuel pool. Questions? Call Victoria at 520-345-7660.

### 25 Shoe Collection Drive and Rummage Sale

Don't walk a mile in another man's shoes; let him walk all the miles that are left in your soles. We know you have a closet full of old shoes that you aren't wearing, so donate to the worthy cause of sending them to 25 underdeveloped countries. The Oracle Piano Society is collecting men's, women's, and children's new or gently used shoes of all sizes. Bring to the Saturday, June 25, Rummage Sale, which will be held inside at the Oracle Center for the Arts, 700 E. Kingston St. in Oracle from 8 a.m. - noon. Reserve your \$10 table by calling 623-295-9677.

### 25 Charity Thrift 4th of July Fundraiser

On Saturday, June 25, 9 a.m. - 4 p.m. all proceeds earned by Charity Thrift, at 113 Jones St. in Mammoth will be donated to Mammoth Volunteer Fire Department for our Annual 4th of July Pool Party. Donations are also accepted and can be dropped off at the store; or call Jessee Walker for pick up 520-975-2653. See the article for more information.

### 25 Oracle State Park Star Party

On Saturday, June 25, from 6-8 p.m., there will be live music by Kevin Pakulis and his band. From 8-10 p.m. the Star Party is in full swing. Telescopes will be provided by SaddleBrooke Stargazers Club. Free with park admission, thanks to event support by Friends of Oracle State Park.

### 26-1 VBS in Mammoth

Mammoth Assembly of God, 201 E. Kino in Mammoth, will have Vacation Bible School from June 26 - July 1 in the evenings from 6 p.m. - 8 p.m., for all children in the area from ages 3 years on up. For information and transportation, call 520-487-2043.

### 26 Oracle State Park Pollinator Class

On Sunday, June 26, starting at 5 p.m., celebrate National Pollinator Week, June 20-26, for the protection and promotion of pollinators and their ecosystems. Join Hilary Cox for a presentation at the ranch house at 5 p.m., followed by a short guided trail walk. Park gates will close late, by 8 p.m. Reservations are suggested; call 520-896-2425. This event is free with park admission.

### 27-30 VBS in Oracle

Come join us for free Vacation Bible School at the Oracle Union Church, 705 American Way, from Monday - Thursday, June 27-30, 3-5 p.m. Hear stories that will inspire and teach, play games, and create crafts. Snacks will be provided. All children between ages of 4-11 years are welcome and will be divided into age groups. Child must be registered to attend. Call 520-784-1868 to register.

## JULY

### 18-22 VBS at Living Word

Children ages 4 years - 6th grade are invited to spend awhile on the Nile! We are taking a journey to ancient Egypt to find out what happened to Joseph as he went from Pharaoh's prison to the palace, explore an Egyptian marketplace, try ancient games and visit with Joseph. You won't want to miss this! Join us July 18-22 from 5:30 p.m.- 7:30 p.m. For more information visit [www.lwcoracle.org](http://www.lwcoracle.org) or by calling Living Word Chapel at 520-896-2771.

### 22 Free Pet Spay/Neuter, Shot, Microchip

On Saturday, July 22, there will be a free Spay/Neuter and Shot Clinic for dogs and cats at the Oracle Fire Station, made possible by the generous donations of Spray and Neuter Solutions, ASAVET, Animal Crusaders, SaddleBrooke Pet Rescue and TUFT! This clinic is only for dogs and cats which are being altered on this day and are owned by low income families. There are no exceptions. Call 520-705-5425 or email [cherhe70@yahoo.com](mailto:cherhe70@yahoo.com) to make an appointment. On a related note, Charlotte's Way Pet Rescue, 2790 Beverly Circle in Oracle is in need of towel donations, for the comfort of the rescued pets. Call 520-705-5425 for more information.

## ON THE AGENDA

**ORACLE FARMERS MARKET:** The Oracle Farmers Market can be found every Wednesday from 6-9 p.m. at Sue and Jerry's Trading Post, 1015 W. American Ave., Oracle. For more information, please call 896-9200.

