Arizona Water responds to water outage, dirty water complaints

By **John Hernandez**
San Manuel Miner

On the weekend of Sunday, June 25, 2017, Arizona Water Company had planned to lower the water level in the main tank to accommodate tank maintenance and an inspection. Due to an increased demand for water in the upper part of San Manuel nearest the tank, the increased flow lowered the water level quicker than what had been expected. Air pockets were created in conjunction with the lower part of the tank being drawn into the system causing loss of water for some customers and sediment being drawn into the water in a number of homes in upper San Manuel.

"Had we known there was going to be a water outage, we would have notified the community," said Leonard Garcia,

Operations Superintendent for Arizona Water San Manuel Division. "This was an unforeseen event. Once we realized there was dirty water we made sure the bypass system was working immediately."

He added, "As customers came in and called, we offered them bottled water and service crews to come to their residence and flush out their lines. At no time was the water unsafe to drink."

Some complaints came in on Sunday evening but were not acted on as the office was closed and the complaints were left on the office recorder. Calls that went to the emergency number were responded to. Right after the first emergency call on Sunday night, the bypass system was initiated. There was some delay caused by a mechanical failure of a pump which was remedied by a crew within a half hour. The bulk of complaints came in on Monday. There was a total of 60 complaints of brown water and 20 complaints of no water. By late Monday afternoon before 6 p.m., the whole system was cleared of dirty water.

"We have addressed the concerns present in San Manuel," said Leonard.

Arizona Water Company appreciates our customer's patience and understanding for the inconvenience this may have caused. Customers are urged to call the local office at (520) 385-2226 with any questions or concerns.

Summer Heat in the Copper Corridor

Fires are raging in Arizona and the western states. The human drama of the fire around Mayer and other small Yavapai County towns is a close reminder of the destructive fires we in the Copper Basin suffered not once, but twice. This is an especially hot summer. The afternoon breezes have accelerated moisture loss, making fire conditions worse.

We don't live in a forest in our part of Arizona, but we still could learn a few things from those who do. People in Pine, Strawberry, and Payson clear the area around their houses from all flammable materials. Yes, they deal with pine needles, but also with lumber piles and wood piles and weeds and grass. Except for pine needles, we have everything to cause a house fire to spread to other homes. Break out those work gloves, and remember that Kearny's transfer station is open early Saturday morning, July 8.

The Family Night at the Kearny pool last

week was so successful that another has been set for this Saturday, July 8, from 6:30 to 8:30 p.m. The cost is only \$5 per family, and swim passes are honored. The lifeguards have started a small concession stand, and there will be music.

It is encouraging that so many people are working to support the pool. Supporters include the Copper Basin Health Volunteers at \$2,000, local businesses providing snacks and towels, and several individuals and families who are "adopting" children by providing pool passes. One family even has a rivalry going their son and daughter come with their parents in generosity. On top of all that, the Kearny Elks Lodge 2478 acquired a grant of \$1,250 for passes, equipment, and lifeguard shirts. Way to go, people!

The local Mayors' Meeting has proven itself by growing to include the towns of Globe and Miami. Its next meeting is Tuesday, July 11, in Globe. The mayors of

the towns and occasionally town staff take part.

San Manuel has a full day, Saturday, July 8, devoted to showing personal and financial support for the San Manuel Summer Softball program. A double elimination horseshoe tournament begins at noon (sign ups close a half hour earlier) at \$20 per team. The softball tournament goes through the day, and a steak dinner will take place at the field from 5 p.m. to 8 p.m. or plates can be picked up. The cost is \$10 a plate, and \$6 a plate for children under 12. Need more information? Call 520-345-7660.

Area residents Kira Granillo, Leysa Rought, and Veronica Bracamonte took part in a gathering sponsored by Local First Arizona, the Copper Corridor Economic Development Corporation, and the South Gila County Economic Development Corporation. The meeting was about people coming together

in cooperative ways to develop the local and regional economy. The three women are working to gather interested people to explore and develop economic opportunities for all kinds of products and services. Contact one of the three for more information.

Finally, congratulation to the Board of the Cobre Valley Institute of Technology (CVIT) for electing and swearing in Anna Flores, Kearny's Town Manager, to serve with them.

And for all of us, use sun screen and stay hydrated!

Leave baby wildlife alone

TUCSON, ARIZ. – The Arizona Game and Fish Department (AZGFD) has seized a deer, bobcat and javelina since June 2 that were illegally taken captive while young by Tucson area residents and reared as pets.

