## LETTER TO THE EDITOR

### Town Hall Event Fails to Address Tucson vs. Phoenix TV in Southeastern Pinal County

**D**uring the Virtual Town Hall meeting held on July 21, 2020 by Congressman Tom O'Halleran I was disappointed with what the Congressman said and did not say when someone (not me) brought up the failure to receive Tucson TV stations in southern Pinal County during the serious Bighorn Fire threat. It is obvious that the approach I have taken for the past seven and a half years of working with the Representative from Arizona's 1st Congressional District cannot yield the necessary change in legislation to stop putting lives at risk and harming local businesses. It is time for a new approach to resolving the stalemate in Congress.

I want to publicly thank Judy Sulltrop for her support of

my efforts. She was the person in Congresswoman Ann Kirkpatrick's office who responded when I first raised the FCC DMA issue in 2013. I will forever appreciate what she did to help me learn about the STELA legislation.

A public thanks also to Paul Babbitt. When I learned about his involvement with the FCC, I was greatly encouraged that something could be done.

A thank you to Congressman O'Halleran for coming to Oracle in May 2018 and for listening when I raised the issue directly with him. He publicly acknowledged that the law was flawed, dangerous, and unfair to his constituents in southern Pinal County.

## LETTERS TO THE EDITOR

# Mammoth Mayor, Council Election Critical for the Town

Every election is important, and every election has some critical item that needs to be decided. In the town of Mammoth, Arizona, this election is vital to the survival of our town.

During the last several years, Mammoth residents have seen more bad than good. Residents have had to sit by while their own elected officials failed to represent them and do what was right for the town.

Residents are unable to utilize the sidewalks after the sun starts to set, and when the weather finally cools off because all the streetlights are out. Residents have also seen a substantial deterioration in the condition of town-owned parks and streets. But most importantly, over the past year, residents were lied to by those officials they elected to represent them.

Almost every household in Mammoth has seen their water and sewer bills at least double if not triple over the past six months. Residents in Mammoth were told at the

beginning that water rates wouldn't go up, but down with the new meters. Then when the Town Council meeting was held on raising water rates, residents were assured that most of them would only see a \$20 increase. When the bills were printed, and the dust had settled, almost every household in Mammoth saw at least double or triple the rate they were paying. The council had the opportunity to raise rates using a staggered system, say 10-30% over so many years, yet all but one councilmember voted to raise rates the full 280%. At the last town council meeting, the person who drafts the town's budget even stated that the budget was increasing almost a million dollars for the next year, and "since water and sewer were now profitable, it was contributing to that increase."

This council has refused to hear the people they represent. They are one of the only councils in the state of Arizona that has refused to allow public participation at meetings. Town council meetings are now held

telephonically, and the call to the public has been canceled, thus effectively shutting down the voice of the people.

I want to remind residents that they can still exercise their voice and help to restore Mammoth to the community it once was, and possibly even better. It all begins with this the most crucial vote for our small town. On Aug. 4, when you are casting your vote, remember the councilmembers who voted to raise your water and sewer rates 280%. Remember those councilmembers who are up for re-election that won't even answer their phones so you can voice your opinion. Most of all, remember that all those members up for re-election have stood by while the town has taken away your ability to voice your opinion on the record. On Aug. 4, I urge all residents to vote for Terry Adams, Eric Romero, and Alvaro Barcelo for town council and vote Patsy Armenta for town mayor. Mammoth needs change, and we have the opportunity to bring about that positive change on Aug. 4.

Thank You,

/s/ **Annie Martinez**

## TUCSON VS. PHOENIX TV

Continued from page 2

Finally, thanks to Edgar Rivas, Congressman Tom O'Halleran's Senior Legislative Assistant. When he hosted the conference call in April 2020 to discuss the FCC DMA legislation I felt that the issue had finally received the proper attention that it needed within Congress.

Unfortunately, the best intentions of everyone have failed to accomplish the needed legislation change for citizens in southern Pinal County.

I will now be pursuing a more expanded approach to reach out to other influential Members of Congress and elsewhere with the goal of protecting lives and businesses. As I have said several times, Congress created the problem with the flawed FCC DMA legislation and

Congress must immediately enact needed change. With wildfire season fully underway in Arizona and the COVID-19 pandemic showing no signs of going away, the next crisis could be weeks, days, or even hours away.