**MAMMOTH SENIOR CITIZENS:** Mammoth Senior Citizens meet on Tuesdays and Thursdays at noon for lunch. These meetings are open to the public. To make an order for lunch, please call Mercy Telles at 520-561-5050 or Maria Juarez at 520-265-2385. Also, you can call the Community Center at 487-9348. All we ask is for a donation for your lunch.

**HOME ALONE:** The Home Alone Pendant offers peace of mind by being able to call for emergency assistance by simply pressing a button. Units are available in San Manuel. Call Jerry at 385-2835 for details. Also available in the San Pedro Valley by calling 520-465-5300 or 480-313-2928.

**SAN MANUEL SENIOR CENTER:** Come to the San Manuel Senior Center for fun times. San Manuel Senior Center Board meeting on the first Thursday of the month 6 p.m. at the Senior Center. A theme based Pot Luck second Thursday of the month at 5 p.m. at the Senior Center. Walking group Monday, Wednesday and Friday at 9 a.m. at the Gardner Middle School Track. Canasta is played on Wednesdays at 12:30 p.m. at the Senior Center. Red Hats Meeting is on the second Friday of the month 1 p.m. at the Senior Center. White Elephant Bingo is on the third Friday of the month at 1 p.m. at the Senior Center. Widow's luncheon is held on the first Monday of the month at 11:30 a.m.; restaurants vary, Oracle, Mammoth and San Manuel.

**MAMMOTH SENIOR ASSOCIATION:** The Mammoth Senior Association meets for a potluck lunch at noon at the Community Center on the second Wednesday of the month. The organization is for those 50 and older. Bring a yummy dish. Call Beverly at 520-487-0250 for more information.

**PET ADOPTION:** The SaddleBrooke Pet Rescue Group which partners with smaller local pet rescue groups and holds a monthly, the fourth Saturday of each month, pet adoption event at the Tractor Supply store on Oracle Road in Catalina, except May, November and December). Call Rita at 520-825-4555 for more information.

**BRIDGE:** Bridge is played at the Oracle Community Center Tuesdays from 12:30-4 p.m. Call Ethel Amator at 896-2197 or Mary McClure at 896-2604 for more information.

**NARCOTICS ANONYMOUS 12-STEP:** NA meetings are held Wednesdays at 6 p.m. at Sun Life in San Manuel. Rear entrance, south facing door. Open meeting. For more information, call San Pedro Valley BH at 520-896-9240.

**STORY TIME AT FAMILY FIRST:** The Family First Pregnancy Care Center in Oracle has StoryTime at 10 a.m. on Wednesdays for mothers, fathers and infants-toddlers. For more information call 896-9545.

Submit information to [miner@minersunbasin.com](mailto:miner@minersunbasin.com) or call 520-385-2266. Listings are free. The Miner reserves the right to edit or refuse submissions. Submissions are due the Friday before Wednesday publication.

# Swim lessons available at the Mammoth Pool

The first session of free swim lessons, sponsored by the Town of Mammoth and the Sea Lions Swim Team,

was successfully completed on Friday, June 17. For two weeks, 22 kids, ages 2 through 13, and one adult,

worked very hard to learn how to swim.

The little ones learned how to put their faces in

the water and blow bubbles underwater. The older kids learned how to swim 25 yards of freestyle, 25 yards of backstroke, and jump into the deep-end of the pool. At the end of the two week session all participants were issued certificates of completion showing the level of swimming skills that they had achieved.

It is so important that all kids learn how to swim. Whether kids choose to swim recreationally or competitively, swimming is a great exercise and a skill that everyone can use, no matter their age. For kids who want to

swim competitively, the Sea Lions Swim Team and the San Manuel High School Swim Team offer opportunities for kids of all swimming abilities. For adults, the Mammoth Pool offers Adult Lap Swim Monday – Friday from 7-9 a.m.

Many thanks to the Town of Mammoth, the Town of Mammoth Lifeguards, and the Sea Lions Swim Team for conducting free swim lessons for the kids (and adults!) in the Tri-Community. To register for free swim lessons at the Mammoth Pool, please stop by the pool to pick up a registration form.

