LETTER TO THE EDITOR

Only You Can Bring Jobs to the Copper Corridor

Nestled three thousand feet off the desert bottom near Superior, Arizona, sits 2,000 jobs buried under the earth. These jobs are not temporary or seasonal, they are well-paying blue-collar jobs that will last for the next 50 years. And if your voice is not heard now, then these jobs will be gone forever.

Work is one of the most important things we do as

residents of Pinal County. Ralph Waldo Emerson said, "The purpose of life is not to be happy. It is to be useful, to be honorable, to be compassionate, to have it make some difference that you have lived and lived well." It is through work that we provide our families with life's necessities. For most of us, we work for someone else, be it a private employer or the state or local government. Some of us

have had the fortune to create jobs, which is why the opportunity that I am about to discuss is so rare.

You, yes, every single one of you Pinal County residents, have the opportunity to create 2,000 jobs for the next 50 years. Tucked into the 3.5 trillion-dollar reconciliation bill, that both sides of Congress are debating right now, is a provision to stop the jobs that President Barack Obama approved in 2014, that allows Resolution Copper Mine to open. The provision is called H.R. 1884 and it must be removed from the budget reconciliation bill to get these jobs. I ask each of you to write to your representatives and ask that this language be removed.

Federal Law Requires the Land Exchange

In 2014 President Obama signed into law a land exchange that would allow Resolution Copper to operate outside of Superior, Arizona. Over the subsequent seven years, the United States Department of Agriculture conducted numerous studies with input from the public and various federal, state, and local agencies. Public Law 113-219 authorized the land exchange after the House of Representatives, the United States Senate, and the President all agreed that the land exchange should take place after considering the impact to the environment, the various Tribes, and the compelling government interest in the mine.

The federal law mandates that Resolution Copper shall be conveyed the land, "Not later than 60 days after the date of publication of the final environmental impact statement..." 16 U.S.C. § 539p(c)(3). The Final Environmental Impact Statement was completed on Jan. 15, 2021, which means that Resolution Copper should have been conveyed the land on or before March 15, 2021. Instead, the USDA chose not to follow federal law.

The USDA has become a Law unto Themselves.

The USDA unilaterally decided that it was not going to comply with federal law when it withdrew the Final Environmental Impact Statement on March 1, 2021. It is acting like a rogue agency with the unilateral power to change federal law outside of Congress and the President of the United States. To be clear, 16 U.S.C. § 539p(c)(3) has been the law of the United States since it was approved on Dec. 19, 2014. Here is how it happened, starting from the most recent events, and an explanation as to why the USDA became political when it withdrew the Environmental Impact Statement.

On March 1, 2021, the United States Forest Service withdrew its Final Environmental Impact Statement published Jan. 15, 2021. This occurred in a little-known location called the Federal Register, which is a journal of all federal agency actions. Here is the March 1, 2021, entry:

EIS No. 20210005, Final, USFS, AZ, WITHDRAWN—Resolution Copper Project and Land Exchange, Contact: Mary Rasmussen 602–225–5200. Revision to FR Notice Published 01/15/2021; Officially Withdrawn per request of the submitting agency. Dated: March 1, 2021.

CAVANAUGH

Continued from page 2

According to the United States Forest Service (USFS), it was required by the United States Department of Agriculture (USDA) to withdraw its Final Environmental Impact Statement. The USDA justified the withdrawal by citing a Presidential Memorandum from President Joe Biden dated Jan. 26, 2021.¹ Strangely, the Presidential Memorandum makes no mention of Resolution Copper, Arizona, the land exchange, Oak Flat, or anything to do with the aforementioned project. The Presidential Memorandum merely reiterates President Obama's Policy on Strengthening Tribal Relationships that had been in place since 2000:

To this end, Executive Order 13175 of Nov. 6, 2000 (Consultation and Coordination With Indian Tribal Governments) charges all executive departments and agencies with engaging in regular, meaningful, and robust, consultation with Tribal officials in the development of Federal policies that have Tribal implications...The Presidential Memorandum of November 5, 2009 (Tribal Consultation), requires each agency to prepare and periodically update a detailed plan of action to implement the policies and directives of Executive Order 13175. This memorandum reaffirms the policy announced in that memorandum (emphasis added).

