Laurell Elizabeth 'Liz' Tucker

Laurell Elizabeth "Liz" Tucker, age 84, passed away peacefully at home on June 1, 2021. She was a wonderful, devoted mother; loving companion; and very special person to her family and friends.

She was born March 5, 1937 to Everett E. Brown and Rosa Lee Lay Brown. She was the sixth of eight children. Liz is survived by Mark Johnson, Carrie Power (Ken), Carlene Denton-Roach, Katherine Willis (Roy), Nathan Cotts (Sherrie), sister Julann McPherson, 11 grandchildren and 14 great-grandchildren. She was preceded in death by her parents and siblings, Frances Bedlion, Everett L. Brown, Donald Brown, Novella

Bedlion, Charlotte Pratt, Sandra Brown, and grandson, Blaine Sewell.

Liz was saved at an early age and always loved her Lord and Savior Jesus Christ. She was a loving, kind, and strong woman who led an active and full life. A high priority in Liz's life was to please the Lord and share His good news with all she met.

After graduating from Ray High School in 1955 at Ray, Arizona, she married Grant E. Denton. They had three beautiful daughters: Carrie E. Denton Power, Carlene R. Denton-Roach, and Katherine I. Denton Willis. This chapter of her life was very busy raising three daughters and caring for her cowboy husband. She embraced the rodeo life with her family and even learned to barrel race.

In the next chapter of life Liz married Paul D. Cotts. They had Nathan Everett Cotts, and she was step-mother to Kenny, Brian, and Donnie Cotts. Life was busy with seven children at home.

Liz then lead quite an adventurous life as wife of George M. "Karo" Tucker. Karo's work took them to Paraguay where the couple explored Iguazu Falls. They also backpacked through the breath-taking Sierra Nevada's with young Nathan in tow. This was one of her favorite adventures.

Later Liz completed her Associates Degree at Central Arizona College Aravaipa taking construction classes from the late Glen Johnson. At this time, she met Mark L. Johnson and the two have been constant companions for the past 27 years, traveling through Europe and enjoying many other explorations. Together the two raised Placer C. Brady-Sewell, Paxton M. Brady-Sewell, Joshua Brady-Sewell. She called Mark her "Angel" and "True Love".

Liz worked hard and accomplished much in her life. At one point she even balanced three jobs: guard at the Arizona State Prison, cook at the General Kearny Inn, and operator of a vending machine route at the Ray Mine. Liz was an active business member in the Copper Basin Community operating a flower shop and an antique shop. She ultimately established herself as a Realtor, Broker, and owner of Dynasphere Realty.

Family, friends, and others whose lives Liz touched are invited to the Living Word Chapel, 402 Danbury Rd., Kearny, AZ 85137 on Tuesday, June 8, 2021 at 9:30 a.m. followed by a short graveside service. A luncheon will be provided for everyone at the Kearny Senior Center to reminisce, grieve, support each other and, of course, just chat.

LETTER TO THE EDITOR

Tri-Community Stands Together for the Mammoth Pool

The good people of the Tri-Community made their voices heard this evening and were able to influence the Mammoth Town Council to reverse its previous decision and allow the Mammoth Swimming Pool to be open to the public this summer – a little late, but better late than never.

I don't know about you, but sometimes I find myself losing faith when I see all the bad things that are happening in this great country that I love. But not today. People from all over the Tri-Community stood together as one to support what is right and good. They made their voices heard and held their elected officials accountable for making decisions that help the majority of the Community – not just a few individuals with specific

agendas. Everyone who supported the Mammoth Pool and the Sea Lions Swim Team should be extremely proud of their courage and strength, and for seeing through the lies and misinformation. I personally would like to thank everyone from the bottom of my heart for supporting our community and not being afraid to speak up for what they believe in. Democracy is alive and well and will endure, thanks to people like you.

The Sea Lions Swim Team has been part of the Tri-Community since 2004. We had managed the Mammoth Swimming Pool since 2015 and until January 2020 when the Mammoth Town Council voted to cancel the contract. We are back managing the pool as of today. It will take us about 10-14 days to get the pool ready to open to the

public but we are doing all we can to open as soon as possible. Public Swimming Pools are not like ball fields – there are very specific rules and regulations for operating a Public Pool.

