# Warrant arrest in Oracle leads to discovery of huge cache of guns, explosives

Pinal County Sheriff's deputies late last month made a shocking discovery of explosives and stolen guns at a residence in Oracle while attempting to serve two warrants.

On Sunday, July 30, deputies were looking for Joshua Hendrickson, who was wanted for two outstanding warrants connected to drug and traffic violations. Hendrickson was found at a relative's home in the 1700 block of Sunset Point Dr. in Oracle. He was seen coming out of a shed on the property, but he fled from deputies who later found him hiding on the property.

A search was conducted and deputies found more than 50 firearms to include shotguns, rifles, pistols and approximately 10,000 rounds of ammunition connected to a July burglary. Investigators also discovered what they believed to be explosives. Pima County's EOD team (Explosive Ordinance Disposal/bomb squad) asked to assist in clearing the shed. It was discovered that Hendrickson had every piece of equipment to make an

IED (Improvised Explosive Device). Pima County took possession of the explosive equipment. Stolen property connected to other burglaries were also found on scene. Hendrickson was transported to the Pinal County Jail in Florence on the warrant arrest and was also charged with prohibited possessor, probation violation, possession of stolen property, possession of explosives, burglary, and theft.

# Animal Care and Control to hold community meeting in Oracle regarding rabies

FLORENCE, AZ - In the past two months, three animals have tested positive for rabies virus in eastern Pinal County.

In response to this rise in rabies cases, Pinal County's Animal Care and Control Department will host a community meeting on Monday, August 14, at the Oracle Justice Court, 1470 North Justice Drive, from 6-8 p.m.

"The meeting will cover the importance

of rabies vaccinations, how to protect your animal and answer any questions the public may have about this very serious topic," state Animal Care and Control Director Audra Michael.

Animal Care and Control will be holding a free rabies vaccination clinic only for citizens in the eastern portion of Pinal County on Saturday, Aug. 26. The clinic will take place at Lionel Ruiz Park, 4004

North Dudleyville Road from 1-3 p.m. Proof of residence will be required.

Facts about Rabies

Rabies is an infectious disease that affects the nervous system, including the brain and spinal cord of animals and humans. It is caused by a virus present in the saliva of infected animals and is transmitted to humans through contact with the live virus. Rabies is fatal to humans once

symptoms appear.

While human exposures to rabid animals are rare, family pets are more often exposed to wild animals, including wild animals that are rabid. Vaccination against rabies is available through your veterinarian or Pinal County Animal Care and Control. This will prevent them from getting rabies if exposed to a rabid animal.

# What Exactly is a TIA?

**T**IA (Transient Ischemic Attack) is a stroke, sometimes referred to as a “mini-stroke.” It is precipitated by a blockage in the blood flow to a part of the brain. Transient means that it is short lived...the blockage is resolved and

## HEALTH ISSUES

By **Dr. Michael Miles**  
Special to the Miner

blood flow is recovered before perceivable permanent damage can occur. This usually occurs within one to three minutes. Commonly brain cells can only remain vital for 5-10 minutes without oxygen unless special antioxidants are released that may prolong that to a couple of hours. The blockage is usually caused by a clot that is traveling through the blood stream and gets lodged in an artery as that artery splits into progressively smaller ones on into capillaries. Clots of this nature (called emboli) can originate from any area of the body, particularly in areas in which the blood may pool and initiate the clotting process.

TIA's should be viewed as a huge “wake-up call.” Though total recovery may occur, they may suggest an ongoing condition that could continue to form more clots that could break free into more emboli that could then block more critical areas with more permanent consequences.

Typical symptoms of these mini-strokes include weakness, numbness or paralysis in the face, arm or leg, most often on one side of the body (this identifies the area of the brain effected as the opposite side to that which is effected. It is common for the speech to get slurred and some mental faculties to falter. Blindness, dizziness and/or headaches are known to occur.

Risk factors are similar to those related to other life altering conditions. Family history may suggest a predisposition. Age and sex factor in a bit. Lifestyle considerations are always important. A person that smokes may be at risk ten years earlier than one who doesn't. Obesity increases a person's chances of stroke as does high blood pressure and a diet high in saturated fats or processed foods.