Swimming lessons are being offered free at the Mammoth Pool courtesy of the Town of Mammoth and the Sea Lions Swim Team. Photo courtesy Apuron Photography.

## Charity Thrift July 4th Fundraiser

Mammoth - The Mammoth Fire Department is sounding the alarm: it's time to get ready for the annual 4th of July Pool Party. While they love to make sure everyone gets a free chance to take a dip and eat a (hot) dog, volunteers and donations are always welcome and help ensure a better time for all.

The Charity Thrift shop is stepping up and setting aside a day when all proceeds will be donated to the fire department, earmarked for the 4th of July Pool Party. So, drop by the thrift shop at 113 Jones St. in Mammoth on Saturday, June 25, 9 a.m. - 4 p.m. to find your needful, or just fun, items and help support your community while getting a great price.

If you have items you have been eyeing around the house, the sort of things that are nice, but, not anything you use or which are cluttering up your home, now is a good time to get motivated to pack them up and bring them in as donations to help the cause. Or, if you can't bring them in, you can call Jesse Walker at 520-975-2653 to arrange for them to be picked up.

Items that are appropriate for donation and likely to be found for sale include housewares, electronics, clothes, tools, furniture, appliances, books and DVDs. If you have a question about an item, call the thrift store or drop by for a complete list of items.

## LITTLE LEAGUE

# HEAT HEALTH TIPS

Continued from page 4

the summer heat – and other emergency situations that cause power outages – using the HHS emPOWER Map. The HHS emPOWER Map provides the monthly total number of Medicare beneficiaries' claims for electricity-dependent equipment at the national, state, territory,

county, and zip code levels.

For more information about how to prevent heat-related illnesses visit the HHS public health emergency preparedness website at <http://1.usa.gov/25IJ7hz>. For information about how to better prepare for disasters and other

emergencies, visit [www.ready.gov](http://www.ready.gov).

The HHS mission is to enhance and protect the health and well-being of all Americans and fulfills its mission by providing for effective health and human services and fostering advances in medicine, public health, and social

services. ASPR leads HHS in preparing the nation to respond to and recover from adverse health effects of emergencies, supporting communities' ability to withstand adversity, strengthening health and response systems, and enhancing national health security.

## Public Notice

Arizona Water Company (the "Company") has released its 2015 Water Quality Report (Consumer Confidence Report) for its Oracle water system, PWSID 11-019. The Company will not be mailing a copy of the report to its customers, because Arizona Administrative Code R18-4-117, granted a mailing waiver to small water systems with a population less than 10,000 people. Copies are now available: at the San Manuel office located at 460 Avenue A; via mail by sending a request to Arizona Water Company, P. O. Box 120, San Manuel, AZ 85631-0120; via our website at [www.azwater.com](http://www.azwater.com); or by calling the local office at 520-385-2226. The entire report is also printed in the newspaper today. The Company recommends that customers serving more than one housing unit post a copy of the 2015 Water Quality Report in a conspicuous place.

### ARIZONA WATER COMPANY

– 2015 ANNUAL WATER QUALITY REPORT FOR ORACLE, ARIZONA, PWSID NO. 11-019 –

This report contains important information about your drinking water.  
Este informe contiene información importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

Arizona Water Company provides groundwater to its Oracle and SaddleBrooke Ranch customers from wells located near Oracle Junction and in SaddleBrooke Ranch.

All water samples are collected by state-certified employees of Arizona Water Company or by the Arizona Department of Environmental Quality ("ADEQ"). Samples are analyzed by state-certified independent laboratories and the results are forwarded to ADEQ. The following report provides detailed information about the quality of the water delivered to customers. The water supplied by Arizona Water Company complies with all state and federal safe drinking water standards and regulations.

