# Fireworks Safety

So just where were fireworks invented? It is said that they originated in 7th century China and were used for celebrations. Now that the warmer weather of summer is here, we will enjoy BBQ's, parades, fun in the pool or at lakes and beaches. We will also enjoy fireworks displays especially on

the 4th of July when our country celebrates its birthday. Beautiful and mesmerizing as a fireworks display can be, a fireworks display should be left to the professionals and not set off by people not trained in their proper use.

Each year there are many injuries and fires caused by the improper use of

fireworks. According to the USCPSC (U.S. Consumer Product Safety Commission) in 2017 at least eight people died and approximately 12,900 people sought medical treatment after a fireworks-related injury. Most of these injuries were due to amateurs trying to use professional-

## FIREWORKS

Continued from page 2

grade, homemade or other illegal fireworks.

While fireworks can be and are used throughout the year, the 4th of July is the one day each year when injuries and fires caused by fireworks are reported the most. The NFPA (National Fire Protection Association) estimates that fireworks cause and average of 1,300 structure fires, 300 vehicle fires and nearly 17,000 other fires. The NSC (National Safety Council) advises people to stay away from all consumer fireworks and if they want to see a fireworks display put on by professionals.

The following are some fireworks that are legal for consumers to buy in some states. But just because they are legal doesn't make them safe!! Check out the following list of fireworks that may be legal to purchase in your area. To be safe and obey the law, check with authorities first BEFORE making a purchase: **SPARKLERS** – While often seen along parade routes, at festivals and other events, parents don't realize that sparklers can burn at approximately 2,000 degrees! At this temperature, some metals can melt and a spark from a sparkler can quickly ignite clothing.

**BOTTLE ROCKETS** – Are small rockets that have a stick/tail, are lit by a fuse, and fired from a bottle or can. Many people, especially teens, have bottle rocket "wars", firing them at each other causing head, chest and eye injuries.

**ROMAN CANDLES** – Shoot exploding shells from a tube but can cause

severe burns to the hands of the person holding the firework which can result in loss of fingers and hands as well as severe burns.

Two words to live by when thinking of using M-class fireworks – **JUST DON'T!!** M-80s, M-100s, even M-250s can cause an unmistakable explosion that can be big enough to rattle house windows. They are produced illegally with no quality control, short fuses, and cause hundreds of severe injuries every year.

If fireworks are legal to use in your area here are a few safety tips you should follow:

- Never use fireworks with impaired by alcohol or drugs.
- Never allow young children to handle fireworks.
- Older children should use them only with close adult supervision.
- Never use them indoors.
- Anyone using fireworks or standing nearby should use protective eye wear.

- Use them away from people, houses, and flammable material.
- Light one at a time and maintain a safe distance after lighting.
- Never ignite devices in a container.
- Do not try to re-light or handle malfunctioning fireworks.
- Soak unused and spent fireworks in water for a few hours before discarding.

- Keep a bucket of water or a fully charged garden hose nearby to extinguish fireworks that don't go off or in case a fire starts. In case of fire, Do Not Delay in calling the Fire Department!!
- The BEST way to enjoy a fireworks display? Grab a blanket and patch of lawn, relax, and watch the display provided by the experts!

# Governor Katie Hobbs celebrates nearly \$1 billion to support broadband connectivity in Arizona

This week, Governor Katie Hobbs announced Arizona will receive \$993.1 million to build infrastructure and deploy technology that will expand high-speed internet access to millions of Arizonans. The announcement comes after Governor Hobbs secured \$23 million in this year's

budget agreement for the creation of the Rural Broadband Accelerated Match fund in anticipation of these awards.

“Access to reliable internet is critical to creating equal opportunities for all Arizonans,” said Governor Katie Hobbs. “For too long, millions of Arizonans

have lacked this access, preventing them from attaining good paying jobs, quality education, and even basic healthcare services. With this funding, my Administration will work with local, Tribal, and industry partners to connect every Arizonan, in every community, across the

state and build an Arizona that works for everyone.”

The money is received through the federal government’s BEAD program. Broadband, Equity, Access, and Deployment Program (BEAD) managed

This report contains important information about your drinking water. *Este informe contiene información importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.*

Arizona Water Company provides groundwater to its San Manuel customers from water supplied by BHP Billiton.

All water samples are collected by state-certified employees of Arizona Water Company or by the Arizona Department of Environmental Quality (“ADEQ”). Samples are analyzed by state-certified independent laboratories and the results are forwarded to ADEQ. The following report provides detailed information about the quality of the water delivered to customers. The water supplied by Arizona Water Company complies with all state and federal safe drinking water standards and regulations.