As is true with any condition of this concern, it is better to take a preventative stance than to be faced with the potential

difficulties of recovery. Keeping the blood flowing smoothly is paramount. “Thinning” the blood can be accomplished in many ways. Certainly aspirin is a common consideration. A diet rich in unsaturated fats such as omega 3 oils and devoid of the more problematic saturated fats and fried foods and artificial fats certainly provides a more healthful approach than simple aspirin.

It's easy to see how the 4,000 various chemicals in commercial cigarettes can contribute to clot formation. A routine program of exercise helps one process in the good and process out the bad in ingested substances. Basic stress management can relax the blood vessels so that they can be wide enough to allow a clot to travel to less critical areas.

Recovery from TIA's should not dispel the seriousness of the condition. These provide a warning sign to take measures

## Accentuating the Positive

So, what's a town to do in this day and age? The economists talk about how Arizona has come back from the recession of a few years ago, but there's little evidence for that in the towns of the Copper Corridor. Our median incomes continue to drop. Our homes show little growth in value, or even show a reduction. And we're getting older. Obituaries are our stock in trade rather than birth notices.

Well, I woke up this morning and thought to myself, "Today is the day to have a good day." I started with my own good news that I can see. I had eye surgery a few days ago and all went well. Colors are real again! I worked outdoors with my plants, I called a few friends, and then drove to Superior to visit the art showing at the Wild Cow Gallery. I ran across friends there, and we talked for hours. One of them suggested that my column might focus on economic development projects which are coming about.

That got me thinking about the fact that sometimes we need to feel positive in order to accomplish other positive things. The first paragraph of this column is a

litany of woes, of the things that are going wrong. But changing a bad situation into a good one cannot be changed by saying, "The town used to be better off," no matter how many times we say it. We need positive vision, good heartedness, and the willingness to work with each other.

## 'Look Over the Fence' for Less Pain, Better Mood

Our daily driving, desk and school work, as well as hours at the TV, have us sitting more than any culture before us. This is creating serious health problems including slowed metabolism, increased blood sugar, weight gain, bone and muscle loss as well as spinal pain.

Computer or tablet use can worsen the stress of sitting by encouraging a forward head position and collapsed chest with the arms and hands inwardly rotated. These chronic strains lead to muscle fatigue and trigger points, causing neck and back pain, numbness in the arms, headache, etc. When these forces persist, the normal shape of the spine is lost, and results in bones spurs, thinning disks, compression fractures and the dreaded "dowagers' hump."

The solution to this health thief is to sit less, and when sitting, to sit better.

Sitting less can be accomplished by use of a standing desk, or at least setting auto reminders on a computer or watch to signal us to get up and move. The old standby of getting up during commercials

when watching TV should not be forgotten. And, you don't have to wait for commercials - TV viewing is a great time to do a bit of stretching or strengthening.

Sitting better can be helped by remembering the cue to "look over the fence". This simple trick causes you to sit taller with the head back over the shoulders. The chest opens, and the

# Mammoth-San Manuel Schools welcome new teachers

By Jennifer Carnes  
San Manuel Miner

Students and teachers alike are heading back to school. For Mammoth-San Manuel School District there are eight new faculty members added to the roster.

**Judith Becker-Rohrer** will be teaching art at the junior and senior high school. She holds a bachelor's degree in Art Education and a master's degree in secondary education.

Judith Becker-Rohrer

"Children are awesome," she said, "and I have a true passion of art. Teaching is a perfect blend of the two."

Judith would like to build a strong studio and after school arts club. She would also like to see a National Art Honor Society and Academic Fine Arts team at the school.

Judith enjoys riding motorcycles and dirtbikes and working out. She also is a sculptor and loves making jewelry and crocheting.

She is widowed and has two children, Evangeline who is 21 and Kane who is 19.

**Halie Blausier** will be teaching 11th and 12th grade English at the sr. high school.

Halie earned her bachelor's degree in Business Marketing from Arizona State University.

She chose teaching as a career "to inspire students to continue learning and exploring the world after high school." Her career goals are simply to continue teaching.