### DETECTED WATER QUALITY CONSTITUENTS - GROUNDWATER

Primary Standards							
Water Quality Constituent	Units	MCLG	MCL	Range of Levels Detected	Sample Year	Typical Source of Detected Constituent	
<b>Inorganics</b>							
Arsenic	ppb	0	10	2 - 8	2012, 2015	Erosion of natural deposits; runoff from orchards; runoff from glass and electronics production wastes	
Barium	ppm	2	2	0.02 - 0.03	2012, 2015	Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits	
Chromium, Total	ppb	100	100	ND - 5	2012, 2015	Discharge from steel and pulp mills; erosion of natural deposits	
Fluoride	ppm	4	4	0.3 - 1.3	2012, 2015	Erosion of natural deposits; water additive which promotes strong teeth; discharge from fertilizer and aluminum factories	
Nitrate (as Nitrogen)	ppm	10	10	1 - 2	2015	Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits	
<b>Radiological</b>							
Alpha Emitters	pCi/L	0	15	3 - 5	2015	Erosion of natural deposits	
Combined Radium	pCi/L	0	5	ND - 1	2015	Erosion of natural deposits	
<b>Organics</b>							
Toluene	ppm	1	1	ND - 0.005	2015	Discharge from petroleum factories	
<b>Disinfectant / Disinfection Byproducts</b>							
Water Quality Constituent	Units	MCLG (MRDLG)	MCL (MRDL)	Average Level Detected	Range of Levels Detected	Sample Year	Typical Source of Detected Constituent
Chlorine Residual	ppm	(4)	(4)	1.2	0.5 - 2.1	2015	Drinking water disinfection
Total Trihalomethanes	ppb	NA	80	7.5	7 - 8	2015	Byproduct of drinking water disinfection
<b>Additional Constituents (Unregulated)</b>							
Sodium	ppm	NS	NS	39	30 - 56	2012, 2015	Unknown
<b>Lead and Copper Monitoring</b>							
Water Quality Constituent	Units	MCLG	Action Level	90 <sup>th</sup> Percentile of Sample Results	Number of Samples That Exceeded the Action Level	Sample Year	Typical Source of Detected Constituent
Copper	ppm	1.3	1.3	0.1	0	2013	Internal corrosion of household water plumbing systems; erosion of natural deposits; leaching from wood preservatives
Lead	ppb	0	15	2	0	2013	Internal corrosion of household water plumbing systems; erosion of natural deposits

Your drinking water complies with the United States Environmental Protection Agency's ("USEPA") safe drinking water standard for arsenic, though it contains low levels of arsenic. USEPA's safe drinking water standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water. USEPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

## Public Notice

Note: In addition to the constituents listed in this report, Arizona Water Company and ADEQ conducted monitoring for over 90 additional constituents and the results show none of those constituents were detected in the water. Data presented are from the most recent testing done in accordance with applicable regulations. Some constituents are monitored less frequently than once a year because either their concentrations do not change frequently or they are not likely to be detected. Therefore, some of the water quality testing data contained herein, although representative, may be more than one year old. If you have questions about this water quality report, please contact Regina Lynde, Environmental Compliance Manager, Arizona Water Company, P. O. Box 29006, Phoenix, Arizona 85038-9006; telephone (602) 240-6860 or email [mail@azwater.com](mailto:mail@azwater.com).

In 2003, ADEQ completed a Source Water Assessment of the water sources used by Arizona Water Company's Oracle water system. ADEQ reviewed the adjacent land uses that may pose a potential risk to the water sources. The result of the Assessment was a low risk to the water sources.

The complete Assessment is available for inspection at ADEQ, 1110 West Washington Street, Phoenix, Arizona 85007, between the hours of 8:00 a.m. and 5:00 p.m. Electronic copies are available from ADEQ at [dml@azdeq.gov](mailto:dml@azdeq.gov). For more information, visit ADEQ's Source Water Assessment and Protection Unit website at: [www.azdeq.gov/envirom/water/dw/swap.html](http://www.azdeq.gov/envirom/water/dw/swap.html).

### The USEPA and ADEQ require Arizona Water Company to provide the following information:

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some constituents. The presence of constituents does not necessarily indicate that water poses a health risk. More information about constituents and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline (800-426-4791).

Some people may be more vulnerable to constituents in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial constituents are available from the Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radiological material, and can pick up substances resulting from the presence of animals or from human activity.

