Understanding Your Liver

The liver is the largest organ inside the body. It sits under the diaphragm, behind the ribs on the right side. It is an organ that is appropriately named. You cannot live without the liver. It protects the body by breaking down toxins you are exposed to throughout your life.

This is why most drugs that are taken by mouth lose 50 to 80 percent of their potency right up front. Pharmaceutical medications ultimately are recognized as toxins, albeit useful at times. Their toxicity is the reason they carry so many side effects and the reason the liver tries hard to neutralize them.

One of the many other functions of the liver is to secrete bile. This bile travels into the small intestines where it emulsifies fat that has been eaten. This makes the fat digestible. A good amount of the bile is stored in the gall bladder, tucked under the liver, to be held in reserve for quick access during fatty meals.

Another function of the liver that is vital to the body is that of producing proteins that act as transporters of nutrients. These proteins are like trucks that get loaded with fuel and supplies and travel to needy consumers (cells) throughout the body via highways (blood vessels).

In addition to transportation duties, these proteins create an osmotic effect that keeps fluid inside the blood vessels. A person who develops severe liver damage (cirrhosis) will suffer a decrease in protein production and eventually lose the ability to hold in fluid.

This results in ascites which is a midsection swollen with fluid.

In addition to these roles, proteins from the liver also form vital structures in the immune and coagulation

Tonto National Forest releases Draft Environmental Impact Statement for Resolution Copper Project and Land Exchange

Late last week, the USDA Forest Service released the Draft Environmental Impact Statement (DEIS) for the Resolution Copper Project and Land Exchange for public review and comment.

The Resolution Copper project is a proposed underground copper mine near the town of Superior, Arizona. The project would create one of the largest copper mines in the United States, create more than 1,500 jobs and generate nearly \$270 million in labor income for surrounding communities.

"Our multiple use mission means that we have to balance demand for economic productivity with our commitment to environmental stewardship and sustainability," said Tonto National Forest Supervisor Neil Bosworth. "The Forest Service is required to consider proposed plans of operations for mining, and if they meet environmental regulations, minimize environmental impacts, and other requirements, we're required to approve them under the General Mining Law of 1872." A Notice of Availability has been released

alongside the DEIS in the Federal Register and begins a 90-day public comment period. The DEIS, supporting documents and instructions on how to comment, are available at <https://www.resolutionmineeis.us/>.

The DEIS describes effects of the proposed Resolution Copper Project and offers five potential alternatives developed considering feedback from a 2016 scoping period.

A limited number of hard copies of the DEIS are available at the Tonto Supervisors Office, at 2324 E. McDowell Road, Phoenix, AZ 85006. Call 602-225-5292 in advance to make sure copies are available.

Tonto National Forest staff is hosting five public meetings between Sept. 10 and Oct. 8. Maps and other materials will be available and forest staff will be on hand to answer questions. Dates and locations are:

- Sept. 10, 2019, 5 to 8:30 p.m., Superior Jr./Sr. High School Cafeteria, 1500 Panther Dr., Superior, AZ
- Sept. 12, 2019, 5 to 8:30 p.m., Central

Phone and Internet Discounts Available to CenturyLink Customers

The Arizona Corporation Commission designated CenturyLink as an Eligible Telecommunications Carrier within its service area for universal service purposes. CenturyLink's basic local service rates for residential voice lines are \$18.47 per month and business services are \$35.00 per month. Specific rates will be provided upon request.

CenturyLink participates in a government benefit program (Lifeline) to make residential telephone or broadband service more affordable to eligible low-income individuals and families. Eligible customers are those that meet eligibility standards as defined by the FCC and state commissions. Residents who live on federally recognized Tribal Lands may qualify for additional Tribal benefits if they participate in certain additional federal eligibility programs. The Lifeline discount is available for only one telephone or broadband service per household, which can be on either wireline or wireless service. Broadband speeds must be 18 Mbps download and 2 Mbps upload or faster to qualify.

A household is defined for the purposes of the Lifeline program as any individual or group of individuals who live together at the same address and share income and expenses. Lifeline service is not transferable, and only eligible consumers may enroll in the program. Consumers who willfully make false statements in order to obtain Lifeline telephone or broadband service can be punished by fine or imprisonment and can be barred from the program.

If you live in a CenturyLink service area, please call 1-800-244-1111 or visit centurylink.com/lifeline with questions or to request an application for the Lifeline program.

Celebrating the humble prickly pear cactus this weekend in Superior

Superior, AZ - The Eighth Annual Prickly Pear Festival, hosted by the Superior Chamber of Commerce, is set for Saturday, Aug. 17, 2019, in the quaint and dynamic town of Superior, Arizona. The festival celebrates all the edible wonders of the Sonoran Desert while showcasing the many products and health benefits of the Prickly Pear cactus. Along with the festival activities, many of the local restaurants and retail merchants will have special sales and prickly pear items for sale.