She lists her hobbies as yoga, reading and hiking. Her partner is Stephen Argentati.

Halie attended grade school at Mountain Vista School in Oracle and is a graduate of

Halie Blausier

CDO High School.

Band students in the district will have a new director at the helm. **Laura Galbus** will be teaching band for fifth through 12th graders.

Laura Galbus

She attended Minnesota State University - Mankato and earned a degree in Instrumental Music Education.

"My high school band teacher believed in me and inspired me to continue doing what I love (music) and helping others," Laura told the *San Manuel Miner*.

Laura has big plans for her career which include earning her masters and doctoral degrees to become a professor of music. She wants to teach abroad and

continue learning new skills.

She lists her hobbies as bicycling, traveling, running, anything music related, cooking and makeup.

**Damon Lovato** comes to San Manuel High School as the 9-12 grade math teacher. He will also be coaching boys basketball.

He received his M.Ed. from the University of Arizona and also attended the University of Phoenix R.I. He most wants to effect change in young adults and plans to continue growing as an educator.

He lists coaching as his hobby.

**Mark Parrish** is not a newcomer to San Manuel, but is excited to be back. Mark will be teaching sixth grade at First Avenue Elementary School.

He has a B.S. in Elementary Education from Baker College and chose teaching as a career because: "I had great teachers all through school who inspired me."

Mark's career goals are to enjoy being back in San

Manuel and getting his sixth graders ready for junior high." His hobby is simple: "Enjoying the Arizona sunshine!"

Mark Parrish

**Debi Pfaff** is also no newcomer to the Mammoth-San Manuel School District. She will be teaching third grade at First Avenue Elementary. This is her 41st year of teaching (congratulations, Debi!) including several years right in the Tri-Community.

Debi holds a B.A. in Special Education and Elementary Education from Kean University in New York. She chose teaching as a career

because she had a brother with Down's Syndrome who she often taught. "(I) knew I'd be a teacher from age 12," she said.

Debi wants to make learning a joyful experience for her students, teaching the basic skills and standards in a manner that is engaging and memorable.

Her hobbies include decorating, gardening and cooking. She is married to Phillip and together they have Robert (35), Beth (37) and Shaina (19).

**Abigail Pitner** will be teaching the fourth and fifth grade combo class.

She received her degree in Elementary Education from Northern Arizona University.

She told the *Miner*: "I want to change the way students feel about their abilities. Every person has a talent and is smart in something and I want them to know that, and they know they have a purpose."

Career goals? "Eventually," she said, "I plan on going back to school to further my education in curriculum. I

# SR 77 to receive pavement rehabilitation

FLORENCE – Supervisor Pete Rios wants to relay that the Arizona Department of Transportation (ADOT) will be accepting bids for a partial "Pavement Rehabilitation Project for State Route 77 on August 25, 2017. The rehabilitation project will begin at MP (mile marker) 113.7 approximately 1 mile south of the Town of Mammoth city limits and continues to milepost 120.4, approximately 3 miles south of the Aravaipa Bridge.

Supervisor Rios states the project scope is to replace the existing pavement that has deteriorated in recent years creating a rough driving surface. "Many of you

have contacted my office to voice your concern on the dangerous road conditions. I wish to reiterate that this is a State Highway and not a county road therefore it is not under Pinal County's jurisdiction. Nevertheless, I will continue to be your liaison and advocate in the area's best interest."

# Ceramic lantern party helps to light Sculpture Path at GLOW!

By **John Hernandez**  
San Manuel Miner

On Thursday, Aug. 3, 2017, the Triangle L Ranch and artist, Carol Mahoney hosted a ceramic lantern making party at the Wilson Barn at Rancho Linda Vista. The Triangle L is moving towards more permanent lighting along the sculpture paths. A number of Oracle's artists were there to create with clay, some fine lanterns which may be made in time for the upcoming GLOW! 2017.

The lanterns will be wired later with low-voltage lighting. Jim Pollack, from the Triangle L Ranch Bed & Breakfast said of the sculpture paths: "We would like to see them lit with lanterns emitting gorgeous patterns of light."