Constituents that may be present in source water include:

- Microbiological, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganics, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organics, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production. They can also come from gas stations, urban stormwater runoff, and septic systems.
- Radiological material, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, USEPA prescribes regulations which limit the amount of certain constituents in water provided by public water systems. FDA regulations establish limits for constituents in bottled water which must provide the same protection for public health.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Arizona Water Company is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the USEPA's Safe Drinking Water Hotline or at <http://www.epa.gov/lead>.

### DEFINITIONS, ABBREVIATIONS, AND UNIT DESCRIPTIONS:

Action Level	■	The concentration of a constituent which, if exceeded, triggers treatment or other requirements which a water system must follow.
CDC	■	United States Centers for Disease Control and Prevention
FDA	■	United States Food and Drug Administration
MCL	■	Maximum Contaminant Level, the highest level of a constituent that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	■	Maximum Contaminant Level Goal, the level of a constituent in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MRDL	■	Maximum Residual Disinfection Level, the highest level of a drinking water disinfectant that is allowed in drinking water
MRDLG	■	Maximum Residual Disinfection Level Goal, the level of a drinking water disinfectant in drinking water below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of using disinfectants to control microbial constituents.
NA	■	None adopted
ND	■	None detected
NS	■	No standard
pCi/L	■	Picocuries per liter
ppb	■	Parts per billion, or micrograms per liter (µg/l)
ppm	■	Parts per million, or milligrams per liter (mg/l)
PWSID	■	Public Water System Identification

# SEA LIONS

Continued from page 5

Breast, Free, Medley Relay, Free Relay);  
Andres Valenzuela, 14, (Breast, Medley Relay, Free Relay);  
Bonnie Bridges, 15, (Free Relay);  
Jessi Rice, 15, (Free Relay);  
Colbey Stratton, 17, (IM, Fly, Back, 100 Free, Breast, Free, Medley Relay, Free Relay);  
Rebekah Head, 18, (Fly, Free Relay);

Estella Martinez (6), Yasamin Jimenez (9), Martin Madrid (9), and Kayla Madrid (12) all competed in their first swim meet. All four swimmers swam well, earned ribbons, and had lots of fun.  
Jocelyn Hudson was named Sea Lions Beast of the Week. Jocelyn dropped 5 seconds in the butterfly, 41 seconds in the

backstroke, 11 seconds in the breaststroke, and 27 seconds in the freestyle in just one week! She had best times in her individual events and got first place in all of them. Her beastly performance at the Meet was because of her hard work every day in practice. Jocelyn always practices doing her kicks, blowing bubbles, breathing, and

swimming without stopping.

The Sea Lions will travel to Globe to compete against the Piranhas on Saturday, June 25.

There is still time to join the team - contact Alex or Wendy Gort at 896-2190 or stop by the Mammoth Pool between 4 and 6 p.m. (Monday-Friday) for more information.

## Public Notice

Arizona Water Company (the "Company") has released its 2015 Water Quality Report (Consumer Confidence Report) for its San Manuel water system, PWSID 11-020. The Company will not be mailing a copy of the report to its customers, because Arizona Administrative Code R18-4-117, granted a mailing waiver to small water systems with a population less than 10,000 people. Copies are now available: at the San Manuel office located at 460 Avenue A; via mail by sending a request to Arizona Water Company, P. O. Box 120, San Manuel, AZ 85631-0120; via our website at [www.azwater.com](http://www.azwater.com); or by calling the local office at 520-385-2226. The entire report is also printed in the newspaper today. The Company recommends that customers serving more than one housing unit post a copy of the 2015 Water Quality Report in a conspicuous place.

### ARIZONA WATER COMPANY

– 2015 ANNUAL WATER QUALITY REPORT FOR SAN MANUEL, ARIZONA, PWSID NO. 11-020 –

This report contains important information about your drinking water.  
*Este informe contiene información importante sobre su agua potable.*  
*Tradúzcalo o hable con alguien que lo entienda bien.*

Arizona Water Company provides groundwater to its San Manuel customers from water supplied by BHP Billiton.