This year's event will feature a Prickly Pear Foraging hike, which begins at 7 a.m. Those attending the hike should meet at the Superior Municipal Airport located on US 60. Hikers should wear long pants and sleeves along with sturdy shoes. To pick the Prickly Pear fruit, you will need tongs and a bucket or container to hold your fruit.

Following the hike, stop by the Senior Citizens Center at 360 Main St. for a pancake breakfast sponsored by the Superior Fire Department and be sure you top your pancakes with the

Tesla Car Club visits Superior

A Tesla Car Club from the Valley visited Superior on Saturday. The group regularly plans road trips to visit unique places in Arizona, especially those that have Tesla car charging stations. There were 11 Tesla vehicles that parked for a photo shoot in Downtown Superior. In total, the group had 16 participants. The car club visited the local shops, toured the Hotel Magma and enjoyed lunch at local restaurants. Councilmember Bruce Armitage and members of the Superior Chamber of Commerce Board of Directors greeted the group and welcomed them to Superior.

systems.

Cholesterol is another product of the liver. Though cholesterol is associated with unhealthy processes of the body, it is actually extremely important as the foundation of all hormones.

Other functions of the liver include the storing of sugar

for future use and processing amino acids into usable substances.

As you can see, the liver is very complex in nature. Fortunately, it is very resilient as well. It can lose up to three quarters of its cells before it ceases to function.

A diseased liver is referred to as hepatitis. Hepatitis can be caused by one of the various viruses that one might come in contact with such as Hepatitis A, Hepatitis B, or Hepatitis C or one of a handful of parasites.

Alcohol and other toxins account for many diseased livers. In the U.S. and other industrialized countries alcohol-related hepatitis actually outnumbers all other types of liver disorders by at least five to one.

The liver is a favored location for cancer to travel to and colonize since it addresses all toxins that use the highways of the body (blood vessels).

An over abundance of iron or copper can also damage the liver.

When the liver becomes diseased, a person may start to feel pain in the right abdominal area under the ribs. They may also become sensitive to smells due to a diminished

ability to detoxify these substances. At times a person may develop jaundice – a condition that turns the skin and eyes yellow.

Protecting and supporting the liver is essential to life. Prevention through the avoidance of toxins is, of course, the most protective approach. If, however, one is inadvertently overwhelmed by toxins, there exist substances and methods to recover a healthy organ.

One of my favorite stories regarding liver distress involves a small group of people in the northwest who went into the forest to pick mushrooms. They, unfortunately, picked the wrong ones and were poisoned. Of the five who became critically ill, four had to have liver transplants while the fifth recovered simply by taking large amounts of a common medicinal herb, milk thistle. *Dr. Michael Miles' Clinic is located at 15601 N. Going Boldly

Remember the declaration to boldly go where no man has gone before? God has called us to get out of our comfort zone and take a risk into our future. Dare to do something different with your life, something just to bless God and help others.

In Luke 5, Jesus told Peter to leave his comfortable safety zone and launch out into the deep. That is an area where if your boat is in bad trouble, no one will be there to help you out or rescue you. If they do try, it may be too late by the time they arrive.

Christianity can be very exciting to those who step out in faith, believing for God's direction and help.

Christopher Villaverde named MADD First Responder of the Year

Congratulations to Superior Fire Department's Firefighter/EMT Christopher Villaverde Badge #162 for receiving a MADD (Mothers Against Drunk Driving) award as First Responder of the Year at the MADD Honors Heroes Recognition Banquet hosted at Casino Del Sol in Tucson last Thursday, Aug. 8, 2019.

He was awarded for his accomplishments in public education, fire prevention and awareness at SFD, particularly with coordinating the DUI mock accident event at Superior Jr/Sr High School back in March 2019. This amazing event was on display for students at SUSD, and surrounding communities to see the importance of driving responsible, and the consequences of distracted driving and driving impaired.

Chris plans on continuing his fire career with Superior Fire for many years to come and believes small events, station visits, school and classroom lectures all make the difference when it comes to fire safety. He has been with Superior Fire since 2014.

'Chairman of the Bench' named at special dedication

A dedication to Mike McKee was held on Friday, Aug. 9. Mike was fondly named the "Chairman of the Bench" on the bench crafted by Veto Cervantes that is in front of the Superior Chamber of Commerce. Mike and his buddies sat on that bench every Thursday morning while he volunteered at the Chamber office. His wife, Deb, read a beautiful piece that she wrote that depicted him as the person he truly was. Kind, caring and friends to ALL. Members of the family and many friends gathered to toast this truly special man.

According to Mary Rasmussen, Tonto National Forest project manager, "The next 90 days – Aug. 10 through Nov. 7 - are a crucial time for folks to learn specific details about the impacts expected from this mine project.

