## Governor Ducey issues statewide curfew

On Sunday, Arizona Governor Doug Ducey surprised a majority of Mayors, Police Chiefs and County Sheriffs across the state when he declared an emergency and issued a statewide curfew order. The order came after a night of looting and destruction of property occurred in Scottsdale and is aimed to stop group gatherings after 8 p.m. to help reduce violence at protests. In his Executive Order, Governor Ducey also called up the National Guard to assist with the enforcement and crowd control.

Protests have been started across the nation, state and even in other foreign countries in protest of the death of George Floyd by a Minneapolis Police Officer. The protests have been a call to action and awareness in the Black Lives Matter movement.

The order issued on Sunday afternoon calls for people to be in their homes by 8 p.m. until 5 a.m. every night through

Monday, June 8, 2020 at 5 a.m. The order does allow for people to travel to and from religious services; commercial delivery services and trucking to operate; you can obtain food and patronize a private business, care for a family member or animal; escape an emergency situation; or travel to and from work. Violators of the curfew will face misdemeanor charges and up to a \$2,500 fine. According to various other news reports and via Twitter, Ducey is quoted, "We've learned some lessons over the last three days. First, the more aggressive approach does work." Further tweets said that he had the Mayors and Police Chiefs across the state "on board." President Donald Trump complimented Governor Ducey on his actions.

Many Mayors and Police Chiefs opted to announce that they would not be enforcing the curfew order in their communities, Payson, Holbrook, Eager and Springerville

## Rios continues to advocate for fair funding

MAMMOTH – The Pinal County Board of Supervisors have dropped their litigation against the Federal Government after the State announces the distribution of the CARES Act funding. Pinal County has been allocated \$27,170,006, while Pinal County towns and cities will receive individual funding.

"Had it not been for the Pinal County Board of Supervisor taking action to bring a lawsuit against the US Treasury, I believe that the Governor would not have moved on the distribution of the \$1.8 billion dollars of CARES Act funds," said Supervisor Pete Rios. "Even though this is a good start for Pinal County and our cities/towns, there is still additional funding that the Governor needs to distribute to rural counties and small cities/town."

Cities and towns in Pinal County will receive the following: Pinal County \$27,170,006; \*Apache Junction \$4,887,430; Casa Grande \$6,731,338; Coolidge \$1,507,410; Eloy \$2,253,079; Florence \$3,148,226; Kearny \$248,901; Mammoth \$193,679; Maricopa \$5,984,522;

Superior \$364,855; \*Winkelman \$40,297; \*Hayden \$72,443.

\*City/town boundaries are in two (2) counties, total allocation combined

Local governments may use their allocation to cover regular payroll costs of public health and public safety personnel, freeing up existing local budget capacity to be deployed elsewhere. The fund is designed to provide maximum flexibility, while minimizing red tape, so municipalities can determine how best to use the funds to meet their needs.

In an effort to benefit all Pinal residents, the Board of Supervisor will have to discuss and vote on how to disperse this funding to unincorporated areas of Pinal County. The focus for these areas will be services like rental assistance, utility payments, food banks, social services, businesses, job training and more.

Supervisor Rios is grateful to the Governor for making an effort to treat rural areas on a more equitable basis and will continue to advocate for Pinal County.

Contact Name and Title	Phone Number	E-mail Address	
Don Jones – Town Manager	(520) 487-2331	townofmammoth@hotmail.com	
<p>This Annual Water Quality Report provides information on your drinking water. The United States Environmental Protection Agency (EPA) requires that all drinking water suppliers provide a water quality report to their customers on an annual basis. This report contains important information on the quality of your water and contact information you may wish to use if you have any questions. Town Council Meetings are held the third Thursday of each month at Town Hall. For a schedule and meeting minutes, please check the Town of Mammoth website: <a href="http://townofmammoth.us/town-council/">http://townofmammoth.us/town-council/</a></p>			

#### Drinking Water Sources

The sources of drinking water (both tap and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals, and in some cases, radioactive material, and can pickup substances resulting from the presence of animals or from human activity.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water which must provide the same protection for public health.