In other words, the Presidential Memorandum demands that all executive agencies act in accordance with President Obama's policies. Interestingly, it was President Obama that signed the Resolution Copper land exchange into law, so who in the USDA is holding 2,000 jobs and 113 million in tax revenue² to Arizona hostage? The USDA clearly is using the Presidential Memorandum as a subterfuge to refuse to follow the law. The United States Forest Service followed

President Obama's directives in getting Tribal input throughout the entire land exchange process over the past seven years. The United States is a nation of laws that should be followed and enforced, and it certainly is not the job of the USDA to choose which laws to follow and which ones it can brush aside on the Federal Register.

Copper is an Absolute Necessity.

The Resolution Copper mine will not only bring thousands of jobs for the next 50 years, but it will also supply as much as 40 billion tons of copper. A couple more numbers for comparison: domestic mine production of copper was 102,000 metric tons year-to-date through March 2021.³ The Resolution Copper mine will produce approximately 132,000 tons per day of ore.⁴ Copper is a high demand commodity needed by Arizona and the rest of the nation to transition to renewable energy. Just one ton of copper brings functionality to 40 cars, 100,000 mobile phones, distributes electricity to 30 homes, and enables operation of 400 computers.⁵

The world uses 28 million tons of copper per year.⁶ This means that the Resolution Copper mine will have the capability to supply the world with copper long into the future. Opening the mine will make Superior, Arizona the copper capital of the world.

Write Your Arizona Congressional Leaders – Now!

My name is Kevin Cavanaugh and I sit on the Pinal County Board of Supervisors representing District 1, the jurisdiction of this project. I ask that every person in the Copper Corridor join me in writing to every member of the Arizona Congressional Delegation to request removal of H.R.1884 language, the "Save Oak Flat Bill" from the House

Resolution Copper needs our help! ASAP!

Rep. Raul Grijalva and the House of Representatives are adding the Save Oak Flat Bill H.R. 1884 to the Reconciliation Bill currently being negotiated in Congress. We expect votes to be held soon. This bill will close the mine, people will lose their jobs and it will essentially kill any chance for the Resolution Copper Project to open and also create other hurdles that will cripple the rest of the mining industry, which will gravely affect our local and regional economy.

Ray brings home the Copper Helmet with win over Superior; Hayden and Ray to play this Friday

By Nathaniel A. Lopez
Copper Basin News

The Ray football team traveled to Superior on Friday, Sept. 24, to play at Superior's homecoming. As usual, when the Bearcats and the Panthers face off on the football field, the Copper Helmet trophy is on the line. It was last in Ray's possession in 2013, and has been with the Panthers since 2014.

The Bearcats ended the first quarter down by 2 points, but by the half the game was tied up. The game changing difference was made during the third quarter, when Ray posted 8 points, while suppressing Superior from scoring. In the end, those 8 points secured the Copper Helmet trophy back to the Bearcats. The final score of the Copper Helmet game was 28-20, giving them their second win of the season.

Due to a COVID protocol, The Hayden football team was

unable to compete in last Friday's scheduled game against Tempe Prep School and the Homecoming was moved to Oct. 8 and the game against Superior.

The Hayden Lobos and the Ray Bearcats are set to face off, keeping the local rivalry alive. The game is scheduled for Oct. 1, at the Ray High School football field, with a kick-off time of 7 p.m.

OK, fans. Come decked out in your best LOBO BLUE or BEARCAT MAROON to cheer on our Boys of Fall.

The Copper Helmet returns to Ray High School.

Support Local: Hayden, Winkelman Post Offices

In April 2020, COVID-19 brought much of Arizona's economy to a screeching halt. All businesses not deemed "essential" were ordered closed by Arizona's governor Doug Ducey.

The lockdown continued for nearly two months. When Gov. Ducey finally gave the go ahead to reopen, businesses slowly began the road to recovery. Even those listed as "essential" had a challenge with this economic recovery.

Many small businesses and non-profits in Arizona didn't survive the lockdown. The businesses that did survive are hanging on as best they can. *Copper Area News* wanted to give something back to the local business community as a thank you for supporting us through these troubled times. Our newspapers (*Copper Basin News*, *Superior Sun and San Manuel Miner*) have been featuring local businesses and non-profits since the beginning of 2021, encouraging our readers to Shop at Home, stay local and support our local businesses. To date, *Copper Area News* has featured 111 businesses and groups in the Copper Corridor.

As the COVID-19 Pandemic took its toll, businesses, families and even local non-profits had to adjust their strategies to keep their missions moving forward while working through the pandemic. Meetings were moved to Zoom and fundraisers had to become creative as in-person events were not allowed.

It's been said about the United States Postal Service: "Neither snow nor rain nor heat nor gloom of night stays these couriers from the swift completion of their appointed rounds." It's not their official motto – they actually have no motto at all (<https://facts.usps.com/no-official-motto/>).