"We welcome informed, thoughtful feedback about the proposed project as well as our environmental review process," Rasmussen added. "We want to engage with the public to identify the best decision among several hard choices that will effect present and future generations."

Section 3003 of the National Defense Authorization Act for Fiscal Year 2015 mandated a land

exchange between the federal government and Resolution Copper Mining. This includes federal land previously withdrawn from mineral entry. Once a Final EIS is complete and a decision is rendered, the land exchange will give Resolution Copper Mining legal access to the copper ore deposit.

Public Notice

Legal Notice: Opportunity to Comment on the Resolution Copper Project and Land Exchange Draft EIS

USDA Forest Service
Tonto National Forest

The USDA Forest Service has prepared a Draft Environmental Impact Statement (Draft EIS) for the Resolution Copper Project and Land Exchange.

The proposed action is to approve the General Plan of Operations submitted by Resolution Copper Mining, LLC, and to complete the associated land exchange as directed by Congress under Section 3003 of the National Defense Authorization Act for fiscal year 2015. The Forest Service also anticipates a project-specific amendment to the existing forest plan. The proposed action includes the development of an underground copper mine near Superior, Arizona with a 40- to 50-year mine life with an estimated surface disturbance of 6,951 acres. The activity would occur on portions of the Tonto National Forest, Arizona State Trust Lands, and private lands in Pinal County, Arizona. The land exchange will convey 2,422 acres of Federal land on the Tonto National Forest, located in the area of the proposed mine, to Resolution Copper in exchange for approximately 5,344 acres of private land on eight parcels located elsewhere in eastern Arizona to be managed by the Forest Service and the Bureau of Land Management. The Draft EIS and documents pertinent to this proposal are available for review at the following locations:

World Wide Web: <https://www.ResolutionMineEIS.us>
 Pinal County - Superior Public Library, 99 N. Kellner Ave., Superior, AZ 85173
 Tonto National Forest, Supervisor's Office, 2324 E. McDowell Road, Phoenix, AZ 85006
 Tonto National Forest, Mesa Ranger District, 5140 E. Ingram St., Mesa, AZ 85205
 Tonto National Forest, Globe Ranger District, 7680 S. Six Shooter Canyon Rd., Globe, AZ 85501

The purpose of this 90-day comment period -- August 10 through November 7, 2019 -- is to offer the public an opportunity to provide early and meaningful feedback on a proposed action prior to a decision being made by the responsible official. The proposed project is an activity implementing a land management plan and is subject to the objection process pursuant to 36 CFR 218 Subparts A and B. Neil Bosworth, Forest Supervisor, Tonto National Forest, is responsible for considering the environmental impacts of the proposed action and alternatives; and for determining the terms and conditions necessary for approving the proposed mine plan of operations.

The Forest Service will host five public hearing meetings to seek comments on the project Draft EIS. All meetings are scheduled from 5 to 8:30 p.m. and will take place at the following venues:

- Tuesday, September 10, 2019, in Superior, AZ, at the Superior Jr./Sr. High School, 1500 Panther Drive
- Thursday, September 12, 2019, in San Tan Valley, AZ, at the Central Arizona College, 3736 E. Bella Vista Road
- Tuesday, September 17, 2019, in Kearny, AZ, at the Ray Elementary School, 701 AZ-177
- Thursday, September 19, 2019, in Globe, AZ, at the High Desert Middle School, 4000 High Desert Drive
- Tuesday October 8, 2019, in Queen Valley, AZ, at the Queen Valley Community Center, 1464 E. Queen Valley Drive

How to Comment and Timeframe:

The Environmental Protection Agency published a Notice of Availability for the Draft EIS in the Federal Register on August 9, 2019. The opportunity to provide comments and establish eligibility to object under 36 CFR 218 ends 90 days later, on November 7, 2019. Written, hand-delivered, oral, and electronic comments concerning this action will be accepted.

Only those who submit timely and specific written comments (36 CFR 218.5) regarding the proposed project during a comment period established by the responsible official are eligible to file an objection under 36 CFR 218.8. For objection eligibility, each individual or representative from each entity submitting timely and specific written comments must either sign the comment or verify identity upon request. Names and contact information submitted with comments will become part of the public record.

Comments on the Resolution Copper Project and Land Exchange may be submitted by any of the following methods:

- Attend an open house public hearing – oral and written comments accepted (see schedule above for public hearing dates and times)
- Submit a comment using the online form at: www.ResolutionMineEIS.us/Comment. The online form accepts attachments in Microsoft Word (.doc and .docx), rich-text format (.rtf), plain text (.txt), or portable document format (.pdf)
- Submit written comments via U.S. Postal Service mail to: Resolution EIS Comment, PO Box 34468, Phoenix, AZ 85067-4468.

NOTE: Written comments and statements must be postmarked no later than November 7, 2019.

This notice for opportunity to comment is available on the World Wide Web at: <https://www.ResolutionMineEIS.us/comment>.
