OBITUARIES

Judy E. Smith

Judy E. Smith died on Aug. 22, 2020 at the age of 63. Judy was preceded in death by her husband of 26 years, Paul Bryant Smith.

Born July 12, 1957 in Phoenix, Arizona, Judy spent her life as an Arizonan, growing up in Phoenix before attending the University of Arizona where she met her husband Paul. After marrying in 1981, Judy and Paul moved to Kearny, AZ. Judy and Paul had two children, Bryant and Carolyn. Together, Judy and Paul, farmed and founded a mining and construction company, Smithco Enterprises, Inc, which Judy continued to run after Paul's death.

Judy was a fierce friend and loving mother who was always willing to lend support and comfort during times of need and valued both the large and small moments with her friends. She spent 10 years courageously battling cancer, but she never hesitated to put her struggles aside to spend time with those she loved. Judy strove to enrich the lives of not only those around her, but her community.

In the wake of Paul's death, she established a foundation which provided meals to families facing cancer battles (PB&J with Love) and many grants to local charities. Facing her own cancer battles just three years after losing her husband, she approached breast cancer in much the same way she did life, with vigor and knowledge. After battling breast cancer she was diagnosed with Leukemia, only to have the breast cancer later return and spread. Judy was a fighter through and through and refused to let the cancer define her. Over the last 10 years, she saw both her children get married and became a beloved Grammy to four wonderful grandchildren. No matter how she felt after treatments, she mustered energy to play endless amounts of baseball, tea parties, bake cookies and go on "Grammy adventures."

Judy cherished her friends dearly and took great joy in

traveling to new countries and cities with her friends, getting to together for girls' weekends, walks around her neighborhood and even recently Zoom book club.

She lived a full life despite all her battles and there is no doubt that she made life fuller for all those she knew.

Judy is survived by her son, his wife, and their two children, her daughter and son-in-law and their children, her father and mother, and two siblings.

Judy was a loving and strong wife, mother and friend who will be missed by many.

CASA of Gila County urges community to volunteer

CASA of Gila County is urging community members to volunteer to become a caring, consistent adult for a child who has experienced abuse and/or neglect. Court Appointed Special Advocates (CASAs) are everyday people, trained by CASA of Arizona and appointed by a local juvenile judge to advocate for the safety of children who have been removed from their home.

The need for volunteers continues to grow as abuse and neglect are reported more frequently when children return to school.

As a child navigates the child welfare system, there are many adults that come in and out of their life. Children are often moved frequently throughout their time in foster care, which may lead to multiple foster parents, group home staff, teachers, therapists, etc. A CASA volunteer stays with a child throughout the length of the case being the consistent adult in their life.

“The more CASA volunteers our program has means less

children without an advocate by their side,” states CASA of Gila County Coordinator, Patti Dremler. “Currently only 1 in 25 children has a CASA volunteer in Gila County, with 149 children under the age of 18 waiting for someone like YOU!”

Studies show children with a CASA volunteer receive more services that are critical to their well-being than children without an advocate, and those children are more likely to achieve educational success.

Volunteers come in all shapes and sizes. No specific background or training is needed to become a CASA volunteer. Anyone 21 years of age or older, who can pass a thorough background check and complete 30 hours of free training, is encouraged to apply.

“Seventy-three percent of CASA volunteers in Gila County are female, so male volunteers are especially encouraged to apply.” Dremler reports.

Virtual training sessions are offered to all CASA

applicants in Arizona with multiple days and times to choose from that best fit the applicant’s schedule.

To learn more about becoming a CASA Volunteer, call us at 928-402-4427, email enader@courts.az.gov or visit our website at www.CASAofGilaCounty.org

High school fall sports season starts but will it finish?

By Andrew Luberda
Copper Area News

The Executive Board of the Arizona Interscholastic Association voted last Wednesday to endorse guidelines proposed by its Sports Medicine Advisory Committee (SMAC) for a safe return to sport and activity. As a result, the AIA fall sports season will continue as scheduled.

However, the question remains: Will it finish?

Football, the last fall sport to begin, started practice on Monday, with games scheduled to commence Sept. 30 – Oct. 2. The sport of golf has begun competition. Cross country, swimming & diving, badminton, fall soccer and volleyball have started practice and tryouts.

“I would like to say on behalf of the staff and the Sports Medicine Advisory Committee, especially for the sport of football, we would not have been able to make this decision until this time right now based on the metrics,” AIA Executive Director David Hines said in a statement. “So, the metrics have gotten to a place that we can start football practice. That we can start the heat acclimatization (guidelines). That we can get kids in a helmet and shoulder pads and begin doing work.”

Some teams across the state have already decided not to conduct a fall sports season, including Ray High School in Kearny, while others are still unsure if or when they will proceed. The AIA has stated “schools playing football will have the option of beginning practice on Labor Day, which is Sept. 7 with any date after that permissible.”

“Per our athletic director and superintendent, we’re going to push back the start of practice for two weeks,” Hayden football head coach John Estrada told Copper Area News. “The reason for pushing that back is because our area is still in the red per the health department. If things change in two weeks and we get put in the green, then I believe they’ll give us the ok to start practice. If things don’t change, I’m afraid our season may be cancelled.”