# Monsoons are here: help prevent mosquito-related illness

FLORENCE, AZ - This week, during routine mosquito surveillance, the Pinal County Public Health Services District (PCPHSD) detected the first West Nile Virus (WNV) positive mosquitoes in the county this season, more specifically in the San Tan Valley area. Mosquito surveillance data is used to help determine the risk of mosquito borne disease to Pinal County residents and visitors and it guides PCPHSD's disease prevention efforts.

West Nile Virus (WNV), which is spread through the bite of certain mosquitoes, is now common in Arizona. Other mosquito borne diseases, including Zika virus, are emerging into North America, but have not yet been spread locally in Arizona. Pinal County's mosquito surveillance program specifically looks for mosquitoes associated with human disease.

Not everyone who gets mosquito borne diseases has symptoms, but for those who do, some may experience lasting or permanent effects and in the worst cases, the diseases can be fatal. The PCPHSD would like to remind everyone that there is quite a bit that can be done to help prevent mosquito borne disease.

Chris Reimus, who manages the County's vector control program said, "The key to preventing mosquito borne disease is for residents to prevent mosquito breeding on their property. This is especially important since our summer monsoons have started and mosquito activity is ramping up. Residents, especially pregnant women, should be especially vigilant in taking steps to protect themselves to avoid mosquito bites."

To help prevent mosquitoes and

mosquito bites:

- Eliminate standing water where mosquitoes can lay their eggs. Check for items outside the home that collect water, such as cans, bottles, jars, buckets, old tires, drums and other containers and get rid of them.
- Change water in flower vases, birdbaths,

planters, troughs, and animal watering pans at least twice a week. Be sure to scrub them out when changing water.

- Repair leaky pipes and outside faucets, and move air conditioner drain hoses frequently to prevent standing water.
- If you have a swimming pool, keep it

## Pardon My Interruption

**P**resident Trump's idea to ban transgenders from the military is wrong! He should have spoken to his military leaders before tweeting. Anyone who has joined the all-volunteer military and completed basic training is qualified to serve. To remove 15,000 fully trained soldiers from the service would be detrimental to our country's defense. It costs roughly between \$50,000 and \$70,000 to recruit and train one civilian to become a soldier. More if they are specialized or a pilot. It doesn't make sense and it is discriminatory. As for your allegation that transgenders are a distraction, Mr. President, your tweeting and tantrums are more of a distraction. Shall we ban you from your government position?

Republican fans of President Trump were quick to acknowledge Trump's tough talk at the christening of the super aircraft carrier, U.S.S. Gerald R. Ford. They even tried to give him credit for having the carrier built. Truth is, the carrier's construction began in 2005 during the presidency of George W. Bush and built over the next 11 years including eight years of Obama's terms. I find it ironic that Trump christened the carrier named after the only president to pardon another president, Richard "I am not a crook" Nixon.

Speaking of the word "pardon", it has been in the news lately. Trump has even asked the question, "can I pardon myself?" The answer for that is no or

"nyet" for Trump's better understanding. However, Vice President Pence, once he becomes president, could grant the pardon of Trump should the need ever occur. I wonder if Pence would be willing to take the political chance that Gerald Ford did in pardoning President Nixon. Ford's pardon was probably the reason he was not re-elected as Americans wanted to put the Watergate scandal behind them.

Let's not forget that Ford became vice president after Spiro Agnew was forced to resign due to bribery charges and a failure to report income on his tax return. A president and vice president

Mammoth San Manuel Unified Schools will be participating in the National School Lunch Program and the School Breakfast Program. As part of this program, First Avenue Elementary, Mammoth Stem, JR/SR High will offer healthy meals every school day. Breakfast will cost \$1.75; lunch will cost \$2.85. Your children may qualify for free or reduced-price meals. Reduced-price meals cost \$.30 for breakfast and \$.40 for lunch.

Qualifications for children to receive free or reduced price meals include: belonging to a household whose income is at or below the Federal Income Eligibility Guidelines, belonging to a household that receives public assistance, or if the child is homeless, migrant, runaway, foster, or participates in a Head Start or Even Start pre-Kindergarten program.