## Arizona open for education; local schools prepare

On Thursday, Arizona Governor Doug Ducey announced that schools will need to re-open by Aug. 17 and they must offer some opportunity for in-person services to students who are in need of in-person education. On Sunday, the Arizona Interscholastic Association announced that practicing for Fall Sports will also begin on Aug. 17.

Governor Ducey and State School Superintendent Kathy Hoffman also indicated that decisions on fully re-opening schools would be made using data provided by the Arizona Department of Health Services to the County health departments. The data thresholds were not announced at the press conference; the parameters are expected to be released by Aug. 7, 2020.

The day before Governor Doug Ducey's press conference, school districts across the state received notification that their insurance carrier "The Trust" will not cover any COVID-19 related lawsuits. This has left districts scrambling to understand how the lack of insurance coverage will affect their operations.

COVID-19 has created a constantly changing environment when it comes to communication and up to date information. At press time, our local school districts have indicated their current plans. We advise parents to check in with their local school districts on registration and education options.

Ray Unified School Governing Board

voted to start school on Aug. 6 with an all online format through fall break in October; the board also voted to cancel all Fall sports district wide.

The Superior Unified Governing Board voted on its operating plan on Tuesday, July 28; their decision was not available at press time. The district was preparing for an all online format through fall break. The district announced online that they would have devices for all students of the Superior Unified School District. The district will also offer online registration.

The Hayden-Winkelman School District Governing Board voted to resume school on Sept. 8 with an online learning format. The district will continue to provide some in-person services as needed but transportation will not be provided for students. Students will be issued an iPad and hot spots will be available for students who need them.

Mammoth-San Manuel Unified will be offering a blended learning option. Parents can choose between an all online learning opportunity or a hybrid model where students come to school two days a week with the other days learning at home. The District will also offer fall sports as per AIA guidelines.

Oracle School District will reopen school on Aug. 20 with a hybrid model which offers parents the choice of sending their children to school, or keeping them at home for online learning.

## San Manuel Public Library offers phased reopening plan

Due to the high number of COVID-19 cases in Arizona, beginning Monday, July 27, 2020, San Manuel Library will be offering pickup service as part of our phased reopening plan.

Here's how it works:

- Patrons will be notified by phone to schedule an appointment to pick up their items.
- Appointment dates are Tuesdays and Thursdays from 10 a.m. to 2 p.m.
- Requests can be placed through the Pinal County Library District App, online at [catalog.pinalcountyz.gov](http://catalog.pinalcountyz.gov), or call the library at 520-385-4470 to place holds for pickup.

- With an appointment scheduled, simply walk up to our pickup window with your Pinal County Library Card to checkout your items.

- Return your items in our drop-box, available 24/7.
- Face coverings are required at all times while visiting the library. If you do not have a face covering, one will be provided for you.
- Services will only be offered via pickup window, no patrons are permitted inside the library at this time.

Please note reopening plan and procedures are subject to change.

# Oracle Historical Society receives emergency aid

By John Hernandez  
San Manuel Miner

Like the rest of the country, many businesses and non-profits in the Tri-Community have suffered financial hardship due to the Coronavirus crisis. Thanks to the Coronavirus Aid, Relief and Economic Security (CARES) Act, one Oracle non-profit has received some relief which will help provide support for operating this year.

The Oracle Historical Society, Inc. recently received a CARES Act Emergency Relief – Humanities Grant of \$5,500 from Arizona Humanities (AzH). This grant will allow the Oracle Historical Society (OHS) to cover operating costs and contractor costs for three months, recoup losses suffered during the coronavirus closure and prepare to re-open its Acadia Ranch Museum and two other historic buildings. OHS is also using a portion of these monies for a much needed and long anticipated project to digitize its significant collection of historic photographs and upgrade its museum software and printing/scanning capabilities.

Funding for this grant was provided by the National Endowment for the Humanities (NEH) as part of the Coronavirus Aid, Relief and Economic

Security Act. AzH is funded by both NEH and private donations. Without this funding many community groups, libraries, cultural sites and museums in Arizona would be without a valuable source of programming funds. OHS has used AzH resources in the past, including speakers for public talks on Arizona history and looks forward to future opportunities to do so.