All water samples are collected by state-certified employees of Arizona Water Company or by the Arizona Department of Environmental Quality ("ADEQ"). Samples are analyzed by state-certified independent laboratories and the results are forwarded to ADEQ. The following report provides detailed information about the quality of the water delivered to customers. The water supplied by Arizona Water Company complies with all state and federal safe drinking water standards and regulations.

### DETECTED WATER QUALITY CONSTITUENTS - GROUNDWATER

Primary Standards							
Water Quality Constituent	Units	MCLG	MCL	Range of Levels Detected	Sample Year	Typical Source of Detected Constituent	
<b>Inorganics</b>							
Arsenic	ppb	0	10	5 - 7	2015	Erosion of natural deposits; runoff from orchards; runoff from glass and electronics production wastes	
				Highest Running Annual Average - 7			
Barium	ppm	2	2	0.007	2013	Discharge of drilling wastes; discharge from metal refineries; erosion of natural deposits	
Chromium, Total	ppb	100	100	7	2013	Discharge from steel and pulp mills; erosion of natural deposits	
Fluoride	ppm	4	4	1	2013	Erosion of natural deposits; water additive which promotes strong teeth; discharge from fertilizer and aluminum factories	
Nitrate (as Nitrogen)	ppm	10	10	0.4	2015	Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits	
Selenium	ppb	50	50	8	2013	Discharge from petroleum and metal refineries; erosion of natural deposits; discharge from mines	
<b>Radiological</b>							
Alpha Emitters	pCi/L	0	15	7	2013	Erosion of natural deposits	
Combined Radium	pCi/L	0	5	1	2013	Erosion of natural deposits	
<b>Disinfectant / Disinfection Byproducts</b>							
Water Quality Constituent	Units	MCLG (MRDLG)	MCL (MRDL)	Average Level Detected	Range of Levels Detected	Sample Year	Typical Source of Detected Constituent
Chlorine Residual	ppm	(4)	(4)	1.2	0.4 - 2.1	2015	Drinking water disinfection
Total Trihalomethanes	ppb	NA	80	5.8	5 - 6	2015	Byproduct of drinking water disinfection
<b>Additional Constituents (Unregulated)</b>							
Sodium	ppm	NS	NS	94	94	2013	Unknown
<b>Lead and Copper Monitoring</b>							
Water Quality Constituent	Units	MCLG	Action Level	90 <sup>th</sup> Percentile of Sample Results	Number of Samples That Exceeded the Action Level	Sample Year	Typical Source of Detected Constituent
Copper	ppm	1.3	1.3	0.1	0	2013	Internal corrosion of household water plumbing systems; erosion of natural deposits; leaching from wood preservatives
Lead	ppb	0	15	ND	0	2013	Internal corrosion of household water plumbing systems; erosion of natural deposits

Your drinking water complies with the United States Environmental Protection Agency's ("USEPA") safe drinking water standard for arsenic, though it contains low levels of arsenic. USEPA's safe drinking water standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water. USEPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

## Public Notice

Note: In addition to the constituents listed in this report, Arizona Water Company and ADEQ conducted monitoring for over 90 additional constituents and the results show none of those constituents were detected in the water. Data presented are from the most recent testing done in accordance with applicable regulations. Some constituents are monitored less frequently than once a year because either their concentrations do not change frequently or they are not likely to be detected. Therefore, some of the water quality testing data contained herein, although representative, may be more than one year old. If you have questions about this water quality report, please contact Regina Lynde, Environmental Compliance Manager, Arizona Water Company, P. O. Box 29006, Phoenix, Arizona 85038-9006; telephone (602) 240-6860 or email [mail@azwater.com](mailto:mail@azwater.com).

In 2004, ADEQ completed a Source Water Assessment of the water sources used by Arizona Water Company's San Manuel water system. ADEQ reviewed the adjacent land uses that may pose a potential risk to the water sources. The result of the Assessment was a low risk to the water sources.