I am a Certified Pool Operator (CPO) and I volunteer my time and expertise at no charge to the Town of Mammoth. I am sure many people have seen me in previous years cleaning the pool very early in the morning. The Town of Mammoth sets and receives the admission fees, and pays for lifeguards, chemicals, and utilities, but they never have to pay to keep the pool clean and the water safe. My first priority as the Pool Manager is the safety of the pool patrons and the pool staff. And while there are people who may disagree with the way the pool is managed, I hope that no one disagrees about doing everything possible to insure the pool is clean and safe for the families of our community.

So once again, thank you for taking a stand today. Keep an eye out for the upcoming pool schedule. It will be posted in the *Miner*, at the local Post Offices, at Mammoth Town Hall, and also on the Town of Mammoth website. We look forward to seeing everyone at the pool!

Pinal County Sheriff's Office sex offender notification

The Pinal County Sheriff's Office has issued a sex offender notification for the Oracle area.

Robert Antonio Castillo, 22, has reported that he will be living in the 2100 block of W. American Ave., Oracle. Castillo is 5'3" with black hair and brown eyes and is heavily tattooed. He is 130 pounds and is Caucasian. He was convicted in 2018 on two counts of child abuse with sexual motivation. The victim was a 13-year-old female and Castillo was 18 at the time of the offense. He is considered to be a Level 2 offender.

The Pinal County Sheriff's Office is releasing the above information pursuant to A.R.S. 13-3825, the Community Notification on Sex Offender Law. Notification must be made when certain sex offenders are released from the Arizona State Prison, accepted under an interstate compact or released from the county jail back into the community. Offenders are categorized into three levels: Level One (low risk to the community), Level Two (intermediate risk to the

community), and Level Three (high risk to the community).

The individual who appears on this notification has been convicted of a sex offense, which allows for community notification. He is not wanted by the Pinal County Sheriff's Office at this time.

This notification is not intended to increase fear; rather it is our belief that an informed community is a safer community. The Pinal County Sheriff's Office has no legal authority to direct where a sex offender may or may not live. Unless court ordered restrictions exist, this offender is constitutionally free to live wherever he chooses. Citizen abuse of this information to threaten, intimidate, or harass sex offenders will not be tolerated. Sex offenders have always lived in our communities; but because of Megan's Law, law enforcement is now able to share this information with you.

Police caution that any use of this information to threaten, intimidate, harass or create an act against another person will result in prosecution.

LETTERS TO THE EDITOR

Rep. Cook Protecting Local Budgets

In 1972, mayors from all over Arizona struck a deal with leaders at the State Capitol that helped our economy grow, kept taxes simple and helped create the strong cities and towns we have today. In that deal, approved by Arizona voters, cities agreed never to adopt a separate income, luxury or “sin” taxes and in exchange, the state would provide 15% of state income taxes with Arizona’s cities and towns. Today those funds account for a majority of our local public safety budgets; it’s a great deal for taxpayers and a great deal for public safety.

Unfortunately, the Governor and legislative leadership are now actively trying to break that deal with Arizona cities. Thankfully, we have State Representative David Cook representing us in the Arizona state legislature. He is one of a handful of brave legislators with enough courage to stand up to the power brokers at the State Capitol in Phoenix. Rep. Cook is forcefully speaking out about the destructive impact the proposed tax cut will have on our rural communities and he is fighting to protect us.

The tax cut proposal being advanced by the Governor and legislative leadership would reduce funding to local governments by \$285 million annually, forever. Our respective municipalities’ annual losses and the corresponding percentage budget cuts are as follows: Casa Grande is \$3 million (-6.57%); Coolidge is \$650,000 (-6.89%); Eloy is \$964,807 (-8.10%); Florence is \$1.3 million (-11.57%); Globe is \$361,000 (-3.84%); Hayden is \$73,743 (-2.9%); Kearny is \$106,584 (-7.72%); Miami is \$87,509 (-6.6%); Queen Creek is \$2,501,861 (-5.4%); and Superior is \$156,237 (-6.27%). Simply put, our rural communities cannot absorb annual revenue reductions of this magnitude without impacting the delivery of critical services to our residents.