The Pandemic forced OHS to cancel its Spring Run Car Show, one of its two major annual fundraising events. Recently the OHS Board of Directors made the difficult decision to cancel its other major fundraiser, the Oracle Run. The Oracle Artists Studio Tour and the Tucson Historic Preservation Foundation historic ranch tour, both scheduled in March 2020, were also cancelled. OHS lost monthly income from paranormal tours and research events, tourism tours and class rentals while closed to the public.

This grant ensures that OHS will continue to operate, and fulfill its mission to document and preserve this area's rich history. OHS is extremely grateful to AzH and NEH for their ongoing support and generosity, and look forward to opening its Acadia Ranch Museum, American Flag Ranch and Trowbridge Tack Room to the public soon.

The Oracle Historical Society's Acadia Ranch Museum has been closed to the public due to the current pandemic.

The COVID-19 pandemic forced the cancellation of two major fundraisers for the Oracle Historical Society: the Oracle Spring Run Car Show and the Oracle Run.

# Immunization

An unforeseen consequence of the COVID-19 pandemic is that parents are skipping well-child checkups and the life-saving childhood immunizations that go with them.

First Things First, Arizona's early childhood agency, is working with early childhood partners to urge families to keep their babies, toddlers and preschoolers on schedule for their immunizations.

"We're trying to help families navigate this new normal," said FTF Senior Director for Children's Health Vincent Torres. He is part of a team of state agencies that meet frequently to look at challenges caused by the pandemic and the health impact it is having on families across Arizona.

"How do we educate families and build their understanding of the pandemic and how important it is that their child still receive well-child checkups?," Torres said.

The estimated 50% drop in vaccination orders, compared to the same time last year, is raising red flags that preventable diseases, such as measles, mumps and rubella that have been nearly eliminated through the effective use of vaccines, may

soon surge.

"The risk comes in very young children who need to get their basic immunizations in the first 24 months of life," said Debbie McCune, executive director of The Arizona Partnership for Immunization (TAPI). "As they fall behind, the risk for measles, whopping cough and other preventable diseases becomes greater."

TAPI works statewide to fight the spread of vaccine-preventable diseases and their effects by raising awareness about immunizations.

It's a concern shared by many in the health care community, especially members of the Arizona Chapter of the American Academy of Pediatricians (AzAAP), which recently kicked off a Back to the Office campaign to reassure parents that pediatrician offices are open, safe and ready to see children for their well-child checkups.

Community pediatrician Dr. Jason Vargas said his office has seen a dramatic drop in well-child visits since the COVID-19 pandemic began.

"Eighty to 90% of families were simply

not bringing their children in,” said Vargas, who is president-elect of AzaAAP. “There was a lack of information out there saying that it was ok to visit your pediatrician.”

His Glendale office staff has been calling families to let them that it’s safe to bring in their children for the well-child visits they may have missed.

Vargas said he understands the parental fear and reassures families that pediatrics offices are taking many precautions to keep their child safe in their offices. Some measures include:

- Limiting the number of people in the office.
- Cutting back on wait times.
- Sanitizing exam rooms after each visit.
- Blocking off hours during the day when only well-child visits are done, so parents and children are not waiting in an office where other sick children might be.

Well-child checkups — which include the opportunity for pediatricians to complete developmental screenings and immunizations to prevent disease — are essential for the health of young children.

In Pinal County, the public health clinics saw a 44% decrease in immunizations from April, May and June of 2019 compared to the same months in 2020, said Marcela Salinas, clinical services

division manager for Pinal County Public Health.

In order to ensure the health and safety of staff and clients, Pinal County Public Health has limited the number of clients allowed within all public health clinic lobbies and increased cleaning and disinfecting routines. Additionally, clinics are encouraging all patients to schedule appointments and come to appointments prepared with a mask for the parent and/or guardian and any children 2 years old and older.

Salinas emphasized the importance of making sure all family members are up-to-date on their vaccinations.

“Immunizations continue to be considered a primary prevention method and are our first line of defense,” she said. “To ensure we do not experience any outbreaks or epidemics for vaccine preventable diseases, it is extremely important that we continue to vaccinate throughout this pandemic, so that we may have the best chance in maintaining healthy communities.”