The mule deer buck was taken to the AZGFD Wildlife Center in Phoenix for treatment, and then will go to Bearizona in Williams. The bobcat was placed at the Arizona Sonora Desert Museum, and the javelina moved to the Southwest Wildlife Conservation Center in Scottsdale.

Taking captive and holding young wildlife is illegal take of wildlife, and illegal possession of restricted wildlife, in addition to being a public safety hazard. Circumstances warranted issuing

only warnings in these cases.

"In the majority of cases, it is best to leave all baby wildlife alone. People's desire to help seemingly abandoned animals can have unintended negative consequences," said Regional Supervisor Raul Vega of Game and Fish in Tucson. "Although it seems humane to 'help' or 'rescue' baby animals perceived to be in need, wildlife reared in captivity by humans -- without the benefit of learning from their parents -- have a greatly reduced chance of survival if they are released back into the wild."

In most instances, baby mammals should be left in place, untouched, unless obviously injured. Although they may appear orphaned,

Firefighters kept busy as

Oracle Firewise Board to meet Tuesday

Is your property ready for the wildfire season?

Do you have an action plan should you need to be evacuated from your home because a wildfire is rapidly approaching?

The Oracle Firewise stands ready to assist you in making those plans and they want to help you make sure your property is Firewise.

The goal of a Firewise community is to have residents take responsibility for safer home design and construction and property landscaping and maintenance which can reduce personal and community loss during a wildland fire. Firewise is about Planning, Preparedness and Education. Here is a brief list of programs the Community Firewise Board sponsors in cooperation with the Fire Department.

The most visible and most used program is Oracle's brush dump. It's a unique facility that most Firewise communities lack. Open 365 days of the year for Oracle residents, the brush dump is an inexpensive and effective way for residents to manage and reduce fuel buildups on their property.

As the Firewise road signs at both ends of town stress, it's all about creating cleared, defensible space around your home.

Closely associated with the brush dump are two other programs operated under the banner of a Firewise community. Firewise Board members are state certified to conduct free property evaluations of a homeowner's premises to assist the owner in making easy improvements to better protect their home and outbuildings from the ravages of wildfire. Property evaluations are a free Firewise service that any resident can sign up for at the Fire House.

The Community Firewise Board is volunteer driven. The Board always needs volunteers. If you're interested in helping the Oracle Firewise program, please leave your name and contact information at the Oracle Fire Department.

The Oracle Firewise Board will meet Tuesday, July 11, at 4 p.m. at the Oracle Fire Station, 1475 W. American Ave., Oracle. Plan to attend. Board members and firefighters stand ready to assist you in becoming more Firewise.

Wildfire burns on Mt. Lemmon

For those of you with evaporative coolers, Monday morning began with the smell of smoke from the Burro Fire which is burning atop Mt. Lemmon.

As of Monday morning, the fire was at 5,000 acres. There have been some evacuations. According to Tiffany Davila, Public Affairs Outreach Officer for the AZ Department of Forestry and Fire Management, reported that

Summerhaven has been evacuated as has the community of Palisades. Red Cross has been notified and is assisting with shelter and public gathering places.

Redington Pass is closed from milepost 2-14 and Mt. Lemmon Hwy. is closed from milepost 0 to Summerhaven.

Davila said that approximately 90 firefighters are battling the fire.

Fire burns with an ominous glow on Mt. Lemmon.

Deep Yin: Fire Balancing Yoga with Ashley Celeste Leal, E-RYT 500

Deep Yin is a seasonal practice designed to explore the elements when they are most relevant. Each of these workshops features a thoughtfully arranged sequence of yin poses, yang movement, and meditation inspired by the season.

Summer is the season of fire and joy. It rules the heart (and small intestine) and invites us to move into our fullest expression of love, open-heartedness, and passion. Balancing this element requires embracing the heat and finding the cool, still place within to reflect and renew.

Ashley Celeste Leal, E-RYT 500, trained in Hatha and Kriya Yoga as well as the styles of Yin, Vinyasa and Restorative Yoga. She trains yoga teachers, works individually with students and teaches community classes and workshops. She has worked with people of all ages and is adept at adapting the practice to meet the needs of the individual.

Ashley's background in personal training, Pilates and other fitness modalities enriches her teaching with a strong focus on safe alignment and understanding of physical anatomy. She also emphasizes the practice beyond asana to include an awareness of Self through moksha (liberation). Ashley is the founder of Live Love Yoga in Tucson, AZ.