This state shared revenue is the fundamental backbone of local government funding and is critical if we are to maintain our current level of public safety protection and municipal services. Equally important, Rep. Cook joins us in supporting policies which address our water challenges here in Pinal County. Securing long-term sustainable water solutions will ultimately cost the state billions of dollars and this proposed tax cut risks our ability to attain water security. Considering Arizona’s water future and its pending costs, Rep. Cook is right to stand up and fight a permanent tax cut valued at nearly \$20 billion over the next decade. Those are dollars the state will sorely need to fund future water solutions.

We wish to make it perfectly clear to all of our municipal residents: We stand with Rep. Cook in protecting our public safety budgets and bringing funding to Pinal County to help mitigate our state’s long term water shortage.

Sincerely, Mayors of Legislative District 8

Cook Fighting for Pinal, Gila Counties

Representative David Cook has always fought to protect the interests of the residents of Pinal and Gila counties, whether by securing resources to build roads or to develop water supplies, and we are very grateful to see his hard work to ensure that any tax reduction package passed by the legislature is designed so that the state remains on solid financial footing going into the future.

We have been watching the negotiations over the tax package with great interest since we became aware of the proposed

\$1.5 billion income tax reduction plan. Though counties do not share in the state’s income tax revenues as cities do, we have a deep interest in the state’s structural financial stability.

History has shown that when the state has financial shortfalls, the legislature will readily access county tax dollars to help balance its books. For example, since 2008, the legislature addressed revenue deficits by passing laws that billed Gila County \$5.8 million and Pinal County

\$27.8 million to support state agencies, which are obligations of the state general fund.

These were local tax dollars that would have been used for direct support to local constituents, road maintenance, or for creating the ability to lower local property tax rates. If the state goes too far in reducing its capability to meet its obligations, we fear the state will again turn to using county resources to balance the state budget.

Financial instability in state government is not good for our constituents and, simply, not good government. To be sure, current state revenues are significant as we come out of the pandemic. However, economists have cautioned that some of these revenues are attributable to the massive infusion of federal money into our

economy. And, as Representative Cook has pointed out, the state still has substantial debt from the last recession, along with unmet capital and water development needs that must be addressed.

We are very concerned that in the legislature's desire to do something "big and bold," what will get lost is doing things right. Therefore, we applaud Representative Cook's leadership to shape a tax package that strikes a wise balance--providing meaningful tax relief, reducing state debt, and ensuring the state has the resources to meet its obligations to Arizonans into the future.

Sincerely,
/s/ **Supervisor Steve Miller, Pinal County**

Telegraph Fire rages – Superior on high alert

On Friday afternoon, huge billows of smoke could be seen south of Superior – a fire had started. Officials have indicated that the cause of the fire is human but the exact cause is unknown.

The fire raged north towards Superior and eventually crossed Highway 177, but still continued to get closer to Superior. On Saturday morning, Superior was put on a SET order to evacuate, crews worked tirelessly to keep fire lines to protect Superior. Residents living in the south

side of Superior watched the fire race towards Forest Road 230.

Highway 177 was closed and just prior to that Highway 77 from Winkelman to Globe was closed due to the Mescal Fire. That fire was also a human-caused fire that has forced the evacuation of areas in San Carlos, El Capitan and Dripping Springs.

As the fire raged north, it eventually caused the evacuation of the Oak Flats Campground and the Top of the World.

Shop at Home: Dollar General in San Manuel

In April 2020, COVID-19 brought much of Arizona's economy to a screeching halt. All businesses not deemed "essential" were ordered closed by Arizona's governor Doug Ducey.

The lockdown continued for nearly two months. When

Gov. Ducey finally gave the go ahead to reopen, businesses slowly began the road to recovery. Even those listed as "essential" had a challenge with this economic recovery.

Many small businesses and non-profits in Arizona didn't survive the lockdown. The businesses that did survive are

hanging on as best they can. *Copper Area News* wanted to give something back to the local business community. Over the next several weeks, our newspapers (*Copper Basin News, Superior Sun and San Manuel Miner*) will be featuring local businesses and non-profits, encouraging our readers to Shop at Home, stay local and support our local businesses. To date, *Copper Area News* has featured 66 businesses in the Copper Corridor.