The complete Assessment is available for inspection at ADEQ, 1110 West Washington Street, Phoenix, Arizona 85007, between the hours of 8:00 a.m. and 5:00 p.m. Electronic copies are available from ADEQ at [dml@azdeq.gov](mailto:dml@azdeq.gov). For more information, visit ADEQ's Source Water Assessment and Protection Unit website at: [www.azdeq.gov/environ/water/dw/swap.html](http://www.azdeq.gov/environ/water/dw/swap.html).

### The USEPA and ADEQ require Arizona Water Company to provide the following information:

*Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some constituents. The presence of constituents does not necessarily indicate that water poses a health risk. More information about constituents and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline (800-426-4791).*

*Some people may be more vulnerable to constituents in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial constituents are available from the Safe Drinking Water Hotline (800-426-4791).*

*The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radiological material, and can pick up substances resulting from the presence of animals or from human activity.*

#### Constituents that may be present in source water include:

- Microbials, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganics, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organics, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production. They can also come from gas stations, urban stormwater runoff, and septic systems.
- Radiological material, which can be naturally-occurring or be the result of oil and gas production and mining activities.

*In order to ensure that tap water is safe to drink, USEPA prescribes regulations which limit the amount of certain constituents in water provided by public water systems. FDA regulations establish limits for constituents in bottled water which must provide the same protection for public health.*

*If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Arizona Water Company is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the USEPA's Safe Drinking Water Hotline or at <http://www.epa.gov/lead>.*

### DEFINITIONS, ABBREVIATIONS, AND UNIT DESCRIPTIONS:

Action Level	=	The concentration of a constituent which, if exceeded, triggers treatment or other requirements which a water system must follow.
CDC	=	United States Centers for Disease Control and Prevention
FDA	=	United States Food and Drug Administration
MCL	=	Maximum Contaminant Level, the highest level of a constituent that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	=	Maximum Contaminant Level Goal, the level of a constituent in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MRDL	=	Maximum Residual Disinfection Level, the highest level of a drinking water disinfectant that is allowed in drinking water
MRDLG	=	Maximum Residual Disinfection Level Goal, the level of a drinking water disinfectant in drinking water below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of using disinfectants to control microbial constituents.
NA	=	None adopted
ND	=	None detected
NS	=	No standard
pCi/L	=	Picocuries per liter
ppb	=	Parts per billion, or micrograms per liter (µg/l)
ppm	=	Parts per million, or milligrams per liter (mg/l)
PWSID	=	Public Water System Identification

## Public Notice

**NOTICE OF THE PRELIMINARY DECISION TO ISSUE A SIGNIFICANT AMENDMENT TO AN AQUIFER PROTECTION PERMIT**  
Public Notice No. 16-77  
Published on Wednesday, June 22, 2016  
Published in San Manuel Miner  
Pursuant to Arizona Administrative Code, Title 18, Chapter 9, Article 1, the Director of the Arizona Department of Environmental Quality intends to issue a significant amendment to an Aquifer Protection Permit (APP) to the following applicant(s):  
Facility Name: Silver King Mine  
Individual Aquifer Protection Permit No. P-103998  
Permittee: Silver King Mining Company, LLC 56389 E. Simmons Way Kearny, Arizona 85237  
The facility is located in the Pioneer (Superior) Mining District Pinal County, approximately three miles north of the Town of Superior, Arizona in Township 1 S, Range 12 East in the northwest ¼ of the southeast ¼ of the south ¼ of Section 24, of the Gila and Salt River Base Line and Meridian.  
The draft permit and related documentation are available for public review, Monday through Friday, 8:30 a.m. to 4:30 p.m., at ADEQ, 1110 West Washington Street, Records Management Center, Phoenix, Arizona, 85007. In Phoenix, please call (602) 771-4380 or e-mail RecordsCenter@adeq.gov 24 hours in advance to schedule an appointment to review the file. The permit and fact sheet may be viewed online at [adeq.gov/cgi-bin/vertical.pl](http://adeq.gov/cgi-bin/vertical.pl) by accessing the notice on the Events and Notices Calendar for the date of this public notice.  
Persons may submit comments or request a public hearing on the proposed action, in writing, to Monica Phillips Project Manager, ADEQ, Water Permits Section, 1110 West Washington Street, MC5500E-3, Phoenix, AZ 85007 within thirty (30) days from the date of this notice. A public hearing request must include the reasons for such request. **MINER Legal 6/22/16**

## Churches to offer VBS

It's that time of year again, when schools are closed for vacation, the children are cavorting wildly at the pool and parents are at their wit's end trying to figure out how to keep their children under control, without them losing their joie de vie or their grasp on the education they built up all school year long.