About the practice:

Yin Yoga is a meditative practice of long held poses that are designed to stimulate the subtle current of energy along certain pathways called meridians. All levels welcome!

Hiking Diamond Head

When you think about Hawaii, one of the most recognized visual images you picture is Hawaii's best-known land mark, Diamond Head. Many photos taken at Waikiki Beach have the iconic volcanic crater in the background. Diamond Head is located on the island of O'ahu and is now a state park known as Diamond Head (Lē'ahi) State Monument. Lē'ahi is the Hawaiian name for the crater. The 475 acres park has a picnic pavilion, picnic tables, food concession, restrooms, water fountains, scenic viewpoints, gift shop and a hiking trail.

The Diamond Head Summit Trail is a short trail, only a roundtrip hike of 1.6 miles but it is steep, climbing 565 feet in elevation. The trail was built in 1908 as part of the military's defense plan for O'ahu's coastline. As you hike the trail you will see bunkers and the fire control station at the summit where artillery fire could be directed for the batteries in Waikiki and Fort Ruger outside the crater.

During my stay in Hawaii, I decided to hike the trail and scheduled a trip to the crater one morning. The last time I had been at Diamond Head was in the 1970s at a music festival inside the crater which featured the band Santana and Cheech and Chong among others. This was before it

was a state park. At that time, I was not aware of the hiking trail.

At the park, I bought a bottle of water and headed up the trail. I must admit, I was out of shape but I was determined to conquer the challenge and make it to the top. The trail begins with a paved concrete walkway for the first .2 miles. It then turns into natural tuff surface with many switchbacks along the interior of the crater walls. The trail surface is uneven and steep. Appropriate footwear is recommended as well as taking your time and being cautious along the trail. The park brochure says to allow yourself 1.5 to 2 hours for the hike.

The ascent includes a steep stairway leading to a 225 feet long lighted tunnel. There are a number of steep stairways along the trail. Along the way there are sightseeing viewpoints to stop at and rest. I took advantage of those.

A view of Honolulu from the Diamond Head State Monument.

John Hernandez | Miner

You will pass the slower hikers and be passed by many others. I saw young nubile men and women jogging up and down the trail. Oh, to be young and in shape again. As you near the summit you will see a ramp on your left which is an easier walk to the top.

On your right is a very steep stairway consisting of 99 steps. Accepting the challenge, I

chose the stairway which I would pay for with extremely sore legs and knees for the next two days. The descent is much easier but you should still be cautious. I stumbled a few times and had to catch myself by grabbing on to the rail.

Reaching the top was worth the pain. There are some incredible views of Honolulu, the shoreline including Waikiki and other areas of O'ahu. For the novice hiker, it can be tough climbing. It is an easy hike for the experienced hiker but will give them a good workout. I recommend that everyone take their time and enjoy the views, the people and the sunshine.

BABY WILDLIFE

Continued from page 3

baby mammals are typically left alone by their mother for long periods of time while she forages for food and water.

Baby mammals that are immobile and at immediate risk of injury can be moved, if necessary, to a safe location nearby that provides appropriate cover. The mother will likely find the relocated baby by smell or hearing and continue to provide care, provided that people and pets stay away.

If a well-meaning person separates a baby mammal from its mother, it may result in euthanizing the animal unless a zoo or shelter can take it. Chronic Wasting Disease (CWD) in deer further complicates the issue, as a possessed fawn is suspect because Game and Fish cannot verify that the animal is not from a state where the disease occurs.

CWD, similar to Mad Cow Disease, is a fatal neurological condition. There have been no cases in Arizona, but there have been in nearby states.

For more information, the public can visit <http://bit.ly/2reO9QV> for more tips and a list of licensed wildlife rehabilitators in Arizona.

Opportunity to Comment on Apache Leap Special Management Area

The Tonto National Forest, Supervisor's Office, is preparing a management plan for the congressionally designated Apache Leap Special Management Area (SMA), located in Pinal County, 65 miles east of Phoenix, Arizona. The purpose of the proposed action is to develop and adopt long-range direction for managing the natural resources and human uses of the Apache Leap SMA consistent with Section 3003 of the Carl Levin and Howard P. 'Buck' McKeon National Defense Authorization Act for Fiscal Year 2015 (NDAA) (Public Law [PL] 113-291). Approval of the Apache Leap management plan requires a concurrent forest plan amendment to add or modify one or more plan components, or to change where one or more plan components apply (36 CFR § 219.13(a)). The 1985 Tonto Land and Resource Management Plan would be amended to: 1) include the Apache Leap SMA as a new management area (MA 2G Globe Ranger District - Apache Leap SMA); 2) modify the description and acreage of the former management area (MA 2F Globe Ranger District - General Management Area); and 3) incorporate new plan components that were developed to meet the primary purpose of the special management area. These plan components comprise chapter three of the proposed Apache Leap SMA management plan.