Household size and income criteria are used to determine eligibility for free and reduced-price benefits if the household does not receive assistance or the children are not in the other categories mentioned above. Children can get free or reduced-price meals if the household's gross income falls at or below the limits on the Federal Income Eligibility Guideline chart.

To apply for free or reduced-price meals, households can fill out the application and return it to the school unless the household has already received notification that their children are approved for free meals this year. Application forms are being distributed to all households with a letter informing households of the availability of free and reduced-price meals for their children and what is required to complete on the application. Applications also are available At all school offices and cafeterias. Also available on the school website mmsusd.org.

Only one application is required for all children in the household and the information provided on the application will be used for the purpose of determining eligibility and verification of data. Applications may be verified at any time during the school year by the school or other program officials. An application for free or reduced-price benefits cannot be approved unless it contains complete eligibility information as indicated on the application and instructions. In the operation of child feeding programs, no child will be discriminated against because of race, sex, color, national origin, age, or disability.

Families can apply for benefits at any time. If a household member becomes unemployed or if the household size increases, the household should contact the school. Such changes may make the children of the household eligible for benefits if the household's income falls at or below the Federal Guidelines. Contact [school official] at any time to request an application.

Under the provisions of the free and reduced-price policy, Joanna Diaz, DTR Foodservice Director will review applications and determine eligibility. Parents or guardians dissatisfied with the ruling of the official may wish to discuss the decision with the determining official on an informal basis. Parents wishing to make a formal appeal for a hearing on the decision may make a request either orally or in writing to Lisa Armenta Community Schools Director 520-385-2336 ext. 1110.

When known to Mammoth San Manuel Unified School households will be notified of their children's eligibility for free meals if they are members of households receiving assistance from the:

- Supplemental Nutrition Assistance Program (SNAP);
- Food Distribution Program on Indian Reservations (FDPIR); or
- Temporary Assistance for Needy Families (TANF), if the State program meets Federal standards.

An application is not required for free meal benefits for Assistance Program participants and all of the children in the household are eligible for free meal benefits. If any children were not listed on the notice of eligibility, or if a household does not receive a notice of eligibility, the household should contact the school to have free meal benefits extended to them. Participants in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) may be eligible for free or reduced-price meals, but they will need to turn in an application including household size and total income.

When known to Mammoth San Manuel Unified School District households will also be notified of any child's eligibility for free meals if the individual child is considered "Other Source Categorically Eligible", because the child is categorized, as defined by law as:

- Foster
- Homeless,
- Migrant,
- Runaway,
- Enrolled in an eligible Head Start, or
- Enrolled in an eligible pre-kindergarten class.

If any children were not listed on the notice of eligibility, the household should contact the school about their eligibility through the list above, or should submit an income application.

Households notified of their children's eligibility must contact the school if the household chooses to decline the free meal benefits.

# ALONG THE GILA

Continued from page 6

Here's a litany of some good things to think about:

– Copper is now running \$2.85 per pound. This is not even close to the boom price five years ago, when copper couldn't be produced quickly enough, but today's price is part of a slow climb over the previous two years.

– The new Apache Sky Casino near Dudleyville is open for business. There are full days and slow days, but anything new begins with a measure of risk. The good news is that the new casino is following the wise course of its sister near Globe, by starting small and pacing itself with a mind toward growth. Many people from the San Carlos Reservation are joined by people from our towns in working there, a boon for all of us.

– The Whistlestop Café has opened in Kearny. The

Sunny 77 Café has opened in Mammoth. These new cafes are providing menu variety, not competition to existing eateries, and bring new jobs.  
– Resolution Copper

has four positions to fill and has them posted on ResolutionCopper.com/jobs/. Some positions with contractors for Resolution are also posted there.  
– The rains have been good.

The desert is beautiful, and the waters of San Carlos Lake are rising.

I bet you can make a list of more good things. So, what's a town to do? How can we develop the

conditions that make good things come about? And are there things that the towns can do together to make better conditions for positive change? I want to hear from you.

# RABIES

Continued from page 4

Unfortunately, household pets that are not vaccinated against rabies need to be put to sleep after having an exposure to a wild animal.