## Public Notice

Your drinking water complies with the United States Environmental Protection Agency’s (“USEPA”) safe drinking water standard for arsenic, though it contains low levels of arsenic. USEPA’s safe drinking water standard balances the current understanding of arsenic’s possible health effects against the costs of removing arsenic from drinking water. USEPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

Note: In addition to the constituents listed in this report, Arizona Water Company and ADEQ conducted monitoring for over 80 additional constituents and the results show none of those constituents were detected in the water. Data presented are from the most recent testing done in accordance with applicable regulations. Some constituents are monitored less frequently than once a year because either their concentrations do not change frequently or they are not likely to be detected. Therefore, some of the water quality testing data contained herein, although representative, may be more than one year old. If you have questions about this water quality report, please contact Regina Lynde, Environmental Compliance Manager, Arizona Water Company, P. O. Box 29006, Phoenix, Arizona 85038-9006; telephone (602) 240-6860 or email [mail@azwater.com](mailto:mail@azwater.com).

In 2004, ADEQ completed a Source Water Assessment of the water sources used by Arizona Water Company’s San Manuel water system. ADEQ reviewed the adjacent land uses that may pose a potential risk to the water sources. The result of the Assessment was a low risk to the water sources.

The complete Assessment is available for inspection at ADEQ, 1110 West Washington Street, Phoenix, Arizona 85007, between the hours of 8:00 a.m. and 5:00 p.m. Electronic copies are available from ADEQ at [recordscenter@azdeq.gov](mailto:recordscenter@azdeq.gov). For more information, visit ADEQ’s Source Water Assessment and Protection Unit website at: [www.azdeq.gov/node/735](http://www.azdeq.gov/node/735).

### The USEPA and ADEQ require Arizona Water Company to provide the following information:

*Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some constituents. The presence of constituents does not necessarily indicate that water poses a health risk. More information about constituents and potential health effects can be obtained by calling the USEPA’s Safe Drinking Water Hotline (800-426-4791).*

*Some people may be more vulnerable to constituents in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial constituents are available from the Safe Drinking Water Hotline (800-426-4791).*

*The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radiological material, and can pick up substances resulting from the presence of animals or from human activity.*

Constituents that may be present in source water include:

- Microbials, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganics, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organics, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production. They can also come from gas stations, urban stormwater runoff, and septic systems.
- Radiological material, which can be naturally-occurring or be the result of oil and gas production and mining activities.

*In order to ensure that tap water is safe to drink, USEPA prescribes regulations which limit the amount of certain constituents in water provided by public water systems. FDA regulations establish limits for constituents in bottled water which must provide the same protection for public health.*

*If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Arizona Water Company is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the USEPA’s Safe Drinking Water Hotline or at <http://www.epa.gov/lead>.*

# Sea Lions win home meet against Globe, Eloy

The Sea Lions hosted the Eloy Otters and the Globe Piranhas at the Mammoth Pool on Saturday June 24. The Sea Lions won the meet with a score of 1,001 points, Globe finished with 608 points and Eloy finished with 10 points.

The Sea Lions moved to 4 - 0 on the season and continue to improve every week. For the fourth week in a row, they had over 100 personal best times (115).

"We cannot control how fast other teams swim; all we can do is work on swimming faster on our team. Our swimmers have done an excellent job of putting up over 100 best times for 4 weeks in a row- a reward for the effort put into practices," Coach Alex Gort stated. "Achieving that many best times every week has never happened in the Sea Lions 20-year history. If you need another good measurement of the rate that the Sea Lions are improving, just look at the points scored over the past two weeks against Globe, 755 last week to 1,001 this week".

For a team to score 1,000 points, they need score many points in every event. The Sea Lions won 68 of the 86 events at the meet. The team has a good balance of ages of boys and girls in all the age groups (Boys and Girls - 6 and Under, 7-8, 9-10, 11-12, 13-14, and 15-18). The Sea Lions won every race in 9 out of the 12 age groups. Points are earned for the top 6 places (7-5-4-3-2-1) in individual

races and the top 4 places (10-5-3-1) in relays.

The 9-10 Girls continue to be a strength of the Sea Lions. The Sea Lions have several girls who can win any race and they have the team depth that makes it hard for other teams to score any points in that age group. This week Kori Andrade won the butterfly, Alianna Riney won the IM and the 100 Free, and Bea Olson won the Back, Breast and 50 Free. Kimber Nehrmeyer, a first-year swimmer, who finished among the top three several times, joined Kori, Alianna and Bea to be part an awesome relay team that is clearly among the best in the League.

Bradley Tafoya (8), Grayson Downing (8), Jordan Doucette (9), Colt Nehrmeyer (12), and Isaac Olson (14) all swam the maximum number of events and won all their races.

The following swimmers had first place finishes on Saturday:

Karolee Lutz, 6, (Breast);  
Jayden Primero Predgo, 7, (Medley Relay, Free Relay);  
Bradley Tafoya, 8, (IM, Fly, Back, 50 Free, Breast, 25 Free, Medley Relay, Free Relay);  
Arabelle Primero Predgo, 8, (Medley Relay, Free Relay);  
Teddy Olson, 7, (Medley Relay);

# Veteran and artist creates mural on VFW Memorial at Superior Cemetery

A new mural has been created at the VFW Memorial at the Fairview Cemetery in Superior. The mural was the inspiration of Alfonso “Sonny” Cruz. Sonny, a Vietnam Veteran, has always shared

great pride for his military service and the recognition of others who have served.