It is hard enough making it as a small business in a small town during normal times. But to balance those difficulties during a pandemic adds an entirely different twist to things.

Dollar General in San Manuel quickly became the go-to place for groceries and supplies when the lock down forced many residents to stay home. As an essential business, Dollar General had to adapt quickly to keep employees and customers safe during a pandemic.

The store's manager, Tony Guisa, is incredibly grateful to all the residents who continued to shop at the store despite the pandemic.

"We are very appreciative of the business you bring to us and continue to bring on a daily basis," Guisa said, a comment directed at his customers. "Thank you San Manuel and Tri-Community residents for continuing to shop during the pandemic even through it was scary to go out."

Guisa has been the manager of the store for more than 9 years and has made San Manuel his home.

"I couldn't think of a better town to live in or run a business in," he added.

Dollar General as a corporation has been in business since 1939 and has been in San Manuel since 2006. It offers groceries, sundries, Western Union, Fedex pick-up and drop-off services and "great customer service," Guisa said. It is located at 74 E. Main St., Superior and is open daily 8 a.m. to 10 p.m. The phone number is 520-385-5825.

Remember to shop local.

Tony Guisa is the store manager at the Dollar General in San Manuel.

Fragrant Dried Herbs from the Garden

By Laurie Bryant

Oracle Community Learning Garden

One of the visions of the Oracle Community Learning Garden was to provide a place for the community to have garden beds for growing vegetables and flowers. But even if you don't have a garden bed here now, it's meant to be a place to come and look at the gardens or sit and relax.

Enjoying the relaxing aspects of a garden means using your all senses: vision, smell and taste. To continue talking about herbs from last time, here's some suggestions for creating fragrant dried herbs for use in kitchen and home.

Drying herbs is pretty easy here in our area. The weather is so dry that we can hang them outside in bundles or put them in paper lunch sacks outside. It's best to protect them from too much wind and heat but they will dry easily very quickly. If you have a wire screen container, or two

wire mesh pan covers, herbs can be placed in them to dry. Some people use an oven or dehydrator but you have to be careful or they will shrivel.

Dried herbs should be used fairly soon after drying. I know I have had tins of dried herbs in my cupboard for years. They should be replaced since they will lose their flavor with time. This is a benefit of growing your own herbs. You will always have a fresh supply. And harvest your herb plants often. Just cut off a few sprigs and it will encourage new growth.

I usually pick the herbs early in the morning. You can leave them on the stems, tie them together and hang them upside down. Once they are dried, store them in a cool, dark place in small glass jars with lids.

Herb teas have long been identified for their medicinal qualities. But even to enjoy them for their fragrance and relaxing taste is worth it. Some of the more common ones

Continued on page 7

DRIED HERBS

Continued from page 6

are chamomile, lavender, lemon herbs, any of the mints, even parsley. Or make a combination of any of them. Take a spoonful of your dried herbs, put in a cup of boiling water, let it sit for about 5 minutes and pour the liquid through a strainer. You can also use the tea strainer balls or spoons and put your herbs in that. If you want to make your own teabag, use clean cotton cheesecloth squares, put herbs on cloth and tie them up with strong thread or string. A good summer iced tea is made from 1 teaspoon lemon verbena, 1/2 teaspoon lemon thyme and 1/2 teaspoon lemongrass per cup of tea. Let cool and add ice.

The dried herbs can also be used to make bouquet garni packets for soup. The packet can simmer along with the soup and then be removed. Some of the more popular herbs for this, fresh or dried, are sage, thyme, tarragon, rosemary and oregano. You can tie a bundle of fresh stems together or put dried herbs in a cheesecloth bundle so they can be easily removed.

We can always remember the smell of dried lavender or dried rose petal bundles that we used to put in drawers. It's easy to make them, and they make welcome gifts. After drying the lavender, rose petals or other fragrant flower, cut a piece of light, open weave cloth, place dried flowers inside, and sew them shut. You can make them as ornate as you want for gifts, with ribbons and bows.

Dried herbs are usually more potent than fresh, so you can use less in recipes. Whether you grow your own herbs or buy them in whole food stores, you can make many different combinations of flavors and smells to create your own favorites. Of course, we recommend you grow your own herbs, because that is the wonder of gardening. Start with a seed, grow a plant and enjoy its beauty and fragrance, and finally dry that herb to continue enjoying its flavor. Please share any ideas or recipes you may have to the email address listed below.

