OBITUARY

Sylvia C. Gonzales

Sylvia C. Gonzales, better known as “Chivi,” left her loved ones and friends to make her journey home to be with her Lord on Aug. 21, 2020. Sylvia was born in Hayden, Arizona on Jan. 9, 1940 to Alfonso and Amparo Cruz. She was blessed with 80 years of life full of love, family, and friends which made for a lot of laughter, good times, and precious memories.

Sylvia was a genuine hometown girl. She was raised in Hayden (San Pedro) by her mother, grandmother and uncles, along with her sister, Stella. Even though there was an age difference there was a strong loving bond between them.

As she became a young lady, she met her husband, Antonio “Bear” Gonzales in school and he truly won her heart. On Sept. 12, 1957, at a very young age, they eloped to get married and started their family. On Dec. 5, 1968, they were married at St. Joseph’s Church. Sylvia brought four children into this world, Doreena, Norma, Alfonso and Thelma. Their children blessed them with 14 grandchildren and 12 great-grandchildren.

Sylvia took care of her husband during his illness for eight years. She became certified to be able to connect him to his dialysis machine. In 1989, her husband died, leaving her as a widow and she returned to join the workforce. She did housekeeping around the area, and being that she always enjoyed cooking and baking, she was employed at the food service department with Hayden-Winkelman Schools. While she worked at the school during the day, she also worked evenings as a cook at the General Kearny

Inn. People enjoyed her food, some would even drive from around the area to eat some of her delicious soups, along with some of her other favorites. Her family were the luckiest of all, they were spoiled with some of her good pies, empanadas, tamales and flat enchiladas at any time.

Not only did she love cooking, Sylvia absolutely loved the Phoenix Suns and her Arizona Diamondbacks.

Sylvia is preceded in death by her parent,s Alfonso and Amparo Cruz; her husband, Tony; her granddaughter, Cynthia “Cindy” Magallanez; her great grandson, Baby Andrew Aguirre; along with many loved ones. Sylvia is survived by her three daughters, Doreena (Bobby) Magallanez, Norma (Henry) Bravo and Thelma (Robert) Casillas; and her son, Alfonso (Michelle) Gonzales; and all their children. Also surviving is her sister, Stella Manriquez.

Sylvia leaves behind a legacy of being a loving, strong-willed, genuine, and caring person. We will miss her and promise to continue loving her just as we did while she was here with us. Farewells and goodbyes are not an option, instead it’s until we meet again. Mom, we love you and you will be forever in our hearts.

Services were held Saturday, Aug. 29, 2020 at St Joseph Catholic Church in Hayden, Arizona.

Winkelman Natural Resource Conservation District (WNRCD) has helped maintain agriculture as an economic powerhouse in our region for nearly 70 years. While not every agricultural operation can be seen from our picturesque highways, there lies along our dirt roads and near our rivers and creeks a beating heart from which flows sustenance and the financial support for ranching families in the region.

Economic Impacts

According to Tim Kanavel, Pinal County's Economic Development Director, the aggregate agriculture economic impact amount in Pinal County is \$2.6 billion annually. Attempts to ascertain an economic figure for the just WNRCD were strangely difficult to locate. With some educated guesses and looking at the WNRCD's footprint in Pinal County (see map), perhaps half of the \$2.6 billion of economic impact can be attributed to the WNRCD. That is \$1.3 billion of economic impact. Please note, unless better figures can be found, it is only a guess. Let put this into some context, mining represents \$1.3 billion of economic impact to Pinal County according to the Arizona Mining Association. It seems clear that outside of Florence Copper near Florence, most of Pinal County's active mining would be within the WNRCD footprint.

The WNRCD's annual public funding includes:

- \$13,000 from the Arizona Legislature
- \$5,000 annually for the Education Center, sponsored by the WNRCD

All other income is from the grants, contracts, gifts which include monies from cooperators. (Cooperators are stakeholders which control natural resources within the WNRCD. Cooperators are encouraged to make a donation each year, but it is not required for participation. Volunteers for WNRCD activities are always sought. The WNRCD contact information is included below.)