One way is to remind families that their child’s health care provider or pediatrician’s sole goal is to keep their child healthy, McCune said. “Young children aren’t protected yet from many diseases. Infants rely on those boosters

**First Things First, Arizona’s early childhood agency, is working with early childhood partners to urge families to keep their babies, toddlers and preschoolers on schedule for their immunizations.**

and they’re left vulnerable if they are taken off their immunization schedule.”

Falling behind on the vaccination schedule could eventually put more young children at risk and could even cause a

vaccine shortage if medical offices are inundated at once with families bringing in their children for vaccinations.

McCune said it is difficult to predict in

# Oracle School District moving ahead with bond projects

The Oracle School District Governing Board and other District leaders have been working hard to move ahead with both the bond projects, and preparation for the new school year, one which promises to be anything but normal.

Several months of work came together at the July board meeting when the Board voted to begin making capital bond purchases and to reopen school on Aug. 20. The reopening will consist of a hybrid model which offers parents the choice of sending their children to school, or keeping them at home for online learning. The District estimates this hybrid model will cost approximately

\$275K over and above normal operating costs for the school year. The district anticipates receiving \$117K from the CARES (Coronavirus Aid, Relief, and Economic Security) Act to offset some of these costs. Superintendent Nehrmeyer will address more about the reopening in a separate article and on the District's website (osd2.org) and Facebook page (OracleSchoolDistrict).

In a study session prior to the Governing Board meeting, the Board heard again from the District Capital Bond Committee as well as representatives from its two project partners, BWS Architects, and the H2 Group (project manager). At the recommendation of the Committee, the Governing Board approved the following:

- The use of capital bond monies to purchase furniture, technology and equipment (FTE) for the new 10-classroom building, (to replace the junior high Bateman building), approved by the bond. This is common practice with school projects and will ensure FTE is compatible with the new building and meets students' needs. At the same time, care will be taken to reuse as much of the existing technology as possible.
- A new site location for the new 10-classroom building. The selected location will position the new building

at the front of the campus, south of the school office building. This placement will help ensure a safer campus, preserve the flow of pedestrian traffic on campus, keep students centralized, and upgrade the entire front of the campus. Best of all, it will negate the need to rent modular buildings (saving significant funding) to accommodate students, as the Bateman building can continue to be used during construction.

- Continuing with the plan to remodel the library versus building new. The committee had asked BWS and H2 Group to assess the most economical path forward and they determined remodeling will save at least \$160K over building new.
- Utilizing the CMAR (Construction Manager At Risk) project delivery method. This will help us hire the best possible general contractor to work with BWS and H2 Group to ensure our bond projects are completed within budget and as promised to voters. The CMAR process also allows the construction manager to be "on-board" during the design process which greatly aids in ensuring the projects are successfully completed.

Lastly, the Governing Board approved the District

**Self-employed**

**The SIMPLE IRA plan –**

If you're self-employed or own a small business, you may be able to establish a savings incentive match plan for employees (SIMPLE) IRA plan. A SIMPLE IRA plan is a salary reduction retirement plan for certain small business that is established in the form of employee-owned traditional individual retirement accounts (but with a higher contribution level). Establishing such a retirement plan can provide you with a tax-advantaged way to save funds for your retirement; it may also help you attract and retain qualified employees. Call for an appointment.

New annual contribution limits for SIMPLE IRAs let you invest more.

# Dudleyville Landfill Closure Update

In an effort to keep the public aware, Supervisor Pete Rios reports the following updates on the Dudleyville Landfill closure.

On March 25, Waste

Management began the process of terminating its lease for the Dudleyville Landfill. Upon the landfill closure, Waste Management has agreed to construct a transfer

facility.

The Dudleyville landfill's projected date of closure is Aug. 10. Following the landfill closure the projected opening of the new transfer station is Aug. 14.

The proposed hours of

operations will be every Friday and Saturday from 8 a.m. to 4 p.m.

During the week of July 20, Pinal County Public Works will select a contractor to operate the facility. In the interim, to ensure these

services are provided to the communities, Pinal County will staff the facility if needed.

What does this mean? The public will still have regular residential services and have access to utilize their FREE

dump vouchers at the new transfer station.

As more information is confirmed, Pinal County will work on keeping the public informed.

## IMMUNIZATIONS

real time what the lower immunizations rates will mean. "What we can do is observe what has happened in the past. When vaccine coverage rates slip below 95%, it's easier for measles to spread," she said. "As numbers slide downward, the protection in the community begins to erode. Instead of random cases of pertussis or measles, it can spread to children without the vaccine. We need to keep our protective shield up."

