OBITUARY

Michael San Miguel

Michael San Miguel, age 46, passed away surrounded by family and friends on June 17, 2018.

The man. The myth. The legend. Michael San Miguel, aka "Cyco Miko" was born April 13, 1972 in Miami, Arizona. In his early years Michael could be found riding his motorcycle around the town of Superior. He was given the nick name "Cyco Miko" for his outrageous behavior and acts. Cyco Miko was once famous in the neighborhood for a jump on his four wheeler at the Little League field.

Shortly after graduating from Superior High School, Class of 1991, Michael went on to work in various industries. He eventually followed in his grandfathers' and father's footsteps in mining. Michael worked throughout Arizona, Nevada, and Alaska until ultimately settling down

in the Town of Morenci, where he worked as a haul pack driver at the open pit mine.

Michael enjoyed sharing stories of his past with energy, exaggeration, and a sense of humor that only he possessed. Michael loved his mom's home cooking, listening to oldies on Sunday, taking his Nana to the casino, and visiting with family and friends. He was known for his generous heart, beautiful green eyes, infectious laugh, entertaining stories, and being the biggest momma boy! Michael took enormous pride in his home Town of Superior and supported the town and people in anyway he could.

He is survived by his son, Michael Anthony, mother Stella, father Elias, brothers Elias Jr. and Manuel, Nana Maggie, Nana Dina, and nieces Adi,

Rural by Choice hosts Arizona Film Commission

By **John Hernandez**
Copper Area News

The Superior Town Hall was the site of an informational presentation and meeting with Studio 48 – Arizona Film Commission. The presentation was hosted by Rural by Choice and Copper Corridor Economic Development Committee. Sponsors and supporters were Arizona Public Service (APS), Gila County Economic Development Corporation and the Town of Superior. Mayor of Superior, Mila Besich-Lira handled the welcome and introductions.

Director of Studio 48 – Arizona Film Commission, Matthew Earl Jones was the key speaker. He is a former line producer from Los Angeles and familiar with Hollywood and the film industry. Director Jones gave an overview of the benefits of filming in Arizona. Some of these included: over 300 days of sunshine, lower production costs, variety of outdoor scenic vistas, free use of state roads and state parks, streamlined permitting processes, experienced crews and talent, pre-negotiated discounts for hotels, rental vehicles, restaurants, and more.

He talked about Arizona trying to position itself as

the Home of Independent Production which is the fastest growing segment of the industry. One of the goals is to get rural communities involved in selling their areas as possible film sites. They have a Film Resource Coordinator Program and are recruiting coordinators. The Film Resource Coordinator

is a volunteer position. Their job is to work with local businesses in the community to offer discounts to film production companies and identify potential film locations and resources. These coordinators should be someone with an outstanding knowledge of their area and community. Upon gathering photos/

videos of location sites, local talent, businesses willing to give discounts, the information will be entered into a national and global data base on the Arizona Film Commission website which will connect with film production companies around the world.

The Tri-Community and Copper Corridor area

have a history of working with the film industry. If local communities work together with the Studio – 48 Arizona Film Commission they may be able to attract the growing film, new media, advanced

technology industry to the area, which can add to the economy. Film production companies tend to spend money locally in restaurants, hotels, hardware stores, gas stations, etc.

Summer Reading Rocks at the Superior Library

A Summer tradition kids and their families can count on in Superior is the Superior Public Library Summer Reading program. Town Librarian, Josie Campos along with her staff and volunteers host the themed program each year. This year, the theme was "Libraries Rock".

The weekly sessions at the library include arts and crafts, interactive sessions and of course reading! During one of their special sessions, local musical Michael Macias

brought in several instruments for the students to experience. The listened to the unique sounds of each instrument and were able to try playing most of them as well.

Amaya and Raiden Sommer also brought in their brass-wind instruments and showed their classmates in Summer Reading how they worked. The month long program, taught students about how music is made and they learned about many different types of music and musical instruments.

Resolution Copper hosts community update on reclamation

Resolution Copper hosted a community update last week on the reclamation of the west plant area and the historical preservation research being done by the company.

Officials from the company announced that many of the buildings will start to be torn down in the coming weeks along with the capping of contaminated land around the smelter. They also announced that the smoke stack/smelter will be coming down in October or November. Originally, they announced the structure would be torn down in September. The reclamation is required under a voluntary consent decree ordered by the Arizona Department of Environmental Quality, which requires Resolution Copper to remediate environmental damages by previous and historic mining operations. The project must be complete by 2020 as per the orders of the decree.

Resolution Copper has hired Westland Resources to conduct Architectural and

Industrial Archeology for the Smelter and mine property. Officials from Westland Resources shared some of their historic findings. One interesting fact they shared is that Col. Boyce Thompson was in Russia attending to a Red Cross mission when he met with another mine investor, it was in Russia in 1917 that they decided to build the smelter. Their historical findings included help wanted ads to build the smelter and buildings. Westland Resources is also conducting oral-video histories of people who worked at the mine, especially those who worked in the smelter and mill areas.

Westland Resources explained that they are following all State Historic Preservation Office requirements to ensure that the necessary documentation is recorded in perpetuity. They are exceeding the state and national standards by conducting in-depth imaging, modeling along with the video interviews of former employees.

The Town of Superior and Resolution Copper have entered into a Memorandum of Understanding that allows both parties to conduct research and outreach on how best to formally memorialize the mining history and culture of Superior while also interpreting the mining technologies of the present. The Company and Town

are required to present three ideas by December and then those three concepts will go through a project feasibility and sustainability process to determine which project(s) will be best suited for Superior. Ideas are being taken by the Town of Superior at Town Hall and Rebuild Superior Inc.

Superior residents learn about the Resolution Reclamation Project.