During special projects such as public policy issues affecting ranching, donations may increase to better utilize local resources. The WNRCD works to make their industry's position heard and educate policy makers and regulators about the impact of their decisions. Bill Dunn, a director of WNRCD, reported those donations can surge to as much as \$20,000 or fall to negligible levels.

The Nature Conservancy and the WNRCD

The Nature Conservancy and WNRCD have long coexisted in the Copper Corridor.

While the both The Nature Conservancy and WNRCD have the missions of conservation, they differ in the specific execution and have varying goals. For example the WNRCD seems to focus on agriculture sustainability while the Nature Conservancy will focus on conserving or restoring the land. In many cases these goals can work together to achieve both sustainability of the land and bio systems as well as responsible long term maintenance of multi-generational agriculture concerns.

The two organizations have partnered together on several projects in the Copper Corridor, the most recent of which was a donation of an education center from the Nature Conservancy to WNRCD.

The Nature Conservancy Donation to WNRCD

The District Education Center will be receiving a gift of land in Dudleyville from The Nature Conservancy this summer. This will be a place where the WNRCD can grow

native plants for local propagation, have demonstrations and an office.

The Nature Conservancy's provided the following response to Copper Area News inquires concerning the donation.

"Bob Rogers of The Nature Conservancy (TNC) was reading the Winkelman Natural Resource Conservation District (WNRCD) newsletter and discovered an exciting opportunity. The newsletter announced that their Education Center was undertaking some new projects

The stated goal of the Winkelman NRCD is "to support and encourage the proper and wise sustained use and management of our basic renewable and non-renewable natural resources utilizing sound science and valid on-ground experience." The District attempts to provide leadership in order to promote good management of the natural resources of the district through coordination conservation and development programs resulting in the wise use of lands within the district.

Preserving the Copper Corridor's Agricultural Heritage

for growing out native plants. The NRCD was looking for property for their native plant project, where they could engage youth in agricultural and conservation projects, specifically growing native plants for fire restoration areas, and places where tamarisk had been removed.

"TNC owned a couple of small parcels on the Lower San Pedro River in Dudleyville that needed to be sold or transferred. Deed restrictions required that the recipient of the property needed to be a non-profit, or 501(c)3 group. The WNRCD Education Center is a 501(c)3 subsidiary of the NRCD, and they had use for the property, which fulfilled all requirements for the transfer.

"TNC recognized the WNRCD was a perfect recipient for this property. Though there are no buildings, there is a large concrete pad where a mobile home was located, and infrastructure for electricity and a well, making it possible to install another mobile home at some point. The parcels are large enough to accommodate corrals for 4H youth to raise livestock. TNC appreciated the approach the Education Center was taking with the project, enabling youth to work on the ground with agriculture and conservation projects to demonstrate how these interests can coexist and develop best management practices together.

"TNC staff worked with Bill Dunn and the Education Center to move forward with the transfer, and hopes that the transaction is complete in the next couple of months. Included in the transfer was a small endowment, which

had been attached to one of the properties because of a mitigation settlement. This money can be used by the Education Center to build corrals, help install hoop houses, or other projects that support their mission. TNC was happy to work with the WNRCD to make this project happen, and knows the Education Center will make good use of the property."

WNRCD hopes to involve the local schools and Central Arizona College along with the Oracle Community Learning Garden and others to teach conservation and modern agriculture.

To further enhance the Education Center, the District was awarded a \$44,500 Partnership Grant from Pinal County Supervisors. The funds will be used to help hire a person to teach natural resources to our local school kids and adults along with help managing our new properties.

WNRCD has a long list of accomplishments and activities.