“Our hometown has been deeply affected by the consequences of war, as were our neighboring communities,” he said.

Cruz has utilized art to reduce the symptoms of post-war Post Traumatic Stress Syndrome. Over the past several years, he restored a classic car as a tribute to

his military service. The car features memorabilia as well as a history of his military service. He often displays the vehicle during the Dia de Los Muertos event in Superior and other car shows.

Another project is called the healing wall.

“The healing wall is a tribute to all branches of the armed services. The mural depicted is a visual representation and symbol of respect and

appreciation for all comrades, friends, and brothers who gaucher for life and freedom,” explained Cruz.

Cruz’s latest project is coordinating a mural on the VFW Memorial at the Fairview Cemetery. The mural is being painted by Myron Starr of Peridot, he is the son of a Vietnam Veteran. A few local veterans wanted to make contributions to the art work, and while Cruz had intended to fund most of the project himself including some support for Myron Starr, who agreed to volunteer his time and skills. After seeing the mural, more people suggested they wanted to be able to make donations.

Donations can be made via GoFund me: <https://bit.ly/3NDkoG5> or you may Zelle a donation to Jeanette Cruz, Sonny’s wife at 602-770-3179. You may also call them to learn more about the mural and how you can get involved.

Sonny Cruz is transforming a once blank wall at the Superior Cemetery into a patriotic work of art.

# BROADBAND

the deployment of the nearly \$1 billion in BEAD funds over the next five years to ensure all Arizonans are connected to affordable, high-quality internet.

“High-speed internet access is becoming a greater need throughout all tribal communities in the state of Arizona,” said Speaker Crystalyne Curley of the 25th Navajo Nation Council. “The funding will be very beneficial for first responders, students, businesses, and many others on the Navajo Nation. We look forward to working with Governor Hobbs and the state agencies to ensure that tribal nations maximize the benefits of the NTIA funding,”

“This funding will be instrumental to keep all of Arizona’s economy growing and thriving,” said Mayor Mila Besich. “For small rural communities like Superior, having reliable internet not only helps connect our residents and grow our economy, it will be critical to public safety as well.”

“Today’s announcement is great news for Arizona, our 91 cities and towns, and residents across our great state. This money will provide opportunities for cities and towns to support broadband availability and adoption in their communities that will help close the digital divide and ensure rural, suburban, and urban communities have equal opportunity to access and afford high-speed internet” said René Guillen, Deputy Director, League of Arizona Cities and Towns. “In conversations with mayors and city and town managers across the state, whether

it’s for economic development, educational purposes, or just personal access, the need for high-speed internet access has been a common refrain. We look forward to collaborating with our state and federal partners on putting this money to good use to benefit our residents.”

“This nearly \$1 billion investment in Arizona’s broadband infrastructure will be a game changer,” said Mignonne Hollis, Executive Director of the Arizona Regional Economic Development Foundation. “This is especially so in rural areas, where access to reliable high-speed is one of the biggest impediments to economic development, access to telehealth, and quality of life. We look forward to working with the Hobbs Administration on the placement of these grant funds into Arizona’s rural communities.”

“Common Sense Media’s research has shown that internet service is essential for families, whether for education, work, health care, or connecting with loved ones,” said Ilana Lowery, the Arizona Director of Common Sense Media. “This historic federal investment will ensure that every Arizonan, no matter where they live or how much they make, has access to affordable, high-speed broadband.”

Lucy Olson (12) and Jorden Doucette (9) were named Sea Lions Beasts of the Week.

Lucy continues to practice hard every week. Each week she swims well and continues to get better and better. This week she had a beastly performance with improvements in every race plus she finished in the top six and earned ribbons in every race during the meet. Lucy's steady hard work has put her among the best 11-12-year-olds on the team.

As a 9-year-old, Jorden has to swim races of 50 yards for each stroke (Fly, Back, Breast, and Free) instead of the 25 yard races he did when he was 8. The adjustment is tough for all swimmers, but Jorden does his best in practice. He continues to improve every week and this week had all best times and won every race. This is quite an achievement, but it takes a Beast to pull this off as a 9-year-old.

Over the past 16 years, the Sea Lions have lost only one home meet. It was on June 8, 2019, to the Tucson Aquabears. The final score was 789-785. On July 1, the Aquabears will return to Mammoth for the first time since 2019. The Sea Lions are excited to see how they stand up to the defending League Champions in their home pool.

There is still time to join the team - contact Alex or Wendy Gort at 520-896-2190 or stop by the Mammoth Pool between 3:30 and 5 p.m. (Monday-Friday) for more information.