The latest version of the proposed Apache Leap SMA management plan is available to review online at: [<http://www.apacheleapsma.us/public-involvement/>]. The new plan components that comprise the proposed forest plan amendment address various substantive requirements found at 36 CFR 219.8 thru 219.11 for managing the multiple uses and resources of a designated area.

How to Comment and Timeframe
We would like to hear your comments about amending the forest plan using the plan components identified for the management of the Apache Leap Special Management Area, a congressionally designated area as identified at 36 CFR 219.10 (b).

The 30-day comment period for this proposed amendment begins on the day after publication of this notice in the Arizona Capitol Times, the official newspaper of record, on June 30, 2017. This comment period is provided pursuant to 36 CFR 219.16(a)(2). Comments received in response to this notice, including names and addresses of those who comment, will be considered part of the public record on this project and will be available for public inspection. Electronic comments must show name and address of submitter. Comments submitted anonymously will be accepted and considered. Additionally, any persons may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality (7 CFR 1.27(d)).

Written comments may be submitted in one of three ways – via US mail: Apache Leap SMA, PO Box 34468, Phoenix, AZ 85067-4468; using electronic inbox: comments@apacheleapsma.us; or in person: (Monday through Friday, 8:00 a.m. to 4:30 p.m., excluding holidays) at 2324 E. McDowell Rd, Phoenix, AZ 85006.

Decisions Will Be Subject To Objection
The decision to approve the management plan for the Apache Leap SMA and concurrently amend the 1985 Tonto Land and Resource Management Plan is subject to the objection procedures identified in 36 CFR part 219 subpart B. According to 36 CFR 219.53(a), those who may file an objection are individuals and entities who have submitted substantive formal comments during opportunities provided for public comment during the planning and environmental review process for the decision. Only those who provide a substantive formal comment, as defined in 36 CFR 219.62, will be eligible to object to the proposed decision.

Use summer to prepare your child for kindergarten success

SAN MANUEL (June 27, 2017) – All parents want their young child to be ready when they start kindergarten. Families can use the summer time leading to the big first day to help kids develop basic skills to build on and prepare

them for the transition to kindergarten. Families can use fun, everyday activities to help kids be ready for success in kindergarten. Below are some tips from First Things First to help your family have a fun, easy transition to

Is your child ready to start kindergarten?

kindergarten:

- Read with your child at least 20 minutes per day. Try books that repeat words; involve activities like counting, identifying colors, objects or letters; or, are about things your child likes. Ask questions like, “What do you think happens next?”
 - Talk with your child everywhere – at home, in the car, at the store. Make up stories or songs about your outings.
 - Writing begins with scribbling. Give your child safe writing tools to play with, like crayons, chalk or markers and blank paper. Ask your child to tell you about their drawings.
 - Teach your child how to use the bathroom by themselves, to wash their hands after going to the bathroom and before eating, to blow their nose and sneeze into their elbow.
- Before the first day, talk with your child about what to expect during the school day and types of after-school activities they may be involved in. The more details kids know, the less anxious they will feel.
- Rehearse for the big day with test-runs of the new routine, which will include:
- Choosing what to wear the night before.
 - Waking up with early to have plenty of time to

get ready.

- Eating a healthy breakfast.
- Walking to the bus stop and talking about boarding and where to sit.
- Practicing how to open parts of lunch, whether it’s a carton of milk or a small bag of carrots. Remind them that teachers or lunch staff can help if needed.

Even if you don’t have kindergartners this year, it’s never too early to start helping kids prepare. Children who have positive early childhood experiences tend to score higher on school readiness assessments and are more likely to do well in school and graduate. By turning everyday moments into learning moments, we can send our young kids to school with the skills – and the love of learning – that will help them succeed in kindergarten and beyond!

About First Things First – First Things First is a voter-created, statewide organization that funds early education and health programs to help kids be successful once they enter kindergarten. Decisions about how those funds are spent are made by local councils staffed by community volunteers. To learn more, visit firstthingsfirst.org.