Garden Tips and Tricks from Bunny

I have 6 big Red Flame seedless grape vines at my home in Oracle, and decided to grow a few for the community garden. So, when I pruned my vines 2 years ago, I started some more grape vines from the cuttings. Last January, I planted 4 of them in the community garden and they're doing great! But I do expect that sometime between now and mid-July the grape leaf skeletonizers will show up and start devouring them!

This insect is a type of moth that looks kind of like a wasp. It's a deep dark blue-black with feathery antennae. The caterpillars that cause the grape leaf damage are small with black, yellow and blue stripes. Once they start eating the grape leaves, they will leave only the leaf veins, or skeleton of the leaf. The first time I removed these caterpillars by hand, I didn't know to wear gloves. Their stinging hairs left welts that burned, itched and got infected. After that first experience, I used gloves and applied Bacillus thuringiensis to get rid of them. And of course, I check daily for moths & for their eggs and caterpillars on the leaves, and remove them. Prevention is always the best solution!

Happy Gardening!

This report contains important information about your drinking water.
Este informe contiene información importante sobre su agua potable.

Arizona Water Company provides groundwater to its San Manuel customers from water supplied by BHP Billiton.

All water samples are collected by state-certified employees of Arizona Water Company or by the Arizona Department of Environmental Quality ("ADEQ"). Samples are analyzed by state-certified independent laboratories and the results are forwarded to ADEQ. The following report provides detailed information about the quality of the water delivered to customers. The water supplied by Arizona Water Company complies with all state and federal safe drinking water standards and regulations.

Public Notice

Your drinking water complies with the United States Environmental Protection Agency's ("USEPA") safe drinking water standard for arsenic, though it contains low levels of arsenic. USEPA's safe drinking water standard balances the current understanding of arsenic's possible health effects against the costs of removing arsenic from drinking water. USEPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

Note: In addition to the constituents listed in this report, Arizona Water Company and ADEQ conducted monitoring for over 80 additional constituents and the results show none of those constituents were detected in the water. Data presented are from the most recent testing done in accordance with applicable regulations. Some constituents are monitored less frequently than once a year because either their concentrations do not change frequently or they are not likely to be detected. Therefore, some of the water quality testing data contained herein, although representative, may be more than one year old. If you have questions about this water quality report, please contact Regina Lynde, Environmental Compliance Manager, Arizona Water Company, P. O. Box 29006, Phoenix, Arizona 85038-9006; telephone (602) 240-6860 or email mail@azwater.com.

In 2004, ADEQ completed a Source Water Assessment of the water sources used by Arizona Water Company's San Manuel water system. ADEQ reviewed the adjacent land uses that may pose a potential risk to the water sources. The result of the Assessment was a low risk to the water sources.

The complete Assessment is available for inspection at ADEQ, 1110 West Washington Street, Phoenix, Arizona 85007, between the hours of 8:00 a.m. and 5:00 p.m. Electronic copies are available from ADEQ at recordscenter@azdeq.gov. For more information, visit ADEQ's Source Water Assessment and Protection Unit website at: www.azdeq.gov/node/735.

The USEPA and ADEQ require Arizona Water Company to provide the following information:

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some constituents. The presence of constituents does not necessarily indicate that water poses a health risk. More information about constituents and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline (800-426-4791).

Some people may be more vulnerable to constituents in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial constituents are available from the Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radiological material, and can pick up substances resulting from the presence of animals or from human activity.

Constituents that may be present in source water include:

- Microbials, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganics, such as salts and metals, which can be naturally-occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining, or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff, and residential uses.
- Organics, including synthetic and volatile organic chemicals, which are byproducts of industrial processes and petroleum production. They can also come from gas stations, urban stormwater runoff, and septic systems.
- Radiological material, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, USEPA prescribes regulations which limit the amount of certain constituents in water provided by public water systems. FDA regulations establish limits for constituents in bottled water which must provide the same protection for public health.

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Arizona Water Company is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the USEPA's Safe Drinking Water Hotline or at <http://www.epa.gov/lead>.