Bighorn Fire and Rebuilding Infrastructure

Dunn reported, "The recent Bighorn Fire on Mt. Lemmon is the most recent example of the WNRCD helping land owners conserve natural resources. The district put together affected landowners with agencies that have disaster funding to rebuild destroyed infrastructure. Some of those agencies are Natural Resources Conservation Service, Farm Service Agency, Pinal County Flood Control District, US Forest Service Burn Assessment Emergency Response team, and others. This builds on the District's work on the Mt. Lemmon fire 17 years ago when we worked with some of the same agencies to put in conservation measures for Summerhaven."

Sonoran Desert Tortoise

"Several years ago," Dunn explained, "the District spearheaded the fight against listing by the US Fish and Wildlife Service (FWS) for the Sonoran Desert Tortoise. The reason being when they listed its cousin, the Mojave Desert Tortoise several years earlier, they completely eliminated the grazing industry in its critical habitat area along with all of the businesses that depended on that industry to survive. Because of pioneering studies by the Meyer ranching family in the District and their 18-year study of the Tortoise and District work dispelling the initial claims by groups that filed the Petition To List, the tortoise is not in danger of being listed at this time. We also worked with FWS to create a Best Management Practices (BMP) document that the service relies on for its reasoning not to list."

On Monday, Aug. 3, 2020 the U.S. Fish and Wildlife Service agreed to reconsider its 2015 position on the Sonoran Desert Tortoise regarding its placement on the Endangered Species list. The agency will spend 18 months reviewing the species' status.

Sonoran Desert Tortoise Detailed Saga

Dunn provided a more detailed explanation of the Sonoran Desert Tortoise efforts.

The US Fish and Wildlife Service (FWS) first added the Sonoran Desert Tortoise to the Threatened List, meaning it thought the species needed protection under the Endangered Species Act (ESA) but not necessarily added to the Endangered List.

Grants & Programs

The WNRCD applied for six grants in 2019. Each application required 40 to 100 hours to research, write and submit. Three grants were awarded in 2019:

Arizona Game and Fish (Habitat Partnership Committee) Grant (\$28,000)

The grant identified four ranchers with a total of 7 dirt tanks for cattle that would be cleaned and sealed. The WNRCD partnered with Seepage Control to seal the tanks with ESS-13 either by spraying or by adding it to the dirt tank water once the tank was full. Per Steve Turcotte, a cooperator and WNRCD board member, "The Seepage Control method, ESS-13, is much more effective and less costly than using bentonite soil". This practice will provide a renewable water supply for cattle and wildlife by minimizing ground seepage at tanks in the San Pedro watershed. The stock tank cleaning and sealing program will provide for the cleaning, sealing and maintenance of the dirt tanks in the lower San Pedro and Gila River watersheds which is a primary source of water for wildlife and cattle.

Arizona Water Protection Fund Grant (\$205,000 for 3 years)

The WNRCD was notified in late 2019 that the District was being awarded the grant and now is in the initial stages of getting the paperwork finalized. The grant has 3 phases: create a Tamarisk Management Plan outlining tamarisk treatment methods, priority restoration sites, revegetation goals, monitoring, long-term maintenance, and site-specific restoration plans; remove tamarisk and plant native vegetation on 20 acres along the Gila River; and restore a 105-acre riparian corridor with native trees and shrubs where tamarisk was removed.

District Statistics

According to the Arizona Association of Resource Conservation Districts the WNRCD has the following physical features:

- Elevation: 1,550 ft. near Florence at Gila River to 8,400 ft. at the Catalina Mountains
- Terrain: Chihuahuan-Sonoran, Semi-Desert Grasslands, to Upper Sonoran Desert, and Mexican Oak-Pine Forest
- Precipitation: Average of 7-25" annually, varying with elevation

The WNRCD's land use includes:

There are 24 farm units and 50 ranch units that utilize 795,155 acres or 97% of the land resource. Much of the mining property is used in conjunction with livestock grazing. Agronomic croplands, approximately 4,920 acres, produce varied commodities. Listed in respective order of acres planted these crops are: irrigated pasture, hay, small grains, grain sorghum, cotton, pecans, apples, citrus, and smaller amounts of other varied crops.