Rabies is found mainly in wild animals such as bats, skunks, foxes, raccoons, bobcats, and coyotes. Cats, dogs, and

livestock can also become infected with rabies if they are bitten by rabid wild animals and they have not been vaccinated. Rodents such as rats, mice, gerbils, guinea pigs and squirrels are not likely to be infected with rabies. Wild animals exhibiting unusual behavior

should be reported to local animal control officials. The best way to protect yourself and your family is to avoid touching, handling, or adopting wild or stray animals.

The first sign of rabies is usually a change in the animal's behavior. Animals may

act more aggressive or more tame than usual. Animals usually active at night such as skunks, foxes, and bats may be out during the day. Rabid animals may appear agitated and excited or paralyzed and frightened. Sometimes, rabid animals do

# RABIES

Continued from page 16

not show any signs of illness before death from rabies. That is why contact with wild animals should always be avoided.

## Animal Care and Control recommends the following precautions

- Keep people and pets away from wild animals. Do not pick up, touch, or feed wild

or unfamiliar animals, especially sick or wounded ones. If someone has been bitten or scratched, or has had contact with the animal, report it immediately to animal control or health officials.

- Do not “rescue” seemingly abandoned young wild animals. Usually, the mother will return. If the mother is dead or has not

returned in many hours, call the Arizona Game and Fish Department.

- Vaccinate all dogs and cats against rabies. Pets should be kept in a fenced yard.
- \* Take precautions when camping, hunting or fishing. Avoid sleeping on the open ground without the protection of a closed tent or camper. Keep pets on a leash and

do not allow them to wander.

- Do not disturb roosting bats. If you find a bat on the ground, don’t touch it. Report the bat and its location to your local animal control officer or health department. Place a box over the bat to contain it. Be careful not to damage the bat in any way since it must be intact for rabies testing.

Araceli and Francisco Curry

## Summer camp teaches local teens about diversity

By John Hernandez  
 San Manuel Miner

Two young people from the Tri-Community have returned from summer camp with a better understanding of themselves and the world.

Araceli and Francisco Curry live in Mammoth. This summer they attended Anytown Leadership Camp. Anytown's mission is to celebrate diversity and reduce bias, bigotry, and prejudice. They teach using a unique and structured curriculum where all students participate in the programming which is experiential, interactive and in a safe setting.

Ramona Curry, the mother of the kids, said she attended the camp 30 years ago. When she attended the focus was on racial, religious and ethnic prejudice. At that time, they were not taught about bias towards gays and the LGBT community. "We knew little about that back then," she said. Now the camp teaches about tolerance and the bias and prejudice toward LGBT. Ramona said that both kids came home excited. Her son had changed. He has a different attitude about things.

Francisco attended Camp Wamatochick in Prescott. He says he will try to pass on what he has learned to his friends. He knows that he will stop "cat calling" girls and not be prejudiced. He learned that there are people who are not going to like you because of your ethnicity or color and you need to not mind people like that, show a positive attitude and keep going.

Araceli went to Mingus Mountain Camp in Prescott Valley. "It was a very emotional experience," said Araceli. "I cried a lot," she

added. She said she learned about hate and diversity and how everybody should be treated equally no matter their skin color, nationality, religion or sexual orientation. "Everybody has some type of privilege and should use it to help others." Araceli hopes to pass on her knowledge to her friends and others. Both kids received a certificate and credit for 50 hours of community service.

Ramona Curry said she would like to see more kids from the Tri-Community attend these camps and perhaps get the schools involved in at least passing on the information to students and parents. When she attended the camp, it was a high school counselor, Randy Cordero, that told her about it. She filled out an application and four students were selected by the school counselors to attend.

The cost of the Anytown Arizona Camp is \$425 for a seven-day, six-night stay including accommodations, meals and roundtrip transportation from Phoenix. Scholarships are available and no one is turned away. Ramona, because she was an Alumna, only had to pay \$25 for each kid. The education that these students receive helps to build community. The lessons learned about tolerance for others, and working to reduce, bias, hatred, prejudice and bigotry are important today.