Superior High School returned to the practice field after suspending activities a few weeks ago.

“The SUSD school board voted last Wednesday, 5-0, for the return of high school fall sports,” Panthers football head coach Ryan Palmer said in an email

to Copper Area News. “Programs will be following the AIA guidelines and health metrics for a phased return to practice, and hopefully competition.

“I think that the guidelines, established by doctors and health officials, promote the safety of students, staff, and their families. Although nothing is ever guaranteed, I believe that by following the guidelines, we can return to sports safely. It will take a diligent effort from all involved, to make smart, safe choices, to successfully execute the season.”

Starting practice, especially in team sports where socially distancing is nearly impossible, including football, volleyball, and soccer, is a positive step. The proposed guidelines to continue toward game competition between teams remain a challenge.

The following county-specific benchmarks, as published on the Arizona Department of Health services (ADHS) website, allow for the start of practice:

1. Two weeks below 100 cases per 100,000 OR two-week decline in the number of new cases (not including current week).
2. Two weeks with percent positivity below 7% (not including current week).
3. Two weeks with hospital visits due to COVID-like illness below 10%.

The benchmarks to begin game competition must reach another phase, considering the SMAC guidelines assess the risk of COVID-19 spread in athletic sports settings. According to the 19-page document, the risk is expected to be increased during team-based practice, more risk within-team competition, even more risk when full competition between teams from the same local geographic area, and the highest risk during full competition between teams from different geographic areas.

Modifications previously released by the AIA that address such game logistics of eliminating postgame handshakes, equipment sanitizing, and more aim to reduce risks, however, they don’t affect the benchmarks defined by the ADHS nor the SMAC guidelines to begin game competition.

Currently, most communities are considered in the “Moderate Community Spread” category of the SMAC guidelines, which allows larger team sports and contact sports to consider non-contact team practice with cohorts at least six feet from other cohorts at practice and the following:

before and after each athlete

- No close contact drills between players
- No competitions
- All coaches and staff should wear masks at all times

For competition to commence between teams, communities must reach a level of “minimal community spread” defined as:

1. <10 cases/100,000
 2. <5% of COVID-19 PCR tests performed are positive
 3. <5% of hospital visits due to COVID-like illness
- If and when that level is reached, “all sports, with and without contact, may resume with usual

activity,” according to the SMAC guidelines.

Many throughout the state, including coaches, parents, and media wonder if that level is unattainable in the next four weeks or less. Soccer and volleyball are scheduled to begin game competition Sept. 16-21.

The AIA appears to believe that communities will reach the level required to see games under the Friday Night Lights and more.

“To say we are happy to be where we are now is an understatement,” Hines said. “The Board members really took their time to make sure that this could be done safely. We think

that it definitely can.

With the help of everyone at our member schools doing their part, we can absolutely make this a memorable season.”

No doubt, this fall sports season will be remembered but for what? We are about to find out.

Copper Area News is committed to providing our readers with as much information as possible. We post a daily update on our Facebook page with the total positive COVID-19 Data. This graph shows the daily counts of positive cases for the past week as of press time on Sept. 8, 2020.

There are a few points we would like our readers to consider when following this data.

1. This will continue to be a rolling total of positive cases. It does not reflect recoveries or deaths. The Arizona Department of Health Services does not break out this data.
2. If you see a reduction in numbers from day to day it is most likely due to a data entry error or mis-coding of a zip code (at the state level).
3. This is all zip code based data; most of our zip codes include unincorporated areas. There is no way to track exactly which areas each of the positive cases are. Example, Kearny and Winkelman each have small communities in their zip code that are not in the Town's incorporated boundaries.
4. If you live in Gila County, please follow the Gila County Health and Emergency Management, Facebook. They have maintained their data on recoveries and current positive cases.
5. You can follow other data such as ICU bed use, Ventilator use and hospital capacity online: <https://bit.ly/3inh280>

Working together, we can slow the spread of the virus across the Copper Corridor. Wear a mask in public, remain physically distant (6 feet apart or more), practice good hygiene (wash your hands frequently, sanitize high touch areas) and stay home if you are not feeling well.

Pinal Rural Fire Districts receives grant for COVID-19 emergency response assistance

On Sept. 4, 2020, Pinal Rural Fire District received a grant of almost \$1,800 from the Arizona Emergency Medical Association to purchase personal protective equipment (PPE) and other needed COVID-19 supplies.

"We are a small, volunteer fire district. This grant will help greatly as we work to keep our firefighters safe while we provide emergency medical services to the residents and guests," said Bobby Apodaca, Fire Chief.

The best way to prevent illness is to avoid being exposed. The virus is thought to spread mainly from person-to-person between people who are in close contact with one another (within 6 feet). This occurs through respiratory droplets produced when an infected person coughs or sneezes.

There are effective ways to practice physical distancing and reduce the risk to yourself and the people you care about.

For more information contact the Pinal Rural Fire District at 520-465-5300 or the Arizona Department of Health Services at <https://azdhs.gov/index.php>.