- Federal: 397,523 acres

According to the FWS, an “endangered species” is one that is in danger of extinction throughout all or a significant portion of its range. A “threatened species” is one that is likely to become endangered in the foreseeable future throughout all or a significant portion of its range.

WNRCD spent about two years putting together a document called the Best Management Practices (BMP) for Grazing in Sonoran Desert Tortoise range. The District met with wildlife biologists that worked for the FWS, Arizona Game and Fish Department, the Bureau of Land Management, the Natural Resources Conservation Service and the State Association of Conservation Districts. The BMP document can be downloaded from the Tortoise section of the WNRCD website (wnrcd.org). The FWS used the document along with other provided information in their 2015 decision that the Tortoise didn’t need protection and livestock grazing was not considered a threat.

The WNRCD feared the effects of an Endangered Listing on rancher grazing leases issued by the Bureau of Land Management (BLM). When the Mojave Desert Tortoise was added to the Endangered List, grazing was identified as the main threat. The grazing areas were declared as a critical habitat for the species. Such a declaration led to BLM canceling grazing leases.

Dunn believes the impact to grazing in Arizona would be enormous, should a repeat of the Mojave Desert Tortoise endangered listing occur in the District with the Sonoran Desert Tortoise. The magnitude of the hit would not be known until the FWS determined the area of critical habitat for the Sonoran Desert Tortoise. (Please note that approximately 1/3 of Arizona and a small portion of northern Sonora, Mexico, is where Sonoran Desert Tortoise is known to roam.)

“I’ve been told by biologists who work there (in the area determined to be a critical habitat for the Mojave Desert Tortoise) that it (adding the Mojave Desert Tortoise to Endangered List) has increased the cost of a new home by about \$5,000 and added \$100,000 per mile to build a highway. This is because of the mitigations they have to do,” reports Dunn. Further research has placed the lost profits to ranching from the Endangered Listing of the Mojave Desert Tortoise at \$4 million.

SunZia

The WNRCD and the neighboring Redington Natural Resources Conservation District coordinated with Arizona Bureau of Land Management to try to keep a major power line (SunZia) from coming through either Aravaipa Canyon or San Pedro River Valley from I-10 to Coolidge as shared by Dunn. The two Districts spent nearly \$100,000 on a six-year legal battle. Mr. Dunn indicated that “although we haven’t been able to stop the project from coming through the Districts, we forced it out of the river valley bottom where it could do irreparable harm to the natural resources. The project is on hold until the developers do additional planning in New Mexico where it originates.”

Mexican Gray Wolf

“About the same time as we started working on SunZia project,” Dunn said, “the FWS decided they would change the boundaries of the experimental population of the Mexican Gray Wolf to include nearly all of Arizona from the Mexican border to I-40. The District organized a

coalition of NRCDs, some county sheriffs and the UofA to try to constrain the expansion. Because of our efforts, we were able to keep the boundary north of I-10. It has since been changed to include the area south of I-10.” The District is in Zone 2 of Mexican Grey Wolf Experimental Population Regulation area.

Oracle Community Learning Garden

In 2019, the District received a \$50,000 Urban Ag Grant from the National Association of Conservation Districts to help further establish the Oracle Community Learning Garden.

Liz Harris-Tuck, Treasurer for the Oracle Community Learning Garden, shared with the Copper Area News what the Oracle Learning Garden accomplished with the grant:

Our project taught conservation, promoted appreciation and understanding of the environment, and encouraged responsible stewardship of natural resources. Specifically, the project served the communities in our Conservation District with technical assistance in 1) vermicomposting, 2) rainwater management, and 3) ecosystem restoration.