**Our water source:** All drinking water for the Town of Mammoth comes from two active wells, Well #4 (55-651263) and Well #5 (55-801443).

#### Source Water Assessment Program (SWAP)

The ADEQ has completed a Source Water Assessment for the Town of Mammoth. Based on the information currently available on the hydrogeologic settings of and the adjacent land uses that are in the specified proximity of the drinking water sources of this public water system, the department has given a low risk designation for the degree to which this public water system drinking water sources are protected. A low risk designation indicates that most source water protection measures are either already implemented, or the hydrogeology is such that the source water protection measures will have little impact on protection.

You can help protect our water source by practicing good septic system maintenance, limiting pesticide and fertilizer use, and by properly disposing of hazardous household chemicals.

Source Water Assessments on file with the ADEQ are available to the Public. You can obtain a copy by contacting the ADEQ Source Water Coordinator at (602) 771-4597.

#### Vulnerable Population

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. Some people may be more vulnerable to contaminants in drinking water than the general population.

Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV-AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers.

For more information about contaminants and potential health effects, or to receive a copy of the U.S. Environmental Protection Agency (EPA) and the U.S. Centers for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and microbiological contaminants call the EPA *Safe Drinking Water Hotline* at 1-800-426-4791.

#### Drinking Water Contaminants

**Microbial Contaminants:** Such as viruses and bacteria that may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife

Our water is tested monthly for coliform bacteria.

**Inorganic Contaminants:** Such as salts and metals that can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming

Our water is tested annually for nitrate. Lead and Copper is tested every 3 years. Other inorganic chemicals (IOCs) are tested every 9 years.

**Pesticides and Herbicides:** Such as agriculture, urban storm water runoff, and residential uses that may come from a variety of sources

**Organic Chemical Contaminants:** Such as synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and also may come from gas stations, urban storm water runoff, and septic systems.

Our water is tested every 3 years for volatile organic chemicals (VOCs) and synthetic organic chemicals (SOCs).

**Radioactive Contaminants:** That can be naturally occurring or be the result of oil and gas production and mining activities.

Our water is tested is tested every 3 years for radionuclides.

#### Lead Informational Statement:

Lead, in drinking water, is primarily from materials and components associated with service lines and home plumbing. If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children.

The Town of Mammoth is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking.

Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at [www.epa.gov/safewater/lead](http://www.epa.gov/safewater/lead)

### Water Quality Data – Regulated Contaminants Detected in Your Drinking Water

The Town of Mammoth routinely monitors for contaminants in your drinking water as specified in the national Primary Drinking Water Standards. Monitoring results from 2019 or the most recent sampling period, are included in the table. Certain contaminants are monitored less than once per year because concentrations are not expected to vary significantly from year to year, or the water system is not considered vulnerable to this type of contamination.

Microbiological (RTCR)	TT Violation Y or N	Number of Positive Samples	Positive Sample(s) Month & Year	MCL	MCLG	Likely Source of Contamination	
Total Coliform	N	0	NA	0	0	Naturally present in the environment

Sodium (ppm)	N	130	130 - 130	N/A	N/A	11/2018	Erosion of natural deposits

<sup>1</sup> Arsenic is a mineral known to cause cancer in humans at high concentration and is linked to other health effects, such as skin damage and circulatory problems. While your drinking water meets EPA's standards, it does contain low levels of arsenic. EPA's standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water, and continues to research the health effects of low levels of arsenic.

<sup>2</sup> Nitrate in drinking water at levels above 10 ppm is a health risk for infants of less than six months of age. High nitrate levels in drinking water can cause "blue baby syndrome." Nitrate levels may rise quickly for short periods of time because of rainfall or agricultural activity. If you are caring for an infant, and detected nitrate levels are above 5 ppm, you should ask advice from your health care provider.