Vacation Bible School is an option provided by many churches, especially during the summer months, which provides entertainment and education for the children, while helping families and church groups connect as a community. According to [www.gotoque-stons.org](http://www.gotoque-stons.org), Vacation Bible School is a longstanding tradition, dating from the late 1800s as "Everyday Bible School", when the wife of a New York doctor wanted to find a way to keep her kids off the street in the summertime.

One of the local churches that is offering a VBS is San Manuel Assembly of God. On Monday, June 20 through Thursday, June 23, from 6 p.m. through 8 p.m., local children who are four years through 12 years of age, are invited to gather together and explore God's word. There will be lessons, blacklight puppets, songs, memory verses, snacks and a whole lot more fun, including the good company of friends.

A short jaunt down the road, the Oracle Union Church, located at 705 American Way, offers a VBS from Monday, June 27 through Thursday, June 30 from 3 p.m. through 5 p.m. This will be for children ages four through 11 years. Hear stories that will inspire and teach, play games, and create crafts. Snacks will be provided.

Mammoth Assembly of God, 201 E. Kino in Mammoth, will have Vacation Bible School from June 26 - July 1 in the evenings from 6 p.m. - 8 p.m., for all children in the area from ages 3 years on up. For information and transportation, call 520-487-2043.

## Write your own word ad

### 1. Choose Your Classified Section

Using the index choose the section that best fits your ad

### 2. Write your ad

Minimum word is 15 words for \$4.20. Every word there after is 28¢.

### 3. Circle your Attention Getter (optional)

ONE of these graphics can be added to your word ad for additional \$2.00

### 4. Add up total cost

We charge by the word. A word is anything with a space before or after it. Punctuation is free. Phone numbers with area codes and prices are considered 1 word each.

	<b>\$4.20</b>	For the first 15 words. Minimum charge
		Number of additional words. (If ad has more than 15 words.)
+ ( _____ X 28¢ )		Attention Getter \$2.00
=	<input type="text"/>	Cost for your word ad for one week.
X _____		Number of weeks to run the ad
=	<input type="text"/>	Total cost of ad

### 4. Send the Ad to the San Manuel Miner

- **3 bedroom 2 bath**, great views, 2 car carport, A/C, fenced yard. \$62,950

## And the winner is ...

The winner of the San Manuel Miner Pool Filling Contest is Mark Vancas!

Mark guessed that it would take 362,368 gallons to fill the San Manuel Pool. When the numbers came in from Arizona Water Company, it actually took 467,100 gallons to fill the pool!

Congratulations, Mark! He won a season pass to the San Manuel Swimming Pool. Thanks to everyone who participated in our contest.

Why not head over and join Mark in the cool, and oh-so-wonderful water?

Because pools need lifeguards, prior to the opening of the San Manuel Pool, class was held to train lifesavers.

John Hernandez | Miner

## CHARITY THRIFT

113 Jones St., Mammoth

Open Saturdays, 9-4

*All proceeds go to youth programs  
in the Tri-Community!*

**DONATIONS ACCEPTED!**

Call Jesse Walker at 520-975-2653.

Mammoth-San Manuel Associate Superintendent Julie Dale-Scott, center left, and Mammoth-San Manuel Community Schools Director Lisa Armenta, center right, cut the ribbon officially reopening the San Manuel Pool after being closed for repairs. Many Tri-Community folks seeking a way to keep cool in the Arizona heat headed to the pool opening last week for some free swimming.

John Hernandez | Miner