We advertised free workshops throughout the Conservation District and relied on volunteers to help us accomplish our goals, educating residents through demonstrations and hands-on workshops. Most workshops were held at the Oracle Community Learning Garden. Volunteers contributed 942 hours during the grant period. The total value of volunteer labor and other in-kind funds was \$36,641.40

Install hoop house for plant propagation at Oracle Community Learning Garden (OCLG)

The hoop house, donated by Winkelman Natural Resource Conservation District, was planned and constructed by volunteers. WNRCD contributed to the construction with help in ground preparation and construction expertise. The hoop house was designed to be 80’ long. Due to space limitations, we constructed two 40’ hoop houses.

Volunteers installed an irrigation system that will monitor water use, directing water to the pollinator garden and the hoop house. Plant starts growing in the hoop house were sold on May 2, the startup of our plant business that will help sustain the garden. We are pleased that our May plant sale raised \$600.

Linda Leigh wrote a Business Plan for the hoop houses that projects income and expenses for the next six months as well as a market analysis. While we have a list of potential uses for the hoop houses, initially we will focus on growing vegetable, herb and landscape starts in one hoop house. The other will be used to grow native plants suitable for restoration projects. Linda also wrote an extensive Operating Manual that details policies and procedures to successfully operate the hoop houses.

Goal: Plant a Pollinator Garden

We hired Carianne Campbell (Strategic Habitat Enhancements, LLC) to facilitate a workshop on native pollinator plants. Participants learned about the importance of pollinators in our ecosystem, restoration ecology and conservation. We installed native pollinator plants to support bees, butterflies, and other pollinators, and to provide propagation material for growing and selling the plants locally. The pollinator garden that was planted at OCLG is now registered with Monarch Watch (<https://www.monarchwatch.org/>

waystations/).

Rainwater Management

Goal: Develop and implement water conservation management plan at OCLG

To help residents gain a sense of place and understand how we affect our watershed, we hired Bob Scarborough, a well-respected local geologist/hydrologist. With charts,

Continued on page 7

The WNRCD donated materials to build an 80-foot hoop house at the Oracle Community Learning Garden. Due to space constraints, the hoop house was built in two 40-foot sections. The OCLG used the hoop house to grow starter plants for the garden’s May plant sale. Photos courtesy OCLG

graphs and pictures he engaged nearly 100 people in this endeavor.

We hired Brad Lancaster, author of *Rainwater Harvesting*, to evaluate the site of the community garden and recommend techniques to preserve our scant rainfall. To follow up on his suggestions, Lincoln Perino, Senior Advisor for Watershed Management Group, facilitated two workshops designed to help us retain rainwater at the garden. Volunteers installed a 1,500-gallon tank that collects water from the roof of the bathroom at the community garden. The Earthworks Demonstration workshop at the community garden demonstrated what can be done to direct and collect rainwater.

Vermicomposting

Goal: Create worm composting system at OCLG.

Arizona Worm Farm is a successful vermicomposting enterprise located outside Phoenix, AZ. Clark Furlong facilitated a workshop in which participants learned about the principles of soil and compost microbiology. Zach Brooks, owner of the farm developed a vermicomposting business plan with us, developing a system that provides worms, worm castings and worm casting tea.

OCLG continues to find innovative ways to enhance and promote our community garden. The hoop houses will be a major resource in our ability to sustain our garden. We produced over 600 vegetable and herb plant starts, and more than half of the starts were pre-ordered within 2 days of our on-line sale. We will grow native plants for a WNRCD restoration project along the Gila River in Kearny, AZ.

Salt Cedar Mitigation

WNRCD secured a \$205,000 three-year grant from the Arizona Water Protection Fund to clear and replace invasive salt cedar in local river bottoms.

Stock Ponds Clean and Seal

The District is completing a three-year \$28,000 grant from Arizona Game and Fish department to clean and seal stock ponds. The upgraded ponds will provide a more dependable water supply for cattle and wildlife.

Natural Resource Issues

Dunn shared, "We just received word that we will be part of a major statewide grant along with our state organization (Association of Arizona Conservation Districts) to identify and come up with solutions to major (local) natural resource problems." The size of the grant is not yet known, but it is expected to be a multi-year project.