Perhaps if we were to add a sentence about the COVID-19 Pandemic, it would be even more accurate.

The USPS, along with other delivery services, became a lifeline for many Americans locked down during the initial days of the pandemic. They didn't have the option to shut down. They were some of the unsung heroes – the frontline workers – tasked with keeping the economy going.

According to the United States Postal Service, "The Postal Service's mission is to provide the nation with reliable, affordable, universal mail service. The basic functions of the Postal Service were established in 39 U.S.C. § 101(a): "... to bind the Nation together through

the personal, educational, literary, and business correspondence of the people. It [the Postal Service] shall provide prompt, reliable, and efficient services to patrons in all areas and shall render postal services to all communities." The Postal Service delivers to more than 150 million addresses six days a week, and picks up pre-paid letters and packages at the time of delivery. It provides mailing and shipping services through more than 36,000 retail outlets and usps.com."

William Dudley Harrington was a man who appreciated the convenience Post Offices can bring to the lives of persons living away from the bustle of big city life. Which is why, in 1881, he opened the first Post Office to serve the Copper Basin (the Basin) in his mercantile store in the area that would later be known as Dudleyville.

Afterward, as more ranchers and settlers moved into the area, the Phoenix-Eastern Railroad expanded into the Basin to transport supplies and the U.S. Mail. The railroad added Mail Stops along the route in the small settlements of Dutton Stop, Camp Grant, Christmas and other outlying locations along the rail line.

In 1905, when copper was discovered in the area and the mining companies started operations, rancher Peter Winkelman commissioned the United States Postal Service (the Postal Service) to open a Post Office on his ranch. At the same time, the Postal Service converted the Mail Stop in Christmas to an official Post Office, which remained in operation until 1932. As the town of Winkelman grew, the Post Office was moved into Gila County to better serve the downtown area.

The mining industry grew in the area, changing Hayden from a tent city to a booming mining community and a Post Office was opened in the general store in 1910.

With the invention of the automobile, the Post Service stopped using the railroad to transport mail into the Basin and the railroad closed the Mail Stops along the route. Economic ups and downs beset the area with a decrease in mining operations, causing the population to dwindle rapidly, which impacted the mail volume and revenue, forcing the Postal Service to close smaller offices in the area or convert them to part time offices, such as the one in present day Hayden.

Currently, there are two post offices in the Hayden-Winkelman area. The modern day Hayden Post Office is located at 54 E. Park Ln. in Hayden. There is less than

Hayden and Winkelman Postmaster Robert Redman and Clerk Chelsea Hetrick.
James Carnes | CBN

a mile between it and the Winkelman Post Office, located at 301 Giffin Ave. in Winkelman. Should these Post Offices be closed, the nearest one is 5.4 miles away in Kearny, followed – not too closely – by the post offices in Mammoth and Globe, respectively 14.0 and 35.6 miles away.

If the residents of Hayden and

Winkelman value the convenience of having at least one Post Office conveniently located near to where they live, now is the time for each person to consider how a Post Office should be utilized and treated.

It's all the more important to remember the United States Post Office when "supporting local."

The Superior Chamber of Commerce is partnering with the Pinal County Attorney's office and others to present a free Shred-a-thon in Superior on Saturday, Oct. 16, 9 a.m. - 11 a.m. at the Superior Town Hall, 199 N. Lobb in Superior. A maximum of five 13-gallon trash bags or bankers boxes are allowed per person. As October is Domestic Violence month, a donation is suggested of toiletries to benefit Pinal County Abuse Shelters. Items include: toothpaste, toothbrushes, deodorant, shampoo, soap and feminine products.

23 Oracle Library Fall Book Sale

On Saturday, Oct. 23, the Oracle Public Library, located at 565 E. American Ave., will be having its fall book sale from 9 a.m. - 3 p.m., with a 2 p.m. - 3 p.m. "fill a bag with books" sale of \$5 per bag. They provide the bag and you fill it. This sale will include paperbacks, hardbacks, fiction, non-fiction, CDs and DVDs, Oracle maps and library mugs.

23 Superior's 2021 Burro Poop Drop

Buy a numbered square (or multiple square) for \$10 each. If your square has the most poop in it after the burros take off for their race, you can win money - up to \$2500! You do not have to be present to win. Go to www.poopdrop.fun to reserve your winning square. The event is sponsored by the Superior Chamber of Commerce and is held in conjunction with the second annual Superior Burro Run, set this year for Saturday, Oct. 23.

30 Free Haunted House in Winkelman