McCune's message to parents is simple.

"Trust your health care provider," she said. "In time, there will be a vaccine for COVID-19, but it would be terrible if we don't do what we can to keep young children up-to-date and protected from diseases that we can prevent."

### About First Things First

First Things First is a voter-created, statewide organization that funds early learning, family support and children's preventive health services to help kids be successful once they enter kindergarten. *Copper Area News* is committed to providing our readers with as much information as possible. We post a daily update on our Facebook page with the total positive COVID-19 Data. This graph shows the daily counts of positive cases for the past week as of press time on July 28, 2020.

There are a few points we would like our readers to consider when following this data.

1. This will continue to be a rolling total of positive cases. It does not reflect recoveries or deaths. The Arizona Department of Health Services does not break out this data.
2. If you see a reduction in numbers from day to day it is most likely due to a data entry error or mis-coding of a zip code (at the state level).
3. This is all zip code based data; most of our zip codes include unincorporated areas. There is no way to track exactly which areas each of the positive cases are. Example, Kearny and Winkelman each have small communities in their zip code that are not in the Town's incorporated boundaries.
4. If you live in Gila County, please follow the Gila County Health and Emergency Management, Facebook. They have maintained their data on recoveries and current positive cases.
5. You can follow other data such as ICU bed use, Ventilator use and hospital capacity online: <https://bit.ly/3inh28O>

**Working together, we can slow the spread of the virus across the Copper Corridor. Wear a mask in public, remain physically distant (6 feet apart or more), practice good hygiene (wash your hands frequently, sanitize high touch areas) and stay home if you are not feeling well.**

# Congress passes the Great American Outdoors Act

Last week, the United States House of Representatives voted in favor of the Great American Outdoors Act by an overwhelming majority (310–107). It is now on its way to be signed by the President, and within the next 10 days will become the most significant piece of conservation legislation in a generation. It was first introduced by Congressman John Lewis of Georgia, who passed away last week at age 80.

“At a time when our country feels very divided, our public lands are bringing us together,” said Matthew Nelson, executive director of the Arizona Trail Association. “The Great American Outdoors Act is testament to the importance of Nature, our outdoor recreation economy, and how wild landscapes define what it means to be American.”

The Act provides full and

permanent funding for the Land and Water Conservation Fund (LWCF), providing \$900 million every year for conservation purposes. LWCF is funded by a percentage of offshore gas and oil revenues, and is intended to preserve lands and waters most important to Americans and make those lands accessible to all. Over the last 50 years, thousands of trail projects have been funded by LWCF, including many of the parks and trails where we recreate.

The legislation also supports continued funding for the Outdoor Recreation Legacy Partnership (ORLP) Program. LWCF and ORLP have made progress in expanding access to outdoor spaces for communities in urban areas. Continued support of the ORLP program is needed to ensure that our nation’s natural spaces are available and accessible to urban communities, whose access to and inclusion in outdoor recreation have been disproportionately negatively impacted by geography, socio-economic status, and other factors. Permanent and dedicated LWCF funding is a must to ensure that our nation’s trails, public lands, parks, and open spaces remain protected and accessible for all communities for generations to come.

The Act also invests \$9.5 billion to address the maintenance backlog that

has led to closed trails, out-of-service restrooms, campgrounds in poor conditions, and impassable roads. Many Americans will be put to work improving these important recreational resources – the likes of which we haven’t seen since the introduction of the Civilian Conservation Corps in 1933. This is not paid for by taxpayers, but through energy development revenues derived from projects on federal land.

“Witnessing the passage of the Great American Outdoors Act is one of the proudest accomplishments of my career,” said Nelson. “This visionary legislation will increase Americans access to their public lands, preserve the spaces that are most important, and provide funding to address the maintenance backlog on trails and within parks nationwide. Since the COVID-19 outbreak we have seen that more Americans are visiting outdoor spaces than ever before. The Great American Outdoors Act comes at a time when we need it most, and is something every American can be proud of. On behalf of all the hikers, runners, backpackers, mountain bikers and equestrians who have a connection to the Arizona National Scenic Trail, we offer gratitude to every member of Congress who voted in favor of the Great American Outdoors Act.”