The WNRCD provides essential services and funds to support agriculture sustainability. It partners with our non-commercial food producers to help address food dessert issues such as the Oracle Community Learning Garden. It advocates with policy makers ensuring they possess awareness of the impact of their decisions on ranching. It aligns other agencies with food producers to assist with rebuilding after a natural disaster such as a fire. It seeks funds to help conserve our resources such as with the Tamarisk mitigation. Finally, they coordinate with our educators to share knowledge about native plants and sustainability.

If you want to volunteer and help build on this vision of sustainability, please reach out the WNRCD. Their information is below.

GRANTS & PROGRAMS

Continued from page 5

National Association of Conservation Districts Urban Agriculture Grant (\$50,000)

The WNRCD partnered with the Oracle Community Learning Garden (OCLG) to setup a demonstration hub with three goals: hoop house installation, community-wide vermicomposting system, and a water conservation system. The District doesn't have any plant nurseries and the nearest plant nurseries don't grow native plants suitable for our environment. In addition, there is a need with the WNRCD area for locally grown native plants that can be used to restoration. The OCLG has conducted several educational workshops, such as on water conservation practices, watersheds (where does water come from and where does it go) and pollinator habitat (how to restore a native habitat for bees, butterflies, hummingbirds & other pollinators).

Local Education Support

In addition to the WNRCD's conservation programs, the District's Education Center sponsored four primary school field trips and ten scholarships to Central Arizona College's (Aravaipa Campus) "College for Kids" two-week, summer program.

The address at which the claimant will accept future mailings from the court or attorney for the state. 3. The nature and extent of the claimant's interest in the property. 4. The date, the identity of the transferor and the circumstances of the claimant's acquisition of the interest in the property. 5. The specific provisions of A.R.S. Chapter 39, Title 13 relied on in asserting that the property is not subject to forfeiture. 6. All facts supporting each such assertion. 7. Any additional facts supporting the claimant's claim. 8. The precise relief sought. F. Copies of the claim shall be mailed to the seizing agency and to the attorney for the state. No extension of time for the filing of a claim may be granted. If no such claim is timely made, forfeiture of all interest in the seized property of any person who does not so claim will be applied. A person who has failed to timely file a proper claim will not be a party, will not be represented, and will not receive further notice of any proceeding. By law, no extension of time for the filing of a claim may be granted. The Complaint, when filed by the State, may be pursuant to A.R.S. § 13-4311, or it may seek relief under all of A.R.S. § 13-2314, particularly (C), (D), (E), and (F), as well as under A.R.S. §§ 13-4312, 13-4313, and 13-4314. The property was seized for forfeiture by peace officers of the Pinal County Attorney's Office and/or other Arizona law enforcement agencies. If you have not previously received notice of its seizure for forfeiture, this is also notice pursuant to A.R.S. § 13-4306(C). Owners, interest holders and/or claimants who have filed a valid claim may have remedies available pursuant to A.R.S. §§ 13-4301 et seq. In some circumstances, a person claiming a lawful interest may file, within fifteen (15) days of notice of seizure for forfeiture, an application under A.R.S. § 13-4310(B) to obtain a hearing on the provisional return of the property pending the outcome of a judicial proceeding on its forfeiture. If an application for such a hearing is filed, it, too, must comply with the requirements of A.R.S. § 13-4311(E) and (F), and must be filed in the Superior Court in Pinal County. Notice of the order to show cause hearing must be served upon the Attorney for the State at least five (5) working days before the hearing is held. Under A.R.S. § 13-4306(G), an owner of the property may obtain the release of seized property by posting with the Attorney for the State a surety bond or cash in an amount equal to the full fair market value of the property, as determined by the Attorney for the State. The State may refuse to release the property if: 1) the bond or cash tendered is not in an amount equal to the full fair market value of the property, or 2) the property is retained as contraband or as evidence; or 3) the property is particularly altered or designed for use in conduct giving rise to forfeiture. A.R.S. § 13-4306(G) (1)-(3). If you post bond or cash in lieu of the property, the bond or cash and not the property will be subject to forfeiture. If you wish to post a bond or cash in lieu of the property, you may contact the Attorney for the State. If no Notice of Pending Forfeiture is made within sixty (60) days after the seizure of the property for forfeiture, any owner or interest holder may request release of the property, pending further proceedings pursuant to the forfeiture statutes, to be commenced within seven (7) years after actual discovery by the State of the last act giving rise to forfeiture. The request should be addressed to the Attorney for the State and should show that the requestor is an owner or interest holder. If the Attorney for the State declines to authorize release of the property by the seizing agency, the request may be addressed to the Superior Court for the County of Pinal. Any attempt to hide, transfer, convey, or sell any interest in any property seized for forfeiture, or to deposit it with a third party, place it beyond the jurisdiction of the Court, diminish its value or commingle it with other property may result in forfeiture of other property of equal value. If the property is conveyed, alienated, encumbered, disposed of, received, removed from the jurisdiction of the Court, concealed, or otherwise rendered unavailable for forfeiture, these acts may constitute facilitation of money laundering and money laundering, for which you may be criminally liable. Additionally, you may be sued for the fair market value of the property together with reasonable investigative expenses and attorney's fees, in addition to other criminal and civil remedies for fraud. Copper Area News is committed to providing our readers with as much information as possible. We post a daily update on our Facebook page with the total positive COVID-19 Data. This graph shows the daily counts of positive cases for the past week as of press time on Sept. 1, 2020.