## Wildfire Safety

Much of the southwest is considered a high-hazard fire environment. Within this hazardous environment are individual homes, and entire communities ill-prepared to survive an intense wildfire. It is not a question of "if" a wildfire will occur, but when. The odds of losing human life and property are growing. The Town of Kearny would like to protect you and the community from the dangers of wildfires. The Fire Chief is very concerned about this upcoming fire season. Even though we have received more rain than usual, it has caused more weeds. Once the rain stops, the weeds will dry out and this will make for a dangerous fire season. Please clear weeds, dry grass, dry shrubs or dead trees surrounding your property. Thank you for your support.

# Mountain Vista K-8 School Update – Hello, Summer!

On May 20, the 2019-2020 school year officially ended for students and staff at Mountain Vista K-8 School. Although the end of the school year looked different due to COVID-19 and school closures, the feeling of small town roots and global expectations was as strong as ever.

We proudly promoted 37 students to the ninth grade during our online Eighth Grade Promotion Ceremony including Mariah Villalba, Salutatorian and Avery Jennings, Valedictorian. Awards and scholarships were presented to 17 students during the ceremony. Scholarships

were made available for hard working students through the fundraising efforts of our Student Council, National Junior Honor Society, and generous donations from community members. Our teachers visited the homes of each eighth grade student and left a surprise yard sign to congratulate each of our promoting students.

Immediately following the online ceremony, a community parade started at Mountain Vista K-8 School, cruised down American Avenue and ended at the courthouse. Members of the Class of 2020 from across the Oracle, San Manuel, Mammoth, and Catalina

area were recognized for their academic achievement. The parade was kindly escorted by Pinal County Sheriff's Department and the Oracle Fire District.

We will continue to provide free breakfast and lunch for the children in our community each morning from 8-9 a.m. in the Mountain Vista K-8 School Parking Lot at 2618 W El Paseo, Oracle, AZ 85623 through June 30. Due to social distancing and precautions, Summer School will not be offered this summer.

We will continue to share information with our community throughout the summer regarding the return to school in

August. We encourage our community to visit our District website at [www.osd2.org](http://www.osd2.org) and visit the "Community" tab throughout the summer

for video updates and information.

## CARES ACT

Continued from page 4

Editor's note: The Pinal County Board of Supervisors held its regular meeting today, June 3. On the agenda was an item addressing the CARES Act funds and how best to allocate them throughout the county. The agenda item reads:

"Discussion/approval/disapproval to direct staff to prepare an expedited Pinal CARES initiative process targeting coronavirus-related needs mainly throughout

unincorporated Pinal County but to coordinate with municipalities within Pinal County so as to not duplicate programs or assistance, unless necessary, so that programs and assistance can be quickly implemented meeting the greatest number of needs of residents, non-profits and local businesses. (Louis Andersen)"

Copper Area News will continue to follow this issue and inform our readers of the outcome.

## CURFEW

Continued from page 4

were a few that immediately announced they would not be enforcing the order. Officials in Kearny and Superior issued similar statements on their Facebook pages, asking residents and business owners to abide by the Governor's order and that if groups assembled after 8 p.m. the curfew would be enforced through education. Hayden Police Department announced on Facebook that they would not enforce the curfew. All three communities stated that there were no credible or active threats against the communities. The Town of Mammoth is also following an enforcement by education process.

The unincorporated areas of the Copper Corridor (San

Manuel, Oracle, Dudleyville) fall under the jurisdiction of the Pinal County Sheriff's Office. In a statement on Facebook PCSO did not indicate if they would be actively enforcing the curfew order but did say they are monitoring the situation closely, including social media.

Mayors from the Copper Corridor explained that they were not given any advance knowledge and were not consulted. Media reports and comments on Twitter also indicate that Mayor Regina Romero of Tucson and Mayor Kate Gallego of Phoenix were not contacted prior to the order. The Governor's announcement said that his order came at the request of local mayors.
