Copper Area News is committed to providing our readers with as much information as possible. We post a daily update on our Facebook page with the total positive COVID-19 Data. This graph shows the daily counts of positive cases for the past week as of press time on Aug. 18, 2020.

There are a few points we would like our readers to consider when following this data.

1. This will continue to be a rolling total of positive cases. It does not reflect recoveries or deaths. The Arizona Department of Health Services does not break out this data.
2. If you see a reduction in numbers from day to day it is most likely due to a data entry error or mis-coding of a zip code (at the state level).
3. This is all zip code based data; most of our zip codes include unincorporated areas. There is no way to track exactly which areas each of the positive cases are. Example, Kearny and Winkelman each have small communities in their zip code that are not in the Town's incorporated boundaries.
4. If you live in Gila County, please follow the Gila County Health and Emergency Management, Facebook. They have maintained their data on recoveries and current positive cases.
5. You can follow other data such as ICU bed use, Ventilator use and hospital capacity online: <https://bit.ly/3inh280>

Working together, we can slow the spread of the virus across the Copper Corridor. Wear a mask in public, remain physically distant (6 feet apart or more), practice good hygiene (wash your hands frequently, sanitize high touch areas) and stay home if you are not feeling well.

Jax has a new heart!

On July 23, after 47 days of waiting, Jax Ethan Formo underwent heart transplant surgery.

Even though Jax has received his heart, he continues to overcome obstacles related to this type of surgery. He wakes up and wiggles, he responds okay and can follow movement with his eyes but has a lot of work to do. The next big step is for Jax to come off his ventilator and we are hopeful this will happen in the next week.

Jax will still be at Phoenix Children's Hospital for some time while he continues to recover.

The family would like to thank everyone who bought tickets, sold tickets and especially those who donated prizes to ensure the raffle was a success.

Please continue to pray for Jax as he becomes stronger everyday to rejoin his family.

"Once again, thank you from the bottom of our hearts," Hyrum, Camille, Maddie and Jax Formo said.

CVRMC now providing cancer radiation treatment

Cobre Valley Regional Medical Center (CVRMC) is now providing cancer radiation treatment. There is no more need to travel great distances for this care. CVRMC is the first hospital in the State of Arizona to acquire a Halcyon System for Image-Guided Radiation Treatment. This innovative technology from Varian Medical Systems delivers precise radiation to cancerous areas of the body unmatched by any radiation therapy currently being administered.

Dr. Tam Nguyen, Radiation Oncologist at CVRMC, stated, "This is a very advanced machine and CVRMC is on par with the best hospitals in the country. The Halcyon matches the University of Pennsylvania Medical Center and the University of San Diego Medical Center. There are only 4 of these machines in the country and CVRMC is one of the 4 to have this latest technology."

CVRMC treated its first cancer patient using the Halcyon on July 7 and has seen a steady growth of patients over the past few weeks. "Having full-service Oncology here in our community touches my heart very deeply. My oldest daughter, Aubrie, had cancer. She received both chemotherapy and radiation treatments in Flagstaff," stated Evelyn Vargas, Patient Experience Officer at CVRMC. "You want the very best for your loved one and want to provide as much comfort as you can. Part of this comfort for cancer patients in our community is to shorten the distance to receive the very best treatment."

"The Halcyon has cut treatment time in half and precisely targets tumors to maximize dose while minimizing exposure of the surrounding healthy tissues and organs," said Dr. Tam Nguyen. Because of its versatility, the Halcyon system can be used to treat a wide range of cases, including prostate, breast, head and neck, and many other forms of cancer.

To facilitate a closer connection between patient and therapist during a Halcyon treatment, the system incorporates a couch-mounted camera that travels with the patient and a two-way intercom, making it easy for the

therapist to monitor and converse with those receiving treatment.

For more information, contact CV Radiation Oncology at 928-402-2881.

The new Halcyon Radiation machine is such a huge addition to the many services CVRMC provides. CVRMC is one of four hospitals in the country to have this technology. This is truly something great for those patients traveling great distances, many times a week for radiation treatments for cancer. Pictured from left are John Covell – Radiation Technologist; Jasmine Jonovich – Medical Assistant; Dr. Tam Nguyen – Radiation Oncologist.

SUPERIOR

ADVENTURE, ELEVATED

SUPERIOR PLEDGE

Superior's small town, neighborly values have strengthened our community's resolve to remain even more focused on what makes us a special community during these challenging times. Throughout our entire storied history, Superior has been a community that cares about one another - long-time, multi-generational residents, as well as newcomers.

As we all unite to protect ourselves, our families, and our neighbors from the ravages of the coronavirus, we are committed to adhering to the guidances from federal and state government, and ask that our visitors and patrons do the same:

If you are sick, stay at home.

Cover your mouth and nose with a cloth face cover when around others.

Wash your hands often with soap and water for at least 20 seconds.

Cover coughs and sneezes.

Avoid close contact by keeping a distance of at least 6 feet from those around you.

Clean and disinfect frequently touched surfaces daily.

Volunteers needed – neighbors helping neighbors

The folks at the Superior Food Bank have been very busy, helping the local families with the food that they need. The food bank relies on faithful volunteers to do the work each month. The past several months, the food bank has had volunteers from the National Guard to help with packing and distribution. Unfortunately, that program has ended. So the food bank has issued a call for volunteers. 'We need to ask our friends and neighbors to help us with distribution,' a representative of the food bank said. It's two days a month, the last Thursday and Friday of each month from 2:30-5 p.m. Please consider lending a hand. If you can help, please call 520-689-2202.