There are a few points we would like our readers to consider when following this data.

1. This will continue to be a rolling total of positive cases. It does not reflect recoveries or deaths. The Arizona Department of Health Services does not break out this data.
2. If you see a reduction in numbers from day to day it is most likely due to a data entry error or mis-coding of a zip code (at the state level).
3. This is all zip code based data; most of our zip codes include unincorporated areas. There is no way to track exactly which areas each of the positive cases are. Example, Kearny and Winkelman each have small communities in their zip code that are not in the Town's incorporated boundaries.
4. If you live in Gila County, please follow the Gila County Health and Emergency Management, Facebook. They have maintained their data on recoveries and current positive cases.
5. You can follow other data such as ICU bed use, Ventilator use and hospital capacity online: <https://bit.ly/3inh28O>

Working together, we can slow the spread of the virus across the Copper Corridor. Wear a mask in public, remain physically distant (6 feet apart or more), practice good hygiene (wash your hands frequently, sanitize high touch areas) and stay home if you are not feeling well.

Firefighters fully contain Basin Fire

A lightning-caused fire in the Aravaipa Canyon last week was quickly contained by firefighter crews, limiting the fire to 2,700 acres.

The Basin Fire, which was started by a lightning strike on the afternoon of Aug. 24, was located in Aravaipa Canyon approximately 12 miles northeast of Mammoth. Pinal Rural firefighters and wildland crews from the Bureau of Land Management and the U.S. Forest Service contained the vegetation fire in rugged terrain.

“As of Aug. 31, 2020 at 0700 hours, the fire has burned 2,700 acres and is 100 percent contained. No firefighters have been injured on this incident. The on scene crews completed their containment of the fire this weekend while battling excessive heat warnings and occasional monsoon storms,” said Chief Bobby Apodaca of Pinal Rural Fire District.

Apodaca asks residents to prepare now and be aware of the hazards that can threaten your community. “Register with your county/tribal emergency notification system. Connect with your Emergency Management/Sheriff’s Office on social media. Take steps now to prepare for seasonal threats. Make a family evacuation and communication plan that includes family phone numbers, out-of-town contacts and family meeting locations. Build an emergency go kit with enough food, water and necessary supplies for at least 72 hours,” he suggests.
